THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, *The Duke of Argyll*, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *of no name if not among them*; embracing the Choicest Period and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, condensing a great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication. Embracing, as it does, Judicious Articles, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE combination of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Saturday Chronicle, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Inl delphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through comprehension of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for any family or the same price."—*Christian Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 *a year, free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the ch le situation.*"—*Phila. Evening Bulletin.*

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

THURSDAY, JANUARY 1, 1880.

THE NEW YEAR.

Well, here we are! That once far off date, 1880, has at last arrived. How many happy new years have come and passed, to make it possible to reach this new one. The retrospection shows that the year that has just closed bears a brighter aspect than any one since the year 1873, which brought with it the last financial panic; and there is a better prospect that the good wishes of our friends for a happy year may be realized in the prosperity of all classes during the present twelvemonth.

Let us hope that the list of bankrupts may be much smaller in the future; that the lessons of the disease past, on the evils of over-trading, over-manufacturing, over-spending, over-crediting, and in general living too fast, may live in our memory so perspicuously as to prove a balance-wheel that shall, at least for a time, restrain the mad rush for suddenly gained wealth through dangerous speculation, which is not only the sure destroyer of all regular, legitimate business, but the producer of distress among the largest number of our citizens, who depend upon a regular demand for their labor to enable them to support their families.

Let prudence be our watchword, honesty our aim; and above all let us remember that there is no other one thing that so depresses life and renders existence a burden as to run into debt. The man who lives upon a salt fish and a potato daily, and lays up ever so small a surplus of his earnings "for a rainy day," is far happier than he who lives luxuriantly, to find himself at the end of the year hampered with debts which he is unable to pay. There is no surer source of demoralization than the prevalence of lax views in this matter of economy. It is far too much the fashion to sneer at the excellent old maxims of Benjamin Franklin on the subject of personal economy; but after all they are the best maxims, if followed, to keep a healthy state of morals, and in the end to produce the most satisfaction and happiness to the greatest number in any community.

New Hampshire Press Association.

The annual meeting of this association will be holden at the Phœnix hotel, Concord, on Monday, Jan. 19th, at eleven o'clock A. M. As important business will be transacted, it is desired that every newspaper in the State should be represented. Any who are not members and are desirous of joining, will please send their names to J. D. P. Wingate, Exeter, previous to the meeting.

News and Notes.

Gov. Van Zandt of Rhode Island thinks he cannot afford to be Minister to Russia, and the office awaits an incumbent; the people of Rhode Island will continue to be favored with the presence of their jocose governor, who is nearly as well known for his funny sayings as is Harry Bloodgood. We must pay higher salaries to our foreign ministers, or else we can send none but wealthy men abroad as our diplomats.

George Jones, better known as "George, the Count Joannes," died in New York on the 30th ult. He was born in London, England, in 1806; and as an actor, a lecturer, an author, a journalist, and finally a lawyer, he had qualifications which would have enabled him to make a good reputation in either vocation had he devoted himself steadily to any one, and endeavored by faithfulness to his calling to find justification for his self-admiration in the general esteem that he might probably have won. His over-estimate of his own importance rendered him ridiculous, and prevented his receiving the recognition which he often really deserved.

The total loss by the Franklin street fire in Boston, on the night of the 28th ult., is set at $800,000.

George Noyes of St. Johnsbury, Vt., aged twenty-one years, died on the 30th ult., from the effects of chloroform, administered by a dentist for the purpose of causing less pain while extracting teeth.

There are eight post-offices within the limits of Falmouth, Mass.

Mrs. Henry A. Smith, of Hartford, Conn., was drowned on the 30th ult., in an attempt to save the life of her six-year-old son, who had broken through the ice, and was also drowned. A boy eleven years old was drowned in Boston on the same day by breaking through thin ice.

While the king of Spain and his young bride were riding on the 30th ult., a workman fired a shot from a revolver at the royal carriage, but nobody was hurt. He was arrested, and confessed.

The trial of John B. Buzzell for the murder of an infant in Malden, Mass., on May 17th last, was begun in the supreme court at East Cambridge, the 30th ult.

The body of Capt. Swain of the wrecked schooner M. & C. Henderson has been washed ashore at Kitty Hawk, N. C., too much decomposed for the discovery of any marks of violence. Annetta, Pellona and Lopez, suspected of having murdered Capt. Swain and his two mates, are still in jail at Baltimore, waiting further developments.

We invite special attention to the advertisement of the Orange Judd Co. The subject of fascinating interests every farmer and land owner, and much valuable information on this and many other subjects, with about 900 engravings, are to be given in the 39th volume of the *American Agriculturist*. See what the publishers offer.

New Hampshire Items.

At Littleton, on the 31st ult., the thermometer stood at twenty degrees below zero; at Bethlehem, eighteen below; at Lancaster, twenty-four below; at Franconia, fourteen below.

The semi-annual meeting of the Grand Masonic Lodge of New Hampshire was in session at Manchester on the 30th ult., with a very large attendance.

The assets of the New Hampshire fire insurance company amount to $638,000; capital $250,000. The company lost nothing by the recent big fire in Boston.

The commissioners appointed by the governor to investigate the cattle disease which has broken out in Haverhill, having made a thorough examination, are unanimous in the opinion that the sickness is not pleuro-pneumonia, but that it was induced by local causes and is not epidemic in its character. Five animals have died, all belonging to Jos. Merrill, in whose herd the disease first appeared. The excitement which for a time prevailed in that section has been considerably allayed by the result of the investigation.

—In Sweden it is not the custom at hotels to welcome the guests, or to pay any attention to them; the landlord fairly ignores them. That about averages the thing up with us; in this country the guests pay no attention to the landlord.

In vain the eyes are filled with light:
In vain the cheek with beauty glows,
Unless the teeth are pure and white,
Unless the breath is like the rose;
And SOZODONT alone supplies
These beauties that we all so prize.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. tthf

This will Pay You 5 TIMES

Over and More, especially if you have a FARM or Village LOT, requiring

$2,000,000,000

(Two Thousand Million Dollars) were expended in FENCING. To fence our new Western fields will cost as much more. Every FARM and Village LOT Owner, EAST, WEST, and SOUTH, is interested. To fence a 20-acre Farm costs $200 to $700, and for a 20x100 Village Lot $45 to $100. Wood fences soon decay. But a New Era is at hand. By new inventions, STEEL and IRON are to supplant WOOD, furnishing better, Cheaper, and Lighter fences.

The 39th Volume of the American Agriculturist (for 1880) now beginning, will give very much information about new Fencing, with many Engravings. The Agriculturist for Dec. begins it, engravings of Ribbed Fencing, and much interesting matter. Sent post-paid for 15 cents.)

☞ To copy any interesting FENCING for a FARM, or Village LOT, the 39th Volume of the *American Agriculturist* will be worth five times, if not a hundred times, its small cost.

BUT, besides the above important feature, the *American Agriculturist* will give a very great amount of Useful, Practical, Reliable Information—for the Farm, the Garden, and Household (Children included)—and over

800 Original Engravings,

illustrating *Labor-saving Labor-helping* contrivances, Animals, Plants, Fruits and Flowers, Farm Buildings, and many other Pictures instructive and pleasing to Old and Young.—It is useful to ALL in

City, Village, and Country.

Its constant exposures of HUMBUGS, which have saved to its readers many Millions of Dollars, will be continued vigorously. For these alone the *American Agriculturist* should be in *every family*, no matter how many other journals are taken; also for its *Special Information* and its multitude of pleasing and useful Engravings in which it *far excels all other similar Journals.*

TERMS (postage prepaid).—$1.50 a year. Four copies, $5. Single numbers, 15 cents. (One specimen only, for two 3-cent stamps.)

☞ Over 1200 Valuable Premium Articles and Books are offered to those getting up clubs. Premium List sent on receipt of 3 cents postage.

THE
New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or cleared by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

The Promoter and Perfector of Assimilation.
The Reformer and Vitalizer of the Blood
The Producer and Invigorator of Nerve and Muscle.
The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

AROUND HOME.

Mr. H. H. Ham, Jr., had his ice-boat out on the north pond, on the last day of the old year, but there was not wind enough for a good sail.

We are informed that Elder A. A. Waite, the evangelist, is to be appointed pastor of the Washington street Methodist church at Newburyport.

The usual semi-annual dividend on the Portland, Saco & Portsmouth railroad company's stock will be paid on the 15th inst., at the office of the treasurer of the Eastern railroad, in Boston.

The schooner Active, of this port, previously reported ashore on the southwest ledge in Hyannis harbor, was hauled off on the morning of the 20th ult., by steamtug Hunter, and safely anchored.

At two o'clock on the afternoon of Tuesday, the 30th ult., the thermometer registered forty-one degrees above zero; Wednesday morning at two o'clock it stood at six above, and at sunrise was just at zero—a fall of forty-one degrees in sixteen hours.

The first installation of officers in the new Odd Fellows' hall will take place Friday evening, when the officers of Mt. Sinai Encampment, No. 19, will be installed. The first lodge to install in the new quarters will be Piscataqua Lodge, No. 6, whose officers for the ensuing year will be installed early next week.

The dinner to the poor children of the city who are not connected with any Sunday school or church, will come off in Bow mission hall this afternoon at two o'clock. Gifts of food for the dinner may be sent to the hall any time this forenoon—the earlier the better; a committee will be there to receive whatever may be sent in. Donations of money in aid of the object may be handed to Mr. D. H. Montgomery, at his music store.

The Dover *Press* gives a very full report of the proceedings of the Strafford District Medical Association meeting held in that city recently, in which it says: "Dr. Whittier of Portsmouth read a carefully prepared paper, taking for his subject 'Typhoid Fever.' He elucidated his subject in a distinct and scientific manner, setting forth clearly the true theory of the disease, its causes and treatment. It was a well written paper, evincing much thought and a thorough knowledge of his subject. We regret that we cannot give a full report of his thesis, as it was full of valuable information."

Complaint is made in some quarters that the soliciting committee were not very thorough in their canvass of the city to raise funds for the establishing of a shoe factory in Portsmouth, one gentlemen saying that he knew of several storekeepers who were willing to subscribe, and expected to, if called on, who were not so licited; it is also said that no one knew where to find the subscription book, as no annoucement, either public or otherwise, was made of such a place. Per contra, one member of the committee says that a most thorough canvass was made, and but one person outside of the committee found who was willing to, or did subscribe, for a single share; and as to traders of Portsmouth, who would be more benefited than other people by the factory, were not willing to aid in the matter, it was allowed to fall through.

STREETS IN PORTSMOUTH SIXTY YEARS AGO.

In a recent number of a leading newspaper of Boston, was an article upon the names of streets, which informed us that "the owners of estates and business men on a part of a street are pressing for a change of name of that part of the street, on the ground that their business and estates are injured by the disreputable character of the other part of the street. The first impulse of any citizen, who has no private interest at stake, is to protest against any such change, and especially for the reason named. That circumstances may arise rendering a change in the name of a street desirable or expedient is obvious, but such cases are very rare, and changes in the established names of streets should never be made except from well-ascertained necessity." The article referred to further said:

An American in London feels himself at home as it were, for he finds there the streets with the names they have borne for centuries—names which he has known and become familiar with in all his reading from Shakespeare to Dickens. Let a Bostonian, on the other hand, remain away for half a dozen years, and the chances are that on his return, if he is guided by or is dependent on the names of the streets, he will be obliged to ask the way to his own house. It may be safely asserted that there are not within the old limits of Boston more than a dozen important streets which retain the names by which they were originally known; and the names of many have been changed three or four times. Not many years since a man died in the same house in which he was born and had always lived, and who had lived on *seven* different streets.

We have before us a copy of the *Portsmouth Directory* of 1821, which purports to contain "names of the inhabitants, their occupations, places of business and dwelling houses, with lists of the streets, lanes and wharves, the town officers, public offices, banks, and other useful information." It was published by Wilder Penhallow, and printed by Robert Foster, who had an office in March's building in Daniel street. [We think this an error, as March's buildings were on State street.]

Of the streets of sixty years ago a few remain as originally designated; but very many have been since, and in some instances unmeaningly, changed.

In an old city it is a beautiful feature to see preserved the old names; but some wise selectmen, forty years ago, felt that modern appellations were better than the good old designations. Of these changes, Anthony street has given place to Union street; Akerman and Massey to Summer; Ann street, originally from Water to Mechanic, through "the arch," (some years since removed,) became Gardner street, and then the name "Ann" was given the street now Langdon. Ark street, where the old custom house stood, is now Penhallow, the original Penhallow street extending only from Bow to Daniel street. Ark street formerly extended from Daniel to State streets.

Atkinson and Bow streets retain their names; Bartlett street ran from Islington road to the creek, as the north mill-pond was called. Broad street was that part of the present State street from what is now Pleasant street, at the post-office, to Massey street, at the corner of which lived Jeremiah Mason. Court street then, as the court-house stood on the "Parade," was what is now part of Pleasant, then extending as far as State street from the Parade. Cabot street extended from Middle road to the land of John Haven, who owned a field above Mason's hill.

Of the lanes whose names have been superceded there was Cotter's, leading from Pleasant street (which began at the then Court street) to the south millpond; Cold lane, from Washington street to Pleasant; Church, now Church street; Churchill lane, Dock, Dearborn, Drown's Hunking, Holmes, Janvrin, Long, Mark, Mast, Peirce's, Parker's, Pickering's, Pray's, School, (Christian Shore,) Tanner's, Walker's, Walden's, and others which have become streets, as we have risen in our estimation of their importance.

Daniel street preserves its ancient designation, as does Deer street; Dennett street has been extended. Fleet street was from Congress to Jaffrey (now Court) street. Fore street from Market, at Bow street, to Rindge's wharf, now Concord railroad wharves. Then we copied London, and had "Fetter lane," running from Middle street to what is now Chestnut street, where it met Prison lane, afterwards Prison street. Many streets and lanes are omitted in the list, for this book was a new thing in Portsmouth, and omissions were of course likely to be discovered after its compilation. George street was from Libbey street to Middle road. Gravesend, called "Grave's end," from Water to Mechanic street, near the river. Horse lane was from Pitt street, now the lower part of Court street, to Puddle lane, the latter being between Water and Atkinson street. Islington road, (may it never be changed!) then as now extended from Congress street to the Plains. Jefferson street has been spared, but Joshua street gave place to Auburn, possibly because it led to a cemetery (some one wanted to copy a Boston notion,) and subsequently from patriotic reasons was changed to Richards avenue. Livermore street was afterwards called Livermore place, but subsequently regained its name of street. Langdon street, sixty years ago, led from Cross (now Hanover, which then terminated at Bridge street) to the millpond. Austin street extended only as far from Middle as what is now Summer; then it was Rundlett street, which continued from Akerman street to Cabot.

Then we had Mason's street, (from Congress,) an extension of Fleet street to Cross, now Hanover. We think that it was not originally named Mason for the governor of Newfoundland, who with Gorges commenced a settlement here, but was so called in honor of the Free Masons, whose hall in Boardman's building extended to this street.

Ann street was at one time Rock street, a name applied subsequently to the street next eastward from the jail. Brewster street was opened as far as Sudbury street in 1833, as "Rock pasture" came to be occupied for residences.

Methodist lane on Vaughan street has nearly gone out of remembrance. It was here the Methodists worshipped, in the church purchased of the Universalists, and afterwards known as the Cameneum, of which we gave an account recently, and is the lane just below Congress street and the American house, once the residence of Judge Pickering.

Rosemary lane, from State to Daniel street, gave place to the less pleasing title of Mulberry street. Short street was absorbed by the extension of Vaughan street to the north mill; while Windmill lane, leading from Russell street to Bachelder's lane, is now Green street, and no remembrance of the locality is preserved by a name. Pitt street, from Water to Court street, was a celebrated street, but the name was lost when the new Court street, from Haymarket square to Commercial wharf, was established. In those days there were more than sixty wharves. Most of these wharves were designated by the names of their owners, but now nearly all of those in existence have new designations.

One of the streets laid out as early as 1822, was the one leading from the westerly end of what is now Summer street, now called Miller avenue, which then was laid out though the land of the late James Rundlett, and Mrs. Elizabeth Langdon Elwyn's land, to South road, but was not opened for public use until a comparatively recent period, Joshua street being the avenue by which the travel to and from the South road was accommodated. Pearl street, leading from Islington street to the north mill pond, was accepted in 1844; it previously had been a part of the extensive garden of the Adams estate, the house standing on the present site of the steam-factory.

The changes in the names of streets were the result of a vote of the town at the town meeting in March, 1838, when a committee consisting of Robt. Lefavour, John Smith, Chas. W. Cutter, John Christie and Thomas D. Bailey were appointed to look into the subject of change of names of some of the streets, and the discontinuance of others. The committee reported, and the result was that the town adopted most of their suggestions, and by vote of the selectmen many of the names so long used in the annals of Portsmouth were dropped from the list of streets. By a vote on the 19th of December, 1838, the Parade became Market square; Paradise street was discontinued, and Water street extended over its route. The old names of Fetter lane and Pond street were replaced by Warren street; Prison street became Chestnut; Massey and Akerman streets were made "glorious Summer;" Maudlin street took the benevolent name of Howard, and Dock street the patriotic substitute of Hancock. Liberty gave place to Charles street, Peirce's lane to Manning street; Cold lane was made more comfortable in the designation of Richmond street. Spring street was discontinued, and Parker street extended from Islington street at a right angle around to Bridge street,—but that part of it has since become Adams street. Short and Mill streets were engulphed in the Vaughan street extension to North street; while the sweet-sounding name, Rosemary street, was sent to oblivion by the extension of Chapel street. We are thankful that the recommendation that Islington road be discontinued and the name Congress street be applied to the avenue leading to the Plains, was not adopted, and that the fine name was spared to us.

It will be seen that in some instances it is difficult work, in hunting up old places of the town, to trace the former names of streets. Decus have been made with descriptions of estates bounded on streets now unknown, except in history. We lose old names, rich in significance, and copy new and meaningless ones from modern places. We are proud of our historic importance, and yet belittle it. It may be that State street is more agreeable than Buck street, but Broad street is noble in designation. In London, streets are not lengthened by abolishing names of continuous ways; but each preserves, throughout all the changes of time, its early appellation. It ought to be so in all places which can boast of any considerable age in their existence.

Let us hope that there will be no new attempts at modern appellations of streets, except to commemorate the remembrance of distinguished local personages in the past, for which we seem to have cared but little. We have now no Mason street, none named for Webster, our former townsman, none for President Weare. To some extent we have remembered in the past our prominent men; such names as Wentworth, Manning, Gardner, Woodbury, Bartlett, Austin, Penhallow, Ladd, Parker, Lafayette, Adams, Madison, Jackson, Jefferson, Franklin, Livermore, Hancock, Washington, Atkinson and others, to be sure are preserved; but too often the new names of streets are not sufficiently carefully selected to be preserved as historic mementoes of early days.

YORK COUNTY ITEMS.

Miss Sara O. Jewett of South Berwick, the author of "Deephaven," is not only a successful writer, but the Boston correspondent of the Hartford *Courant* credits the clever young lady with "real beauty."—*Exchange.*

In our item regarding the gathering of sea moss at Scituate, Mass., and Kittery, Me., the types made us place the value of the yearly gathering at the former place at $4000; it should have read $40,000.

Capt. Horatio B. Trefethen, of Kittery, on the 30th ult. purchased at Portland, Me., a steamer fifty feet long and of seventeen feet beam, which he will at once put on the river as a ferryboat between this city and Kittery. She will carry one hundred and sixty passengers.

A Kittery gentleman says that the man that was burned in the Eastern d pot answers exactly to the description of a man that came into a house in Kittery a short time ago, and drove the folks out of the house. The man of the house, who was away at the time, came home a few minutes after this happened, and as he went to enter the house the crazy man came at him with a stick and made it pretty lively for a few minutes, but he succeeded in getting the crazy man down, and tied him hand and foot without help. He was taken before a justice and sent to Alfred jail. A short time before the tragedy at Saco, this man escaped from the jail and has not been heard from since. All who saw him say he answers exactly to the description given of the man who perished in the flames at Saco.—*Biddeford Times.*

Facts About Drinking.

Americans take high rank among the people of the world as coffee-drinkers. Recent statistics place the amount of coffee used per capita each year in different parts of Europe as follows: Russia, 1-5 of a pound; Great Britain and Italy, 1 pound; Austrian-Hungary, 1 1-2 pounds; France, 2 3-5 pounds; Germany, 4 1-2 pounds; Denmark, 4 pounds; Switzerland, 6 3-4 pounds; Holland, 7 pounds; and Belgium nearly 9 pounds. The consumption of genuine coffee in the United States during 1878 was about 7 pounds for each man, women and child, or about five times as large an amount of coffee as of tea. The consumption of bogus "coffee" also amounted to one or two pounds per capita. The use of coffee throughout the world has increased in large ratio during the last forty years, and at the present requirement for all nations is estimated at 850,000,000 pounds per annum, against 420,000,000 per annum from 1840 to 1850.

An increased use of coffee does not necessarily mean a decreased consumption of other beverages. As will be seen by the statistics given above the Germans, who are particularly distinguished as beer drinkers, are also prominent coffee drinkers, and the French, who are somewhat noted wine bibblers, also drink considerable coffee.

The champion beer drinkers of the world are undoubtedly the people of Bavaria, who drink 147 1-4 gallons of beer per head, for which they pay $13.50. The total outlay in Bavaria for this beverage is more than $65,000,000 per annum. The figures given for the two principal cities of Bavaria, Nuremberg and Munich—and for Ingolstadt are still larger per capita. The former city has a population of about 90,000 and consumes annually about 212 gallons for each inhabitant. This is an average expense to each person of about $19; total about $1,000,000. The population of Munich is about 175,000; the beer drank per person annually is about 248 gallons; this is an average expense of about $12.30. Total about $3,900,000. Ingolstadt, with a population of only about 15,000, expends annually for its favorite drink about $715,000. This is an average to each inhabitant of about $47.60, with an average consumption of about 528 gallons.

—"A Wisconsin man has expectorated an umbrella tip he swallowed in 1874,"—or so an exchange tells. This proves conclusively that even swallowing an umbrella won't keep it in the family.

A Lady's Wish.

"Oh, how I do wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so, answered the friend. "How?" inquired the first lady. "By using Hop Bitters, that makes pure rich blood and blooming health. It will do it for me, as you observe. Read of it.—*Cairo Bulletin.*"

HOSTETTER'S
CELEBRATED

STOMACH
BITTERS

The Stomach is Strengthened.

The liver regulated, the bowels put in proper order, the blood enriched and purified, and the nervous system restored tranquil and vigorous by this inestimable family medicine and safeguard against disease, which is, moreover, a most agreeable and effective appetizer, and a cordial peculiarly adapted to the wants of the aged and infirm.

For sale by all Druggists and Dealers generally.

KIDNEY-WORT
THE ONLY MEDICINE
That Acts at the Same Time on
THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow.

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine, or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these destroying evils will be banished; neglect them and you will be laid up in a few days. Thousands have tested it. Try it and you will add one more to the number. Take it and health will come to you at once and your health.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so fearful because of disordered urine?

Kidney-Wort will cure you. Try a package at once and be satisfied.

It is a dry vegetable compound and

One Package makes six quarts of Medicine.

Your Druggist has it, or will get it for you. Insist upon having it. Price, $1.00.

[ESTABLISHED 1853.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fee in making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to interference cases before the Patent Office. Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to inventions or patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,300,000 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government, of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase a new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled, THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted vitality, premature decay, nervous debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is the standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than double any prospectus of the forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. I. P. INGRAHAM, vice-president; W. PAINE, M. D.; C. S. GAUN, T. M. D.; H. H. DOUCET, M. D.; E. R. KLINE, M. D.; J. E. HOLCOMB, M. Hard or Soft Coal or Wood
—HAVING THE—

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,
Etc., can be seen at the old stand of

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPSICUM PLASTERS to see that the word CAPSICUM on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good. Bear in mind that the only objections such vendors have is the fact that they can buy imitations at half the price of the genuine and they hope to palm a substitute to gain a small additional profit.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or be tested the breaking up of the constitution the starve. The sense of sight, of taste, of sight, of hea ng, the human voice, the mind, one or more and som times all yield to its destructive influence. The poison tributes throughout the system attacks every vit ores, and breaks up the most robust of constitution proved because but little understood by most phys ians, impotently assailed by quacks and charlatans. Now suffering from it have little hope to be relieve if it this side of the grave. It is time, then, that th popular treatment of this terrible disease by remedi within the reach of all passed into hands at once con stent and trustworthy. The new and hitherto untri method adopted by Dr. Sanford in the preparation his RADICAL CURE has won my hearty approval. I b ave it likely to succeed when all the usual remedi ail, because it strikes at the root of the disease, vi ze. ooded because bad blood, while it heals the ulcerated me rans by direct application to the nasal passages. Too Many Governors for Him.

The Commercial Travellers' Association of Canada had their annual dinner at the Windham hotel in Montreal recently, and among the invited guests was Col. O. P. Patten of Kingston, in this State, who followed the United States consul-general in a speech responsive to the toast, "the President of the United States." A full report of Col. Patten's speech occupies a half column in the Montreal *Gazette*, and if it was delivered as happily as its report would indicate we have no fear that the Yankee oratory was inferior to the Dominion eloquence on that occasion.

Speaking of the Dominion, reminds us of the little incident which occurred when the governors' brigade made their excursion last fall from Manchester to Canada. Four of the ex-governors of the State, living at Manchester,—and we are told it was not much of a day for ex-governors, either,—started with Gov. Head and several governors in expectancy, for a trip to Canada. A supper was ordered by wire *en route*, and in the dispatch something was intimated as to the gubernatural character of the party. The landlord to whom it was addressed had never heard of the prolific character of Manchester as the nursery for chief magistrates, and refused to believe that so many ex-governors as was stated could be gathered in one party; and regarding the despatch as a sell, refused to get up the repast. Governors, like other men, in travelling are apt to become sharp-set in the matter of appetite, and great was the disappointment of the Ex's to learn that the Canadian publican had so dull an appreciation of the numbers of those who have served the State and can be mustered into this kind of service at the sound of the bugle upon the banks of the Merrimack.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

A person known for the past twenty-five years as Charles Parkhurst, who has led the life of a stage-driver and farmer during that time in California, died on the 28th ult. near Watsonville, when it became known for the first time that the deceased was a woman.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

Mr. Williamson, youngest son of Paschal P. Williamson of Pomfret, Conn., fell some 250 feet from the steeple of a church he was slating in Chicago, a few days ago, and was instantly killed. His remains were brought home for burial.

The man who heeds not the warning of pain or suffering, which always precedes maladies, often becomes, through indolence, the victim of incurable disease. Lassitude, Wearness, Sadness, Aching of the Limbs, indicate nervous disarrangement, the forerunner of many organic and functional diseases. The early employment of Fellows' Hypophosphites will effectually ward off such maladies.

The late cashier of the Uncas national bank at Norwich, Conn., has been arrested, charged with embezzling $35,000.

Statistics show that more people die of consumption than from any other cause. Slight colds are the true seeds of consumption. Beware of the slightest cough. Adamson's Botanic Balsam stands without a peer. Trial size, only 10 cts.

A Newburyport preacher, on a recent Sunday, in his sermon said that if a person should hold out wisdom in one hand and a bag of gold in the other, the people of that city would vote for the latter by an overwhelming majority.

Just What is Needed for Females.

We have seen specimens of Sambuci Wine, prepared by Mr. Alfred Speer, of Passaic, N. J. It is pure without heating qualities, being absolutely free from spirits further than its own fermentation affords. Great preference is given to it in New York and other hospitals as a tonic, gentle stimulant, diuretic and sedative and especially prescribed for females, old weakly persons, kidney complaint and rheumatism. Mr. Speer has been years experimenting in the production of this wine, and the newest wine he sells is four years old.—N. Y. *Tribune.*—For people that are old and worn out and need a strengthening wine, the above is the best that can be had.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

FRIDAY, JANUARY 2, 1880.

State Agricultural Society.

The annual meeting of the State Agricultural society was held Wednesday forenoon, Dec. 31st, at city hall, Manchester, Hon. Warren Brown of Hampton Falls, president of the association, presiding. The following officers were elected for the ensuing year: President, Warren Brown; secretary, Aaron Young, Portsmouth; treasurer, Col. George W. Riddle of Manchester; directors, Warren F. Daniell of Franklin, Peter W. Jones of Amherst, Natt Hubbard of Tamworth, T. G. Jameson of Great Falls, Frank A. Christie of Dover, Chester Pike of Canaan, R. I. Coe of Centre Harbor, Stephen Holt of Epping, Nathan R. Perkins of Jefferson, Moses D. Page of Dover. The receipts of the last State fair were $7,536.77; expenses, $6,753.95. There are a few small bills outstanding, but after paying everything there will be a handsome surplus in the treasury.

National Republican Convention.

At Washington, D. C., on the 31st ult., Chairman Cameron of the national republican committee issued the following call:

"A national convention of the republican party will meet at Chicago on Wednesday, June 2d, next, at twelve o'clock, noon, for the nomination of candidates to be supported for President and Vice President at the next election. Republicans and all who will co-operate with them in supporting the nominees of the party are invited to choose two delegates from each congressional district, four at large from each State, two from each Territory and two from the District of Columbia to represent them in the convention.

Naval Affairs.

The gunboat Nipsic sailed from Norfolk, Va., on the 30th ult., for Venezuela. The despatch boat Tallapoosa left Washington on the same date on a trip to New York and Boston.

The United States ship Ranger, for which some anxiety has been felt at San Francisco, when a few days out from Yokohama, Japan, met with a heavy cyclone, lost all her boats, and was badly damaged aft. She has put into Honolulu for repairs. Paymaster Brown of this city is one of the officers of the Ranger.

The Maine Business.

Garcelon has submitted a list of twelve questions to the supreme court of Maine—but not the questions propounded by Mr. Morrill. The latter were explicit, and would have brought all the disputed points directly before the court; Garcelon's questions presuppose irregularity in every case where the fusionists wanted to find it, are of the most general application, and the answers—no matter what they may be—cannot touch the particular cases.

News and Notes.

Hon. George Smith Houston, United States senator from Alabama, died at his home in that State on the 31st ult., at the age of sixty-eight years. He was a member of Congress from 1851 to 1861, resigning that position in the latter year to "go with his State" in rebellion. In 1865 he was elected to the national Senate, but was refused admission; in 1867 he was elected governor of Alabama; and on March 18th, 1869, took a seat in the Senate as successor to George E. Spencer.

Mr. George Canning Hill on New Year's day retired from the position o editor-in-chief of the Boston *Post*, with which paper he has been for fifteen years connected.

John E. Ryan, a boy fifteen years old, fatally shot his sister, eight years old, with a pistol, at Chicago on the 30th ult. He has been arrested, though he and his mother say the shooting was accidental.

J. R. Woodward, of Burlington, Iowa, on the afternoon of the 31st ult. shot dead his brother-in-law, E. M. Price, and then blew his own brains out, in a barber shop.

An Indian cannibal, Swift Runner, was executed at Fort Saskatchewan, Manitoba, on the 20th ult., being the first legal execution in the Northwest territory. He was convicted on his own confession of having killed and eaten his mother, wife and seven children during the last winter.

At Massillon, Ohio, a few days ago, Judge Meyer overruled the motion for a new trial, and sentenced Gustave Ohr and George Mann to be hanged May 7th. They are boys seventeen years old, who were convicted of the murder of John Wattmaugh of Philadelphia in August last, near Alliance, Ohio.

The mystery surrounding the death of Arthur and Horace Beard, two Andover, Mass., boys, who were burned in their bed on the night of November 18th, is to be thoroughly investigated. The boys were found lying as though quietly asleep with not the slightest sign of having suffered pain, and analyses of their stomachs show nothing wrong there. But three separate fires were found started in the building, whose origin cannot be explained.

The school committee of Lowell, Mass., have abolished the Carney medals for meritorious high-school graduates, as they stimulate over-exertion, require disagreeable discrimination on the part of the teachers, and cause jealousies and ill-feeling generally.

Mr. Charles Jackson, of Grafton, Mass., upon arriving home from work at six o'clock Wednesday afternoon, the 31st ult., found his wife dead upon the floor. Heart disease is supposed to have been the cause of her death. There was no one in the house at the time.

Roxana Brigham, a maiden lady of about eighty years, belonging to one of the old families of Marlboro, Mass., is starving herself to death from an insane notion that the Lord does not want her to eat any more. For six days no food has passed her lips, and all the efforts of physician and friends to change her mind prove unavailing.

The editor of the Cincinnati *Gazette* was arrested on the 31st ult., on a warrant sworn out by the chief of police, charging criminal libel.

A sixty-ton fly-wheel at the Rensselaer iron works burst asunder from centrifugal force, a few days ago, and a piece weighing four tons was thrown through the roof to a height of one hundred and fifty feet, and in its descent crashed through a building and buried itself in the cellar. Although two hundred men were at work in the immediate vicinity, only two persons were hurt. The pecuniary loss was about $10,000.

—It has been noticed that the man who slops over most has the least in him.

—A drummer for a New York house called upon a merchant and handed him a picture of his betrothed instead of his business card, saying he represented that establishment. The merchant examined it carefully, remarked that it was a fine establishment, and returned it to the astonished man, with a hope that he would soon be admitted into partnership. The last seen of the drummer and merchant they were talking about the outrage in Maine.

In vain the eyes are filled with light:
In vain the cheek with beauty glows,
Unless the teeth are pure and white,
Unless the breath is like the rose;
And SOZODONT alone supplies
These beauties that we all so prize.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. t,th&f

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

AROUND HOME.

The Pullman train from the eastward, Thursday morning, was two hours late on its arrival in this city, having been delayed by the snow on the track.

If any person on Thursday inadvertently removed a pair of eye-glasses from one of the rooms of the CHRONICLE office, the owner would be glad to have them returned.

Stockholders in the International Telegraph Co. resident in this city can obtain the dividend of four per cent due and now payable, by calling at the office of William H. Hackett.

Physicians and others desiring medicine at night will be accommodated at Preston's drug store, where a competent pharmacist and pure drugs can be found at any hour. A night-bell is on the door.

The announcement which we are authorized to make, that the wife of Col. J. Horace Kent is rapidly improving in health and is now believed to be out of danger, will give sincere pleasure to a very large circle of friends.

The ladies of the Methodist church in Dover gave a grand musical entertainment at the city hall in that place, Thursday evening, Jan 1st. A cantata was presented by sixty members of the Sunday school, and Miss Edith Wendell of this city appeared as a soloist.

Mr. Wm. A. Loyne acknowledges the receipt of a check for one hundred dollars from Wm. H. Hill, Esq., of Boston, formerly a resident on Deer street in this city, to be used by Mr. Loyne in the good work in which he is engaged.

The fog-horn at Whalesback lifted up its beautiful tenor voice in good style, New Year's eve, and at one time bade fair to hoot the old year out and the new year in, but the clearing away of the snow-storm shortly before midnight interfered with the programme.

To the door-bell handles of many of the fashionable residences in this city, on New Year's day, were hanging elegant card receivers, some of which swayed in the wind and spilled out the missives before the hurried servants could get into position to catch them on the fly.

Frank Jones of Portsmouth is talked of as the next democratic candidate for governor in this State. It is a curious fact that a man who has become immensely rich in the manufacture of an article the sale of which is prohibited by law in this State except for medicinal purposes, is the strongest candidate the democracy can put into the field.—*Monitor.*

The Newburyport *Herald* of Thursday gives a very flattering notice of the musical convention to be held in this city, commencing Feb. 11th and continuing four days; and says: "An invitation is to be extended to the musical people of this city to join with the chorus, and as arrangements have been made for half-fare on the railroad, doubtless many will avail themselves of this opportunity to attend a grand musical convention so near home."

The ball of the Granite State base ball club, in Congress hall, New Year's eve, was very well attended, considering the state of the weather nearly up to midnight, and was a thoroughly well conducted and enjoyable affair. The dancers went in for a good time, and evidently had it; but neither in the hall nor its vicinity were there any of the unpleasant features which have sometimes marred the success of Christmas and New Year's eve balls in this city.

Mechanics' hall was again filled with a merry party of children, Thursday afternoon, it being time the Middle street Baptist Sunday school being the occupants. The tables, ten in number, were laid with three hundred plates, and loaded with almost every delicacy imaginable. It did not seem as if three hundred little stomachs could get away with one-quarter of the food piled up in so tempting array—but they did, and we shall never dispute the capacity and elasticity of these organs again. It was a good time, and a happy opening of the new year to the little ones—and we hope no cloud of trouble or darkness will be theirs in this year of 1880. The adults of the society met in the same place in the evening, and passed several hours in social converse, singing, recitations, etc., etc. Refreshments were served, and a general good time was had.

Rev. Mr. Goss of the Court street society delivered a sermon in Rev. D. P. Pike's church, Newburyport, on New Year's eve.

Owing to the severe storm on New Year's eve the watch meeting services at the Methodist church in this city were given up.

A young son of Mr. Richard Watson, of Greenland, while engaged in cracking nuts on Monday, the 29th ult., cut across one of his hands so badly that it will be lame during his life.

As the three o'clock train from Dover on the 31st ult. was making the station in this city, Mr. Henry Bean of Newington, with a long sled and a span of horses, came around the corner of Elm street during the blinding snow-storm, and not noticing the approaching train attempted to cross the track at Vaughan street. When his sled was about centre-way of the track the train was not thirty feet from it, and Mr. Bean, then seeing the train and that he could not escape if he went straight ahead, sharply hauled the horses to the left in the direction of Russell street, swinging the sled just clear of the track. The engineer had reversed his engine and put on the air brake, and a collision which appeared to be inevitable was thus barely averted.

"THE RENT" PAID.

The following telegram received in this city on Thursday by the president of the Portsmouth & Dover railroad, will interest every reader of this paper:

BOSTON, Jan. 1, 1880.

Hon. Frank Jones: I have collected the rent. GEO. L. TREADWELL, *Treas.*

THE CHILDREN'S DINNER.

The dinner for the poor children at Bow mission hall on New Year's day was attended by one hundred and forty-seven children, most of whom appeared to greatly enjoy their bountiful repast. The responses by our citizens to the request for food was most liberal, the tables being well filled with an abundance of good wholesome eatables. The amount of provisions that was eaten by some of the guests would have caused a hotel keeper to quake in his shoes. The managers feel greatly indebted, for the success of this affair, to those whole-souled and generous ladies from the several parishes of the city who came forward and personally assisted in the arduous work of catering to the wants of the little ones. Quite a number of our prominent citizens dropped in during the dinner hour, and expressed themselves as being much gratified at so rare a sight.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Affidavit was filed by Michael J. Ryan, through his counsel John Hatch, that unless adjusted he should commence suit against the city in the sum of $2000 for damages received from a fall on the ice on Water street.

Referred to city solicitor with power to defend the city and to employ other counsel if necessary.

Notice was received from the Eastern railroad that their objection to the placing of gates at the crossing near the depot will be heard at the January term of the supreme court in Exeter. Referred to city solicitor.

Petition for the city to accept and maintain two naphtha lights on Lafayette road was accepted and adopted.

Mayor gave notice that the city had received $250 from the executor of Daniel Austin's will for the purpose of enabling the colored people of the city to celebrate emancipation day. Voted that this money be received by the city treasurer and the usual rate of interest be allowed.

Report of the city solicitor was read and accepted, and a vote was passed tendering him thanks for the able manner in which he had conducted the cases pending against the city.

Mayor notified the board that one of the city horses used on the streets had become incapable from age for hard work, and had been sent to the city farm; and he recommended the city to purchase two others.

Referred to the committee on streets, with the mayor added.

Committee on gas lights reported favorably on the petition for a light at the corner of State and Union streets, which was adopted.

THE ROCKINGHAM COURSE.

The third entertainment in the Rockingham course, given at Music hall on Wednesday evening of this week, was enjoyed by a good audience, which would no doubt have been much larger but for the storm which prevailed, and which should have filled the house to do justice to the merit of the entertainment provided. Of Sol Smith Russell it is needless to speak, as he is well known to Portsmouth play-goers as a character-actor and humorist of the very highest order; we will only say that his performance on Wednesday evening was such as to fully maintain his well-earned reputation. Miss Nella F. Brown was laboring under the double disadvantage of fatigue and a severe cold, having arrived in this city but a short time before she appeared on the stage, from Troy, N. Y.; indeed, so dissatisfied was she with her physical condition that she was very desirous of having the entertainment postponed, which the manager decided could not be done. Notwithstanding these drawbacks the lady won golden opinions from the audience as being unquestionably one of the most accomplished and pleasing reciters on the American stage, and fully justified the high encomiums given her by the press of other cities.

The next entertainment in this course will be given on Wednesday evening, the 14th inst., by the Bernhard Listemann concert company, probably the finest combination of solo instrumentalists in America, assisted by Miss Julia A. Wells, the favorite contralto.

The fifth and last entertainment will be given by the Boston museum company, including Mr. Warren, on a date to be announced, when "Silver spoons" and "A fool and his money" will be presented.

THE NEW ODD FELLOWS' HALL.

"How grand in age, how fair in youth,
Are holy Friendship, Love and Truth."

On the evening of Thursday, Jan. 1st, the magnificent new Odd Fellows' hall in National block was dedicated with appropriate ceremonies, and hereafter all the various bodies of the order in this city will have their quarters under one roof. The organizations which will occupy the hall are as follows:

Piscataqua Lodge, No. 6. Officers—N. G., Frank S. Brown; V. G., Warren P. Webster; R. S., William W. Cotton; P. S., Oliver H. Locke; Treas., Isaac Dow. Meetings Monday evening. Membership 440.

New Hampshire Lodge, No. 17 Officers—N. G., Samuel M. Joy; V. G., John H. Rose; R. S., Thornton Belton; P. S., Moses d. Tilton; Treas., John M. Clark; Trustees, George Annable, Chas. H. Sides, John H. Wells. Meetings Wednesday evenings. Membership, about 280.

Osgood Lodge, No. 48. Officers—N. G., Frank W. Grogan; V. G., Charles H. Besselievre; Rec. Sec., Edward T. Morrison; Treas., Charles A. Neal; Per. Sec., C. Dwight Hanscom. Meetings Thursday evenings. Membership 220.

Strawberry Bank Encampment, No. 5. Officers—C. P., Langdon M. Perkins; Scribe, James A. Rugg. Meetings second and fourth Friday evenings of each month.

Mount Sinai Encampment, No. 19. Officers—C. P., William Livingston; Scribe, James L. Parker. Meetings first and third Friday evenings in each month. Membership 108

Rebekah Degree Lodge, No. 3. Officers—N. G., Emma B. Wendell; V. G., Mary A. Peterson; Rec. Sec., Amanda S. Holbrook; Fin. Sec., Nellie A. Clark; Treas., Mary A. Blaisdell. Meetings first and third Tuesdays in each month.

Odd Fellowship was introduced into this State in September, 1843, at Nashua, at which time Granite Lodge was instituted. Since that time this noble order has increased in membership, until it is now the largest secret organization in the State, and has become a powerful association with accumulated wealth sufficient to comply with all the charitable requirements of the order.

The introduction of the order into this city was on March 24th, 1844, when Piscataqua Lodge, No. 6, was instituted, largely through the personal efforts of Rev. George W. Montgomery, then pastor of the Universalist church, who associated himself with Elias Ayers, David Moulton, George W. Towle, Joseph Clark and others, and instituted this lodge. The ceremonies took place in the room over Hon. A. R. Hatch's present office on the corner of State and Pleasant streets, in the afternoon; and in the evening many new members were initiated, including some of the most prominent men in the town. The first noble grand was Rev. George W. Montgomery, the first vice grand being Daniel Moulton. The lodge now has a large fund, judiciously invested.

District Deputy Grand Master Geo. W. Towle instituted New Hampshire Lodge, No. 17, on Wednesday evening, Feb. 11th, 1846, in Odd Fellows hall on Daniel street. Its charter members were G. W. Towle, James M. Locke, Jos. B. Adams, Jere. Johnson, John S. Locke and Alonzo F. Brown, who withdrew from Piscataqua Lodge. John S. Davis was admitted by card, and Moses Ballou, W. P. Gookin, W. D. Carter and J. M. Hanaford were then initiated in due form, the same evening. The first officers of the Lodge were—N. G., James M. Locke; V. G., Jos. B. Adams; secty, J. Johnson; treas., John S. Locke. On Wednesday evening, Feb. 18th, Stephen H. Simes was admitted; and on Wednesday evening, Feb. 25th, Chas. W. Bailey, A. M. Ramsdell, Matthew Roach, Oliver Senter, Alfonso L. Rand, S. D. Scriggins, J. Dearborn, J. W. Notter, J. B. Currier and Moses H. Goodrich were admitted. The fund of the lodge, well invested, now amounts to $8000.

The remarkable increase of the order rendered it advisable to form another lodge, which was done on the 27th of August, 1868, the new lodge being named Osgood Lodge, in honor of True Osgood of Concord, one of the most worthy and influential Odd Fellows in the State. The charter members were Charles W. Smith, Matthew T. Belton, William B. Grogan, Edward T. Morrison, J. Warren Prior, John F. Leverton, Stephen D. Scriggins, Benjamin Plumer, Charles Cummings and Moses Plumer. Charles W. Smith was the first presiding officer.

Rebekah Degree Lodge, No. 3, was instituted Feb. 21st, 1871, the charter member being Joseph H. Gardiner, Alonzo F. Craig, Charles W. Martin, Albion K. P. Deering, Joseph H. Emery, Andrew J. Ayers, Augusta A. Gardiner, Carrie J. Craig, Amanda S. Holbrook, Mary E. Dow, Eliza F. Deering, Rebecca C. Emery, Isaac Dow, Elias Ayers, Mary C. Brown, Caroline O. Ayers, George W. Clark, Myra Clark, John H. Stickney, Carrie Stickney and John F. Leverton. The first officers were: N. G., Moses H. Tilton; V. G., Paul Snow; Rec. Sec., Amanda S. Holbrook; Treas., Rebecca C. Emery.

On the 17th of March, 1871, Mt. Sinai Encampment, No. 19, was instituted, with the following charter members: Alonzo F. Craig, Edward T. Morrison, Joseph H. Gardiner, Andrew J. Sides, Matthew T. Belton, John F. Leverton, Benjamin Plumer, William W. Cotton, Hiram C. Locke, George F. Gilman, Charles Robinson, Chas. W. Martin, Charles Campbell, Daniel F. Akerman and George E. Barsantee. The first chief patriarch was Edward T. Morrison, and the first scribe Joseph H. Gardiner.

At one time all the lodges and encampments occupied the old Odd Fellows hall on Daniel street; but this hall being deemed insufficient to accommodate them all, the New Hampshire and Osgood lodges took up temporary quarters in Pythian hall, where they have since remained until the completion of the new and elegant hall which was dedicated Thursday evening. For some time there had been a growing feeling in the order that it would be for the interests of the organization, better insuring the advancement of its precepts and a larger attendance at the meetings, were a new place or a new hall procured to be used exclusively by this order. It was at one time contemplated to erect a building of such proportions that the rental of one portion would be enough to insure a cheap rental for themselves; but this idea was abandoned, and then those favoring more spacious and commodious quarters turned their attention to the hall in National block, then being built by Hon. Frank Jones, and such flattering inducements were held out to them by that gentleman that it was secured for a term of fifteen years at an annual rental of $600. It was then determined that the hall should be finished and furnished in the very best manner, and the committee selected to take charge of the work have, aided by the generous liberality of Mr. Jones, accomplished what they were appointed to do, and the order in this city now have a hall in all respects equal to if not better than any other hall in the State, and one which all the brethren may well feel proud of.

The hall is fifty-five feet long and forty-three feet wide, and on entering is very pleasing to the eye, the blending of the colors showing good taste in the selection of the furnishings. The floor is covered with a handsome English tapestry carpet, of which 412 yards were required. The canopies, and accompanying chairs, were furnished by Lawrence, Wilde, & Co., of Boston, and are of the most elegant pattern and finish. The noble grand's chair is finished in scarlet and gold; the vice grand's is finished in blue and gold, and is a duplicate in shape to the noble grand's; the high priest's and past grand's chairs are furnished in purple and gold, the chaplain's being drab and scarlet. The committee are warm in praise of the faithful and elegant manner in which the four principal chairs were made and finished. The desks, pedestals, tables and chairs were furnished by Shaw & Applin of Boston, and are of fine pattern and manufacture. The settees were furnished by T. M. Holmes, and the gas fixtures by Hollins & Co., of Boston. The frescoing of the hall was done by Mr. Schumaker of Portland, in the most artistic manner; the walls and ceiling are adorned with emblems of the order, tastefully arranged. The four principal chairs are so arranged in their proper position as to designate their work.

There are two ante-rooms connected with this hall, each seventeen by thirteen feet, handsomely carpeted and furnished. The banquet hall in the fourth story is fifty-five by forty feet, handsomely grained and frescoed; to this are attached coat rooms, wash room, kitchen and closets, and every appliance needful for convenience. The hall and stair-ways leading to the Odd Fellows' rooms are wide and commodious, and are finished in the best of style. All together, we believe the new quarters of the Portsmouth Odd Fellows cannot be equalled in the State, for attractiveness or convenience, and the halls are worthy of the splendid building in which they are located.

The hall was opened early in the evening for the accommodation of members of the brotherhood from out of town, and they and the city members, with their ladies, soon filled the room to overflowing. At half-past seven o'clock the dedicatory exercises were commenced, the programme being as follows:

Invocation, by the grand chaplain;
Ode, by choir and lodges;
Presentation of the hall to the right worthy grand master for dedication, by the chairman of the committee, A. F. Craig;
Acceptance by Grand Master John H. Atchison, of Henniker;
Prayer, by grand chaplain; response by the choir, followed by the "Gloria," dedicatory texts and responses, and another anthem by the choir;
Proclamation by the grand heralds, viz.: Herald of the north, John M. Clark; of the south, John H. Locke; of the east, Wm. W. Cotton; of the west, Wm. Kennedy;
Charge, by the grand master;
Prayer, by the grand chaplain;
Address, by Past Grand Master John L. Spring;
Closing ode, by the choir and lodges.

After the exercises were ended the members and their lady friends inspected the hall, and were profuse in their expression of delight and admiration of the new quarters, though not more so than is deserved.

The public will shortly have an opportunity to inspect this splendid hall, of which due notice will be given.

We tender our thanks to the committee of arrangements for attentions shown our reporter, and for their prompt courtesy in furnishing him with such information as he desired.

F. W. de ROCHEMONT & SON.

Political.

George D. Bisbee, Esq., late county attorney in Oxford county, Maine, writes the Lewiston *Journal* that he notified the governor and council some days before the issue of the election certificates that one selectman of Buckfield signed the names of all the board to the warrant calling the town meeting, without their being present, and asked permission to prove it. Nevertheless, the votes of that town were counted in order to insure the election of a fusionist.

John J. Dolan was arrested in Newburyport, Dec. 30th, on the charge of aiding and abetting illegal voting in ward four, in Fall River, Mass., at the late municipal election. Dolan was taken to Fall River. It is alleged that he induced one John McCormick to vote on another man's name. McCormick is now serving a four months' sentence at the house of correction for his part in the transaction.

Wonderful Wealth of Hair.

A lady has been visiting in that part of Lynn called Glenmere, whose hair is eight feet in length. The *Reporter* says:

The lady's name is Miss Emily Whitten and she belongs in Topsham, Me. She is now visiting the family of J. M. Bedell, in Glenmere, where quite a company of ladies and gentlemen met her one evening. We were among the guests, and found the statement in regard to her capillary adornment correct. Her hair is eight feet in length, and when loose from the French coil, trails about two and one-half feet on the floor. She has received an advantageous offer from P. T. Barnum to travel with him, but prefers to follow her vocation as school teacher. Her hair is dark brown, very silky and glossy, and she has been offered one dollar for a single hair, which would make quite a large finger ring. Two would make a bracelet, and three a neck-chain. So she might easily bestow a souvenir on each of her friends. Miss Whitten is a finely educated woman, and, though not in ill health, she may chance upon a school-ma'am who would make a puppet show of herself, is willing to meet friends and exhibit this wonderful wealth of hair.

—The *Gazette* solemnly affirms that a lady who has been absent from Taunton for the past five months returned last week, and found upon the veranda, just where she had left it, a small turtle, firmly imbedded in a pail of ice, the only difference being that when she left home the ice was water, which, when the cold weather reached us, turned into ice, and held the turtle fast. She melted the ice, and was somewhat surprised to see the turtle crawl off as unconcerned as if it was an every day occurrence.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION, which has reached the 46th edition, and is still the standard work on the subject. Nervous and physical debility, or whatever impaired by the errors of youth or too close application to business, may be restored and manhood regained.

The book is illustrated, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of disease, the result of the labor of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

THE MODEL RANGE

— FOR —

Hard or Soft Coal or Wood

— HAVING THE —

Patent Reflex Coal-Grate and Ash-Sifter,

New Patent Automatic Oven Shelf,

New Patent Extension Leg,

New Patent Double Top,

(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many slaves. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler does work perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft; the improved flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

POROUS PLASTER

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the plea "it is the same thing or as good." Beat in mind that the only effect such cheats have is to substitute an inferior article at half the price of the genuine, and they hope by it to make a profit. Imitations are SEABURY & JOHNSON, Pharmaceutical Chemists, New York.

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will for ish to its readers the productions of the most eminent authors, *of whom a dozen or more are* ranking in the Choicest Serial and Short Stories by the *Leading Living Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientist, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, combining the great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE combination of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through comprehension of all that is admirable and note worthy in the literary world."—*Post, Boston.*

"There is no other way of procuring the same amount of reading matter for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratuitously the numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL, BUT WHEN HE MAY," a new story by MRS. OLI PHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature,

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will feel himself *in command of the whole situation.*"—*Phila. Evening Bulletin.*

D. F. BORTHWICK.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The symptoms of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and some times all yield to its destructive influence. The poison distributes throughout the system stacks every vital force, and breaks up the most robust of constitutions. Hundreds of thousands, pitiable to behold, by most physicians, improperly assisted by quacks and charlatans, have suffered from it have little hope to be relieved if it this side of the grave. It is time, then, that the popular treatment of this terrible disease should be within the reach of all, placed in hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of RADICAL CURE has won my hearty approval. It is likely to succeed where all the best remedies fail, because it strikes at the root of the disease, viz. the blood, while it is more decisively curative in its effect than any other remedy, because it reaches the seat of the disease by direct application to the nasal passages. I feel bound to explain fixed rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical practitioners in private, not only freely recommend it but use it themselves in preference to any other of the proprietary remedies usually prescribed by physicians.

"You may assure your readers in the city that I feel that my obligations to the Mass. Medical Society as a fellow, I cannot publicly recommend any other medical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the medication as laid down in the printed directions, I have sent to your store no less than one hundred and fifty patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we have sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of numerous, and we think those afflicted should be convinced of its great merit so that the suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything that has been put upon the market. If you see proper you can use this letter or any part of it that you may desire. Very truly yours, S. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 22, 1876.

Each package contains Dr. Sanford's Improved Injector Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists of dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

DR. WILLOUGHBY'S PATIENT.

Dr. Willoughby went about doing good. His powders and his presence both gave strength to the weak; his manner was tonic and his words were as good as balm. He believed in diet, a cheerful heart and a trust in Providence; and with an occasional bitter drug, he successfully fought some of the saddest ills that flesh is heir to. He did his best in battling disease. He went into many homes where gladness was banished and sorrow set all around, and saved life. It might be said that he had frightened death from many back doors, and let new life with all its sweet possibilities in the front way. He certainly lifted the veil of sorrow from the faces of many, and joy shone like sunlight after the cloud.

Dr. Willoughby was young, single and good looking, and took well with the ladies. He moved in the best circles—followed in the trail of fashion, tending her victims and repairing her ravishes. Sometimes he could do no better than make patchwork of it, for when fashion grapples a subject about the waist, tortures and deforms the body, and leads a victim abroad on paper soles, then no physician is so happy in skill and art that he can win back to the way of life.

Willoughby had been making a call professionally, on the Merangues, and, bowing himself out, crossed the street, and went up the stoop of the house opposite, where the Thunderclouds lived. There were but father and daughter in the Thundercloud family. The widower made his money in tea, and Chinese help and the oddities of the East were all about his house. He was a cold, reserved man, and like a coat of mail, dignity hampered him; kept him from a kiss or a fondle of his only daughter. She was a swarthy brunette, dark as midnight, and sometimes as terrible. Her eyes were rich with splendor and shone with a lurid-like light that could be seen a great way. Her glossy and moist-looking long hair was in a coil, like a black snake about the top of her head, and it took near a quarter hundred of hairpins to keep there. Is not health advertised on Miss Thundercloud's copper-colored face? Are not her arteries filled, and is not the red tide that leaves her heart free of effete matter? There is, really, nothing physically wrong with Miss Thundercloud, although her pulse is at ninety-eight. But ambition and purpose she has none; she is unloved and alone. To be beautiful and not to be loved is the secret of an excited and spirited pulse.

She sent for Dr. Willoughby, for his words would be like a tonic. Dr. Willoughby remained fifteen minutes with the unhappy girl, in the rear drawing room, where the damask curtains shut out the bright autumn sunlight, and a heavy oppressive atmosphere possessed the room. He was quick to detect the trouble of mind which gave rise to that unrest of body, and was sincere enough to be honest to offer a bitter drug as medicine for a neglected heart. So he told Miss Thundercloud that he recommended diet, exercise, intercourse with friends, and the park from two to four of afternoons. He would not prescribe further just then, but would call in a day or two and note progress. And, while at the front door preparing to depart, Miss Thundercloud, having followed him into the hall, he spoke of a blind woman's home in an uptown street, where many afflicted, sightless old ladies found a temporary rest while waiting, after life's dreary winter, for their promotion to eternal springs. Some very poor, some were ill, and all were shut out from the world. Willoughby threw considerable pathos into his tones when he said: "Miss Thundercloud, don't you think it must be very tiresome living so much in the dark? If those curtains in the drawing-room were opened, you see to-day's sunlight and that blue sky up there. But they don't know these as we do. Please try a visit some morning to the 'Home,' take a book, for they love to be read to, and of all things these dear old ladies like to talk by the hour to any one who will listen. Perhaps you will think well of my suggestion and try to lift the melony of being sightless, unloved and unknown."

The next morning he was considerably suprised at the corner of a fashionable avenue and an up-town cross street, to find himself face to face with Miss Thundercloud. The young lady was attired in an agreeable shade and shape of walking suit, and her copper-colored face seemed less swarthy and oppressive looking than usual.

"I'm going this way, too, Doctor," Miss Thundercloud said, in answer to a sweep of Willoughby's right arm down the side street. He had been too much surprised to say more than "good morning," and to interrogate with his arm. He was glad there would be an opportunity to collect himself. "You are feeling a good deal better, aren't you?" he said, after a while, in a matter of course sort of a way. They were walking together quite at ease; Willoughby had recovered his composure.

"Please don't ask me about myself any more, Dr. Willoughby," said Miss Thundercloud; "please do not ever again ask me about myself. I am not the same young woman upon whom you called yesterday afternoon. I was going to surprise you by such a change when you came again. You let a light into my life more than you thought you did, probably, when you spoke to me about the 'Blind Home.' After you left, I went back into the parlor and sat sort of dazed, thinking what a waste I was in the world, no one caring for me, no one thinking of me, eating, sleeping, and having everything but a purpose, and I cried for two hours and didn't go down to dinner."

"Then I pained you when I only meant to do good," said Willoughby, looking anxiously into the girl's face.

"Indeed, you did not pain me, Dr. Willoughby, you did me a service. I don't know how ever to repay it. It made me feel so grateful that some one had told me where my wrong was, and how to right it. You know I have no mother, and papa is always so busy, and he doesn't like me to bring my troubles to him—he has his own, you know. But I mustn't talk about it all. This is what I am going to do; I am going about now where people are poor and sick and blind, and care for them, and think of them, and advise with them. I am going to make some of these very poor and very sick people love me. I am going to have some of them look happier when I come; and those very weary ones that lie abed all day in pain; I am going to have some of them look at the clock sometimes, and say with a smile, 'It is almost time for her.' I haven't really commenced yet, I know, and you mustn't laugh at me for talking so, Dr. Willoughby. But when I think of all I mean to do I feel so important. You will let me send for you once in a while, as if I were sick, you know, won't you, to 'advise' about me, as you doctors say? I will need help and some one to show me how to do right. Once in a while you will call professionally to 'study' my case, will you now, Dr. Willoughby?"

"I will call whenever you desire me to, Miss Thundercloud," answered the doctor.

There was a pause, and then Willoughby continued: "I am so glad that I met you this morning. Do you know, I have been misjudging you very much? Yesterday I had some hard thoughts about you; I said to myself that you were a young lady that would never come to any good."

"Thank you. And how do you know that I ever will? Oh, Dr. Willoughby, I do hope that I will be good for something, after all. I am on my way to the 'Home' now. In this bundle I have over so many funny little packages. In one of the packages is some of papa's very best tea; he is very particular about it and always sees to the drawing of it himself. I suppose blind people like tea, and they like it strong, I am sure; I have some sugar but I forgot all about the milk; and I have some peppermint drops, nice fresh ones. You know about such things, Dr. Willoughby. Aren't peppermint drops good for old ladies? Suppose I were to kill one of them, giving too much tea or too many peppermint drops; wouldn't it be dreadful?"

"You can't kill an old lady with peppermint," put in Willoughby with an odd little smile.

"But Dr. Willoughby, where are you going?" said Miss Thundercloud, coming suddenly to a halt. "It has just occurred to me that you must be going somewhere."

"I am professionally bound and am off my way," replied Willoughby. "I must leave you, Miss Thundercloud. I will call in a few days, as you request. Please be very particular not to overfeed, or to lose your way; you are quite far from home. That is your building on the next block—the large, red one."

"Thank you; good-by, Dr. Willoughby. I will tell you all about the blind people when I see you again."

"Good-by, Miss Thundercloud, good-by;" and Willoughby began tracing his steps. "A remarkable young woman," he said to himself, "and will make some man an honest, faithful wife. How cruelly I misjudged her."

For a month Willoughby called twice weekly at the great tea merchant's mansion up town, and he and Miss Thundercloud planned anew at each interview for the comfort and good of the sightless old ladies at the Blind Home, and for the sick and suffering in other parts of the city. He marveled at the earnestness with which his supposed patient entered upon her strange new life, that led into the shadow and sorrow of many an unhappy home. His admiration of the girl increased daily. Her sacrifices, her denial of self, her sweet love of doing her little, as she expressed it, drew him towards her as nought else in her life could have done. He had never met so true a woman. How cruelly he had misjudged her!

One day he was summoned suddenly to call upon Miss Thundercloud. In truth this time it was professionally. He entered her chamber and found the young lady in a delirium of fever, pulse rampant and mind wandering. The day previous she had been visiting in an unusually closely populated part of the city, and on returning home was very weary, felt listless, and was unable to sleep that night. Then the fever came on her.

Willoughby felt as if his own life were at stake. He prayed for skill and thanked Heaven for his bitter drug. It is by suffering that we sometimes find how strong we are. Great pain does often make us mighty. Willoughby had never known his strength until he tested it at that girl's bedside. For a fortnight he watched and cared unceasingly. He prayed, too, continually, for God to teach him how to save this life. Then, one morning, Miss Thundercloud smiled in a very natural sort of a way, and commenced to thank him for all he had done. But he stopped her short and from that time she obeyed him like a child. And so he led her back to the way of life, but it was a tedious way, and, at times, she faltered sadly. Like an accomplished rogue, fever had walked away with Miss Thundercloud's energy, appetite and strength; also, had stolen the becoming tints, which, a little while ago, that much abused one, health, had pencilled with great care, and often much discouragement, on her fair round face. But time which is known to many only as a destroyer, is also a beautifier. In a month she was down stairs in the rear drawing room, the damask curtains parted, and the bright winter sunlight playing on her face. She looked most interestingly beautiful. After one has been long ill and is restored, it is like commencing life again, ain't it, when one gets into the world once more? Miss Thundercloud sat, as once before she had, sort of dazed, thinking what a waste she had been while

the lover was on her; of how much she might have been doing in the four long, weary weeks. But Dr. Willoughby came then and put a stop to all this. Miss Thundercloud was of a resolute nature, and in another week she was allowed half hour airings in the middle of the day. Soon she was making a hasty visit here and there, on her old round, and as the holidays drew near she had taken up the good work just where she had dropped it when the fever overtook her. But her nurse watched, and while she was never out of his mind she was rarely out of his sight. It was the day before Christmas. Along the streets there was a wide spread feeling of festivity. Quite late in the afternoon Willoughby ordered the boys to the stable, and started afoot on a sort of dog trot, down an up-town side street. He thought he would run over to the Home, and carry a few things for the inmates to make merry over, for Christmas was coming. About two blocks from his destination he dived into a corner grocery, and commenced making purchases in a rather wild sort of a way: citron, raisins, oranges and pickles. His last purchase was a mammoth gobbler with a very big paper rosette on its broad bosom. He had an idea that such an enormous rosette would make a sensation among the janitors; he had forgotten that the sightless eyes would pass it unnoticed.

Collecting his purchases he made a dive out a side door and nearly collided with a lady who was passing rapidly, well-laden, like himself, and from out of a torn, flapping mass of yellow-brown paper the heads of two plump pullets dropped in the resigned way of their kind. Miss Thundercloud was bound on the same errand as Dr. Willoughby. She was far from home; heavily-laden; the night was closing in on her, and she was hurrying along quite frantically. She was feeling, too, how quite alone she was, and not unlike crying. When they recognized each other both grasped the situation with remarkable clearness, and his very shadow calmed and rested her. Instead of only two blocks Willoughby wished there had been two miles ahead of him. It was Christmas eve, and he felt as if there could be no other gift so good for him, so satisfying, as the gift of the little woman by his side. On the instant he decided on a course of action. When they were in the hall of the "large red building," after giving the janitoress time to disappear down the rear stairway, Dr. Willoughby called Miss Thundercloud to a halt. It was an odd sort of thing to make love there, but he was sure it would do. He laid his bundles and the turkey on an unwelcome looking chair, and then assisted her to unload her burden. She was looking sort of dazed and doubting. Then standing quite near her he said:

"Miss Thundercloud, I am going to ask you for my Christmas. I am more impatient for it than was ever any child to know the contents of his stocking on Christmas morning. I really cannot wait."

Then some words were spoken in low, earnest tones, and then Willoughby drew back a little, and stretching out his arms to her said, almost beseechingly:

"Will you come to me?"

There was unspeakable love in the gesture. She hesitated not an instant, but willingly she went to him and made an offering of her valuable self; and being very fond of her, knowing her worth, as he binds her to him with his arms, he kisses her passionately again and again. She was the bride of his heart.

These beauties that we all so prize.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Good Hotels.

Hotel accommodations for travellers are of the greatest importance to persons who have to move about the country on business or for pleasure. "Just where to go" is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York city, is a very popular resort, for the attendance there is prompt and satisfactory. The charges are reasonable and the manage complete; try it. Families can live better for less money at the Grand Union Hotel than at any other first-class Hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

—Robert Burdette is tired of lecturing and travel and fame, and writes: "I wish I was just seven years old, and Christmas lasted three months, and I had a stocking as long as a telegraph pole."

—This is a good time for charitable feelings; and we hereby forgive all our enemies. We hope they'll stay forgiven; but we warn them that they have to behave themselves mighty sharp.—*Puck.*

Statistics show that more people die of consumption than from any other cause. Slight colds are the true seeds of consumption. Beware of the slightest cough. Adamson's Botanic Balsam stands without a peer. Trial size, only 10 cts.

Piscataqua Lodge, No. 6, I. O. O. F.

Samuel White of Epping was arrested and taken to Newmarket last Thursday, charged with inflicting a severe blow upon the face of Mrs. Thomas Lally with a nail hammer.

It is said that a vigorous prosecution of the liquor sellers is to be inaugurated in Newmarket soon, and a meeting has been held for that purpose. Several petitions are in circulation, praying the selectmen to enforce the law to the letter.

Coroner Shackford's inquest at Newmarket on the body of James Behen was concluded last Thursday, the verdict being that deceased came to his death by cold, exposure and suffocation. They also find his companions, Michael Carrig and his wife Kate, guilty of culpable negligence in connection therewith, although failing to show any act of violence on their part.

The Methodist society turned out in full force Friday evening, the occasion being a festival in their chapel on Daniel street. They had a splendid time, and did not break up until a late hour. It seems as though all of our religious societies were on the rampage this winter—church festivals, church sociables, and church reunions following each other in bewildering and rapid succession.

The January term of the supreme court for Rockingham county will be held in Exeter, commencing Tuesday, the 20th inst. Judge Lewis W. Clark, of Manchester, who is to be the presiding justice, will make his first appearance on the bench in this county. The number of cases on the docket is as follows: civil actions, 284; equity cases, fifty-two; State actions and appealed cases, thirty-six; cases in sessions, four. This is the smallest number of cases on the docket at the trial term of this court for a great many years.

SUNDAY SERVICES.

Rev. George W. Sederquest will preach at the Advent church on Sunday.

The subject of Rev. Dr. Alden's lecture on Sunday evening will be "The New Year."

Rev. C. B. Pitblado delivers his monthly lecture Sabbath evening. Subject, "A Universe with a God."

At the North church, the topic at the morning service, at 10:30, will be "The Great High Priest;" at 7:30 P. M., a new year sermon on "Good resolutions."

Bethel service at Bow mission hall, at 4:15 P. M.; reform club meeting in same place at 7:30, with speaking by members.

I. O. O. F.

The following items of special interest to Odd Fellows were omitted from our article on the new Odd Fellows' hall, as published in the CHRONICLE of Friday morning, the information not then being at hand:

Strawberry Bank Encampment, No. 5, was instituted February 28th, 1845, the charter members being George W. Towle, George W. Montgomery, Joseph Cheever, James M. Locke, David Moulton, Emerson Sherburne and Elias Ayers. The first officers were: C. P., George W. Towle; H. P., George W. Montgomery; S. W., Joseph Cheever; J. W., James M. Locke; Secretary, David Moulton; Treasurer, Emerson Sherburne; Sentinel, Elias Ayers.

The following-named persons joined Piscataqua Lodge, No. 6, on the evening of the day the lodge was instituted, May 24th, 1844: James M. Carr, James M. Locke, Joseph Cheever, Charles J. Colcord, Samuel Clark, Thomas E. Call, James Freeman, William S. Hadley, John W. Moses, Nathaniel K. Walker and Joseph Whidden. James M. Locke, with others, left Piscataqua Lodge in February, 1846, to form New Hampshire Lodge, and rejoined Piscataqua Lodge in the 4th of May, 1857, by paying ten dollars.

The new Odd Fellows' hall will be open for the inspection of the public to-day, (Saturday) from 9 A. M. to 5 P. M.

Piscataqua Lodge, No. 6, I. O. O. F., on Monday evening next at eight o'clock will have a public installation of the officers-elect of the lodge in the new hall of the order. See notice in another column.

NAVY YARD ITEMS.

The U. S. S. Plymouth will come up to the navy yard some time next week.

Laborers in the department of construction and repair at the navy yard are in a fair way to become bloated bondholders, having been put on one-third time—eight days in a month at $1.76 per day!

The steamer Leyden went down to the quarantine anchorage from the yard, Friday forenoon, to take the powder out of the Plymouth.

YORK COUNTY ITEMS.

Rev. James DeNormandie and Rev. C. B. Pitblado have been engaged to lecture in the lyceum course at South Eliot.

Mr. William Adams, of Spruce creek, Kittery, a few days ago killed a hog which weighed when dressed 792 pounds.

Chairman Stewart of the republican town committee of York wields a trenchant pen, and his pen-sketch of the "Hon." Councillor's "principles" is receiving a wide circulation in the press.

The steamer purchased by Capt. Horatio B. Trefethen of Kittery to run as a passenger boat across the river, as already reported, is the Mystic, well-known on this river and formerly hailing from Dover. She will be extensively overhauled and improved before being put on the ferry.

Cyrus K. Lunt, Esq., an old and respected citizen of Biddeford, committed suicide last Thursday noon by hanging. He was a leading member of the Methodist Episcopal church of that city. He was foreman of the blacksmith department of the Saco Water Power machine shop until about a year ago, when he was attacked with brain troubles, since which time he has been confined at home; his suicide was probably caused by insanity, resulting from his sickness. He leaves a wife and children.

We were recently shown an apple raised by Mr. Joseph R. Stacey, of Sandy hill, Eliot, and taken from the tree in October, 1878. We were also allowed to devour a piece of the said apple, and found its flavor to be such as would be highly appreciated in midsummer, though hardly up to the taste of first-class winter apples gathered last autumn. It was perfectly sound, and quite fair and fresh-looking; and was of a variety called the "Aucubefolia" apple, the scions from which it was propagated having been brought to New York a number of years ago from that part of Russia bordering on the Black sea. When Mr. Stacey first commenced to raise these apples he fed them to his pigs during the winter, as they did not appear to be fit for human beings to eat; but he at length discovered that after being eight or ten months off the tree they were very good. Last 4th of July he brought a half-bushel of the apples to this city, and sold them to a fruit dealer for $2.50; and he now has several barrels stowed away to sell next 4th of July, having no doubt they will then be in prime condition for the market.

LETTER FROM YORK.

YORK, ME., Jan. 1st, 1880.

Mr. Editor: According to previous announcement, (not "having been selected to 'indignate,'" as intimated in the Boston *Globe*, but from a sense of duty,) on the last Sabbath evening of the old year Rev. D. B. Randall addressed the members of the First Methodist Episcopal society at York village, on "The Crisis in our State;" but the congregation was composed of others than his own flock, as the people of old York are aroused and awake to a sense of the fact that the sacred rights belonging to them as American citizens are imperilled, and that the purity of the ballot-box has been tampered with by the usurpation of power by eight men.

In his prelude the speaker referred to the responsibilities of the minister of the gospel. It is his duty to watch over and instruct in the duties of life; not only those which refer to religious life merely—in the common acceptation of the term religious—but the people have domestic, social and political relations. In all these the pastor is not to be an example merely, but an instructor. Our political relations—those which concern our national existence—are intimately connected with our religion, for we are protected in our religious privileges by our country. The minister therefore has an interest in these; and it is his duty, if he sees the sword coming, to warn the people. The Sabbath is not too sacred for this purpose. If a man is justified in lifting a sheep from a pit on the Sabbath, the minister is at liberty on the Sabbath to do all he can by way of instruction and warning to save his country from ruin.

The preacher took for his text, Prov. 26, 2: "So the curse causeless shall not come." All things, whether animate or inanimate, are governed by law. He defined law. God is the author of all law. Law has its succession of cause and effect—no effect without its cause; no effect rises above its cause; the effect corresponds with its cause. This law applies to nations. Our nation tolerated slavery, and was cursed; one-half of the nation was crippled by slavery. Slavery produced the war of the rebellion. The reconstruction of the revolted States was upon wrong principles. The rebels had forfeited their right to life; they were spared, and by the forms of reconstruction were made eligible to and are elected to Congress, and now with the aid of the dough-faced fusionists of the north rule our country, and are planning its destruction if they cannot bring it into subjection to their power. The word has gone forth from head-quarters, and the experiment is being tried in our State!

What are the facts? On the 8th of September last the freemen of this State, in the exercise of their rights as electors, chose ninety of the 151 members of the lower house, and nineteen of the thirty-one senators. By the arbitrary and dishonest exercise of power on the part of governor and council, they counted out a republican majority of seven in the Senate and twenty-nine in the House and substituted as certified in the Senate nine fusion majority, and in the House seventeen fusion majority. Twenty-eight republican representatives and eight senators are *counted out, and not a single fusionist fails to get his seat!*

The speaker reviewed the action of the governor and council, giving instances of dishonesty and injustice. He dealt faithful, severe but kind blows to the counting-out managers; (one of the councillors was in the audience.)

He then called attention to the remedy. Not revolution; resistance to law is to be the last resort; when all other means are exhausted and the oppression becomes unendurable, then in rare cases the people are justified in resorting to armed resistance to oppression.

1st, We are to commit our case to Providence. God reigns. 2d, We may resort to all legal and constitutional means to right the wrong. 3d, Bring the matter to the ballot-box. It can be righted. The freemen of Maine can never be trampled upon. There is an instinctive love of freedom which cannot be quenched. We are too near the north star to be enslaved.

The audience listened for an hour in closest attention to this sermon, the house being well filled. We only give a meagre outline of the discourse. P.

The Manchester city government has appropriated $258,963 for the coming year's expenses, against $258,065 last year. There is appropriated $52,750 for schools, an increase of $8,600 over last year, made made necessary by a large increase of pupils. A temporary loan of $50,000 is authorized, to be met in July, $30,000 of which will pay the interest on the public debt, and the balance defray the ordinary expenses for the next six months.

A Cautious Sentinel.

At Cambridge, Gen. Washington had heard that the colored soldiers were not to be depended upon for sentries. So one night when the password was "Cambridge" he went outside the camp, put on an overcoat and approached a colored sentinel.

"Who goes there?", cried the sentinel.

"A friend," replied Washington.

"Friend, advance unarmed and give the countersign," said the colored man.

Washington came up and said,

"Boxbury."

"No, sar!" was the response.

"Medford," said Washington.

"No, sar!" returned the colored soldier.

"Charlestown," said Washington.

The colored man immediately exclaimed:

"I tell whou what, sar, no man go by here 'out he say 'Cambridge.'"

Washington said "Cambridge" and went by, and the next day the colored gentleman was relieved of all further necessity for attending to that branch of military duty.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen*,—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My hand and face being covered with sores, I could not walk in the morning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.—— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.—— of East ——, but ——, of City proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the External applications I have tried but the effect was the same. I became satisfied that I could not be cured, but that it would be kept getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and its wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. To me was so much humor lodged within the skin, that as soon as I commenced to use it it seemed as if it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I persevered faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of a constant suffering as was ever endured, I am happy to say I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped more on the street and have afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

American and Foreign PATENTS.

(ESTABLISHED 1865.)

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fee for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing, special attention given to Interferences, Reissues, Appeals to the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation pertaining to inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the Department of Interior shows 57,267,000 acres of Bounty Land Warrants outstanding. These were issued under act of 1858 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

KNOW THYSELF.

The untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this proposition should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a work of 300 pages, by the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It combines beautiful and very elaborate engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. I. P. INGRAHAM, vice-president; W. PAINE, M. D.; C. S. GAUN T, M. D.; H. J. DOUCET, M. D.; E. H. KLINE, M. D.; J. E. BOLOMB, M. Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

M. W. EARING,

No. 61 Market Street,

Where also can be found a full and complete assortment of KITCHEN FURNISHING GOODS, etc., which the residents of Portsmouth and vicinity are respectfully invited to inspect before purchases are made elsewhere.

Littell's Living Age.

In 1880, THE LIVING AGE entering upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will furnish its readers the productions of the most eminent authors, *old and new, and many others;* embracing the Choicest Serial and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientific, Critical, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical, and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *—indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has proved the breaking up of the constitution of more than the sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system attacks every vital organ and breaks down the most robust constitution sooner because but little understood by most physicians, impotently assisted by quacks and charlatans who suffering from it have little hope to be relieved in the side of the grave. It is a fact, then, that the popular treatment of this terrible disease by remedies within the reach of all passed to friends at once effective and trustworthy. The new and hitherto unknown method adopted by Dr. Sanford in the preparation of RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. *to acidified blood.* While it heals the ulcerated membrane by direct application to the nasal passages, it acts on the blood, which is based on certain fixed rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORWOOD HOUSE, SO. FRAMINGHAM, OCT. 1, 1879.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, as it contains no mercury, mineral or other poison in their families in preference to any of the preparations usually prescribed by regular practitioners.

"You are aware," said a distinguish d city physician, "that my obligations to the class of medical society which they have publicly recommended or prescribed radical Cure; but since I received so much relief from the use of it myself, and have seen others to use the medicine, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candid, it is never sold a similar preparation to that gave universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but your preparation merits the warm thousands, and we think those afflicted should be acquainted with its great value. Yours very truly, Blevel. We have been in the drug business for the last twelve years constantly, and sold everything that stands and sells the most. If you see proper you can use this letter or any part of it that you wish. Very truly yours, A. J. ALLEN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 2, 1876.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For Sale by all druggists, and Retail Druggists of dealers throughout the United States and Canada. HEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

Electro-Galvanic Battery combined with Highly Medicated Isinglass Plaster, ing the best Plaster for pains and ache the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent in nature, unalled by any element or medicine in the history of healing the sick. Unlike the other agents, its application by means of electricity is possible. It is the element of all physical and spiritual life, and has restored thousands, apparently dead, from the untimely grave, when all other human agency or remedies have failed. This is the leading curative element of the Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. Their generic healing, soothing, and strengthening properties are known to the world. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. In respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in each of which performs its function and united vigorous cures more than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. Price, 25 Cents.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

DeMusset and the Dogs.

Alfred DeMusset always declared that he hated dogs, for the reason that twice in his life an animal of the canine race had come within an ace of wrecking his fortunes. The first time was at a royal hunting party, when the poet, then Louis Philippe's guest, as a bird was flushed fired instantly, and sent the citizen king's favorite pointer to meet Cerberus.

The second time was when a candidate for the academy, DeMusset went to pay the customary visit to an influential Immortal whose chateau was in the environs of Paris. At the moment that the poet rang at the gate, an ignoble whelp of incredible ugliness, covered with mud, rushed to meet him with joyous barks, and fawned upon him to the detriment of the poet's new pantaloons. Disgusted as DeMusset was, it would have been perilous to drive off the Immortal's faithful dog, so he was compelled to let the frightful animal lick his hands, cover him with caresses and mud, and precede him to the drawing-room. A moment later the academician entered. DeMusset, noticed his embarrassment, at which he was not surprised, considering the behavior of the animal. They adjourned to the dining room, followed by the dog, which, after giving vent to his delight by various yelps and gambols, placed his muddy paws on the cloth, seized the wing of a cold chicken, and began contentedly to devour it.

"That's the most abominable brute I ever heard of," thought DeMusset, and continued aloud, "You are fond of dogs, I see."

"Fond of dogs?" echoed the Immortal "I hate dogs."

"But this animal here?"

"I have only tolerated the beast because it is yours, sir."

"Mine!" said DeMusset, "I thought it was yours, which was all that prevented me from killing him!"

The two men roared with laughter, and DeMusset made a friend.

Late that day a yellow dog crossed the frontier of the Rhine to Strasburg with the air of an animal that had scored upon the tablets of its memory a decidedly unpleasant recollection, and headed for Constantinople with undiminished celerity.

—A novel wine decanter is made with a tiny music-box in the bottom. When the stopper is taken out and the decanter tipped to pour out the wine the music box plays, and when the decanter is set down and the stopper replaced the music stops.

A Lady's Wish.

"Oh, how I do wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so, answered the friend. "How?" inquired the first lady. "By using Hop Bitters, that makes pure rich blood and blooming health. It did it for me, as you observe." Read of it.—*Cairo Bulletin.*

—The monotony of many a man's life is due to the fact that he has no "change."

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

—There is a distinction with a difference between attic rooms and rheumatics.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

—An apology—"But, Freddy, how could you ever think of ever calling auntie stupid? Immediately go to her and tell her that you are sorry." Freddy goes to aunty and says: "Aunty, I am sorry that you are so stupid."

The man who heeds not the warning of pain or suffering, which always precedes maladies, often becomes, through indolence, the victim of incurable disease. Lassitude, Wearness, Sadness, Aching of the Limbs, indicate nervous disarrangement, the forerunner of many organic and functional diseases. The early employment of Fellows' Hypophosphites will effectually ward off such maladies.

—Nothing hurts a young man's feelings more than to find, upon leaving a house after a call, that he has on a Derby hat with more trimming than the masculine Derby is wont to have. The thought that he has got to return and make an explanation sends a cold chill all over him.

Just What is Needed for Females.

We have seen specimens of Sambucus Wine, prepared by Mr. Alfred Speer, of Passaic, N. J. It is pure without heating ingredients, being absolutely free from spirits further than its own fermentation affords. Great preference is given to it in New York and other hospitals as a tonic, gentle stimulant, diuretic and sedative and especially prescribed for females, elderly weakly persons, kidney complaint and rheumatism. Mr. Speer has been years experimenting in the production of this wine, and the newest wine he sells is four years old.—N. Y. *Tribune.*—For people that are old and worn out and need a strengthening wine, the above is the best that can be had.

MONDAY, JANUARY 5, 1880.

A Thunderbolt for Garcelon.

The supreme court of Maine has sat down upon the pretensions of Gov. Garcelon like an elephant on a June bug. Not one of the twelve questions submitted by the governor is answered in a manner that will afford a scintillation of comfort to him and the rabble that has backed him up in this outrageous and miserable business. We wish we had space to give to our readers in full this splendid legal document of Maine's highest court; as it is we are only able to give the merest skeleton outline of it, but enough we think, to extinguish any spark of hope in the breast of any local greenbacker or democrat who has been idiotic enough to support the thieves in their attempt to steal that State.

1. No representative is to be deprived of his rights because municipal officers have neglected to do their duty.

2. The governor and council are bound by the statute of 1877. It is mandatory upon them. It imposes a duty that must be performed.

3. If a return from a city having five or seven aldermen is signed by *three* of them it may be a valid and legal return, and the governor and council *have no right to assume that it is not valid.* They have no right to go behind the returns.

4. A return cannot be rejected because of votes having been returned as scattering. The governor and council cannot officially know, nor have they the right to ascertain that the votes returned as scattering were not actual ballots, with the words scattering written thereon.

5. Returns signed by clerk *pro tempore* or deputy clerk are to have the same force and effect as if signed by the clerk.

6. The governor and council have no right to reject returns, because of their being not signed or sealed in open town meeting.

8. A person not a citizen may be elected or constituted a selectman so that his official acts bind the town and are valid

9. When the ballot has once been received in the ballot-box, neither the selectmen, nor the governor and council *can refuse to count it.*

10. It is the duty of the governor and council to treat those persons as having the same number of votes as another person received for same office and who so name is placed first in the return, if they find dots (ditto marks) under the figures or words set against each other persons name.

11. The governor and council have no power to reject returns because of doubts of its genuineness without giving parties interested therein a fair opportunity to be heard. The genuineness of a return is to be presumed until overcome by evidence.

12. A return if defective can be corrected only in accordance with the provisions relating thereto. This government rests upon the great constitutional axiom, that "all power is inherent in the people." The ballot is the price as well as the protection of all. It is the truest indication of the popular will. The official returns required from the municipal officers of the several plantations, towns and cities are, and will be, made by "plain people," and made, too, in the hurry, and bustle, and excitement of an election. They are not required to be written with the scrupulous care of a writing master, or with the technical accuracy of a plea in abatement. The sentences may be ungrammatical, the spelling may deviate from the recognized standards, but returns are not to be set at nought because the penmanship may be poor, the language ungrammatical or the spelling erroneous. It is enough if the returns can be understood, and, if understood, full effect should be given to their natural obvious meaning. They are not to be strangled by idle technicalities, nor is their meaning to be distorted by carping and captious criticism. "The general principle which governs is that there should be a strict compliance with the provisions of a statute, yet when they are mere directory, such strict compliance is not essential to the validity of proceedings under such statute, unless it is so declared to be therein. This is specially applicable when the rights of the public or of third persons are concerned. The dominant rule is to give such a construction to the official acts of municipal officers as will best comport with the meaning and intention of the parties, as derived from a fair and honest interpretation of language used, to sustain rather than to defeat the will of the people and disfranchise the citizens. Doomed.

The State board of equalization, in equalizing the taxes of the State last fall, required the different express companies doing business in this State to make a return of the number of miles travelled over by the companies and also the amount of business done by them, as by law the State receives two per cent of the gross receipts of the business. This latter several companies failed to do within the appointed time, and the State board doomed them to pay ten dollars for every mile travelled over. The companies refused to pay this sum, claiming that it was exorbitant, and the attorney-general, at the instigation of the board, has commenced suit against these companies. Sheriff Dodge on Friday morning served the papers on the representatives of the various companies in Concord. The following is the list of the companies and the amount they are doomed:

United States & Canada, $5000.
Canadian, $520.
Jackson & Co., between Portsmouth and Boston, $260.
Eastern, between Portland and Boston, $1600.
Brooks & Davis, on the Cheshire railroad, $90.
American, on the Eastern railroad, $250.

These companies, it is said, will raise constitutional questions.

Big Ship.

The Inman steamship company is having built in England a new steel steamship, which is to be the largest steel craft afloat, and the second vessel in size in the world.—the Great Eastern only being larger. She is to be of 8300 tons measurement, and to be constructed of steel upon the cellular or double bottom system, with two longitudinal bulkheads through the boiler and engine spaces, and eleven transverse bulkheads. The dimensions are to be 546 feet in length on the keel, 590 feet long over all, 52 feet beam, and 38 3-4 feet depth from the main deck. She will have four iron masts, three funnels, three pairs of inverted direct-acting compound engines, eight boilers and furnaces, with an estimated speed of 18 1-4 knots an hour, having a power of 8500 horses. There will be accommodations for 300 saloon and over a thousand steerage passengers.

News and Notes.

As a son of Senator Morgan of Alabama, just deceased, was passing through Washington street, on New Year's day, accompanied by a friend, he was met by a young woman named Lucy W. R. Horton, who turned and shot Morgan through the shoulders. The shooting grew out a breach of promise suit brought by the woman, who has been very unfortunate in failing to secure a husband, and also in losing her situation in the treasury department.

Good Hotels.

Hotel accommodations for travellers are of the greatest importance to persons who have to move about the country on business or for pleasure. "Just where to go" is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York city, is a very popular resort, because the attendance there is prompt and satisfactory. The charges are reasonable and the menage complete; try it. Families can live better for less money at the Grand Union Hotel than at any other first-class Hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.
The Reformer and Vitalizer of the Blood
The Producer and Invigorator of Nerve and Muscle.
The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS, St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

CITY SOLICITOR'S REPORT.

To the Honorable Board of Mayor and Aldermen of the City of Portsmouth:

Gentlemen: The time has again come when I am directed by the ordinances of the city to make report of the business in my department.

In the criminal practice of my work I have issued 307 warrants upon complaints of members of the police force, or for such individuals as are indorsed by the city marshal. I have adhered to the rule I laid down a year ago, that the city must not be put to expense to redress mere individual grievances or gratify private spite. In the course of the year a number of such cases are brought to me, and I always, before issuing any process, direct that the costs must be advanced by the complainant. My thanks and commendation are due to the marshal and every member of the force, for courtesy, vigilance and promptness in the voice of process. I am also indebted to George E. Hodgdon, Esq., who has kindly relieved me when illness or business have compelled my absence from this branch of my duty.

At the time of my last report there were fourteen cases on the docket of the supreme court in which the city was a party. It gives me pleasure to report that all but one of these are now disposed of finally, as follows:

Howe Call vs. Portsmouth was a claim of about $60 for legal services rendered in the absence of another solicitor. This was tried and Mr. Call recovered $10.50.

Charles H. Sides vs. City. This was an action for damages to Mr. Sides by the loss of the services of his minor daughter, caused by injuries received at the upsetting of a carriage at the Vaughan street crossing of the Eastern railroad. This cause was tried by a jury who gave a verdict for plaintiff of $449.16; the case was transferred on exceptions, and the full bench sustained the judgment. At the last term execution was issued against the city, and the Eastern railroad was called upon to pay the same.

Thomas Quinn then had a suit pending for personal injuries caused by a collision of teams, due, as was claimed, to insufficient clearing of snow from the streets. This was compromised by the payment of $800.

Alfred O. Larkin filed a petition in equity in June, 1878, asking an abatement of the tax assessed against him in 1877. This was tried, a decree rendered for the city, the case transferred, and last June the full bench affirmed the previous decree.

The action of Sarah C. Pierce and others for land damages in widening Richards avenue was settled by compromise.

Eight suits were brought against the city for the following amounts and by the following individuals, who were ex-police officers:

By Israel Marden, for	$226.38
" Ozra J. Hobbs, for	95.48
" John Hayes, for	56.98
" Thomas Watkins, for	40.81
" Samuel Hartey, for	2.49
" E. Bridge vs. Marden, for	22.33
" Edmund J. Clark, for	21.55
" John S. Smart, for	16.64
	$486.97
Interest for three years	9.09
Total	$496.56

These cases were tried before William H. Rollins, Esq., who allowed about one-half the amount claimed; but upon exceptions to his finding they were transferred and argued at the law term, and judgment rendered for the city in five cases, and in the other three the sums of $2.71, $1.54 and $12.54 only were allowed, making, with interest, the grand total of $6.82.

The only old case now remaining unfinished is that of the Portsmouth Trust and Guarantee Company, which is a petition for abatement of taxes. This case was tried once, and decided against the city; that decision was set aside on exceptions and a new trial ordered, which resulted favorably, and the second judgment was affirmed by the full bench. Last spring a petition was presented at the law term, by new counsel who had meantime been retained by the company, praying for a new hearing, which was granted partially; that is, the company are to be heard on the question of why they failed to file any inventory, and if they show good cause for that then to be heard on the other questions in the case. This has been referred to Hon. J. F. Wiggin of Exeter as master to find the facts, and a hearing will be had shortly.

In January, 1879, Alfred O. Larkin filed a second petition asking for an abatement of his tax for 1878. This has been referred to Calvin Page, Esq., and has been partially heard. It will be completed before next term, I hope.

At the same term Charles H. Sides brought a second suit, this time in the name of his daughter, asking compensation in her behalf for the injuries before alluded to. This will probably be tried at the approaching term.

Thomas Quinn, for a broken hip received by falling on the ice; Patrick Quill, for injuries received in driving into an open drain; and Dr. Brainard Dearborn, for the loss of a horse which ran away and was drowned in the north mill-pond, all have suits against the city, which will be tried as soon as they are reached on the docket. Notice has been received that Michael J. Ryan, for a broken leg caused by falling on ice, claims two thousand dollars of the city. This will doubtless be sued at the April term.

I wish to cordially endorse the principle announced by His Honor the Mayor in his inaugural address, that all suits of this nature should be resisted to the uttermost. The liabilities of towns and cities for alleged defects in highways is a matter calling for immediate legislative reform. At present they are compelled to act as accident insurance companies without receiving premiums; the whole time of our courts is occupied with the trial of this class of cases, and the whole system is aptly termed by one of our local papers "highway robbery." I would suggest that the city government call the attention of our delegation to the next legislature to this matter, and urge them to do what they can to abate this great and growing evil.

The controversy relating to the Portsmouth & Dover railroad is one in which though not nominally a party, the city is deeply interested. The facts in this matter are too freshly in all our minds to need detail here. The questions at issue have been referred to a board composed of three judges of our supreme court, and will be heard almost immediately. The Eastern railroad has also filed petitions resisting the order of the board calling gates at their crossings on Market and Vaughan streets, which will be heard next term.

This I think closes the summary of my year's work. I have been so constantly in communication with the board that I think I must have stated all this before. I wish to express my gratitude to His Honor the Mayor and all members of this board for their uniform courtesy and kind co-operation whenever we have been officially brought in contact.

All of which is most respectfully submitted.

WILLIAM R. FOSTER, City Solicitor.

N. H. S. P. C. A.

One thing particularly noticeable in the published report of the work accomplished by the New Hampshire Society for the Prevention of Cruelty to Animals, during the past year, is the very economical manner in which its affairs are managed.

It appears that the only regular source of income available for current expenses, is the subscription of one dollar each by the annual members, numbering on an average about one hundred and seventy-five persons. Considering the extended field of its operations, limited only by the extent of the State, it is wonderful that so much has been accomplished with the small amount received; but the efficient board of managers which has control of its business does not hesitate to carry on the work of the society, on account of its limited funds. When cases of cruelty occur within the jurisdiction of the State, the officers act with vigor and promptness, and prosecute the offenders no matter who or where they are.

Much good has doubtless been done by judicious investigations into alleged cases of cruelty. Sometimes a word of instruction or advice has proved as effective in correcting abuses, as the severer remedy of enforcing legal penalties could be.

Much work must have been done by the officers of the society at their own expense, and at the sacrifice of valuable time. The meagre salary paid their active secretary seems a very inadequate recompense for the time and personal attention necessarily devoted to the work by him, in our vicinity and in his frequent visits to distant parts of the State, where his official services are often necessary in conducting prosecutions before the local magistrates.

SHALL IT SUCCEED?

Lynn shipped 241,157 cases of shoes in 1879. Shall we enter this business? Have we done all we can to raise the comparatively small sum of twenty-five thousand dollars, and failed? Shall we sit down quietly and have other places thrive by industry, while we decline? How can we pay our taxes and support our municipal outlay if our young men leave us, stores and houses become unoccupied, investments decline, banks go out of business, and we become a silent and idle community, can there not be one more effort, a co-operative pull, which will start the enterprise? Has every one considered how much personal sacrifice he can afford to make towards an effort to increase our working population and add to the common wealth. It is rumored that one more effort will be made to start the enterprise. If so, and you are called upon to contribute, don't evade under the excuse that your neighbor is not doing his share, but do your own duty, receive the canvassers cheerfully, show your appreciation of their unselfish efforts, and unite with the well wishes for Portsmouth's prosperity in a hearty endorsement of this project to increase our business operation.

AROUND HOME.

Was Moses left-handed?

The public schools re-open this morning.

The National Granite State bank at Exeter will pay a dividend of four per cent to-day.

Sunday was delightful and warm. All the churches had a goodly attendance at the day services; in the evening the streets were filled with promenaders.

The architect who designed the remodelling of Frank Jones' summer residence would be a success in designing a shoe factory. He would not have to change the front elevation but a trifle.

The Newmarket Manufacturing Company increased the pay of all their operatives about ten per cent, with the New Year. Certainly an encouraging sign of better times.

Rev. Constantine Blodgett, D. D., a former pastor of the Congregational church in Newmarket, died at his home in Pawtucket, R. I., Monday, Dec. 29th, aged seventy-seven years.

They say that Joshua thinks just as much of that new year's present as tho' it were a boy. Well, there is nothing like contentment, and taking things as they come, for time will make these even in the long run.

Sleighing never was better than in the country at the present time. A merchant counted twenty loads of wood and ten of hay that passed his place of business on Saturday. Most of the teams came from across the river.

The horse trot on Richards avenue on Saturday afternoon attracted a very large number of lookers-on. Among the smart teams driven were the establishments of Capt. F. W. Hilton, Capt. Emerson of York, E. S. Fay and owners of other well-known good horse flesh.

Parties from this city recently made an offer of a liberal sum for three acres on the top of Mt. Agamenticus, York. If they succeed in purchasing, they will erect a hotel on the summit in the spring, and will build a carriage road leading to the summit at a cost of about $3,000.

A gentleman of this city who visited Kittery on Saturday, reports a magnificent mirage at sea. Appledore and Star islands were brought very near even persons being seen on these islands with the naked eye. The fishing fleet in Ipswich bay did not seem more than a mile away.

Friday and Saturday were splendid days for workmen employed on the Franklin building now rapidly approaching completion. The brick work is nearly done; the exceedingly graceful and ornamental battlements add immensely to the architectural beauty of this handsome building.

Odd Fellows' hall was thrown open to the public Saturday, and it was thronged by an admiring crowd of visitors all day long. It is said that nearly two thousand persons availed themselves of the opportunity of looking through the beautiful rooms the brethren of the mystic tie have so elegantly fitted up.

It is stated that if a competitive examination for appointment of master ironplater at the navy yard is ordered, the friends of John S. Howell will urge his appointment as being a mechanic of superior abilities and competent for the position. Wm. H. Dennett and J. M. Goodrich it is reported will be induced to enter the list of candidates.

Newcastle is to have a course of lectures during the rest of the winter under the auspices of the Independent Order of Substantials. The opening lecture will be given on Tuesday of next week by Rev. James DeNormandie upon Palestine. Rev. Messrs. McGinley, Grant and other gentlemen from Portsmouth will lecture during January and February. The lectures will be delivered weekly.

We learn that Collector Alfred F. Howard assumes the editorial chair of the *Portsmouth Journal* commencing this week. We don't know why the stone building would not be a good place for great political *leaders* to emanate from, as some of the very best sermons ever delivered from the local pulpits have been written in some of the quiet rooms in that great edifice.

Our worthy fellow citizen, Mr. John Malsbenden, announces a cash sale at his store, No. 101 Congress street, of his entire stock of tailor's goods during this week, at rates less than present wholesale prices,—affording a favorable opportunity for bargains to persons needing winter or spring wear. Mr. Malsbenden has accepted a salaried position in a stock-breeding company in West Virginia, of which Col. Chas Reticker, a well-known manager is the leading spirit, and in which several former residents of this city are prominent. The officers of the company are fortunate in engaging the services of Mr. Malsbenden, whose strict integrity of character and honesty of purpose are ample guaranties of his faithfulness.

YORK COUNTY ITEMS.

A match race for $200 a side will take place in city hall, Biddeford, Thursday evening, Jan. 8th, between Christopher Toole, the champion of Maine, and John Meagher, champion of New Hampshire.

George E. Reed has accepted an appointment as station master and operator at the Eastern railroad depot in Saco, in place of Charles W. Knowles, who resigned for personal reasons. Mr. Reed took charge Jan. 1st.

We learn that Mr. William Furbish the gentleman who raise that wonderful carrot at Beach Ridge, York, has received by one mail fifteen postals inquiring if he had any carrot seed of this particular kind for sale.

The ladies connected with the Methodist church at Spruce creek, Kittery, gave a New Year's supper in the vestry of their new chapel on the evening of the 2nd inst. The vestry was thronged and a handsome sum netted, which is to go towards furnishing the vestry.

FRESH CELERY.

FRESH DAILY IN ANY QUANTITY.

For sale by

H. F. Gerrish.

—The man who ate his dinner with the fork of a river, has been trying to spin a mountain top.

—The following are a few of the best known anagrams:—Telegraph "great help;" astronomers, "moon starers;" Louis Napoleon Bonaparte, "Arouse, Albion!" An open plot;" Old England, "golden land;" parishioners, "I hire parsons;" penitentiary, "nay; I repent;" revolution, "to love ruin;" Presbyterians, "best in prayer;" catalogues, "got as a clue;" and sweetheart, "there we sat."

—A young man was noticed passing through the streets at Rochester, with a small coffin under his arm, and when he reached the river he threw his burden over the bridge into the water. As the coffin fell the lid flew off, disclosing a bottle and an empty cigar box within. The explanation of the strange proceeding was furnished. The man had been advised to bury his bad habits. The idea struck him favorably, and he entered upon it as described.

Cause and Effect.

The main cause of nervousness is indigestion, and that is caused by weakness of the stomach. No one can have sound nerves and good health without using Hop Bitters to strengthen the stomach, purify the blood, and keep the liver and kidneys active, to carry off all the poisonous and waste matter of the system. See other column.—*Advance.*

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says: "One of my patients recommended it to me as the safest and a charm. It has cured many very bad cases of PILES, and has never failed to cure a patient yet."

REV. ALBERT FARNSWORTH, of Williston, Vt., says: "It is of wonderful value. I have suffered years of great suffering from Piles, and Kidney diseases it completely cured me."

A CO. MERCHANT, of Cincinnati, says: "Your package handsome wonders for me. It is completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia, and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

Ayer's *Hair Vigor,*

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use the hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleanses the scalp, cures and prevents the formation of dandruff; gives, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair,

The Vigor is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best book in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains valuable and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

That the public may be protected against imitations and fraud we specially caution all purchasers of BESSON'S CARCINE POROUS PLASTERS to see that the word CARCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small additional profit. ill

It presents in an inexpensive form, consistently its great amount of matter, with promptness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Articles of Talks, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only sufficiently fresh and COMPLETE compilation of an indispensable current literature, *—indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by affording the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day!"—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent reading (or anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has tended the breaking up of the constitution the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison infiltrates throughout the system attacks every vital organ, and breaks up the most robust of constitution sooner or later, but little understood by most physicians, improperly assailed by quacks and charlatans, thousands suffering from it have little hope to be relieved if it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all mankind is placed at once on a scientific and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz: the blood, while the local treatment of the organs by direct application to the nasal passages. I think it based on certain fixed rules, and when faithful forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORCOTT BLOCK, 85, FRANKLINHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but in their families it is preferred to any other, or any one usually prescribed by physicians.

"You may remember," said a distinguished city physician, "that my obligations to the Mass. Medical Society prohibit my publicly recommending or prescribing medical cures; but since I received so much relief from the use of myself, after a thorough trial of many remedies, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly we never sold a similar preparation that gave so universal satisfaction. We have to learn the reverse of this.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted at what we proclaim it, will find it a treasure. Enclosing $1.00 we send this letter or any part of it that you will find very truly yours, H. BADDER & CO.

BY UNCLE JOSEPH.

The first record of the national debt of our country that is at hand was in 1791, when it was $75,000,000. We give simply the millions, omitting the thousands and hundreds. In the ten following years it was greater, one year being $83,000,000. In one of the ten years next following it was $86,000,000. That was in 1804. In 1811 it was down to $48,000,000. By the war of 1812-15, it increased so that in 1817 it was $123,000,000. It did not reach so high figures again till the late war.

After 1817 as a whole it decreased till 1832, when it was $24,000,000. In 1834 it was in millions for the last time for that period, being four millions. In 1855, $351,000, the next year $291,000. That was so low that it was considered just about extinguished, and there was money to quite an amount, called the "surplus revenue," which by act of Congress was divided among the States. After, there was a debt again, nearly two millions in 1837, then increasing till in 1847 it was $38,000,000. The highest point it reached before the late war was in 1853, when it was $67,000,000. In 1861 it was $90,000,000. The next year $514,000,000. In 1863 it was $1,098,000,000. It was considerably higher at the close of the war. It was the highest in August, 1865, when it was $2,874,000,000. A year ago it was $2,029,000,000, being a diminution of $845,000,000 from that of the highest in 1865.

Apropos of the Garcelon scoundrelism, it is recalled to mind that Garcelon was elected by a republican senate, as being a less objectionable man than Smith, the greenback candidate. In the name of wonder, how mean and contemptible is Smith?

A Lady's Wish.

"Oh, how I do wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so," answered the friend. "How?" inquired the first lady. "By using Hop Bitters, that makes pure rich blood and blooming health. It did it for me, as you observe." Read of it.—*Cairo Bulletin.*

Mr. Tilden says he is in the hands of the democratic party, and shall cheerfully acquiesce in its decision. The proper way to state it would have been that the old gentleman is on the hands of the democracy, and they are unable to wash him off.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

Into the languid debate and petty personalities of our politics, this wretched little trickster, Garcelon, this political accident, who has hoisted himself into infamy—has managed to sharply thrust the previous question, which takes precedence of all others: Is cheating to be the law of American politics? Is roguery justifiable as retaliation? Shall we put a premium first on the most ingenious knavery, and, closely following that, on the most daring force?—*Springfield Republican.*

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound is easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

Speaker Randall is trying to get up an outside delegation from Philadelphia to the coming State democratic convention.

The man who heeds not the warning of pain or suffering, which always precedes maladies, often becomes, through indolence, the victim of incurable disease. Lassitude, Weariness, Sadness, Aching of the Limbs, indicate nervous disarrangement, the forerunner of many organic and functional diseases. The early employment of Fellows' Hypophosphites will effectually ward off such maladies.

Just What is Needed for Females.

We have seen specimens of Sambuci Wine, prepared by Mr. Alfred Speer, of Passaic, N. J. It is pure without heating liquor, being absolutely free from spirits further than its own fermentation affords. Great preference is given to it in New York and other hospitals as a tonic, gentle stimulant, diuretic and sedative and especially prescribed for females, old weakly persons, kidney complaint and rheumatism. Mr. Speer has been years experimenting in the production of this wine, and the newest wine he sells is four years old.—N. Y. *Tribune.*—For people that are old and worn out and need a strengthening wine, the above is the best that can be had.

TUESDAY, JANUARY 6, 1880.

The Decision in Maine.

The opinion of the Judges of the supreme court of Maine, which holds that formal errors do not deprive the people of their rights, will be hailed by every lover of good government with appreciation. This is not the victory of one set of partisans over another, but the triumph of the principles of government by majorities over an attempt by means of sharp technicalities to thwart the will of the people. If the positions assumed to be legally held by the Governor and Council of Maine, had been held to be the law of the land, a candidate elected to any office would just begin his contest. The friend of self government can now breath freer, and be led to hope that in the future, no such attempt to deprive the majority of acquired rights will be inaugurated in any other State.

Sumptuous.

A correspondent of the Cincinnati *Commercial* gives this detailed description of the house of James C. Flood, bonanza king, of San Francisco, a large interest in which Ulysses S. Grant, Jr., is soon to marry: "The basement floor is divided into wine cellars, larders, fuel rooms, and has also the heating and ventilating apparatus. The ground floor contains the grand halls and staircases, the library, dining and billiard rooms, conservatory of music, dancing rooms, reception and drawing rooms, smoking rooms, a butler's pantry twenty feet square, smaller pantries, servants' offices, etc. The picture gallery is on the second floor. This room is lighted by handsomely designed ceiling lights of stained glass. The remainder of the second floor is divided in boudoirs, guest chambers, family rooms, dressing apartments, bath rooms, where one may take a "common folks" bath, or luxuriate in the Turkish or Russian process, after the manner of "respectable people." The third floor is designed to furnish room for the small army of servants necessary to keep the wheels of this fine establishment greased and in running order. Slowly descending from the heights, the mosaic work of the floors, the mantels of various colored marbles, inlaid with onyx, malachite, and other costly stones; the frescoing of the ceilings, the variety of the woods used, the handsome carving and artistic finish of the entire building are noted. Passing out through the kitchen, which is formed in one lofty story, open to and ventilated at the roof, the magnificent conservatory is next visited. This is on as grand a scale as the house, and will always furnish choice flowers in sufficient quantities to decorate all the apartments of the mansion. The rarest plants will be cultivated, with blossoms dainty enough to adorn the bride of a B. K. Crossing a lawn to some distance in the rear, and to the right of the house, the stables appear. They might be mistaken for the residences of some of the people a trifle less favored than has been James C. Flood, Esq., B. K., but they are occupied by aristocratic horses, which would sniff the air contemptuously at sight of the steady-going family horse, which goes regularly to mill on week days and to meeting on Sunday. There are sixteen boxes and stalls, with all the modern appliances for the comfort of the occupants. Private gas and water works supply the entire establishment, and every detail has been carefully looked after, making this one of the most elegant private residences in the world.

Senator Blair on Maine.

The Boston *Traveller* publishes an interesting interview with Senator Blair, calls attention to it editorally in a manner complimentary to our junior senator. We gladly lay it before our readers:

Leaving the western statesmen, a reconnoissance after more republican talk, found your correspondent upon Capitol Hill, at the quiet residence of Senator Blair, of New Hampshire. He is an able statesman, of New England birth and proclivities, and was pleased to have an opportunity to talk to the many thousand readers of the *Traveller* upon the Maine imbroglio.

It will be observed that his view of the situation is radically different from that of any other prominent person on this subject. It would be a good thing both for Maine and the country if his predictions should be verified by results. No man has talked more interestingly or learnedly upon this subject than he.

Traveller Correspondent — "Which, Senator, will have the recognizing power, the President or Congress, in case rival governments are set up in Maine?"

Senator—"It will never come to that," said Mr. Blair, "this agitation will go on till next Wednesday, when the legislature will meet and proceed to recognize the duly elected members, as indicated by the returns."

"Then you think the new legislature will be more honest than the present Governor intendes?"

"Well, you, see the moral element of the country is too great to countenance so gross a wrong. When you get right down into the heart of the people of Maine, both Democrats and Republicans there is too much honesty, a deep, abiding sense of right, to lend themselves to a violation of the great spirit of true American government. Many of the men elected, according to the Garcelon count, are equally honest, and those who are not, know well the mettle of the people, and realize it means political death to disregard the claims of the legally elected members. It is very apparent that this plot to steal the State government was hatched by a party of tricksters who are devoid of this moral element, and did not count on it in their constituents, and no doubt they will be very much surprised to see the very men whom they sought to elevate proceed to undo all they have plotted for. Then, again, it seems to me Garcelon and his tribe were very blind to have lost sight of the fact that a crowd of men will not openly and above board consent to commit a fraud, in any intelligent community. Whatever they might do under the cover of secrecy, they would recoil from before the beaming eye of indignant intelligence and morality."

"Do you regard the technicalities as legally taken, Mr. Blair?"

"No. Whatever slight technical errors may exist, the intention of the law is clearly manifest, and precedent has long established it. This is an age that does not retrograde, and ours a government that is not bound by a thread. In the early history of law and up to more recent times, a literal rendering of the statutes was adhered to, because it was first necessary to educate the human mind to the restraints of law, and in the process it was dangerous to complicate matters by stepping aside from the rigidity of the most liberal interpretations. But intelligence has assumed a plan that asks for the intention of the law, the good it intends to accomplish for society. The rulings of our courts are in this direction. Hence Mr. Garcelon's subterfuge asks the State of Maine to be controlled by a puerile state of law to accomplish his unworthy purpose."

"If, however, two governments should be set up, Mr. Blair, what is your opinion as to the recognizing power?"

"The president has undoubtedly the initial step in such a decision. But as to its ultimate result, much would depend upon the peculiar complications of the case. It has such bearings that only the exigencies would determine whether and how it would get before Congress. But, as I said before, it will not come to that. The good sense of the people of the State of Maine and the moral element will operate to bring about an amicable settlement."

News and Notes.

Congress re-assembles to-day, and the first business in the House of Representatives will be consideration of the report of the committee on the revision of rules. This it is expected will consume much time, as many changes from the old rules have been suggested in the committee's report.

The Chilians have captured the Peruvian torpedo launch which sailed from Havana in November last, under Hawaiian colors.

Over forty bodies have been taken from a cemetery at Richmond, Va., Most of the plundered graves were those of colored people.

Eleven passengers of the English steamer Borussia, picked up at sea off Azores, have arrived at Baltimore. They confirm the previous reports of the abandonment of the steamer.

The family of Mr. Wm. P. Wilson, living in Providence, R. I., were poisoned on the 31st ult., it is thought from potatoes eaten at dinner. About three o'clock in the afternoon Mr. Wilson, while at work, was suddenly taken with vomiting and severe cramps. He went home and found that his wife was suffering in the same way and had been taken at the same time. Soon after this their children, two boys, came home from school, one of them complaining of not feeling just right, and in a little while they too were suffering like their parents. The vomiting was almost incessant, accompanied by purging and the cramps very severe. A physician was sent for, and he administered an antidote, which relieved them almost immediately, though none of them have as yet fully recovered. An investigation by the doctor led him to conclude that beetles had eaten their way into the potatoes and died there, causing the sickness of the family.

Dr. Garcelon has at last felt the popular pulse.

An insurance journal has made a table of the losses by fire throughout the United States during the year 1879. They amount to $78,898,700. The four previous years make much the same showing. The insurance losses seem to be about half of the total losses. During the first six months of the year, for which alone the figures have been accurately compiled, the losses and expenses of the Massachusetts insurance companies exceeded their income at the rate of $18.50 for every $100 of risks.

Collector Beard's administration of the affairs of the Boston custom house exhibits a gain on amount of duties over a corresponding term, under Simmons' management, and a decrease in expenses in the collection showing a healthful result in rotation.

Stocks are again on the rise. Chicago, Burlington & Quincy railroad, especially, is rapidly advancing. Atkinson, Topeka & Santa Fe railroad, in which some of our Dover neighbors speculated, is on a lively rise, and fabulous tales are told of the sums made by operators in the stock and bonds of this corporation, at the head of navigation.

Charles Stewart Parnell, who comes to this country to champion the cause and obtain relief for suffering people in Ireland, addressed several thousand persons on Madison square, New York, on Sunday night.

The Londoners, not to be out-done by the Parisians, have had an overflow of the Thames.

The Ex-President had a warm reception at Fernandina, Florida; eighty in the shade.

An Ohio sheriff and a constable had a desperate fight with three men, who are charged with murder, and both the officers were seriously wounded. Only one of the murderers was captured.

Patent suits against quite a large number of persons using wells in Farmington and Rochester brought by William D. Andrews & Brothers of New York and Nelson W. Green of Springfield, Mass., have been entered in the Circuit court of the United States for the District of New Hampshire for an infringement of a patent owned by Andrews Brothers & Green, the letter of whom was the inventor.

A returned missionary is sawing wood at the Hartford town farm at fifty cents a day. He says he does it for his health, as his mind has been affected by overwork, and he looks to physical labor as a restorative. He refuses dinner at the town house, as he claims that a strictly fish diet is necessary, so he has arranged at a restaurant for this kind of fare twice a day.

Bishop Gilbert Haven died at Malden on Saturday night, aged fifty-eight years.

The Ute murderers have not been surrendered, and Gen. Hatch does not expect they will be.

The book-keeper of the Mt. Holly national bank, N. J., has confessed to the embezzlement of several thousand dollars.

Boston is to have a new club modelled after the Century Club of New York. A preliminary meeting of gentlemen interested was held on Saturday, and a partial organization effected.

Edwin R. Kirk, an old New York merchant, has been arrested, charged with having in his possession a $5,000 registered United States bond, which was stolen. Mr. Kirk says he can produce the man from whom he obtained it, and that he had no idea it was stolen property.

An enormous eagle in Georgia swept down upon two little girls aged three and five years, throwing them to the ground. It buried its talons in the face and arm of the elder and attempted to carry off the child, but was prevented by her struggles. A little brother, seven years of age, came to her assistance with a carving knife, slashing the eagle's legs, when it turned upon the boy, who was soon released by the appearance of Joe Betzler, a neighbor, upon the scene, who shot and killed the bird. It measured seven feet from tip to tip.

The suits brought by Asa T. Barron, the well-known hotel proprietor, against Geo. H. Worthen and Daniel S. Flanders for trespass, for assault and false imprisonment at Lebanon on the 30th of September last, has been removed by Mr. Barron to the Circuit court of the United States from the State court of Grafton county.

Joseph Bixby of Warren, who died on the 3d inst., from injuries received by a carriage accident seven weeks ago, willed the Methodist church at Plymouth, $400, the Methodist mission $150, and the superannuated preachers' fund $1000.

Five hundred dollars in New Hampshire bonds, having less than six months to run, brought one-half per cent premium at auction in Boston last week.

During last fall, Simeon L. Locke of Lyman, put some cider that he had made into a cheese press that had been painted on the inside. Mr. Locke and a brother, Elbridge G., from California, died recently, it is supposed, from drinking the cider, which the paint had poisoned. Mr. Locke's wife, another brother and two sons, are now dangerously sick from the same cause.

George W. Cram of Boston, has sued the Peterboro' Railroad Company, to recover $103,000 for extra work over the contract in building the road.

Good Hotels.

Hotel accommodations for travellers are of the greatest importance to persons who have to move about the country on business or for pleasure. "Just where to go" is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York city, is a very popular resort, because the attendance there is prompt and satisfactory. The charges are reasonable and the menage complete; try it. Families can live better for less money at the Grand Union Hotel than at any other first-class Hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

AROUND HOME.

Plenty of smelts in Great bay.

Dr. Donaldson moved into his new office in National block, on Monday.

Rev. C. B. Pitblado lectures on "Love and Love Letters" in the Beacon street church, Bath, Me., this evening.

Rev. E. Owen preached his farewell sermon as pastor of the Pearl street Baptist church last Sunday.

Middle street needs an additional gas light between Haymarket square and Austin street.

The Eastern railroad engineers are being pretty well shifted around consequent on the discharge of several color-blind employes.

A union depot is earnestly talked of for this city, and it is said that a committee of conference will soon be chosen by the Eastern and Concord roads to consult together relative to the project

The reform club is to have a business meeting in Bow mission hall this (Tuesday) evening, and its quarterly election of officers at the same place on Friday evening.

On Monday afternoon we were visited by Elder B. F. Cummings of Salt Lake city, who is in this city for the purpose of tracing the genealogy of the Marden family.

Rev. James DeNormandie's discourse on Sunday evening was a review of the past year, and reflections upon the lesson taught by the events connected with the South Parish in 1879.

Voluntary City Missionary Loyne on Monday received from a member of a clothing firm in this city a receipt for $60 for clothing used in the mission work during the year 1879.

The concert at the Methodist church Monday evening was a fine entertainment, and well attended. The readings by Misses Giddings and Deverson were particularly well rendered, as was the singing by the male quartette.

Miss Kate Sanborn gave a parlor lecture on "Bachelor Authors" at the residence of George W. Haven, Esq., on Islington street, on Friday evening. The lecture is spoken of as having been interesting and sparkling with bright and witty sayings.

It took nearly four hours to get the iron safe belonging to Piscataqua lodge into the new Odd Fellows' hall on Monday; the safe weighed 3000 pounds, and the numerous turns in the three flights of stairs rendered the job an exceedingly difficult one, but it was nicely done under the skillful management of Mr. Joseph C. Muchmore, rigger.

Mr. Calef's plan of a moderation society as practiced in New York and England, for a certain class of drinkers, was rather ridiculed by prominent prohibitionists, at Mission hall Sunday evening. Other meetings are to occur. Why not have a double-barrel temperance society, a total abstinence one, and one for moderate drinkers? H.

Odd Fellows' hall was packed to its utmost capacity Monday evening, the brethren of Piscataqua lodge bringing "their sisters, their cousins and their aunts" (don't shout) to witness the installation of their new officers. The occasion was one of rare enjoyment, and will long be remembered by this lodge, as it was the first to christen the elegant hall and its furnishings.

On Saturday last, Mr. John Moran, while crossing Congress street, near Franklin block, was knocked down by a team that was being driven at a rapid rate. The blow was heavy enough to upset the sleigh, although we are glad to learn that none of the parties were seriously injured. It is about time that fast driving on our public streets was prohibited by those who have the authority to do so.

Mercer Goodrich, Esq., is to remove his stock of goods from the city building to the store on the corner of Market and Daniel streets, which for the past few years has been occupied by Mr. J. Dwight Rundlett, druggist. Mr. Rundlett is to go into business out of the city, and has sold his stock of goods to Mr. Joseph H. Thacher. Mr. Rundlett is a genial, unassuming gentleman, and will make friends wherever his lot may be cast; we regret that he is to leave Portsmouth.

TEMPERANCE REFORM.

At the regular meeting of the reform club on Sunday evening last, Capt. J. B. Calef, a stranger in this vicinity, a temperance lecturer and a reformed man, talked moral suasion, and even hinted that there was salvation for the rumseller. He said, among other things, that it would be wise to circulate a pledge among liquor sellers, binding them to abstain from selling drink to an intoxicated man; also pledging drinking men not to "treat" one another; saying that these measures were being adopted in our larger cities as a means to lessen the evil of drunkenness, and with good results. Such pledges have long been in use in England, and the great temperance apostle and oracle, John B. Gough, says the plan works well.

TRAINED ANIMALS.

Mr. Amos Prescott of Greenland possesses an ability as a horse-trainer that well-nigh equals that of the once famous Rarey. Mr. Prescott came into the possession recently of a horse that could be held only with the greatest difficulty, always being driven upon a tight rein—a regular "puller." In three weeks after he came under Mr. Prescott's tutorship, he was driven from Greenland to Market square, in this city, the driver without so much as lifting the reins from the dasher. He will follow his master anywhere and perform tricks that are commonly exhibited in a circus ring. All done by kindness, too. Mr. Prescott's power in this direction is not confined to horses. He has a trained calf that will accomplish the most astonishing feats of posturing and intelligent acting, that will make him an object to be sought after by showmen, altho' it is doubtful if his owner would part with him for any sum of money.

GIVEN UP.

Publishers of Chronicle: I ask the privilege of a space in your columns to announce to the public, or that portion of it who are interested in the success of the *Advertiser*, that I have been compelled to abandon my cherish scheme of publishing a monthly paper in the interest of the children, dumb animals, and the general welfare of humanity. I will not attempt to conceal a feeling of disappointment at the failure of this enterprise; not that there are not already quite enough newspapers in the field; but it seemed to me that this little paper of mine was in nobody's path, and that it filled a special department that needed occupancy. However, as the public have otherwise decided, it only remains for me to submit with a pleasant grace, which I shall most assuredly do, after asking you to give this information to my friends, whom I can reach more conveniently by this method than by any other.

Very Truly Yours,
CHARLES W. GARDNER.

Friends to the number of thirty, gathered at the residence of the bride in York, on the 26th ult., to witness the consummation of the marriage rites, by the Rev. D. Randall between Mr. Almander Wilson and Miss Joanna Raynes, both of that town. The event was one of great pleasure and happiness to all present. The happy couple (both over sixty years of age) received many valuable presents and the congratulations of friends.

CAPE NEDDICK, ME., Jan 5th.

Mr. Editor: There is splendid sleighing here now, which is being improved both by farmers and sleighing parties. The teams are hauling wood into your city in a lively manner. The schooners belonging around here are all hauled up for the winter. Captain Joseph Weare owned a piece of the schooner T. J. Trafton, which was lost a short time time ago. Appleton Talpey is hauling rocks to underpin his house. The Messrs. Todd are hauling wood from Agamenticus for Mr. Brackett to ship to Boston. There is considerable cord wood being cut this winter. Mr. Daniel Goodwin is having fifty or seventy-five cords cut for the market. SUB.

In vain the eyes are filled with light:
In vain the cheek with beauty glows,
Unless the teeth are pure and white,
Unless the breath is like the rose;
And SOZODONT alone supplies
These beauties that we all so prize.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. 4

The January number of the *Eclectic Magazine*, beginning a new volume and a new year (the 36th), is a remarkably attractive one. The *Eclectic* makes a specialty of steel engravings, and the present number contains a very fine specimen of each of the two great branches of the art—mezzotint and line-engraving. The line-engraving is an exquisite *genre* picture, entitled "The Smile," and illustrating the line from Goldsmith's "Deserted Village": "Full well they laughed with counterfeited glee." Its contains the figures of eight children seated on a school-room bench, and is as happy in design as it is skillful in execution. The mezzotint is entitled, "Sir Walter Scott and his literary friends at Abbotsford," and contains thirteen figure portraits grouped about Sir Walter Scott, who is reading. It is reproduced from Faed's famous picture, and has been most carefully engraved by Mr. Sartain. Either of these engravings is well worth the price of the number, and both together are worth the subscription price of the magazine. The leading article in the number is Professor Max Muller's address "On Freedom." The nature of other articles in the number is of the most interesting type.

This number, commencing a new volume of the magazine, offers a favorable opportunity to subscribe. Published by E. R. Pelton, 25 Bond Street, New York. Terms, $5 per year.

Gov. Garcelon says he followed the constitution and laws, but we fail to see where he finds his authority to reverse the will of the people by legal action. The governor and council are authorized to examine the returns and issue a summons to such persons as shall appear to be elected." On the face of the returns certain persons appeared to be elected who were counted out by the governor and council for various reasons.—*Boston Herald.*

Men of letters—the clerks in the post-office.

—A Philadelphia speculator had sixty theatre tickets left on his hands. He tore off the reserved seat coupons, and sold the remainders for simple admissions on a subsequent night. The manager refused to honor them, and the speculator returned the money to the purchasers. He has obtained a judgment at law for the admission value of sixty tickets.

Cause and Effect.

The main cause of nervousness is indigestion, and that is caused by weakness of the stomach. No one can have sound nerves and good health without using Hop Bitters to strengthen the stomach, purify the blood, and keep the liver and kidneys active, to carry off all the poisonous and waste matter of the system. KIDNEY-WORT

PERMANENTLY CURES
KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.

DR. E. H. CLARK, South Hero, Vt., says: "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to set them off."

NELSON FAIRCHILD, of St. Albans, Vt., says: "It is of priceless value. After sixteen years of great suffering from Piles and Constipation it completely cured me."

C. S. EDGARTON, of Stockbridge, says: "One package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled SCIENCE OF LIFE, or SELF-PRESERVATION;

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 300 fine and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE MODEL RANGE

—FOR—

Hard or Soft Coal or Wood

—HAVING THE—

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash pan is especially convenient. The ventilated boiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent clock drab and cove flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

Popular Monthly Drawing of the

Commonwealth Distribution Co.,

AT MACAULEY'S THEATRE,
In the City of Louisville, on

JANUARY 31st, 1880.

These Drawings, authorized by act of the Legislature of 1869, and sustained by all the Courts of Kentucky (all fraudulent advertisements of other lottery companies who claim the sole ownership of "all the grants in Kentucky," to the contrary, notwithstanding), occur regularly on the last day of every month (Sundays excepted), and are supervised by prominent citizens of the State.

Every ticket-holder can be his own supervisor, call out the numbers and see it placed in the Wheel.

The management call attention to the grand opportunity presented of obtaining, for only $2, any of

That the public may be protected against imitations and fraud we specially caution all purchasers of DENSON'S CAPCINE POROUS PLASTERS Do to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good. Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of genuine and make a small additional profit. Ask for DENSON'S CAPCINE POROUS PLASTERS. Take no other. Sold by all druggists. Price 25 cents. Address

THE GREATEST LIVING AUTHORS, such as Prof. Max Müller, Dr. Dr. J. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, the Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Riphan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will for ladies its readers the productions of the most eminent authors, *above-named and many others*; embracing the choicest critical and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, consistent with its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Poetry, Political, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only adequate, fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through it alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Evening Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our various American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Every Evening.*

For $10.50 THE LIVING AGE and *either* one of the American $4 monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *both postpaid*; or, for $9.50 THE LIVING AGE and the *St. Nicholas*, or *Appleton's Journal*. Address,

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has tened the breaking up of the constitution the starch. The disease of self, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison introduces throughout the system stacks every vital force, and breaks up the most robust of constitution ground because but little understood by the physicians, impotently assisted by quacks and charlatans who suffering from it have little hope to be relieved if it this side of the grave. It is time, then, that the popular treatment of this terrible disease by regular within the reach of all passed into hands as once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of RADICAL CURE has won my hearty approval. I believe it likely to succeed where all the usual remedies fail, because it strikes at the root of the disease, viz. *a morbid blood*, while it heals the ulcerated membrane by direct application to the nasal passages. I believe it based on certain fixed rules, and unless it fail to force a cure for exhausted, most, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, 80, FRAMINGHAM, Oct. 1, 1879.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies that deserve the approval of medical gentlemen who, in private, not only freely recommend it but in their practice in preference to any of the proprietary ones usually prescribed by physicians.

"You are aware, I said to the original city physician, that my obligations to the Mass. Medical Society which that I cannot publicly recommend or prescribe the Radical Cure; yet since I received so much relief from the use of it myself, after a thorough trial of the usual remedies, I have privately advised the use of it, and have sent to your store no less than one hundred and fifty patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the last of its virtues. We are not in the habit of recommending patent medicines, but your preparation meets the wants of the public, and we feel it our duty to add our testimony to the great merit of a remedy that renders so much relief to the suffering world. Yours truly, S. D. BALDWIN & CO. Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1878.

Each package contains Dr. Sanford's Improved Inhaler, Price, $1. For sale by all wholesale and retail druggists throughout the United States and Canadas, and by WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

A Electro-Galvanic Battery combined with highly Medicated Strengthening Plaster, making the best Plaster for pains and aches of the World of Medicine.

ELECTRICITY

is a great curative and restorative agent in the palm of any practitioner in the healing art. Unless the vital spark has fled the body, it can be revived by the judicious application of electricity, as is attested by all physicians and surgeons, and has received universal recognition at home and abroad. Have, when its other human agency could not avail, relief. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the fir are to well known to require description. Their grateful, healing, soothing, and curative properties commend them to all. When combined in accordance with late and important discoveries in pharmacy, their healing and remedial properties are increased tenfold. It is regard our Plaster as the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produces more cures than any liniment, lotion, washes, plasters or medicines before introduced in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

EXPOSITION OF 1876. Wandering through the United States section of this truly wonderful Exposition, hypercritical, fastidious and over-displayed as the most of it is, I came upon an elegant glass case, whose modesty was the more conspicuous from its neighbors' finery, surmounted by the motto *Digestive Pracmonia*, and displaying, in neat packages, the medical preparations of the house of DR. J. C. AYER & CO., Lowell, Mass.

I was aware of the world-wide reputation of this eminent firm, for the character and quality of their goods, and remember well their agents in London, Mr. NEWBERRY, in St. Paul's Churchyard. Having a leisure hour, I determined to examine the contents of this case, myself, and I was surprised to see the delicate perfection to which they have brought their household remedies. I was chagrined at the reflection that, while we have at home the most skilful and pre-eminently the best physicians in the world, these Yankee doctors distance us so far, in the line of popular medicines for family use. They have the sharpness to take advantage of the high scientific discoveries among us and make pills and potions as palatable as they are salutary. I was told by a leading druggist in Philadelphia, that Dr. AYER, manufactory was the largest in America, giving employment to hundreds. I must go to Lowell and see it, on my way home.—*Correspondence of the London (Eng.) Telegraph.*

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

Professor Bell announces that before many weeks a person in this country can converse with a person in England by telephone.

A Successful Diaryman

is the one that makes uniform "gilt-edged" butter the season through, and sends his butter to market in perfect condition. The best diaryMen all through the country have by long and varied experience found that there is no article so perfectly adapted to keeping up the golden June color, now absolutely necessary in order to realize the best price, as Wells, Richardson & Co.'s Perfected Butter Color, made at Burlington, Vt. Buy it of the druggist's, or send for descriptive circular.

The superintendent of the Grand Trunk railway has issued a circular to all the employees, calling upon them to join the total abstinence society, which has been organized for some time past.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

Seven men and six women were lately drowned in Loch Idal, Scotland, while returning home from a fair in a small boat, which they overloaded.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

One thousand and fifty-five new buildings, mostly of brick, have been erected in Chicago during the present year, at an aggregate expense of $6,454,000.

Highest Prize Port Wine.

The best wine in the country, that took the highest premium at the Centennial, is Speer's Port Grape Wine, which has become the most celebrated product of New Jersey. This wine and his P. J. Brandy are now being used by Physicians everywhere, who rely upon them as being the purest to be had of druggists. It is unsurpassed for weakly females and old people.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

Adamson's Botanic Balsam has gained a reputation which places it in the front rank of curative agents. It has been in the market but about nine years. It is now recommended by the best physicians because it cures Coughs and Colds every time. Price, 35 cts.

New Year's Calls.

An idea of how New Year's calls and card-sending was carried on in New York, may be gathered from the fact that about fifteen thousand cards were delivered on New Year's day by the messengers of the American District Telegraph Company. Eight hundred boys were employed the whole day in distributing the cards, four general deliveries being made for this express purpose. The number was greatly decreased in the latter part of the day by cards sent in from callers, who found the time too short to complete their list in person. The fifteen thousand cards, bearing with them the compliments of the season to the fair recipient, were small in number in comparison to the thousands of callers, who, "gotten up regardless," passed from house to house, leaving behind best wishes for a "Happy New Year," and swelling the lists to the aver-number of two hundred calls anticipated by the queens of the festival, who donned their most fascinating graces and fine clothes to honor the occasion. This is a pleasant feature of the season. The newspaper men in this section are always glad to "receive" in their offices on New Years. Terms can always be ascertained on looking at the head of the newspapers.

Clarke's Manchester Directory.

Col. Clarke issued on New Year's day his city directory with political manual, hotel register and other valuable local and State information therein contained. The compiler assumes that a Manchester man can furnish more accurate and satisfactory directory of the home of the governors than any foreigner. He claims to have spared no expense and to have done nothing in a slip-shod or hap-hazard manner, but to have achieved accuracy at the low price of one dollar per copy. The Colonel mounts the rostrum of the presidency, and gives a pardonable crow over his production and promises a repetition of his efforts for next New Year's. The work is well arranged, well printed and its perusal seems to warrant all that the publisher claims for it. The work of compiling a directory is one of no limited character. No meagre canvass, no guesswork, no relying upon others for information which must be accurate to its veriest detail, will satisfy the patrons of a directory. The work must be ample, correct and generous in its make-up. All this we find in Clarke's directory, and we endorse to the fullest extent the pluck and perseverance of our genial friend of the Amoskeag which has given to his city and the State so useful, complete, and nicely-executed a work. Success to the enterprise which is born and developed by local efforts as against the attempts of outsiders to manage a directory for the big city of Manchester.

News and Notes.

The fusionists of Maine spent the day Tuesday in working up their men to the sticking point. The air was full of rumors. The Legislature convenes to-day.

The California legislature assembled on Monday. The fusion talked of between the democrats, workingmen and new constitution assemblymen, to organize the assembly, fell through, and on the first ballot the republicans elected J. H. Cowdry of San Francisco, as speaker. The republican senatorial caucus resolved to send a despatch to Senator Blaine and ex-Senator Morrill of Maine, congratulating them on the decision of the supreme court and adjuring them to stand firm and maintain their rights.

It is stated that the syndicate which controlled the French cable shares have thrown them upon the hands of the contractor on account of a flaw having been discovered in the contract.

Among the assets of the Grocers Bank of New York between sixty and seventy thousand dollars of forged notes appear.

City governments in New England generally turned over a new leaf on Monday. The mayors gave the usual dry statistics and made the usual financial promises. In Providence, R. I., Mayor Doyle made his fifteenth annual address.

Mayor Currier informs us that Newburyport reduced the municipal debt $9,947 20 last year, and expended for its public library $1,340.30. Charles H. Deltoshemont, formerly of this city, was re-elected city marshal, a position he has before filled with great satisfaction to the authorities of Newburyport.

Geo. E. Locke, well-known to all theatre goers as Yankee Locke, died on Monday at Dracut, Mass. He was a native of Epsom, N. H., born in 1817, and made his debut as Las Casas in Pizarro in Boston while yet a youth, under the direction of Wyzeman Marshal. Since then he has appeared at different places; at one time in California; at another period he was a member of the Boston Museum company. His last appearance on any stage was on the 14th of December last, at Lynn, playing in "Trumps." His knee, in which there was a diseased bone, had been troubling him for three years, and he determined to have an operation performed before he started out on the road with a new play. His company was all formed, and the piece was to be given for the first time at Lynn on Saturday next. This operation was performed about three weeks ago, but the diseased matter circulating through his system caused his death. He leaves a wife, but no children.

They do not build their breweries as well in New York State as they do in Portsmouth. The fifth floor of one section of the Greenway Brewery, N. Y., gave way last week, and in its fall carried all below it, and with it a man on the upper floor and another on the lower floor, who were injured. Seven hundred bushels of corn and wheat, one hundred and seventy-five bales of hops, five thousand bushels of Canada malt, and two thousand bushels of malt dust were precipitated into Onondaga creek.

The Wesleyan Methodist Church of Ireland have decided to raise, for the benefit of education and home and foreign missions, $100,000, to be called "The Thanksgiving Fund."

The war over the Coteau Bridge scheme rages with great fierceness. All Canada above Montreal may be said to be in favor of the scheme. By the building of this bridge, the all rail distance between Toronto and Boston will be reduced to 626 miles. It is now 669 miles via Montreal. It will also bring Ottawa 37 miles nearer the sea than it is now. The Montreal *Witness* does not apprehend that Montreal interests will suffer from the building of the bridge, but says, with great fairness, that even if they do, the whole of Western Canada should not be made tributary to Montreal. Practically, by this Cotau bridge plan, Boston will become the winter port of Canada. The greatest opposition to the measure is offered by the Grand Trunk Railway, who not only fears the competition, but will lose its control over the railways which it now has through the Victoria Bridge. It would seem, owing to the powerful opposition to the plan, that it must remain in abeyance for the present. But, of course, it is one of those things that is bound to "go" eventually.

Hon. Nathan Crosby, of Lowell, for the thirty-fifth consecutive year, administered the oath of office to the incoming mayor of Lowell on Monday.

A fire occurred in a building on East Fourth street, New York, on Monday morning, which damaged the building to the amount of $7000. Four persons were either burned to death or killed by leaping from the burning building.

Rev. Jacob Ide, D. D., the eminent divine, and the oldest Congregational minister in New England, died in West Medway, Mass., Jan. 5th, aged ninety-six years and nine months. Dr. Ide was a native of Attleborough, Mass., graduated at Brown University in 1809 and subsequently at Andover. Prior to 1814, he was for a short time stationed over the North parish in this city, afterwards going to West Medway, where he spent the remainder of his life; he occupying the pulpit in that town sixty-five years, retiring in March, 1879.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.
The Reformer and Vitalizer of the Blood
The Producer and Invigorator of Nerve and Muscle.
The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which ionstitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS, St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

AROUND HOME.

The H. W. H. held a social assembly at Good Templar hall Tuesday evening. Although the weather was unfavorable, quite a large party were in attendance.

The Eastern railroad have leased to a Mr. Armstrong the right to control all their restaurants and news stands on their line, so far as their property is concerned.

The Boston *Globe* of Tuesday says that Joseph G. Knights, for several years connected with the shoe manufactory of Chas. B. Lancaster, in Lynn, is to take charge of the co-operative shoe factory at Portsmouth.

While many of our large corporations are increasing the pay of their operatives, the pay at the navy yard has been reduced, taking effect Jan. 1st. The laborers, plumbers and painters have been cut down twenty-five cents, and in yards and docks the firemen suffered a similar reduction.

The president and directors of the Eastern railroad, together with Supt. Sanborn passed through here Tuesday morning, in the directors' car, bound east; returning at 2:55 P. M. They inspected the crossing at the foot of Vaughan street, and then adjourned to the Rockingham house.

A prominent Congress street merchant, disgusted at the way the shoe factory question is being treated by our citizens, was heard to remark Tuesday that if he was twenty years younger, he would sell every dollar's worth of property he owned here and move to some place where there was enterprise enough to at least keep the place alive.

The brick work on the Franklin building was finished Tuesday, 1,100,000 brick being used in its construction. The lathers have nearly finished the offices on the Congress street front and expect to complete the lathing of the building by February 1st. The tin for the roofs has arrived, and work in this department will commence as soon as the weather will permit.

POLICE COURT.

On Tuesday Frank Watson was brought up on a warrant for drunkenness. Ordered to leave town.

John Condon, drunk, fine $5, and costs, taxed at $6.90, in default of the payment of which he was sent to jail.

Thomas Edwards and William Dolin, were fined $8 and costs, $9.90. Sent to Brentwood.

A NEW HAND AT THE BELLOWS.

Our esteemed and vivacious contemporary, the *Journal*, will, in addition to the changes in newspaper row at this season, avail itself of the signal ability of a new political editor in the person of Alfred F. Howard, Esq., the gentleman who so ably discharges the arduous duties as collector of the port. We know not how much experience Mr. Howard may have had in this department of literary labor, but he is an experienced politician, with a due appreciation of the importance of keeping the best men in office, a firm advocate of the practice of civil service reform so far as the retention of the "ins" is concerned, and withal a sensible, honest and bold man. When the collector for a time lays down his official pen and red tape, to assume the editorial goose-quill and paste-pot, we shall expect to see the sparks fly, and under his political guidance we shall hope to have our time-honored neighbor maintain its reputation for a positive political journal and a sparkling sheet of which we have long been proud. In the meantime Mr. Howard will continue in the collectorship, confining his new duties to such hours as will not interfere with the proper observance of the official regulations in this respect. Mr. Howard's efforts we are told will be confined to the political portions of the paper, the local department remaining under the charge of Mr. Samuel Dodge, who has long been connected with the paper as local contributor.

HAM'S SHIP-BELL CLOCK.

The ship-bell clock recently patented by Mr. H. H. Ham, Jr., of this city, will no doubt rapidly force itself into favor with the nautical fraternity, as there is every reason it should do so. Several Portsmouth shipmasters have engaged them, and the E. N. Welch Manufacturing Co., of Forestville, Conn., which establishment is getting them up for the market, a few days since received an order for five hundred for immediate sale. The peculiarity of this clock is its manner of striking, in which it exactly imitates the manner in which a ship's bell is struck to mark the hours and watches; that is, at four, eight and twelve o'clock, instead of striking the number of the hour with regular and equi-distant strokes, it gives "eight bells" with four double strokes, with proper intervals; at three bells, a double stroke, interval, and single stroke; at seven bells, three double strokes and a single one; in short, it strikes the marine "bells" instead of the ordinary hours.

Mr. Ham has just perfected an improvement in the gong and striking gear, which makes the clock perfect for the purpose for which it is interested, and we believe it will be rapidly adopted in the ships of all nations which "strike the bell" in the same manner as the British and American seamen do. As improved, the clocks strike loudly enough to be heard all over the saloons of an ocean steamship; and if a sailing vessel has one of them in her cabin, the man at the wheel will never be tempted to sneak from his post when the officer of the watch is looking in some other direction, to try and peer through the frosted or steam-dimmed glass of the skylight at the cabin clock, to know if his weary "trick" is almost up, — thereby tempting the aforesaid officer to break his head with a belaying-pin, if he catches him at it, for being away from the wheel.

We believe ship-masters and owners will only need to inspect this invention to approve of and adopt it. The clocks are very strongly made and handsomely finished, and are sold cheaper than ordinary clocks of the same size were sold five or six years ago. One of them is in the office of Secretary Thompson of the navy, and permission has been granted to place them on board all the national ships in commission, on trial, without cost to the government; and if approved, they will be adopted as the "official" clock of the United States navy. All they require is a trial.

Another invention of Mr. Ham's, which was patented several years ago but has never (so far as we are aware) been put on the market, is a blind-fastener—the only one we ever saw that is good for anything. It is simple in construction and unfailing in action, and blinds to which it might be affixed could never slam or rattle, or sag on their hinges; and the fixtures seemingly could never be broken or worn out. This fixture, however, being of brass, would cost a trifle more than the flimsy and inefficient iron ones in general use, which we suppose is the reason it has not become popular; but if we were building a house we would much prefer to pay ten dollars to have the blinds fitted with Mr. Ham's invention, rather than to have any other we have ever seen put on for nothing.

Chronicle Correspondence.

RYE, Jan. 5th.

The weather has been mild here the past week, with some sudden changes, and Sunday the thermometer rose to eighty.

Monday evening the friends and parishioners of Rev. Ira S. Jones, pastor of the Christian society of this town, gave him a pound party, at his residence, and a large number were present and had a very enjoyable time.

Prof. J. E. Lord of Providence, R. I., a popular reader and elocutionist, gave some select readings and recitations at the Town hall, Tuesday evening, which was attended by a good audience, and the readings were well received.

Thursday evening a large number of the Odd Fellows of this town were present at Portsmouth at the dedication of the new hall, which the fraternity are to occupy in the National Block. They expressed themselves well pleased with the beautiful and appropriate dedicatory exercises of the evening. This town is well represented in the Order of Odd Fellowship; having more members of the mystic tie than any other town of its size in the county. There are even enough to start a flourishing lodge here.

An old fashioned sleigh came off at the residence of G. A. Jenness, on Friday evening; a good singing choir were present, and rendered fine music.

The revival meetings at the Second Advent chapel have been held every evening during the past week. Saturday night the meeting was well attended and brothers were present from Portsmouth and Hampton. Earnest exhortations were made by the brethren. Elder White of Portsmouth and Elder Smith, the pastor, were present and conducted this meeting, which was quite interesting. The results of the meetings thus far have been eight conversions. Most of these were young men, and some of them have been pretty hard boys. The meetings seem to have done much good, and have been well attended. The revival is to continue this week.

G. H. Jenness, assistant enrolling clerk of the National house of Representatives at Washington, D. C., started for the latter place on Monday, to assume his duties at the re-assembling of Congress.

SCRIBE.

YORK, MAINE, Jan. 3d, 1880.

Ed. Chronicle: In compliance with a call for all honest citizens who desired to express their formal disapproval of the action of Gov. Garcelon and his council in the official canvass of the returns of our late election, a large and enthusiastic audience assembled at the Town hall this evening, composed of our best and most respected citizens, irrespective of party.

Col. Jeremiah Brooks, the oldest man present, being upwards of eighty-five years, called the meeting to order, He nominated G. W. S. Putnam as chairman of the meeting, who, upon taking the chair made a few remarks, and called upon Rev. D. B. Randall to offer prayer. The organization was then completed by electing Mr. George W. Currier, secretary; Capt. John B. Fernald, Josiah D. Bragdon, Octavius Weare, and William G. Shattuck were chosen vice presidents, with a committee of five on resolutions, consisting of Dr. John C. Stewart, Washington Junkins, Appleton H. Talpey, Daniel B. Harris and Lemuel Mitchell.

While committee were preparing their report, Messrs. John E. Staples, Wm. F. Mozart, John E. Norwood and Charles H. Chapman were called upon by the chairman, and responded by short addresses, condemning the governor and council for the course pursued by them. Before making the formal report from the committee on resolutions, Dr. Stewart prefaced them with a few explanatory remarks.

The following resolutions were then accepted and adopted.

Whereas, The action of the governor and his council in issuing certificates of election to men who were defeated at the polls and in certain instances to men who received less than one-fifteenth of the total number of votes cast for their opponents, is in open violation of the Constitution and the laws of the State of Maine.

Whereas, The will of the people has been entirely defeated.

Whereas, Five cities containing nearly one-ninth of the entire population of the State, one-fourth of the total property valuation and more than 16,000 voters have been deprived of any representative and thereby disfranchised. Therefore

Resolved—First, That as the safety of the American form of government depends entirely upon the absolute and cheerful acquiescence in the will of the people as expressed at the polls, the present condition of affairs is subversive of law and order, treason against the government, and a crime against liberty.

Second, That by refusing to entertain the petitions of the citizens of Maine, by assuming to decide as to the constitutionality of law, by defying the remonstrances of the people, by usurping the power of the two co-ordinate branches of the government, by invading the rights of town in attempting to dictate as to the form of the ballot to be used, by assuming that names have been forged to the returns, without even *ex parte* evidence; by refusing to issue certificates of election to those who appear on the face of the returns to be elected; the governor and his council have violated their oaths of office to maintain the constitution of this State, and have forfeited the respect of all honest people and true friends of law and order.

Third, That by concentrating arms at the capital, and refusing the proper course of settling the difficulty by reference to the supreme court, the governor and his council have expressed their determination to carry out their infamous plot to the end.

Fourth, That we ask the citizens of Maine, regardless of party or present affiliations, to unite in the effort to refer the entire matter to the supreme court for adjudication, pledging ourselves and each other to abide by its decision and carry out the same.

Fifth, That should the governor and his council refuse to submit the entire matter to the supreme court, we hold it to be the duty of all the honest voters of Maine to take such legal measures as will prevent a like outrage occurring in the future.

Mr. Daniel B. Harris and Rev. D. B. Randall spoke briefly, after which the meeting adjourned.

The Elliot Bridge company held a meeting in Dover on Tuesday evening. Let us see, did not some one suggest that Portsmouth Bridge be made free? If we are not to have a shoe factory, and are to lose a portion of our York County trade, will it be strange if our enterprising business men go to Dover and invest their capital in building stores to rent. A prominent citizen of an inland city said to us this week, "If your people do not look out, your old place will become simply a summer resort where the wealthy men of Dover, Manchester and other places will come to cool off in the quiet sea breeze and to rest undisturbed by the hum of business." Dover has a Board of Trade, a body always alive to the interests of the city, and so has Concord. We have such an organization, but is it really alive? It was remarked by a gentleman at the meeting called to consider the project of establishing a shoe factory, that if we did not do something at once, the sooner we leave town the better. Cutting off coupons may suit us in its results, a few families, but the general population must have something else to do. Shall we not at this favorable condition of the shoe business, start while we may, the contemplated enterprise, and have other efforts to increase our business and population follow, or shall we fold our hands, and abandon all hope of bettering our condition in a business point of view.

Lotteries Growing in Favor.

At the recent Fair of the 7th Regiment of New York in their new armory, a large sum was raised for the Armory Fund by the different lotteries conducted with much skill by the managers of the fair. Schemes of chance are growing more and more in favor as the numerous church lotteries show, and still more abundantly by the remarkable success of the Louisiana State Lottery Company, whose prizes distributed monthly have rewarded buyers of its tickets in almost every town in the country.

The next regular drawing takes place on the 13th January. Particulars are given in part in the advertisement of the Company in this paper, and all information may be obtained by addressing M. A. Dauphin, New Orleans, La., or New York.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS Cobb this writes in the *Boston Christian Freemason*—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. Out of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and to parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any considerations whatever. Sold by all druggists. 25 cents a bottle. 5

We have received an advance copy of part one of "Nana," a sequel to and continuation of "L'Assommoir; but Nana in no way resembles L'Assommoir. It is elaborated with the same care; it is as real, as intense, and as bold as its predecessor, but it places before us a totally different world, and with all the "justice of photograph." Zola gives us in Nana, a careful study of the manners and life of that class as they exist in real life, whose principal business in life is to be amused, which class, ordinary romance-writers designate as "people of elegant leisure." Nana has been hailed by the press, both of London and Paris, as the literary event of the year. Part One of Nana is now ready, price fifty cents, and will be found for sale by all Booksellers and News agents, and on all railroad trains, or copies of it will be sent to any one, to any place, at once, on remitting fifty cents in a letter to the publishers, T. Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my home for three weeks at a time. My disease has been called *Eczema*, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of scrofula and humors. I have spent much money seeking a cure, and in 1877 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so medicinal that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have mentioned. Last spring I was so low, I believe satisfied that I did not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. The rash soon much lessened within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual less-ening of the inflammation of a number of painful sores. I carefully, faithfully, and conscientiously followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twenty years of as constant a suffering as ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and induced them to use CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel it is to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

KNOW THYSELF.

The untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard work on sexuality, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 30 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which alone is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. I. P. INGRAHAM, vice-president; W. H. VANDERBILT, M. D.; C. S. GARDNER, M. D.; H. J. BOUDET, M. D.; E. B. KLINE, M. D.; J. E. THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic, editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

THE

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

THE MODEL RANGE

—FOR—

Hard or Soft Coal or Wood

—HAVING THE—

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are no flues. They do not work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The sal-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel now usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

M. W. EARING,

No. 61 Market Street,

Where also can be found a full and complete assortment of KITCHEN WARE, HOUSE FURNISHING GOODS, etc., which the residents of Portsmouth and vicinity are respectfully invited to inspect before purchases are made elsewhere.

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small profit at the expense of the sick.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, the Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. Macdonald, Mrs. Alphan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *absolutely the best and most characteristic* of the Choicest critical and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, consistently the great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Literature, Criticism in the history, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographies, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Cincinnati.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or ha tened the breaking up of the constitution th starts. The sense of smell, of taste, of sight, of hea ng, the human voice, the mind, one or more and some ses all yield to its destructive influence. The poison distributes throughout the system attacks every vit rce, and breaks up the most robust of constitution proved because but little understood by most phy ians, impotently assisted by quacks and charlatan ose suffering from it have little hope to be restored f it this side of the grave. It is time, then, that th opular treatment of this terrible disease by remedi within the reach of all passed into hands at once co cient and trustworthy. The new and hitherto until method adopted by Dr. Sanford in the preparation RADICAL CURE has won my heartly approval. I b eve it likely to succeed when all the usual remedi ail, because it strikes at the rock of the disease, vi ze *acidified blood*, while it heals the ulcerated mem rane by direct application to the nasal passages. Chronicle Correspondence.

WASHINGTON, D. C., Jan. 5th, 1880.

The republicans are much elated, and the democrats correspondingly depressed at the information from Maine to the effect that the supreme court has decided against the State officers in their counting-out policy on every point. Although this is the result expected by many democratic newspapers and statesmen who had given their opinion on it, I observe that there is disappointment among them. But the more conservative of them, very sensibly remark that as the democrats as well as the republicans on the bench thus decide, it shows the loyalty and honesty of their party in general, although some ambitious members of it may resort to methods that are indefensible. There is still however a suspicion that the State officers in Maine will not submit to this decision, and will urge the counted in candidates to take their seats, and proceed to organize the State government. So many counted in members, however, are declining their certificates in the face of the supreme court's opinion that this course will barely be possible.

The demagogues however of both parties may be induced to support the Weaver bill, so called, because it is the invention of Weaver of Iowa, to pay from the United States treasury to the pensioners the difference between greenbacks and gold in years past, but the taxpayers should be warned against this dangerous measure. It would take more than a thousand millions from the treasury; and no reasonable soldier will demand such a sacrifice. Some of the greenback members, who wish to make political capital for their waning party, are circulating petitions throughout the country in favor of this bill, but the movement ought to be stopped by the criticisms of the press.

The announcement that General Grant is, and has been laboring to promote his nomination for a third term, has aroused the friends of other candidates to activity. Those of Mr. Blaine and Mr. Sherman, will in particular from this time forth make a lively canvass. Mr. Blaine's friends, taking special pains to present anew the remarkable capacity of their candidate as a political leader, and statesman, as exhibited in his management of the now noteworthy Maine contest. The preliminary canvass in New York, Pennsylvania, Ohio and Indiana, will be remarkably interesting, and the State conventions will be held at an early day.

The Tilden men are in the field now earnestly, since the announcement that their candidate will once more claim the nomination. So many other booms have been started against him recently that they hope to gain from a division of his foes. Tilden will make a strong pull for success. KNOX.

What a Paris Dog Can Do.

A Paris correspondent of the New Orleans *Picayune* tells the following story: There is a terrier in a cafe, Rue St. Honore, that no sooner sees an habitual customer enter than he runs up to the newcomer, opens his mouth and looks imploringly at the customer. The latter so well understands the pantomime that he puts a sou in the open mouth. The terrier bounds to the door, and in an instant is at the nearest pastry cook's. The latter gives the dog a cake, which the latter brings to his benefactor, who breaks the cake into three pieces. One is forthwith given the terrier; the dog, having eaten it, stands on his hind legs, while the customer put the second piece of cake on his (the dog's) nose, lets it stay there untouched until the gentleman raps ten times on the table; at the tenth rap the the terrier tosses the cake in the air and catches it before it falls to the floor. The gentleman then takes the third piece of cake in his hand and says: "Billy you have eaten two of the three pieces of cake. There are thousands of dogs in Paris who have never tasted a piece of cake. Now, Billy, if you be a gentleman—and I believe you are a gentleman, Billy—you will take this third piece of cake and lay it in the street for dogs that are not as well off as you are." The terrier takes the third piece of cake in his mouth, carries it to the street, leaves it there, returns to the customer, looks inquiringly at him, as much as to ask. "Have I done the gentleman thing?" and lies down to doze until another customer enters.

And craving appetite allays.

Guilty of Wrong.

Some people have a fashion of condemning excellent remedies with the mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, fully all that is claimed for them.—*Tribune.*

THURSDAY, JANUARY 8, 1880.

The Maine Legislature.

A large crowd assembled at the Capitol in Augusta on Wednesday, to witness the organization of the legislature. The representatives were called to order early in the forenoon by the Assistant Clerk. John Talbot stood by and manipulated the proceedings. The first business was the drawing for seats. Rev. Mr. Wales of Biddeford offered prayer. The roll as certified by the Secretary of the State was then called, all responded as their names were called except Messrs. Snow and Voter. Mr. Wales of Biddeford on behalf of the committee, reported, and the Governor and Council came in and administered the oaths of office amid the hisses of the galleries. Mr. Hale was the only only republican member-elect who qualified. The ruling of the Clerk, prompted by J. C. Talbot, was extremely arbitrary, and in direct violation to all parliamentary law, and the opinion of the Court in regard to a quorum. The Governor then made the extraordinary announcement that the members had taken the oaths of office, and the House was a legal body.

Mr. Eugene Hale called for the reading of the roll to ascertain whether there is a quorum, but was ruled down peremptorily by the Clerk, who proceeded to appoint the committee to receive, sort and count the votes for the Speaker. The committee reported the whole number of votes as 72, all for John C. Talbot. Mr. Hale made the point of order, "No quorum voting," but the clerk disregarded the motion. On motion a committee was raised to receive, sort and count the votes for Clerk. Mr. Hale doubted the vote and the House 71 voted in the affirmative and 1 in the negative, when he made the point "no quorum voting." It was overruled by the Speaker who said he had the highest authority for ruling that a majority of the whole number elected constitutes a quorum, and 70 was that number. The committee reported 74 votes for Clerk. Mr. Hale interposed the same point of order and the Chair again overruled the point of order, Mr. Hale then protested against the election as "illegal and void."

The Senate completed its organization by the choice of A.G. Andrews for Secretary and Francis B. Grau Assistant Messenger.

Mr. Locke presented an order that a committee of seven be appointed to take into consideration the election of members, which was passed by a vote of 18 to 12.

In the House the republicans declined to participate in the illegal proceedings and withdrew.

A message was sent to the Governor and Council stating that a quorum of the members of the House was present ready to be qualified. There was very great excitement and during Mr. Hale's remarks the most uproarous applause. The governor appeared and proceeded to qualify members. He subsequently announced that 76 members, being a quorum, had taken and subscribe the necessary oaths, and were then regularly and duly constituted House of Representatives. This announcement was received with wild applause from the fusion side, and with surprise from the republicans. Gov. Garcelon said that he now put into their hands the opinion of the Supreme Court as well as the petition of gentlemen from certain cities claiming seats, and invoked their careful consideration of the same. Three cheers were given for Gov. Garcelon, followed by prolonged hisses. The quorum is made of seventy-five fusionists and one republican, Eugene Hale. The fusionists not participating are Sproul of Venzie, Voter of Farmington and Snow of Skowhegan.

A High Price for a Quamphegan Member.

The *Standard* at Augusta feels authorized by Mr. Bartholomew Wentworth of South Berwick, member-elect to the House of Representatives, to say that on Sunday evening last a republican called at his house and offered him $500 in gold and $10 a day for forty days, if he would refuse to take his seat in the House. The paper does not inform us as to the result of the negotiation, and until the other side is heard from, we must believe as much of this story as we are capable of swallowing.

Railway Accidents.

This week shows a large business in railway smashups. Instead such occurrences often follow each other in rapid succession.

At Rahway river, N. J., a night freight train plunged through a draw—fourteen freight cars and an engine destroyed.

On the Buffalo branch of the New York Central, an unsuccessful attempt was made to wreck a train bound to Niagara Falls.

On the Cleveland, Columbus, Cincinnati & Indianapolis road, near Union City, Indiana, a rotten bridge caused the engine and eleven cars of a passing freight train to drop into the stream, causing the death of the engineer and fireman.

A train was thrown from the Kansas City, Fort Scott & Gulf railroad, seven cars leaving the track and doing thirty thousand dollars worth (?) of damage.

On the Chicago, Burlington & Quincy railroad, two stock trains collided, causing a promiscuous wreck, killing two stock men.

A freight train on the Vermont & Massachusetts railroad came in collision with some gravel cars on Wednesday, causing damage to the engine and six cars on the freight train.

It is a bad week for freight trains.

News and Notes.

Gov. Cornell of New York tells us that while in the Empire State, it costs $1.63 to take care of every account deposited in Savings banks, New Hampshire gets the same care (the governor might have said much better management) for $1.11. Massachusetts, where the Fall River men manage banks, gets it done for only eighty-nine cents. But in the Bay State they get their pay in some other mode.

The Pensioners' Union held a meeting on the 9th inst., in favor of increased pensions for soldiers and sailors wounded in the late war. They mean to write to the Chairman of the Pensions Committee, Mr. Coeffrett of Pennsylvania, to get the amounts in the Pension Bill, now before Congress, increased, to soldiers and sailors having arms cut off below the elbow, or legs below the knee, from $18 to $24 monthly, and above the elbow and knee to $36.

The Providence *Journal* of the 7th inst., says: "Yesterday the wind was sou-sou-west, in the Boston *Post*. It advises the fusionists in Maine that "it would be impolitic" to hold seats upon a merely prima facie title, as against the men who were in fact elected; that there should be a "graceful yielding" to the popular will and the law as expounded by the supreme court. The *Post* has not in any of its various readings of the situation come up to the square position of the New York *World*, that the man elected ought by right to take the place of those who were not elected, but who were illegally and defiantly removed. The *Post* is arguing upon the plane of expediency; the *World* takes the ground of principle. The *Post* is anxious as to the effect of the threatened persistency of Garcelon and those who agree with him, upon the democratic party at large; it suggests with great reserve the importance of considering what the common sense of the people will say, to their high-handed, and as it concedes "illegal" proceedings, and it declares that obedience to the law and to the popular will now exhibited will be accepted as "an example of magnanimity" which will command "applause" throughout the civilized world. Not one word as to the authority of law, the right of the voter or the potency of the franchise, does the *Post* utter."

Three hundred shares in the First National bank of Gloucester, Mass., were sold one day last week at $140 per share. The heaviest stock sale ever known on Cape Ann.

The Washington people are seeking to have the stations of the Baltimore railroads removed further from the heart of the city. They claim that the railroads pay no tax, and prevent the improvement of estates situate on the streets over and along which they pass. A meeting of the citizens was recently held at which resolutions likely to frighten Tom Scott were passed.

Parnell is to lecture in Boston on Monday evening on the Irish land agitation.

The Nashua & Lowell railroad have asked the legislature of Massachusetts to extend their track from Middlesex street in Lowell to connect with the Framingham & Lowell railroad and other railways in Lowell.

New Bedford has 106 ships and barks, five brigs and eleven schooners employed in whale-fishing, aggregating 33,239 tons. The total tonnage so employed from ports in the United States is 39,433, making a fleet of 119 ships and barks, eleven brigs and forty-eight schooners.

In the Mass. legislature on Wednesday, Hon. Rob't. B. Berlsup of Newton, was chosen president of the Senate and Hon. Charles J. Noyes of Boston, speaker of the House of Representatives.

Daniel B. Angier chief clerk to the third assistant Postmaster-Gen. has been appointed Postmaster of Washington.

The wedding of Lieut. Elliot of the Marine Corps and Miss Annie Badger, daughter of Capt. G. C. Badger, which has furnished the special correspondents of Washington frequent occasions for honorable mention, is spoken of as a most beautiful affair.

New Hampshire Items.

The best advertisement in the way of "reading notice" we find in the Coos correspondence of the *People and Patriot*; Mr. M. makes a most excellent referee, and presides with modesty and dignity." That ought to induce the Court to appoint the afore-named M. instead of selecting the judges for these duties.

Rev. A. W. Jackson, Unitarian clergyman at Peterboro', recently tendered his resignation as pastor, but the society request him to withdraw it.

A heavy load of logs, drawn by a valuable span of horses belonging to the Shakers, while crossing Mascoma Lake, at Enfield, on the 6th inst., broke through the ice near the middle of the lake, and the horses were drowned before help could reach them. The driver escaped by jumping from the load to the solid ice.

Mr. Lewis A. Clough, of Manchester, N. H., has purchased of Mr. George W. Anderson one-third of schooner Notice, of this port, 66 1-2 tons, for $1020.—*Gloucester Bulletin.*

Congress.

Congress re-assembled on Tuesday, but did but little business. In the Senate, Mr. Vest of Missouri introduced bills regulating the pay of United States marshals and attorneys by salaries instead of by fees, as is now the law.

Mr. Cochrell introduced a bill prohibiting retired officers in the army, navy or marine corps from drawing pensions.

Mr. Conkling introduced a remonstrance against what is know as Commissioner Bentlys sixty surgeons bill, regulating mode of taking testimony in pension cases.

In the House of Representatives, Mr. Whitthorne (Dem.) of Tennessee, from the Committee on naval affairs, reported a bill providing that all applications of officers of the navy for restoration to the active list shall be made to the Sec. of the Navy, who shall order a board to enquire into the cases and report to to Congress. Passed.

The house went into a committee of the whole to discuss the newly reported rules.

Political.

Governor Garcelon of Maine is not a professional politician. He is not a candidate for re-election. He has lived a blameless life of seventy years in a community where no evil was ever spoken of him until the day when he undertook to carry out the laws of Maine, regardless of the fury of a faction.—*New York Express.*

These Governors who are not politicians are all the more dangerous. They can be used as Weston was in this State, for any purpose the leaders of their party require, and as they stand before the country and meekly wash their hands of all iniquity after the mischief is consummated, they are received with open arms as "unprofessional politicians" and placed in comfortable positions. As in the case of Weston, to whom the Manchester people said: "Well done, good and faithful servant, thou hast been faithful over a few things, we will make thee President of our bank and insurance company and consulting engineer of the horse railroad." Give us a square politician and we know where to find him.

There is a strong suspicion that Wm. E. Chandler has been concealed in one of Blaine's private apartments at Augusta for a week or two past, and has been one of the guiding spirits around the council board.—*Manchester Union.*

It is a pity that some one with a tithe of Mr. Chandler's brains could not have been in one of the Governor and Council apartments during the period indicated. A better result for the democracy of the country might have been accomplished.

Important.

When you visit or leave New York city, save Baggage Expressage and Carriage Hire, and stop at *Grand Union Hotel*, nearly opposite Grand Central Depot. 350 elegant rooms reduced to $1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse Cars, Stages and Elevated Railroad to all depots. Be careful and see that "Grand Union Hotel" is on the sign where you enter office in the centre of the block. d&w1mar'79

The Dover board of trade had a supper at the American house on Tuesday evening, after the annual meeting. Dr. Hill presided. The interests of Dover and the wards were well discussed.

Hon. Frank Jones returned on Wednesday evening from a weeks trip in New York State. Mr. Jones is the busiest man in the State. Next season he intends to make an enlargement upon his malt house.

Geo. Barton, son of Charles Barton a resident of North Hampton attempted suicide by cutting his throat on Tuesday. Young Barton has been for some time in poor health and depressed spirits in consequence of which it is presumed he attempted self-destruction.

Peter Donahue of Suncook was arrested on Monday by U. S. Marshal Patterson, upon a charge of being a seller of goods for which a special tax is payable by the law of the United States. He was taken to Concord and placed under $200 bonds before a U. S. commissioner, to answer before the circuit court to be held in this city on the 8th day of May.

When Sol Smith Russell, who appeared at the last evening of the Rockingham Course of entertainments, was recently in a western city, he thought to play a trick on the brush boy in a barber shop by offering the lad a $20 bill after the broom had done its work. The boy received the money with his usual "thankee" and placed the money in his vest pocket. "What did I give you?" asked Sol, after a little time. "Twenty dollars, sah," was the complacent answer. "And was that too much?" "Well, sah, when you handed me dat bill I 'sposed you would be in for an extra brush 'long dis afternoon and wanted to save makin' change! In case you gwine to leab town this mawnin' I'll get de bill busted up an' hand ober your shoe!" It cost Sol half a dollar to get his bill back, and he will look his boy over before he tries the little fun another time.

Petitions in opposition to the pardon of Drake, convicted in this city at the October term are already in circulation. It is a neck-and-neck race between the temperance people and the liquor element. The latter having got Drake into State's prison desire to keep him there, while the inaccurate spotter being confined for his exertions in behalf of the enforcement of the prohibitory laws is of course an object of pity on the side of the prohibitionists. In the little game in this county the liquor element achieved a decided victory, and succeeded in putting the bell on the cat. There is no doubt if the full history of the case is brought before the Governor and council, and properly presented the man will be pardoned out. The trouble is, the liquor interest will be represented at every step by able lawyers, while Drake's advocates will rely too much upon the justice of their cause and perhaps neglect to have it sufficiently ably set forth before the State.

THE NEW ROUTE FROM YORK COUNTY TO DOVER.

At the Eliot bridge company meeting at Dover, on Tuesday evening, it was reported that $7000 in the stock of the company has been subscribed. The directors following-named have been unanimously elected: John Bracewell, Chas. H. Sawyer, Thos. J. W. Pray, James E. Lothrop, Charles W. Woodman, John E. Staples, Sylvester Bartlett; a pretty strong board. By-laws were adopted. Mr. Bracewell, the president, who occupied the chair then made statements about the proposed bridge, the cost of the same and cost to the city of Dover of the road leading to and over the bridge.

The width of river at bridge is 1000 feet, 400 feet of which is to be filled and 600 feet to be spanned by the bridge structure. There will be 14,350 yards of filling at fifteen cents per yard, and the 600 feet of bridge is estimated to cost $5 per foot, with an additional expense of $1800 for a 35-feet draw, which will be reduced to $1000, provided they are allowed to make the draw only twenty-five feet wide.

The estimated cost to the city of Dover for the highway from the Gilman gate to Salmon Falls river is given thus: Land damage, including fencing, $1,423.50. For building the road complete $4,478.50. Total cost $5,902.00.

This statement was satisfactory and the meeting voted to adjourn.

BOARD OF INSTRUCTION

The regular meeting of the Board of Instruction was held on Wednesday evening, present, His honor the Mayor, Mrs. Wilson, Messrs. Locke, Sherburne, May, Gardner, Vaughan, Knight, Pender and Newton.

Several bills were approved, Mr. Fitz, agent for school globes, appeared before the board and explained the nature of these globes, and the committee on text books were empowered to purchase one for each district. Application for the position of teachers were received and read from Miss Mary Alice Aldrich of Wellfleet, Mass., and J. Haven Thompson of Lee and placed on file.

The purchase of maps was referred to committee on text books. Reports of masters were read and other routine business of no public interest was transacted.

The subject of scholars reading dime novels occupied the attention of the Board, and the chairman of the several districts were instructed to call the attention of the masters that such pernicious literature should not be allowed to be brought within the walls of the school-houses.

PORTSMOUTH ACQUEDUCT.

The annual meeting of the proprietors of the Portsmouth Acqueduct was held on Wednesday, Gov. Goodwin in the chair. Interesting to Fishermen.

Collector Babson of Gloucester has been investigating the collection of duties on barrels on board American fishing vessels in Canadian ports. The matter was called up by the statement of Capt. Galvin, of the schooner Canard, that such duty had been imposed on him in December, 1877. The reply of the Canadian authorities, in response to a letter from Captain Babson covering the affidavits of Captain Galvin, states that the Canadian government levies no tax on barrels not landed and states further that if any of the Canadian officers shall be proved to have exceeded their duty, by making demaud for such duties reperation will be made.

We have received the first number of a new paper called "The Truth," published at Washington. It must be a courageous man who expects anything with such a designation to thrive at the federal capital.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted doubt the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. t,th&f

Lotteries Growing In Favor.

At the recent Fair of the 7th Regiment of New York in their new armory, a large sum was raised for the Armory Fund by the different lotteries conducted with much skill by the managers of the fair. Schemes of chance are growing more and more in favor as the numerous church lotteries show, and still more abundantly by the remarkable success of the Louisana State Lottery Company, whose prizes distributed monthly have rewarded buyers of its tickets in almost every town in the country.

The next regular drawing takes place on the 13th January. Particulars are given in part in the advertisement of the Company in this paper, and all information may be obtained by addressing M. A. Dauphin, New Orleans, La., or New York.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS COBB thus writes in the *Boston Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any considerations whatever. Sold by all druggists. 25 cents a bottle. 5

Feeding for Eggs.

Hens are the most valuable stock on the farm. They require little care and yield large dividends. The writer has kept three horses, one cow, a brood of turkeys, and about 125 hens during the present winter, and he thinks the hens have paid the whole bill, without attempting to obtain the best retail prices. The eggs were sold at wholesale, the buyer making a profit of ten cents per dozen. Perhaps I may add a word which others omit: First, kill in the fall nearly every thing but early spring pullets. These can be made to lay all winter. The older the hen the fewer the eggs. Second, warm the food; for first meal, especially. Let there be a variety of food. Buckwheat and wheat screenings are the best grains; corn and oats come next. The best animal food in my experience is a beef's head. They will consume everything except the eyes. It costs twenty-five cents and will last a week. When they have eaten the outside meat, crack it open for the brains; next split it in two with an axe; pound up a portion of the bone daily. Next stop and listen. Hear them sing and see them run for a meal. A beef's head is more profitable than lard scraps, as the latter have been pressed until the substance is nearly gone. Keep an iron pot near the kitchen, into which order all the scraps from the dining room. This usually goes to the pig. Hereafter let it go to the brahmas toward evening. Buy your pork, if you think it is fit to eat.—*Country Gentleman.*

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—When did George Washington take his first ride? When he took a hack at the cherry tree?

—Senator Sharon once dined with a literary club in New York. At the table he quoted from history, and so the story goes, a little man at his right joined issue on the question. Sharon waxed a trifle warm, and insinuated that his opponent might be a clever sort of a man; but history was not his force. After dinner Sharon remarked to a friend: "Who is that little fellow there who disputed my dates?" "Bancroft, the historian."

KIDNEY-WORT

PERMANENTLY CURES

KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGARON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work, published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION;

which treats of vitality, DEBILITY and physical inability, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood renewed.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Institute, it contains 300 pages and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE

New Hampshire Gazette

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

POROUS PLASTER

That the public may be protected against imitations and fraud we specially caution all purchasers to DENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of the genuine, and they hope by it to substitution to gain a small additional profit. Ill

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will link to its readers the productions of the most eminent authors, *above-named and many others;* embracing the Choicest Serials and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *Foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, special or its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through comprehension of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has tested the breaking up of the constitution the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks every vital area, and breaks up the mechanism of constitution more rapidly than but little understood by most physicians, impotently assisted by quacks and charlatans. Those suffering from it have little hope to be relieved, if it this side of the grave. It is time, then, that a popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. the *acidified blood*, while it heals the ulcerated membrane by direct application to the nasal passages. Believing it based on certain fixed rules, and whose vital forces are too far exhausted, must, in the greater majority of cases, effect a cure.

GEO. BEARD, M. D.

NORWOOD BLOCK, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who never sanction a similar preparation that have universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great merit so that their suffering will be ended. We have given to the drug business for the last twelve years constantly, and sold everything that starts, but yours is one of the few that we can speak of as we can use this letter or any part of it that you wish.

Very truly yours, J. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

With Electro-Galvanic Battery combined with Highly Medicated Medicating Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent in health by any element or medicine in the history of the world. Unless the vital current has been lost by destruction by means of electricity is possible. It is at a loss of all physicians and surgeons, and has restored thousands, apparently dead, from the antipodes, when no other human agency could have succeeded. This is the leading curative element in the plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. Their gradual healing, soothing, and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. We respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produces more cures than any liniment, lotion, or plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Pupils Wanted.

A GERMAN TEACHER, who speaks both FRENCH and GERMAN, pure and fluently, would like to give instruction in both languages to 25 cents an hour. Apply at No. 8 Sheafe st.

Daily Chronicle.

The Newburyport *Germ* says that at the house of Daniel Bartlett in that city are a number of curiosities, among which is an old oaken-case clock, standing up in one corner of the room, made by "Wagstaff," London, with a metallic face, and besides giving the time, shows the day of the month upon its face. This was purchased from a person in Marblehead, in whose family it could be traced for 200 years. Another clock made by David Wood when he kept on Market square; a spinning wheel, claw handle, brass andirons, shovel, tongs and poker to match, old fashioned furniture going back 200 years, among which is an oaken bedding chest which was purchased from one of the oldest families in Ipswich; historical ware giving the public buildings and notable army and navy battles engraved upon them, dating back seventy-two years, are among his collection; also a fine collection of the coins in and out of the country.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

Ten thousand peasants were present at a land-agitation meeting held on the borders of Sligo, Ireland, on the 5th. Further appeals for aid for the distressed have been made.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

It is asserted that the distribution of the Russian army shows a striking convergence towards the western portion of the empire. The arming of the frontier fortresses is being rapidly effected. These rumors are, however, denied in Vienna.

Highest Prize Port Wine.

The best wine in the country, that took the highest premium at the Centennial, is Speer's Port Grape Wine, which has become the most celebrated product of New Jersey. This wine and his P. J. Brandy are now being used by Physicians everywhere, who rely upon them as being the purest to be had of druggists. It is unsurpassed for weakly females and old people.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

Further arrests of officers charged with Nihilism are reported from St. Petersburg.

Adamson's Botanic Balsam has gained a reputation which places it in the front rank of curative agents. It has been in the market but about nine years. It is now recommended by the best physicians because it cures Coughs and Colds every time. Price, 35 cts.

The flood in the Seine has decreased considerably. Serious damage is still reported from the provinces.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

All is reported quiet at Cabul, and amnesty has been offered to the insurgents, but a few chiefs being excepted.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

At Bridgeport, Conn., New Year's day, a young man who brought his girl into the city and left her at the house of a lady friend, forgot where he left her. He spent the whole afternoon hunting without finding her, and finally applied at the police station in a very dejected frame of mind, but the police couldn't help him. The young man was perfectly sober.

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

FRIDAY, JANUARY 9, 1880.

Ground for Divorce.

Judge Anderson, of the supreme court of Virginia, recently gave an opinion showing how ardent is the true southern fire-eater's love for the Union and the party through whose efforts it was preserved. A woman named Latham sued for a divorce from her husband on the ground that tho' he did "his duty to his native State in arms"—that is, fought in the rebel army—"and whom she supposed to be still true" when she married him, had in fact become a republican. The case came before the Union-loving Judge Anderson, on appeal, and in his opinion he said: "The shock and mortification of Mrs. Latham was to find that her husband had not been true; that he had deserted his friends and gone over to the enemy, and had joined him in waging a war upon them more cruel than a war of arms. It was perfidy, the moral taint of which she felt assured would forever be attached to him, and which would likely exclude him from the best society of the State," and, therefore, this most loyal judge thought that the bonds of matrimony ought to be dissolved.

News and Notes.

Secretary Schurz has sent to the Senate a copy of the final report of the Hot Springs Commission, together with schedules showing the names of parties in whose favor awards were made and a list of persons to whom certificates were issued for property condemned, amounting in the aggregate to $74,686. The report is accompanied by a copy of a communication filed with the commissioners which contains charges against the chief clerk of the commissioners, and questions the fairness of the award in several cases. We notice that Ex-Senator Conkling, who has served as one of the commissioners, has arrived in New York.

At South Quidnissett, R. I., on the 6th inst., a young man named Andrews, while out gunning, took hold of the gun by the muzzle and put it over a fence he was about to climb, when in some way the gun was discharged, the contents striking the upper part of his breast and going up though his head, killing him instantly.

On the 3d inst a son of Albert Durkee of Stafford, Vt., aged fourteen years, while carelessly handling a pistol which he supposed to be unloaded, shot himself, the ball entering his heart, killing him instantly.

Senator Davis has introduced a bill for the increase of the United States courts, providing a court of appeals for the purpose of relieving the business of the supreme court. The court of appeals is to be held in Boston, New York, Philadelphia, Richmond, New Orleans, San Francisco, Cincinnati, St. Louis and Chicago.

Mrs. Daniel Haskins, with her daughter Anale, aged nineteen years, her son Eddie, aged four, and an infant, were burned to death at San Francisco on the 6th inst., by their house taking fire.

By a collision on the New York elevated railroad, on the 7th inst., two engines were smashed, and the engineers were badly hurt by jumping to the street below. The cars were kept from going down by an iron guard-rail, and no passengers were hurt; but it was a close shave of a terrible disaster.

Maggie Mahon and Frank Malvey, aged ten or twelve years, were drowned at Natick, Mass., on the 7th inst., by breaking through the ice on a pond. Three other little girls were rescued by Thomas T. Joyce, who himself broke through while engaged in the good work.

The New York, New Haven & Hartford railroad is refitting its freight cars with a self-acting coupler, by which cars can be uncoupled from on the top by means of a connecting rod, or from the side by a lever, without the necessity of a train-hand stepping between the cars.

Stephen Longfellow, nephew of the poet, has been held in Boston for trial, charged with forging the latter's name to a check for $1000.

Twenty-two cars of a freight train on the Vermont & Massachusetts railroad got loose at Athol, Mass., on the 7th inst., and ran back down grade. After running half a mile, they met an extra freight train. The engine and cars were badly smashed. A. W. Streeter, brakeman, was slightly injured, and an unknown man riding in the caboose was badly hurt.

A jury has awarded Simon Donelly $4000 damages for injuries received by him through falling over a gas-pipe about a year ago, at Fall River, Mass. The city will contest the case further.

At Lake Providence, La., the city marshal, named Maguire, was killed while attempting to arrest several rioters last Sunday. Five men were arrested on suspicion. On the night of the 5th inst. a mob of Maguire's friends burst into the jail and shot the five men, killing two of them. A coroner's inquest subsequently proved that the murderer of Maguire, a man named James Brown, escaped in a skiff, and that the five men shot by Maguire's friends were innocent.

A French Canadian woman of Canton, Conn., although only thirty-four years old, is the mother of three daughters of different ages, all of whom are married.

From the probate records of Suffolk county, Mass., it appears that the estate of the late John E. Lyon was inventoried at $837,825.43; Daniel Austin, personal, $31,780.50; Silas Durkee, $63,500; Samuel C. Perkins, $102,688.40; Robert M. Mason, $1,133,564.60; Charles B. Goodrich, $27,313.70; Leroy C. Walton, $160,274.

Edward William Cooke, the eminent English painter, has died in London.

There are strong indications of a war between Russia and Germany. If those two nations get at it the rest of Europe can hardly keep out of the fight.

Political.

The republican senatorial caucus in Ohio nominated by acclamation General James A. Garfield for United States senator, the names of Stanley Matthews and Alphonso Taft being withdrawn.

Governor Cobb of Alabama has appointed Luke Pryor, of Athens, to fill the vacancy in the United States Senate caused by the death of Senator Houston. Mr. Pryor has never been an office-holder. He is an able man and lawyer of ability. He was the law-partner of the late Senator Houston. An election by the legislature of a United States senator will take place in November next.

A Washington despatch to the Boston *Journal* says that General Grant, while in South Carolina, was told that tissue ballots were used to neutralize the overshadowing negro majority, and thus, as the democratic informant alleged, preserve civilization. The general replied that he hoped the necessities of civilization would not call for a repetition of this sort of a thing.

The New Hampshire Register and Business Directory for 1880, published by the Claremont Manu. Co., is for sale by Willis G. Myers at twenty-five cents per copy. It contains the political statistics of the past year, information concerning the courts, lists of the newspapers and of the savings and national banks in the State, and much other matter. Every business man needs it.

We have received the January number of "The Original Chatterbox," being an exact reprint of the original work which has such an immense sale in Europe. It is issued in this country by the American News company of New York, and sold for the low price of seven cents a number, making it the cheapest as well as one of the most popular magazines for children published. For sale by W. G. Myers.

A new paper, to be called the *Greenback Press*, will be published in Manchester, commencing Feb. 1st, under the editorial management of Col. F. Montgomery, late of Maine.

Of the many guides and seed and plant catalogues sent out by seedsmen and nurserymen, and that are doing so much to inform the people and beautify and enrich our country, none are so beautiful or instructive as *Vick's Floral Guide*. Its paper is the choicest, its illustrations handsome, and given by the hundred, while its colored plate is a gem. This work, although costing but five cents, is handsome enough for a gift book, or a place on the parlor table. Published by James Vick, Rochester, N. Y.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although efficient in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be about forty years in credit as a worm, so hurtless to children. Twenty-five cents a box. L.&F

The controversy between the merchants of Tilton and the Boston, Concord & Montreal railroad is at an end; all differences have been amicably settled, and the merchants will resume freighting over the road. Since the first of October all their goods have been shipped from Boston to Franklin, and taken from there to Tilton in teams.

By an accident to a locomotive between Manchester and Lawrence, Thursday, Charles E. Jones and Charles Webster, of Concord, engineer and fireman, were badly scalded, and the train delayed three hours.

AROUND HOME.

Schooner Free Wind, of this port, is wintering at Providence, R. I.

Last week, for the first time this year, the smelt fishermen on Great bay made some very good catches.

At a meeting of the Boston Gynæcological society, held on the 6th inst., Dr. S. C. Whittier of this city was elected a member of that body.

The schooner Jesse W. Starr sailed from this port for Baltimore on Thursday morning last, with 3380 barrels of apples. Shipped by Mathes & Hayes.

The mails are loaded down with public documents, showing that there are elections not far distant, and that anxious congressmen are getting an anchor out to windward.

As a woman was walking along Market street, Wednesday evening of this week, when crossing the foot of Russell street she was struck by a boy on a sled, thrown violently down, and had her face badly bruised and disfigured, besides receiving other injuries.

The proprietor of the *Times* has purchased the wooden building formerly occupied as an office by that paper, next the brick building where the *Times* is now located, and it is reported will at once put it in thorough repair for his own occupancy.

Considerable anxiety is expressed by the friends of Mr. William J. Doyle, who left this city for Boston some days ago, taking several hundred dollars with him, and concerning whose subsequent whereabouts nothing had been heard up to Thursday evening last.

A general consultation of leading greenbackers commenced in Washington, D. C., on the 8th inst. Among those present was Hon. Philip B. Holmes of Greenland, representing the greenbackers of the first congressional district of New Hampshire.

On Thursday workmen were engaged in washing the Congress street front of Franklin block with acids and then oiling it, giving the building a glossy and handsome appearance. A large force of men are employed in tinning the roof of the block, and should the weather continue favorable that part of the work will be completed before the end of next week.

Work on the Hotel Wentworth and extensions, at Newcastle, is being carried on with vigor; the roof of the northern annex is on, and most of the workmen are now under cover. The interior of this mammoth and elegant hotel is being finished in hard woods, and will be frescoed in the most elaborate style; and the furnishings will be costly and luxurious, and unsurpassed by those of any summer hotel on the Atlantic coast.

The new city government of Dover organized on the 6th inst., and a number of stipendiary city officials were elected. Eight ballots were had in the board of aldermen for a city marshal, but the board adjourned without effecting an election. The total appropriations for schools amounted in 1879 to $21,000; total expenditures (including $538.25 for evening schools,) $19,778.75. The total city debt is $206,822, a reduction of $18,000 having been made during the past year; debt, less estimated receipts from back taxes, and cash in treasury Dec. 1st, $142,592.16.

The former practice of selling condemned stores, materials and supplies at the navy yard seems to have been abandoned, and such materials are shipped hence to New York or some other point, more convenient perhaps for speculators. It was the good fortune of the department that the men employed to sell these goods at this station always succeeded in breaking up rings combined to defraud the government by joining hands and preventing competition at sales. In fact, the salesman would not be governed by the speculators or bribed by them. It soon came out that although local purchasers could be found who would pay fair prices at government auction sales, the selling of these articles at the navy yard near this city did not suit every one, and by some kind of representation the custom became changed. Old iron is now sent to other stations to be re-cast, and what becomes of much of the other material we do not know, but surmise that our amiable Uncle Sam realizes far less from its proceeds than if sold upon the yard by a competent and honest auctioneer.

Prof. Turner of Boston will give a lecture on a "Trip to Europe," illustrated by 100 views shown by the aid of the oxy-hydro light, at the Universalist church this evening, for the benefit of the Sunday school of the society.

Portsmouth Commandry, No 47, United Order of the Golden Cross, visited Dover Commandry, No. 43, of the same order on Wednesday evening, the 7th inst., the occasion being the installation of officers of the Dover Commandry by Supreme Grand Commander Stephen W. Clarke of this city. The brethren report a grand time, the gentlemen of the Dover commandry vieing with each other in their attention to the visitors. A banquet was served, and post-prandial exercises rich in humor and brilliant repartee extended into the wee sma' hours of Thursday. The Portsmouth party returned by special train.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Bills to the amount of $3100.34 were presented and ordered paid.

Communication from the Extinguisher companies asking for an increase of their pay, to be the same as the rest of the fire department, $40 per year, the request being approved by the board of engineers, was referred to committee on fire department to report.

Statement of city mission work for the year 1879, was received from Voluntary City Missionary William A. Loyne, and was accepted and placed on file.

The mayor stated that the counsel for the Eastern railroad, Albert R. Hatch, said that he would appear before the board on a committee appointed by them in relation to the encroachments on city lands near the depot. Referred to committee on streets with mayor added, to confer with the counsel of the Eastern railroad.

Committee on streets reported recommending that the city purchase pair of horses. Report accepted—and voted that the committee on streets with the mayor added be empowered to purchase the same, subject to a vote of the majority of the committee.

CITY MISSION WORK, 1879.

The report of Mr. William A. Loyne, voluntary city missionary, for the past year, is as follows:

Visits to families, 624; Services conducted, 168; Meals provided, 120; Lodgings, 24; Vessels visited, 240; Calls received at City Mission rooms, 800; Garments and other articles received, 300; Magazines, papers, etc., distributed, 3000.

Persons have been aided in various ways, and several children have been provided with homes and the general work of a voluntary city missionary attended to.

Cash received for mission purposes, (including $75.00 from the city for rent of mission rooms), $119.41.

Thanks are extended to all who have in any way aided the work. The friends of the mission are requested to donate magazines, papers, and other useful reading matter—also clothing, etc., to aid the work.

The mission rooms are located on the corner of State and Pleasant streets, and the office hours are from 10:30 A. M., to 12:30 P. M., and from two to four o'clock P. M.

A report will probably be issued in the month of February giving a history of the various departments of the voluntary city mission work for the past four years.

THE LISTEMANN CONCERT.

The readers of our paper are, as a matter of course, aware of the character of the entertainment provided by the manager of the Rockingham course for next Wednesday evening, and the announcement that the concert will be one of the best ever given in the city is fully authorized from the high professional repute of the artistes. Of Miss Julia A. Wells, the contralto who has recently returned from European study, the critic of a leading Boston paper says, in referring to her rendering of the aria, "Nobil Signor," from Meyerbeer's Hugenots: "In all the elements of a musical conception of the aria the rendering was sufficiently praiseworthy to be termed a decided success. But we must also praise the fidelity of the performance, as it was marred by none of that tempo rubato, or uneven style with which too many vocalists are apt to imbue their renderings of Meyerbeer's music. The precision with which she executed certain passages in the aria was notably artistic. Her voice during her long absence has developed its compass and retained its former charming features, while it has greatly improved in intensity and gained a cultivation that will cause us to regard her future appearances on the concert stage with more than ordinary interest."

Most of the instrumentalists are well-known to our audiences, especially Mr. John Mullaly, the able musical director of the orchestra of the Globe theatre at Boston. The combination of performers is one of acknowledged superiority, and if the good taste of our people desires to be gratified, certainly there never was a better opportunity than will be presented on Wednesday evening—and we trust a proper encouragement to such a refined entertainment will be extended.

REFORM IS NECESSARY.

Mr Editor: At this juncture, when the denizens of "dear old Portsmouth" are exercised in devising "ways and means" to resuscitate her waning prosperity, it would seem a fitting opportunity to address a few suggestive remarks to those "leaders of the people," and others in whose keeping and control are its destinies, as well as those of our well-beloved State. *Imprimis,*

Is not Portsmouth a charming place in which to reside? Are not its citizens noted, far and wide, for their generous hospitality, a diffused and liberal culture and a singular love for their beautiful home? How varied and interesting are its surroundings; its delightful drives and picturesque walks, its cleanly streets, its peaceful and law-abiding people. These are themes upon which all who visit us love to descant, and of which we are justly proud. And then its noble river, clear and sparkling, encircling it, resembling a wreath of brilliants decking the brow of womanhood. Is there, withal, a city elsewhere so revered by her children, who, having been constrained to resort to the busier "marts of commerce" to build up their fortunes, look forward so pleasurably, so joyfully, to the time when they may return to its "sheltering arms" and cast out their life-fastenings within its beloved precincts?

Secundum—Why, then, is it that our population, if increasing at all, is so slowly augmented? Why is it that our meed of prosperity is so greatly inferior to that enjoyed by cities and towns within our adjoining States?

The answer to the queries submitted may be readily furnished. The writer will give it you in the words of a son of Portsmouth, recently in our midst, who would right gladly return to live and die amid the scenes of his boyhood's fondest memories.

"I am," said he, "debarred from living in Portsmouth by the inordinate taxation that awaits me there. My income is derived from investments of my hard-earned capital, yielding barely five per cent; (none better, deemed entirely secure, can be procured;) it would therefore be insufficient, after paying my taxes, for the comfortable maintainance of myself and family. I know others similarly situated, who are for the same reason compelled to be exiles from the city of their nativity. All deplore this condition of things, deeming it very grievous. We know it retards the growth, and consequent prosperity, of our dear home. There are many not allied to Portsmouth by birth, but who esteem its lovable phases, who would secure homes within it, but they too are compelled to refrain. I know," continued my narrator, "that many wealthy residents of the State have left or are about to leave it, to dwell where taxation is less onerous. It would seem, indeed, to be the aim of our rulers to 'kill the goose that lays the golden egg'—and they are rapidly accomplishing it. Their opaque, wisdom, their love of power and the controlment of vast sums of money wrung from the impoverished people, blinds them to the fact that they are covering with a rank mildew that minimum degree of weal their city still enjoys, and erecting formidable barriers to its resuscitation. The people will, at no distant period, call them to account. But these grievances are not all to which the city is subjected. There is observable a supineness, a lack of loyalty entertained by many wealthy residents, who are content to 'fiddle whilst Rome is burning,' and are seemingly indifferent to its general prosperity. Portsmouth ought to-day, to be in a flourishing condition, with a population largely in excess of the present number; the hum of busy labor heard throughout its environments; and hundreds of artisans, now chewing the bitter cud of poverty and discontent, born of enforced idleness, be living prosperously, with a love of country engrafted in their hearts, to which they are strangers now. Alas! Such are the fruits of illiberality, shortsightedness, and the exercise of that aggressive spirit that subjugates the general good to selfish ends and personal aggrandisement."

Mr. Editor, with the above recital, given verbatim, I rest my cause; the cause of the good people of Portsmouth. Let our "wise men" see to it that the evils referred to are speedily abrogated, and acting with the people, strive to build up anew the prosperity of dear old

The Earth in Miniature.

Many persons have seen the somewhat clumsy apparatus known as the planetarium or orrery, the purpose of which is to show the arrangement of the solar system and the motions of the planets around the sun. The best of these are rude, and from their quite apparent machinery of rods and wires are apt to be misleading to the young and untutored. "We have just seen an invention," says the London *Times*, "which, for want of a better name, we must call a planetarium, but which, though intended to subserve the same purpose, has but little in common with the old fashioned apparatus. This invention is the work of an Italian, Signor, N. Perini, long resident in London, and whose name is, no doubt, familiar to some of our civil service and military readers as a successful teacher. The new planetarium is erected in the midst of an ordinary sized room, with a ceiling higher than usual. On entering the room one sees a high circular chamber, or box, standing on twelve wooden pillars. On entering underneath this chamber, and looking up, a dome is seen, deep blue, and sprinkled with stars, the chief northern constellations being in their proper places, and round the base of the dome the names of the signs of the zodiac. Pendant from the top of the dome by a narrow tube is an opal globe, lit inside by gas, and representing the sun. From wires, almost invisible, the planets are suspended around the sun, of sizes and at distances approximately proportionate to the real sizes and distances, and each having its proper inclination to the plane of its orbit. The various moons are in their places, and Saturn has his rings. The general effect on looking up this arrangement from below is impressive, and this effect is increased when Signor Perini, by simply turning a key, sets the system in motion, rapid or slow, as he chooses. The sun turns on his axis and the planets in their orbits, all in time accurate, and on watching the movements for a short time one easily realizes the immense differences in length of the years of the earth and those of outer planets. By an ingenious watchwork arrangement inside the earth, which is the size of a walnut, our world is made to revolve on its axis, the latter, by a special effort of ingenuity of Signor Perini, being always made to point to the same quarter of the heavens. The same arrangement causes the moon to revolve around the earth in its own proper orbit. Perhaps the greatest triumph of this invention is the fact that this planets revolve around the sun in proper (elliptical) orbits, which are traced around the inside of the dome. The dome is 14 feet in diameter at its base and 14 feet high. In the chamber above the dome the machinery invented by Signor Perini is arranged, the details being as yet a secret. The moving power is clock work, the originality in the arrangement being, we believe, the method by which the inventor effects the elliptical motion of the planet. Not a sound is heard when the machinery is in motion, the whole working in that "solemn silence" which the hymn tells us is characteristic of the starry sky. The inventor could, we believe, make his planetarium of any size, from the dome of St. Paul's to a little thing that might be used for school instruction. Signor Perini has devoted his nights and mornings to this structure for seven years, and has expended upon it something like $3,500; the earth itself, we believe, has cost him $200. We believe he has been prompted to this work solely by the enthusiasm of a mechanician, and by a desire to do something to enable those interested in astronomy to realize, as far as possible the arrangements of the solar system. We may say that it is almost impossible to put it out of order, and it can be taken to pieces in a very short time. His address is Garrick Chambers, Garrick street.

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

THE MODEL RANGE

— FOR —

Hard or Soft Coal or Wood

— HAVING THE —

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many signs. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

M. W. EARING,

No. 61 Market Street,

Where also can be found a full and complete assortment of KITCHEN WARE, HOUSE FURNISHING GOODS, etc., which the residents of Portsmouth and vicinity are respectfully invited to inspect before purchases are made elsewhere.

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under as similar sounding names, with the assurance that it is the same thing or as good. In ordering Benson's Capcine Porous Plasters remember that there are no imitations at half the price that are not infringements upon the rights of the proprietors.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, the Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Alphan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE entering upon its *thirty-seventh year*, continues to deserve and receive the cordial and continuous support accorded to it during the years it has been its aim to furnish to its readers the productions of the most eminent living writers, as the result of *many years' experience* in selecting from the entire literature of the world, the *Leading Foreign Periodicals*, and an amount of matter

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a weekly magazine, giving more than

Three and a quarter Thousand

double-column octavo pages of valuable reading matter yearly. It presents in an inexpensive form, combining its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Critical and Literary Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE combination of an indispensable current literature—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald & Wond.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent reading for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL AND WHO MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Philadelphia Bulletin.*

For $10.50 THE LIVING AGE and *either one of the American $4 monthlies (or Harper's Weekly or Bazar)* will be sent for a year, *both postpaid*; or, for $9.50 THE LIVING AGE and the *St. Nicholas*, or *App ton's Journal*. Address,

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution than starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks every virtuous and breaks down the most robust constitution ignored because but little understood by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved if it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. to *oxidized blood*, while it heals the ulcerated membrane by direct application to the nasal passages. I believe it based on certain fixed rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure. GEO. BEARD, M. D.

NORSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but in their families in preference to any of the proprietary medicines usually prescribed by physicians.

"You are aware," said a distinguished city physician, that my obligations to the Mass. Medical Society almost prohibit my publicly recommending any medical Cure; but since I received so much relief from the use of yours, after a thoroughly trial of the usual remedies, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be recommended its great merits so that the suffering will be relieved. We have been in the drug business for 15 or 16 twelve years constantly, and sold everything it starts, but yours leads all the rest. If you see proper to use this letter or any part of it that you wish, you have our permission. D. BALLOU & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Injecting Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

The Electro-Galvanic Battery combined with the highly Medicated Strengthening Plaster. Warming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is unequalled by any element or medicine in the history of medical science. Electricity is the life and motive power of all physiological functions, and has restored thousands, apparently dead, from an untimely grave. When no other human agency could have availed. This is the leading curative element in Collins' Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. The healing, soothing, and strengthening properties are known to thousands. When combined in accordance with late important discoveries in pharmacy, their healing and remedying properties are increased tenfold, in respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produces more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. TRY ONE. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

TOBIAS JONES' MATCH-MAKING.

"I say," said Tobias Jones, bringing down his fist on the dinner-table with an emphasis that caused the bottles in Mrs. Tobias' new caster to rattle together ominously. "I say, wife, I have it now."

"Have what?" asked Mrs. Tobias.

"Why, an idea, a splendid idea, that is to say, a plan. You will surely get an invitation to a wedding, Belinda, before the winter is ended, or my name is not Tobias Jones."

"What? who? where?" asked Mrs. Jones. "I am thankful something is going is happen; I've stayed at home until I am tired, and my clothes are out of fashion."

"If wearing good clothes keeps them in fashion you might wear them here at home," suggested her husband.

"That's just the way with you men; you expect us to wear our best clothes at all times and in all places, and yet always look new and fashionable. But who is going to be married?"

"Well, you see, it ain't a settled fact yet, but it might as well be, for if Squire Chase and Widow Hooker should happen to meet, it's my opinion they would make a match of it; and," he added, noticing his wife's lengthened face, "I think you had better send for both of them to come here to tea to-morrow night. We have no children, you know, and you ought to have things in apple-pie order all the time."

"Children!" exclaimed Mrs. Tobias. "You talk as if folks who haven't got any children don't have anything to do. For my part I think I work full as hard and have as much trouble as any of my neighbors who have children. However, I don't care how many you invite to tea; I'll have enough for them to eat; but don't think you'll make a match for Squire Chase, for I know you won't."

"Why, I?" said Tobias, "you take Dobbin and drive over and get the widow, and I'll take care that the squire is here all right; and mind you, Belinda, if they are not married before the winter is over, I will give you a new dress, and if they are you shall buy me a pound of tobacco."

"Agreed," said Mrs. Jones, "provided you bring about the match."

Just at sunset Squire Chase was reaping in the field near the road, when, happening to look up, he saw his friend Jones leaning over the fence.

"Good evening, Jones."

"Good evening, squire. I just called over to say that my wife is going to have company to tea to-morrow night, and she wants you to come and make one of us."

"Much obliged, neighbor, but I don't know about it; I've got to reap all this field to-morrow. If I get done in season, perhaps I'll come, but don't look for me. Who are you going to have—any strangers?"

"Well, yes, Widow Hooker is a stranger to you, I suppose, though my wife has known her for years, and sets a sight by her; she lives over to the north part of the town. I presume you have heard of her often enough."

"Yes, I have heard of her, sure," said the squire. "I suppose she is the woman who owns the big meadow farm called the Ox-bow, and manages it all by herself."

"Right," said Jones, and thinking to make matters better, he added, "I know you would like her, squire, for most everybody does."

"I don't very much admire the women folks who try to take places that belong by rights to men," said the squire, positively. "Here, Silas," he called to his youngest son who had just returned from the pasture with the cows, "did you see that bilmiled ox to-night?"

"No, father; I hunted and hunted for him, but he's gone, sure."

"Hang the luck! That's just the way with that brindle, he never jumps unless his feed begins to get short, and then he's off for better quarters. I calculated to turn him into fall feed to-morrow."

When Mr. Jones arrived home he found that a Mr. Ellis has been to hire a hundred dollars of him for a short time, and as he had some money on hand, and Mr. Ellis was all right for a thousand or two, he concluded to let him have the money. Harnessing his horse, he started for the house of Mr. Ellis. Now this house was not far from Mrs. Hooker's, and as Tobias went leisurely along about two miles from home, what should he see grazing by the roadside but Squire Chase's brindled ox. There was no mistaking the animal, for there wasn't a better nor a handsomer one to be found anywhere for miles around.

"It's a shame to leave that ox run off," said Mr. Jones to himself, "and if I was going right home I'd drive him along, but I'm not, and by the time I get back he will be gone. I have it," he exclaimed, as a new idea seemed to enter his brain. "I'll just let down the bars and let him into Mrs. Hooker's west field. The field has been cleared these ten days, and she will never know but he jumped in, and it may save the squire a heap of trouble." So he drove the ox along for about three-quarters of a mile, and turned him into the field; then, after leaving the money at Ellis', he went home well pleased with himself and the world generally.

Squire Chase was not at the tea party, for he was fully determined not to be the victim of a made match, and he rather suspected that one was in progress in the Jones family. The next morning Mr. Jones rapped at the squire's back door just as the family were at breakfast.

"I thought I'd run over and let you know where your brindled ox is. Mrs. Hooker says there was one got into her west field yesterday and she presumes it's yours."

"Much obliged, Neighbor Jones. I'll go right over after breakfast, or send Ned."

But Ned, like most boys of sixteen, was

shy of old maids and strange widows, and steadily refused to go, so the squire went himself.

Widow Hooker was making cheese. It was late for cheese-making, but she always made one or two fall cheeses. The door was wide open, but she did not see Squire Chase as he came up the flower-bordered walk; the first she knew of his presence was the exclamation—

"Why, Polly Wiggin! This is the greatest surprise I ever had!" And there was a great hand-shaking. "So, Polly, you are the famous Widow Hooker. How do you like farming?"

"Very well, Jerry, and if you can stop long enough I'll show you how I manage."

Of course the squire could stop, and was delighted with everything.

"I never thought a woman could manage so well," he said, "that is, in the house and outdoors, too. I always thought when women undertook to wear the—that is—when—"

"Oh, I understand," said Polly, "you thought my house would suffer from neglect if my farm was properly cared for.

"I see, I see, Polly; I thought my little girl had kept house pretty well since her mother died, but of course it's nothing like yours; when girls of twenty can't manage at all it is not to be supposed that girls of fourteen can be very good at it. Suppose we let bygones be bygones, Polly. I have said I would never marry again, but if you will have me I will break my word for once, for when I said it I didn't expect to meet you, and I believe we have both grown wiser since our quarrel sixteen years ago."

"Do you think the children would like me, Jerry? You had better bring them over, first, and then I will give you my answer."

"I don't believe Ned will come; he is rather bashful, but I will bring over the other two, Mary Ann and Silas, to-morrow afternoon. Good day, Polly."

And the squire drove home with never so much as a thought of the brindled ox.

Meanwhile Ned fretted and fumed because he had no work to do, and finally he and Silas had gone fishing

"I do wish father would get married," said Silas, who, at the age of ten, had very advanced views of life. "I think Mary Ann makes horrid biscuits, and I'm tired of eating hominy and milk for dinner; if father did get married, and we didn't like our step-mother, we are big enough to run away.

"Yes," said matter-of-fact Ned, "but if you keep on talking you will scare all the fish away, and we shall have to eat fat pork for breakfast."

Squire Chase could not give a very good reason why he did not bring home the brindled ox. He told Mary Ann that he did not see the ox, then he told Ned that he forgot all about him, and finally told Silas that he thought he could not drive him home alone, and would wait until the next day and take him and Mary Ann over to help him.

The next day Mrs. Hooker had as happy a party at tea as her house ever held. Mary Ann quite fell in love with everything, including the widow herself, and Silas said he never did eat such cookies; then Mrs. Hooker read some letters from her son who was away at college, and Squire Chase said he never before thought big boys ought to go to school in haying and harvesting, but he believed he should send Ned next year if he wanted to go.

"Will you come over, Polly?" asked the squire, as he was getting into the wagon to drive home.

"I will come," was the answer.

A month later there was a grand wedding at the Ox-bow farm-house, and Mrs. Jones appeared in a handsome new dress which she had won from Tobias, because she could not see why he had anything to do with the making of a match that came about because of the finding of Squire Chase's brindled ox in Widow Hooker's west field.

"Who Shall Decide When Doctors Disagree?"

There is a little contention just now between the Senate and navy department as to the Surgeon-General of the Navy. The chief of the bureau of medicine and surgery, by law is appointed from the list of surgeons in the navy; and has the relative rank of commodore while holding this position, with the title of surgeon-general. Medical directors have the relative rank of captain, medical inspectors that of commander, while surgeons enjoy that of lieutenant-commander or lieutenant. By law, the President appoints the surgeon-general, and as formerly practised the appointment comes from the higher grade of surgeons. In the present case, the name of Surgeon Philip S. Wales has been sent to the Senate for confirmation as chief of the bureau of medicine and surgery, and it is discovered that Surgeon Wales' seniors in rank oppose his confirmation, on the ground that they suffer injustice by his receiving this appointment by what is termed the "jumping" process over his seniors in rank and duration of service. Consequently the various veteran sawbones of the navy have their ire aroused, and send indignant letters to the senators of their States to oppose his confirmation. There is no disputing the fact that Surgeon Wales is an able man, and would make a good chief of the bureau, but it is complained that his relative rank would be too rapidly increased to the detriment of his superiors, and senior officers of the different branches of the service criticise the action of the department in inducing the President to make this nomination. But Secretary Thompson is inclined to push things, and adheres to his purpose to pull Wales through. On Wednesday, the 7th inst., the Senate postponed action upon the question of confirmation for a week, to enable Senator Whyte to be present. Opponents of the appointment claim that Wales' name will be withdrawn, but those who know the firm nature of the secretary think he will see his man through. The confirmation will be a bitter pill to the elder officers.

Pot and Kettle.

The free and honest north can now say but little to the south in denunciation of the political methods in vogue in certain sections of the latter—or if anything is said, the southern politicians will have a ready retort.

If the northern press sneers at the Yazoo plan of elevating to high office the democratic candidate who shoots his competitor in the back, or denounces the wholesale stuffing of ballot-boxes with tissue ballots, as is popular in South Carolina, the southerner will at once "come back" with a conundrum as to whether the carrying of an election by murder previous to, or fraud on the day of, the election, is any more dishonorable and infamous than the reversal of an honest election by the trickery of a gang of perjured scoundrels who are appointed by law to declare the result of the voting, and are sworn to do it honestly and impartially.

The Stolen State.

There was but one republican member of the Maine legislature present up to noon on Friday, Senator Locke being that one. There were were but seventy-two representatives present—less than a quorum—but the House went on with business; Eben F. Pillsbury was on the floor, evidently in command of the freebooters' forces T. B. Swan of Mechanic Falls, and Moses Hartman of Kennebunkport, told their stories about the attempts to bribe them with $1000 apiece, and charged Wallace R. White of Winthrop as the briber. The republicans do not believe a word either of them say, and consider the whole matter a put-up-job of Pillsbury's.

News and Notes.

Milton White is in jail at Mackville, Ky., for shooting a boy named Philip White. There is considerable excitement, and threats of lynching the murderer.

William C. Kelter of Harrisburg, Pa., a post-office clerk, has been held in $800 for trial on a charge of stealing a small sum of money from a decoy letter.

At Frederick, Md., on the 8th inst., in the case of Felix Munshove for the murder of his cousin, James L. Wetsel, in August last, the jury brought in a verdict of guilty of murder in the first degree.

A French boy named Saline Begant, ten years old, was drowned in Fall River, Mass., on the 8th inst., by falling into a canal.

There was almost a panic at Deadwood city on the 8th inst., owing to the threatened destruction of the place by brush fires. The wind was blowing furiously, but by great exertions the city was saved.

A nitro-glycerine manufactory at Whitehall, N. Y., blew up on the 8th inst., for the third time within as many years. Two men were blown forty feet into the air, though the roof of the building, and though both were probably fatally hurt, they were not dead when picked up.

A letter from Fayal states that United States Consul Dabney and his aged father recently rescued four drowning men from the surf at the imminent peril of their own lives. The men were part of the crew of a French bark wrecked. Only five were saved out of a crew of thirteen.

New Hampshire Items.

The grand jury for Hillsborough county reported on the 7th inst., having found fifty indictments, none of them being for liquor selling except a few cases sent up from police courts.

A little girl, two and a half years old, recently starved to death in Randolph. A family by the name of Brooks moved to Randolph from Franconia, and put up in a small log house. The father has fits and a son is cripple, but they managed to live somehow until for the need of necessary food they were taken sick, and before the neighbors knew of it the girl was dead and the rest of the family nearly famished.

Guilty of Wrong.

Some people have a fashion of confounding excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Political.

Gov. Perkins of California was inaugurated on Thursday last.

The democratic caucus of the Maryland legislature on the first ballot nominated for United States senator Mr. A. P. Gorman, now a State senator, president of the Chesapeake & Ohio canal, and chairman of the democratic State committee. He was formerly a republican, and collector of internal revenue in Maryland, but since 1870 has been an active and prominent democrat.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS COBB this writes in the *Boston Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge. In our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething stage, on any considerations whatever. Sold by all druggists. 25 cents a bottle. 5

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "it is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGADON, of Perkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

AROUND HOME.

Some of the handsomest and most ornamental lettering on Congress street has just been put on the windows of Moses Brothers' news depot.

The Eastern railroad company are driving extra piles at their wharf on Noble's island, to break the force of the tide, so that vessels can lie there more easily and with greater safety.

John S. Dame was on Thursday evening last elected city marshal of Dover by the board of aldermen of that city, leaving Marshal Rines out in the cold; Asst. Marshal Libbey was also defeated for re-election, George T. Jordan getting the place.

Collector Howard of the port of Portsmouth has taken the editorship of the Portsmouth *Journal*, which paper thus becomes the organ of the federal office holders in this State, and is expected to voice their sentiments in the preliminary canvass pending the meeting of the Republican National Convention.—*Manchester Union.*

At the recent annual meeting of the directors of the Portsmouth Brewing Co., Mr. George Bilbruck retired from the office of treasurer; Mr. Arthur Harris was chosen president. Mr. Harris is well known as an experienced brewer, and was one of the first owners of this establishment.

The purchase of a piece of real estate in our city by an energetic and practical man from Manchester, who knows how to make money by publishing a newspaper, is a subject of congratulation to our citizens, and as the fellow remarked when he wanted a little loan, "worth making a note of."

The long-vacant "Melcher lot," on the corner of Congress and Chestnut streets, has been purchased by Mr. Charles E. Walker, who will erect thereon a brick building containing two fine stores on the Congress street front. An architect was looking the ground over on Thursday, preparatory to the drawing of plans.

Mr. Sylvester Wright, in the employ of E. S. Fay, was badly injured while coasting last Thursday evening. He was taken home in a hack, and for six hours his case was considered very dangerous. He was conscious Friday morning, and hopes are entertained of his speedy recovery. Mr. Wright has the sympathy of many friends in his misfortune.

Charitably disposed persons are advised not to give anything to a woman who is going about the city with a subscription paper in aid of "Mrs. McGill, living at No. 2 Deer street," until the aforesaid Mrs. McGill can be found. We are assured by a gentleman who knows perhaps as much as any one in Portsmouth about the poor, that so far as is known there is no family of that name in need in the city.

Considerable talk has been made of late respecting the closing of the post-office on the Sabbath. The fact is that more people go through the vestibule of the post-office on Sunday than on any other day of the week, and the post-master says that the boxes are more generally clear of mail matter on Monday morning than on any other. We are glad to say that our citizens are not to be deprived of this convenience—the box office will remain open on Sunday, as heretofore.

The *Journal* says "the directors of the Eastern railroad company are considering the subject of building a bridge across the Piscataqua river from Freeman's point to Adam's point. The river at that place is 720 feet wide, and the greatest depth is sixty feet. If the proposed bridge be built, it is supposed that the old bridge from Noble's island to Kittery will be abandoned, and the Eastern trains be run from the island over the Dover railroad bridge to Freeman's point and then to the new bridge."

The governor of New York in his message states that the savings banks are in an improved financial condition, but "while each depositor's account in the savings banks of this State costs for management $1.63, the same service in Connecticut and New Hampshire is but $1.11." This is a good showing for New Hampshire at large, but our own Portsmouth savings bank makes a still better one, the expense of management for each depositor there being eighty-five cents per annum; and the whole expenses are less than one-quarter of one per cent on the amount of deposits.

Mr. Ed. C. Stickney, who has a studio on Ladd street, seems to have a natural aptitude for drawing carbo-crayon portraits, several fine specimens of which can be seen at his studio.

The telegraph poles for the new line between Portsmouth and Dover left this city on Friday, conveyed by a train of fifteen freight cars. The line is expected to be in operation within thirty days. A battery will be placed at Sawyer's mills, which will be a great convenience to the managers of the extensive manufacting enterprise at that place.

The Manchester *Mirror*, in a report of a grand army camp-fire says a gentleman "took a prize of individual salts, with the air gun, on a score of thirty-five." If the "individual salts" referred to taste anything like salts of the Epsom variety, which sick individuals are sometimes compelled to take, we should fancy he would have needed something more than an air-gun to make him take them.

Dartmouth college has 228 students. The Chandler scientific department, in addition, has forty nine; agricultural college, thirty-one; medical college, eighty-four. In the Thayer school of engineering are four students. In the class of 1881, Chandler scientific department, is Charles Willoughby Healey of Strafham; in the class of 1882 is Charles Woodbury Stimson of Kittery. John Langdon Rand of Portsmouth is in the freshman class of the college.

This week has been unusually pleasant for this time of year, and the fine sleighing and beautiful turnouts have been greatly enjoyed by all. On Thursday afternoon, when on State street, near the corner of Middle street, we were attracted by the sound of a quick-running horse and a loud jingling of bells, and thinking some unmerciful driver was over-urging the animal we were f r apprehending the man and handing him over to the society with the long name; but the real cause was soon noted—Len. Leach's horse was getting away with him, being hitched too near the sleigh, which was striking his heels at every step. We watched him as he neared the corner of Congress street, anxious about his turning the corner, but Len skillfully rounded an elm tree in front of the Chesley house, and brought up against the building in good order, without so much as a scratch upon himself, the horse or the sleigh. NED.

SHALL IT SUCCEED?

Our people this morning will have an opportunity of indicating just how much they desire to see the shoe business start in Portsmouth. They will be called upon with a request to devote a reasonable sum toward establishing this much-desired enterprise in our city. Shall it succeed? That depends entirely upon the manner in which the gentlemen who devote this forenoon in aid of the cause are received by those who either directly or indirectly are to be benefitted by the results of the new enterprise.

THE MEGATHERIANS.

Emerson's Megatherian minstrels, who are to play at Music hall on Monday evening, Jan. 12th, have received words of praise from the press wherever they have been. In speaking of them the Boston *Express* says:

Emerson's Megatherian minstrels are a troupe of talent, and their entertainment may be summed up in a single word—excellent. We cannot affirm how far the "half hundred" members individually add to the entertainment, but of the fact that some dozen are men of unquestionable talent, and who do honor to the art of minstrelsy. The Megatherians are, assuredly, a strong company, thoroughly organized, and directed in its performance by good taste, and the presentation of what is new and novel.

YORK COUNTY ITEMS.

The Senate has confirmed the appointment of Lieut. John Deanett of Kittery to be first lieutenant in the revenue marine.

The residence of Mrs. Theodora Tomlinson at Cape Neddick neck, was entered on the 3d inst. during the absence of that lady, and money to the amount of $20 stolen.

Capt. Richard Noonan, of Cape Porpoise, has purchased from Capt. E. Q. Weeks, of Princetown, Mass., the schooner Edole H. Weeks, of 19 34-100 tons register.

The "Summer boarders" have not all departed from York yet! At the Goodwin house, York harbor, is still stopping a family of four persons from Florida, who have been there since last July.

The proprietors of the hotels and boarding houses at York are much exercised respecting the ice crop. The ice on Chase's pond is very thin, no teams having been able to go upon it as yet.

Mr. John Grant, quarterman in charge of iron-platers in the construction department at the navy yard, pending the appointment of a foreman, has been presented by his associates with an elegant silver pen-holder and gold pen—a truly immense affair.

Cape Neddick was recently visited by a praying tramp. His *modus operandi* was to call for a bible, read a chapter, and offer a prayer, after which he would solicit money. Some of the good people of that ancient borough were badly victimized. The tramp has since been seen gloriously drunk.

There has been a big "boom" in the matrimonial market at Kittery, the following parties having invested their all within a few weeks: Herbert E. Keen of Malden, Mass., and Miss Clara B. Trefethen; Herman R. Paul and Miss Lucy Remick; James E. Walker and Miss Annie Duncan; Edward Remick and Miss Lizzie Lutts; James P. Manson and Miss Carrie J. Lewis; Alexander N. Perry and Miss Ellen M. Green; Robert W. Milne of Somerville, Mass., and Miss Nellie A. Sanborn, only daughter of the late William H. Sanborn of Kittery. There are rumors that several other parties of the town will shortly risk their fortunes in the same speculative business.

SUNDAY SERVICES.

Rev. John Couch of Boston will preach at the Advent church on Sunday.

Rev. Benton Smith of South Newmarket will preach at the Universalist church.

The subject of Rev. W. A. McGinley's lecture on Sunday evening will be "Fame."

The subject of Rev. Dr. Alden's evening lecture in the Middle street church will be, "Whosoever will."

Reform club meeting at Bow mission hall, at 7:30 P. M.; speaking by members.

FIRE.

As Officer Nowell was passing the Elm street ward room just before midnight on Friday he heard a noise in the building, which was afterward found to have been caused by the explosion of a carboy of acid, kept there to use in the extinguisher which occupies part of the Lower floor. Finding the building locked up he knew something was wrong, as no person could be inside; and smoke commencing to issue from the cracks, he and Officer White, who came along just then, gave an alarm, burst open the door, and ran out the extinguisher, which by that time had got quite hot. Mr. Nowell being conversant with the machine set it at work, and Mr. White as pipeman soon flattened out the fire, but not before the building was well blackened inside. Had the carboy burst a minute sooner or later than it did, the building, with the extinguisher and city hearse, would have been destroyed.

Naval Affairs.

The confirmation of Homer C. Blake, nominated to be commodore, hangs fire in the Senate; some other officers contest the promotion, and their senatorial friends object to Blake being pulled through.

The secretary of the navy has received a communication from Commander Picking of the Kearsarge, dated Santiago de Cuba, December 17, which reports the arrival of the Kearsarge at that place on December 15th, in search of the schooner White Wing, but no information could be obtained.

The United States lighthouse steamer Manzanita, Lieut. W. L. Field, U. S. N., in charge, arrived at San Francisco on the evening of the 6th inst., all well. She left New York on the 26th of October.

Rear-Admiral Howell, commanding United States naval forces on the European station, reports from Villefranche that the United States flagship Trenton had just arrived at that port from Gibraltar, on the 19th day of December last. He also reports that the Enterprise arrived at Alexandria Nov. 10th, and that the Quinnebaug arrived at Villefranche on Dec. 10th.—It is expected that the United States ship Tennessee, the flagship of the North Atlantic squadron, will sail from New York for Norfolk on the 7th inst.—The navy department has received from the Philadelphia navy yard a full set of plans and specifications for an iron "unarmored cruiser" of 3,500 tons displacement.

Advices have been received at the navy department from Iquique, Peru, stating that an American citizen named A. L. Gordon, who had been held a prisoner at Iquique since June last, has been received on board the United States steamer Alaska. Gordon was arrested on the charge of being a Chilian spy, and held a close prisoner by order of the president of Peru.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—Thirty persons in a small town in Michigan were recently poisoned by eating sausages. This comes from leaving brass collars on dogs.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

—The *Lancet* recommends light colors for cold weather, as they do not part with heat easily, and says that this is why the polar bear has white fur.

Highest Prize Port Wine.

The best wine in the country, that took the highest premium at the Centennial, is Speer's Port Grape Wine, which has become the most celebrated product of New Jersey. This wine and his P. J. Brandy are now being used by Physicians everywhere, who rely upon them as being the purest to be had of druggists. It is unsurpassed for weakly females and old people.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

—A Vermont church annually puts up at auction the post of sexton. The man who offers to do the work for the least money is the successful bidder.

Adamson's Botanic Balsam has gained a reputation which places it in the front rank of curative agents. It has been in the market but about nine years. It is now recommended by the best physicians because it cures Coughs and Colds every time. Price, 35 cts.

—Japan has iron coins worth about one hundredth of one cent. They are alleged to be chiefly used for alms and as offerings to gods.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

—Mrs. Clara Clavins, aged 103, was burned to death in New Orleans, La., lately, by the explosion of a lamp.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use. I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin diseases. I have spared no money or pains to secure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among others Dr. —— of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to the Irish people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large bottles of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much improvement within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor which I saw it could not reach the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I only wish that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

BOSTON, Aug. 22, 1878.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience. Twenty hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are no sad irons. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back outlet. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have in the fact that they can buy imitations at half the price of genuine, and palm them off as the same. Insist on having the genuine article.

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will far fulfil its ceaseless endeavor to present the most eminent authors, *absolutely the best and most characteristic* work of the Chief Living Foreign Literary Critics, Discoverers and Editors, representing every department of Knowledge and Progress.

THE LIVING AGE *is a weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in the inexpensive form, comprising its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature, *indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Episcopal Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and noteworthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL WHO MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club-Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Evening Bulletin.*

For $10.50 THE LIVING AGE and *either one of* the American $4 monthlies (*Harper's Weekly or Bazar*) will be sent for a year, *both post-paid;* or, for $9.50 THE LIVING AGE and the *St. Nicholas, or App'ton's Journal.*

MPORTANT LETTE!

From a Distinguished Physician.

NO single disease has entailed more suffering or has tended the breaking up of the constitution the starrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison intributes throughout the system attacks every vital gan, and breaks up the most robust of constitution. ancred because but little understood by most physians, impotently assisted by quacks and charlatans, ousands suffering from it have little hope to be relieved r it this side of the grave. It is true, then, that tl popular treatment of this terrible disease by respecta physicians has proved a failure, and that the victim fthis reach of all passed into hands at once competent and trustworthy. The new and hitherto unpriled method adopted by Dr. Sanford in the preparation f his Radical Cure has won my hearty approval. I ly use it likely to succeed when all the usual remedi fail, because it strikes at the root of the disease, viz *in acrofilat blood*, which it heals the ulcerated mucrane by direct application to the nasal passages. I ntion its trial on certain fixed rules, and unless vital forces are too far exhausted, must, in the great ajority of cases, effect a cure.

GEO. BEARD, M. D.

NORCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1879.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen. 10, in physicians' practice, they commend it to their families in preference to any of the proprietary ones usually prescribed by physicians.

"Not an idle word," said a leading Philadelphia physician, "but my obligations to the Mass. Medical Society ake that I cannot publicly recommend any proprietary edical Cure; but since I received so much relief from one myself, after a long and tedious trial of other medies, I have privately advised its use, and present have sent to your store no less than one hundred. y patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly at we never sold a similar preparation that gave ch universal satisfaction. We have to learn the first cof duty t.

We are not in the habit of recommending patent edicines, but your preparation meets the wants f humanity, and we think those afflicted should be ade aware of its great merit as a remedy for suffering with ldness. We have been in the drug business for the last twelve years constantly, and sold everything fi ternal, but your preparation is the best. If you see fit, you can use this letter or any part of it that you wi. ELECTRICITY

is a grand curative and restorative agent is now admitted by any element of medicine in the history of medical art. Unless the vital spark has fled the body, restoration by means of vital electricity is possible. It is the grand art of all physicians and surgeons, and has received, apparently dead, more than human lives, when no other human agency could have succeeded. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to claim attention. Their strengthening, healing, soothing, and stimulating properties are known to the sick. When combined in accordance with late and important discoveries in pharmacy, their healing and regenerating properties are increased tenfold. This is report, and Plaster is the best in use without the aid of electricity.

Chronicle Correspondence.

WASHINGTON, D. C., Jan. 9th.

Whether there has been industrious log-rolling on the 3 1-2 per cent bond question I know not, but certain it is that there are many more who seem to favor that experiment in the new refunding operations than there were a few days ago. I find among members of Congress in both parties many who have not only been converted to the lowest rate of interest as a theory, but who have become convinced that it will succeed, and can be placed as fast as the five and six per cent bonds become redeemable. Mr. Wood claims the paternity of the 3 1-2 per cent bond idea, but it was discussed long before he brought it before the public. His bill, however, is the one which will be favored if any shall be adopted, and of course it will take the place of the 3.65 bond idea which Judge Kelley has urged for years.

The fact just made public, semi-officially, that Mr. Tilden will again claim the nomination for President, is now said by many democrats to have been well-known to them all the time. Some time ago it was announced that Mr. John Bigelow would take up his winter residence in Washington. Now Mr. Bigelow is Mr. Tilden's right hand man in politics. He was formerly a republican, but supported Mr. Tilden for governor of New York in 1874, and has acted with him ever since. Mr. Bigelow is a man of ability and experience in public affairs, and it is conjectured that he will be Mr. Tilden's manager at the Capital during the ensuing campaign. This causes the friends of other candidates no little uneasiness.

The *Evening Star*, an independent democratic newspaper of this place, says that Mr. Blaine has evidently scored one very important point in the management of the republican cause in the Maine fight. The *Star* says that instead of injuring Mr. Blaine's presidential prospects, as it says they hoped to, by the transactions in Maine, the democrats have contrived to promote his chances by offering him such an opportunity to show his qualities as a leader.

There is a marked reaction against the measure to take from the treasury nearly five hundred million dollars to pay pensioners the difference between the value of the greenback and gold dollar from the time they began to receive it. Great efforts are being made by the greenback national leaders to load Congress down with petitions in behalf of that so-called "equalization" scheme, but people begin to see through it as a scheme to promote the popularity of a few demagogues. KNOX.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

The New York & Midland railroad has been sold for $4,000,000, and the purchasers intend to form a new company, under the name of the New York, Ontario & Western railroad company, with a capital of $10,000,000.

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

A young Frenchman named Victor L. Blebdon was arrested in Boston on Thursday of last week, on the charge of having forged the names of various people in that city to orders for clothing. In the municipal court he was held in $4000 for trial.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

A flood at Cincinnati has caused damage estimated at nearly $100,000.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

MONDAY, JANUARY 12, 1880.

The Stolen State.

Early Friday morning Major General Chamberlain issued a general order, stating that in view of the extraordinary situation now presented at the seat of government, he would assume command and protect the public property and institutions of the State, in trust for the people, until the governor's successor had been legally elected and duly qualified. By this order Gen. Chamberlain assumes temporarily the office of governor and commander-in-chief. The entire police force at the State house was changed Friday morning, men indicated by Gen Chamberlain taking the places of the fusion roughs who have been drilling there for several weeks. The change was quietly made.

The reading of the record of the House show that less than a quorum of representatives voted on the election of officers of the House, from the speaker down, and that Eugene Hale's point of "no quorum voting" was each time duly noted. The republicans were surprised at this, as they expected the records would be so written up as not to show much of anything, except that the thieves had everything their own way in organizing the House. The rump legislature was in session until nearly seven o'clock in the evening, but attempted no important business.

On Saturday there were but fifty-four representatives present, and the House adjourned at half-past nine o'clock in the forenoon, to ten o'clock Monday. The Senate adjourned at ten o'clock.

The State arms removed from Bangor to Augusta by Gardiner were returned to their proper place on Saturday, by order of Ex-Gov. Chamberlain.

Coming Cold.

Prof. Vennor, who has won considerable notoriety as a weather-prophet, contributes the following prediction in regard to the coming two months, to the Montreal *Witness*:

It seems pretty certain that we shall have to record two more terms of severity during the present winter, and it is an interesting problem to determine when each of these may be expected to occur. To determine, if possible, this point, I have carefully studied my chart of our winters as far back as the winter of 1860-1861, and have arrived at the following "probabilities," viz: That the next marked severe term is likely to occur between the 9th and 16th days of January or very close upon these dates. This will be severe and probably equal, if not exceed, the December cold term. The third "dip," which I think will be the severest of the three, is likely to come upon us in proximity to the 8th day of February, and continue three or more days. Two other "dips" of minor importance will probably be located near the end of February, and close to the 17th of March respectively. Between these very cold periods, there are likely to occur two or more very general thaws, probably with rains.

New Hampshire's Governors.

The Concord *Monitor* says the governors of New Hampshire have been selected from the counties in the State since 1784 as follows:

Rockingham — Meshach Weare, John Langdon, Josiah Bartlett, John Taylor Gilman, Jeremiah Smith, William Plumer, Samuel Bell, Levi Woodbury, John Bell, Ichabod Goodwin, Benjamin F. Prescott.

Strafford — John Sullivan, William Badger, Noah Martin.

Belknap and Carroll counties were incorporated in 1840, both being portions of Strafford, and neither has had a governor since their incorporation.

Merrimack — Matthew Harvey, Isaac Hill, Anthony Colby, Nathaniel B. Baker, Joseph A. Gilmore, Walter Harriman, Charles Stearns, Natt Head.

Hillsborough — David L. Morrill, Benjamin Pierce, John H. Steele, Frederick Smyth, James A. Weston, Ezekiel A. Straw, Person C. Cheney.

Cheshire — Samuel Dinsmoor, Samuel Dinsmoor, Jr., William Haile.

Sullivan — Henry Hubbard, Ralph Metcalf.

Grafton — John Paige, Nathaniel S. Berry.

Coos — Jared W. Williams.

Eleven have been selected from Rockingham, three from Strafford, eight from Merrimack, seven from Hillsborough, three from Cheshire, two from Sullivan, two from Grafton, and one from Coos.

Men and Notes.

Benj. C. Bogett, treasurer of the New York produce exchange, committed suicide last Thursday night. His accounts are deficient $30,000.

Mr. Henry Leisner, nearly fifty years of age, living in the eastern part of Damariscotta, Me., was found in a field near his house on Tuesday of last week dead.

Henry Corson of Rockland, Me., aged about forty-five years, a government pensioner, without family, and addicted to drink, entered a house in that town last Thursday, complaining of feeling unwell, and died in a few minutes. A coroner found no cause for suspicion of foul play, and did not hold an inquest.

A man and two horses broke the ice while crossing from Cedar Point to Addison, Vt., last week, and were all drowned.

Miss Helen J. Ward, who has been in custody in Boston for some days for shooting her mother, was on Saturday discharged on motion of the district attorney, who entered a *nol. pros.*

Two prominent citizens of Hartford, Conn., Dr. George F. Hawley and Mr. Charles M. Webster, an insurance agent, had a pistol fight in the latter's house, Saturday, owing to Hawley's alleged improper intimacy with Mrs. Webster, who is said to be a remarkably beautiful woman. Both men were wounded, but neither seriously. Four shots were fired.

Frank Leslie, the well known publisher, died in New York on Saturday.

Three Irish boys from Thompsonville, Conn., skated up the river to Springfield, Mass., Saturday, and in returning broke through the ice at Pecowic, and were drowned. They were aged about twelve years.

Consul Eckert and Mr. Napheyg, an American citizen, arrived at New York on Saturday from Barcelona, Venezuela, and report that they were forced to fly from the outrages of the Venezuelan officials. Mr. Napheyg's family was left on the wharf when the men fled.

The lost Pleof child at West Jay, Vt., has not been found, and the affair remains a deep mystery. Not one trace has ever been discovered of the child, and how she could have been taken away without a faint trace of her is an enigma. The excitement long since died away. It is said that her mother appears quite indifferent about it, and does not allude to the child. Many believe that she knows where the child is, and may have given it back to its true father, who is not her husband.

Mrs. Bridget Ford, sixty-seven years of age, was found dead in a basement tenement at Worcester, Mass., Friday morning, she having actually starved herself to death while watching a small sum of money she had hoarded, and which she imagined people were going to take away from her. She had not tasted food of any kind for about nine days, and had resisted all attempts of her friends to force her to take the necessaries of life. A bank book, representing $10, was found on her person.

Considerable general interest is felt in London concerning the re-opening of the remarkable Tichborne case. Judah P. Benjamin, who has achieved considerable fame and fortune there as an advocate, has been secured as counsel by the claimant, and will prosecute for writ of error in his behalf. Several witnesses are coming from California, and extraordinary revelations are promised. Among other serious charges which, it is claimed, will be established on this trial, is the assertion that the jury on the first trial was packed in the interest of the prosecution.

New Hampshire Items.

The Rochester Odd Fellows made $350 by a recent fair.

There are 1,006 miles of railroad in New Hampshire.

During last fall Simeon L. Locke of Lyman put some cider that he had made into a cheese press that had been painted on the inside. Mr. Locke and a brother, Elbridge G. Locke, from California, died recently, it is supposed from drinking the cider, which the paint had poisoned. Mr. Locke's wife, another brother and two sons, are now dangerously sick from the same cause.

A meeting of the prominent Irish citizens of Manchester was held Friday evening to devise means for the relief of Irish tenant farmers, and to raise money to aid in carrying on the agitation. A committee of seven was selected to wait on Charles Stewart Parnell, in Boston, Monday, and invite him to address the citizens of Manchester at an early day. One hundred dollars were contributed to the relief fund, and subscription lists were opened for both objects. Maj. Thomas Connelly presided; C. A. Gallagher, secretary, and M. O'Dowd, treasurer.

Monday afternoon, 5th inst., a little daughter of James M. Wiggin of Lee, only three or four years of age, was left alone for a few moments by the mother, and by some means her clothes took fire from the stove, and although the mother returned as quickly as possible, the child was so badly burned that death ensued in a very short time, or before a physician or other assistance could be called.

Daniel Lanahan, aged nine years, was drowned at Nashua on Saturday, by the ice breaking under him. Another boy also broke in, but was rescued.

There are two cases of small pox in Nashua, and many persons have been exposed to contagion. The disease was brought from Canada by a Frenchman, who had been visiting relatives sick with it, and brought back some clothes of a deceased person, which his daughters wore in the mill.

—"Was there a funeral in heaven when I came away?" asked Tiny. Her mother thought not. "Well," said the child, "I presume they all felt bad."

—"I like your impudence," as a pretty girl said when her beau kissed her.

—A young lady in Chicago, when asked by the officiating minister, "Will you love, honor and obey this man as your husband, and be to him a true wife?" said plainly, "Yes, if he does what he promised me financially."

—Brooklyn school examination a la mode—"Who is the President of the United States?" Silence. "Who is the present governor of the State of New York?" More silence. "Who is the governor-elect of the State of New York?" Dead silence. "Who won the last walking match?" Chorus of nursing Presidents—"Row-ve-el-l." —*New York Commercial Advertiser.*

—An old farmer out in Indiana says, that for his part he don't know where the present rage for trimming bonnets with birds is going to end. Only four or five years ago he bought his daughter a humming bird; next year she had a robin, the next a pheasant, and this season he declares he had to chain up his Thanksgiving turkey, or she'd have had that perched on top of her head.—*Andrews' Bazar.*

Cranberries.

Perhaps less than a century ago in our northern section of the country, there were not many cranberries, but those that grew in a natural or wild state. But as time goes on, increasing attention is given to their culture, so that now the crop is often quite large. The plant is a small, hardy shrub, with evergreen leaves. In a natural state it grows in moist places, a sort of peat for soil, and if silicious all the better. But clay is not fit for it.

It is found in the northern States, in parts of Canada, and as far south as Virginia. The first culture of the plant was at Cape Cod in Massachusetts and regions about there, where now great quantities are produced. It is now cultivated in many States. In 1869 it was calculated that seventy-five thousand barrels were marketed. Without doubt the quantity in these late years is much greater.

There are different varieties. Some are called Cherry, some Bugle, and there is a kind called Mansfield Creeper. The color varies from light dull pink to dark purple. It is a fruit acid to the taste, but edible and wholesome in almost any of the different forms of cooking. x.

—On the farm of George W. Moore, in Lambertville, N. J., a few days ago, 200 flint arrow-heads were dug up.

When the lips are dry or scarred,
When teeth are dark or dull,
When the tongue is hot and hard,
And all is the tainted mouth to full,
The magic SOZODONT supply,
And all those ills before it fly.

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homœopathy. That night the child passed in suffering and the parents without sleep. Returning home the day following, the latter found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning big and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup and suffering cryin, babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. d

AROUND HOME.

Sunday was a beautiful day, and the attendance at the several churches was very large.

Mr. Joseph R. Curtis has been appointed United States storekeeper in this city, at Ward's distillery.

Frank Bowley of Fremont was arrested on Thursday and taken to Exeter jail, charged with breaking and entering at Newmarket.

Schooner Charles H. Trickey, of Dover, at New Bedford last week, has been chartered to load phosphate rock at Wood's hole for Philadelphia.

Rev. George E. Street spoke on the life and public services of the late Hon. Amos Tuck, at the Second Congregational church in Exeter on Sunday.

The sale of tickets for the splendid concert to be given at Music hall on Wednesday evening, commences this morning at nine o'clock; reserved seats only 50 cents.

The smelters on Great bay had very poor luck on Saturday, only about twenty-five pounds being taken by all hands. Some of the fishermen failed to get even a nibble.

Mr. John S. Treat and wife started from this city for St. Louis, Mo., Saturday morning, to pay a visit to Mr. Treat's uncle, Judge Samuel Treat, the United States district judge for the eastern district of Missouri.

The stone work over the main entrance to Franklin block is to be taken down, and new put in. The words "Franklin Theatre," in raised letters, will be substituted for the band of oak leaves and ferns now over the arch.

The Knights of Honor have been notified by the owners of Washington hall, where that organization has been located for a term of years, that their rent is to be materially increased on the first of the month, and it is said they will vacate the premises.

The cause of the explosion of the carboy of acid in the city building on Elm street, Friday night, was probably the throwing of an unextinguished match among some straw, which took fire and smouldered until the heat become great enough to burst the carboy.

Mr. William J. Doyle, whose absence for several days occasioned some concern to his friends, was heard from on Saturday, all right; he went from Boston to New York on business, and had no idea that he was part of a "mystery" until he arrived at Boston on his way home, and read of it in the papers.

The Eastern railroad has recently cut a "jog" in the bank near the house of Mr. Samuel P. Abbott, at the foot of Russell alley, and put up a heavy and substantial bank wall of granite at the side and end of the cut. By this operation the railroad gains room for switching off one car, but if a locomotive should ever run away and go through the wall at the end of the track, the engine would find himself in the potato-bin in Mr. Abbott's cellar.

Emerson's Megatherian minstrels, travelling under the auspices of Mr. C. H. Smith of the Fall River Academy of Music, who has never brought anything but first-class shows to this city, will perform at Music hall this evening. The troupe is a huge one, numbering a "half hundred performers," including eight "end men," and is highly commended by the press. The Boston *Advertiser* calls the show "immense and excellent;" the Boston *Herald* says they gave "some of the best performances seen in Boston for years;" and the Boston *Times* says "the company is excellent and well balanced, and there is not a weak spot in it." See advertisement.

The pile-driving operations at the Eastern railroad wharf on Noble's island last week consisted of the placing of a row of piles in the middle of the wharf, extending from its outer end toward the land as far as the tide strikes, the piles being driven as close as possible to each other, so as to break the tide from vessels moored at the wharf. This will take off most of the strain from the mooring lines, and make the vessels lie much easier and more safely; and it will also to some extent shelter the Concord railroad and steamboat wharves from the current when the tide is running out, though the general set of the tide will not be perceptibly changed.

John W. Witham was indicted by the grand jury at Manchester last week, on two counts, one for burglary, and one for receiving a valuable lot of jewelry, stolen from the residence of Capt. Ball of Greenland last summer.

HOLD YOUR HORSES.

Saturday afternoon, shortly after four o'clock, a little daughter of Mr. Wm. W. Dennett, aged five or six years, attempted to cross Congress street from Plumer's bakery, when an open buggy driven by Mr. Edward M. Balch came down from the direction of Islington street at a high rate of speed, and in turning into Fleet street the child was struck by the horse and knocked down. For a moment the spectators thought she could not escape being run over, but the speed with which the carriage was moving caused it to slue a ide just enough to carry the wheels clear of the child, who was picked up and taken into Plumer's store, where Dr. Folsom made an examination and reported no bones broken. She was somewhat bruised and very much frightened, but fortunately escaped serious injury—a very fortunate escape, so those who saw it consider.

This makes the fourth knock-down reported to us within a few weeks as occuring on our streets through reckless and illegally-rapid driving. The old man known as "Soldier" Hoyt was run over while crossing Islington street, and so badly injured that he had to be taken home in a team; Mr. John Moran was struck on Congress street by a sleigh driven by Mr Woodbury Locke, and knocked a long distance, the collision being so violent as to upset the sleigh, though Mr. Moran almost miraculously escaped grave harm; and Capt. Robert Shillaber was knocked down and run over near the Rockingham house a few evenings ago by a fast driven team, and had an arm badly bruised and one hip seriously lamed.

Judging from their conduct, some of the owners of fast horses fancy that they also own the streets, and that no one else has any business in them; this is an error; the streets belong to the public—to the man who does not own any horse at all, just as much as to the man who owns a three-minute roadster. And as there is a city ordinance against fast driving in the compact part of the city, would it not be a good idea to at least make some show of enforcing it? How the law would regard a suit against the city for personal damages received through the non-enforcement of a city ordinance by the city authorities, we do not know, but in equity such a suit would certainly be much stronger than a claim for damages received by a fall on an icy sidewalk, which the city authorities could not possibly prevent becoming icy.

SHALL WE HEAR IT?

We learn that there is a great desire among our residents who have heard of the success of Mr. Gilmore's new national anthem, "Columbia," to have it rendered in this city. It was performed at the New York Academy of Music on Christmas day by a chorus of two hundred voices, an orchestra of one hundred and fifty, and Miss Emma C. Thursby as soloist. Algernon S. Sullivan made an address upon the history of national anthems, and George Vandenhoff read the words of the new hymn. The enthusiasm was intense, and the vast audience united in singing the last verse. Can we not enjoy this musical treat in Portsmouth, if our Dover friends will come by an extra train and help us fill Music hall?

REFORM CLUB ELECTION.

The quarterly election of officers was held by the reform club at Bow mission hall, Friday evening, and the following-named gentlemen were chosen:

President, Joseph T. French;

Vice Presidents, Geo. W. Randall, Edward F. Hall, Richard Roberts, Robert Phinney, James R. Eaton;

Secret ry, Wm. P. Wallace;

THE RAILROAD DISPUTE.

The agreement for reference of the question at issue between the Portsmouth & Dover railroad and the Eastern railroad as to rental, has at last been signed by the parties, and the hearing will be before Judges Smith, of Manchester, Bingham and L. W. Clark.

The agreement provides that all questions and controversies arising in the suit of the P. & D. R. R. against the E. R. R. in N. H., and under the lease in regard to cost of construction of the leased road, so far as it may be open to enquiry as a matter of law, and may be necessary to fix the amount of interest, rent, or dividend which the E. R. R. are bound to pay in the suit now pending, or which they are to hereafter pay during the term of the lease, shall be submitted to the above referees. It is provided that the number of shares of the stock of the P. & D. R. R. now issued shall not be reduced, but if the arbitrators shall find that any claims made by the E. R. R. are open to enquiry, and can be legally enforced in this or any action, they shall consider such claims and assess the amount thereof and give the E. R. R. the benefit of the same, but only in fixing and lessening the rate of interest, rent or dividend that shall be paid in this suit, and shall be paid afterward for the time the lease extends. The award of the arbitrators is to be final.

The hearing will be as soon as the judges can find a time when their several engagements will permit them to attend at the reference, which is to be held in this city.

J. H. HAVERLY'S SHOWS.

This popular manager has concluded to embrace Portsmouth in his circuit, and will, during the winter, present the best of his attractions here. The Great Mastodon minstrels, under the management of Mr. Foote, will be the first to appear here. The Genuine Colored minstrels, and Juvenile Opera Pinafore company, will follow shortly. The Mastodon minstrels were playing last week at Haverly's Brooklyn theatre to packed houses. They open in Boston at the Globe theatre Jan. 19th, for a short season.

Amos L. Allan, the popular clerk of courts of York county for the past nine years, has just entered upon his fourth term. During this time he has not been absent an hour from the sessions of the court, nor has he had the assistance of any one, always doing the work alone. He is acceptable to all, because prompt in his official business.—*Biddeford Times.*

Old Wells claims the banner! Miss Alice Littlefield of Maryland ridge has every day since New Year's, Sabbath excepted, taken her team and driven to the salt marsh, loaded up her load of marsh muck and driven home. She has all through the past season worked day by day with her brother on the farm, planting, haying and harvesting, and all without in the least deranging a refined and gentle ladyhood which sits becomingly upon her. Miss Alice comes of good, sturdy stock. Her grandmother, now living at the age of ninety-six, is hale and hearty, knits without spectacles, and within a year and a half has walked from her home to her daughter's—a strong mile—carrying a work basket on her arm. Alice's mother is a thrifty, active woman, looking well to the appointments of her farm, and her aunt, our aunt Huldah—well, we all know what Aunt Huldah is. Don't all speak at once, young gentlemen.—*Biddeford Journal.*

Moses Harriman of Kennebunkport, the fusionist elected to the Maine legislature by Garcelon, Moody and their pals, in place of the representative elected by the people of Kennebunkport at the polls, is the man who some time ago displaced Mr. E. C. Nealley as superintendent of the fire department at the navy yard, and was subsequently displaced by Mr. Nealley, then getting a reappointment, which was still later again upset by the reappointment of Mr. Nealley—the latter finally proving the strongest man, as he is unquestionably the best one. When Moses found he was beaten his "light went out," his doll got stuffed with sawdust, and he became a "reformer" *a la* Ed. Moody. Now he swears that on Jan. 5th he was paid $1000 in consideration of his signing a paper denouncing Garcelon, and refusing to take the seat in the legislature stolen for him by the crew of political quacks. The republicans scout his story, and the similar one told and sworn to by one Swan, and say that there is not a republican leader in Maine idiotic enough to place the slightest dependence on either Swan or Harriman—much less to trust either of them with a thousand dollars on the strength of a promise that he *would do* something.

Naval Affairs.

First Lieut. George C. Reid, U.S. M.C., is ordered to duty at the marine barracks at Portsmouth navy yard, Jan. 15th.

Passed Assistant Paymaster John W. Jordan is detached from the training ship Portsmouth on the reporting of his relief, and ordered to settle accounts.

Boatswain Francis Butland is detached from the Onward and ordered to the Pensacola; Boatswain John A. Brisco is detached from the Pensacola, and ordered home.

Leave of absence is granted Lieut. John C. Irvine for two months.

Medical Director Chas. Martin left Norfolk, Va., Jan. 5th, for his new post of duty in New York, having been relieved at Norfolk by Med. Director A. L. Gihon.

The Kearsarge arrived at Havana from Honduras, on the 10th inst.; all well.

The training ship Constitution arrived at Martinique on the 3d inst., and will remain there two weeks before proceeding to Santa Cruz. All well on board.

New Publications.

The *Musical Herald* is the title of a new monthly journal of 28 large quarto pages, well printed and illustrated, and sent out from Music Hall in Boston at $1.50 per year. It contains matter of especial interest to persons of musical tastes, and who can appreciate the great labor which the publisher and his very excellent company of editors seem to bestow upon the periodical. It is extremely low in price, but by no means cheap in design or execution, and will doubtless take a high rank as a musical periodical.

—When "Thad" Stevens was a young lawyer in the Pennsylvania courts, he once lost his case by what he considered a wrong ruling of the judge. Disgusted, he banged his law books on the table, picked up his hat, and started for the door with some vigorous words in his mouth. The judge, feeling that his dignity was assailed, rose impressively and said, "Mr. Stevens!" Mr. Stevens stopped, turned and bowed deferentially. "Mr. Stevens," said the judge, "do you intend by such conduct to express your contempt for this court?" and Stevens, with mock seriousness answered, "Express my contempt for this court? No, sir! I was trying to conceal it, your honor."

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Highest Prize Port Wine.

The best wine in the country, that took the highest premium at the Centennial, is Speer's Port Grape Wine, which has become the most celebrated product of New Jersey. This wine and his P. J. Brandy are now being used by Physicians everywhere, who rely upon them as being the purest to be had of druggists. It is unsurpassed for weakly females and old people.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

Adamson's Botanic Balsam has gained a reputation which places it in the front rank of curative agents. It has been in the market about nine years. It is now recommended by the best physicians because it cures Coughs and Colds every time. Price, 35 cts.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with scurf, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1877 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of Hast—ston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have taken over five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I e ud not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to the top people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. The first was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it caused the surface to heal fastest, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week bearer a cure, until at present, after three months use of CUTICURA, and twelve years of a constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR,

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood and Skin Purifier and Liver Stimulant ever compounded.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION; Exhausted vitality, nervous and physical debility, vitality impaired by the errors of youth or too close application to business, may be restored and manhood invigorated.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, authored by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing diseases, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

THE MODEL RANGE

— FOR —

Hard or Soft Coal or Wood

— HAVING THE —

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The nickeps is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back outlet. Patent check draft and curve flue will save one-third of fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendor can have is the fact that they can pass imitations at half the price of the genuine, and they hope by it to gain a small and honest profit. Ill

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, E. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Alpham, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year,* admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above-named and many others;* embracing the Choicest Serial and short stories by the *Leading Foreign Novelists,* and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors,* representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine,* giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, combining its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Political, Historical, Biological and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, oolities and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough comprehension of all that is noteworthy and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY, at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club-Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our vivacious American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Evening Bulletin.*

For $10.50 THE LIVING AGE and *either one* of the American $4-monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *both post-paid;* or, *for* $9.50 THE LIVING AGE and the *St. Nicholas,* or *Appleton's Journal.* Address,

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or bafflement, the breaking up of the constitution by starrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and some times all yield to its destructive influence. The poison distributes throughout the system attacks every vital tree, and breaks up the most robust constitution more rapidly than little understood by most physicians, impotently assisted by quacks and charlatans those suffering from it have little hope to be relieved if it this side of the grave. It is true, then, that if popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto unheard of method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. the *acidified blood,* while it heals the ulcerated membrane by direct application to the nasal passages. Medication is based on certain well rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, but they prescribe it not only from conviction, but in their families in preference to any of the preparations usually prescribed by physicians.

"You are aware," said a distinguished city physician that my obligations to the Mass. Medical Society which that Society publicly recommend or prescribe medical Cures; but since I received so much relief from use of it myself, after a thorough trial of the usual remedies, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candid that we never sold a similar preparation that has universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great merit so that their suffering will be relieved. We have been in the drug business for 18 years and sold everything that starts, but your preparation is the best. If you are so inclined you can use this letter or any part of it that you wish.

Very truly yours, F. D. HALDOWN & CO. Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1878.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. GEO. C. GOODWIN & SONS, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with Medicated Porous Plaster! The most Powerful Plaster for pains and aches of the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is now admitted by any element or medicine in the history of healing art. Unless the vital spark has been extinguished by the ravages of electricity is possible. Hundreds of very aged physicians and scientists, and hundreds of thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam of fir and the gums of the East are too well known to require description. Their grateful, healing, soothing, and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. We respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produce more cures than any liniment, lotion, or plaster ever before compounded in the history of medicine. Try one. Price, 25 Cents.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, or by WEBB & POTTER, Proprietors, Boston, Mass.

A Theatrical Joke.

In the "good old days" at the Haymarket theatre they were running the musical farce of "No Soug, No Supper," and the exigencies of the piece required a real boiled leg of mutton every night, which, according to the law of "property," or rather the "property-man's" law in a theatre, went after the performance almost untouched to the official named. But the "flymen" perched up aloft did not like this, which occurred night after night to their growing dissatisfaction; for they, too, had wives and families to whom a boiled leg of mutton free of charge would have been a thing to be remembered. So they hit upon a plan, and one night Mr. Wm. Farren, who had the carving of the aforesaid leg, was solicited to fix a hook that would be let down from the "flies" into the mutton, and leave the rest to them. Farren, always ready for a practical joke, consented at once, and as the scene was coming to a termination, deftly fastened the hook into the leg, and "left the rest to them." As the scene-shifters were preparing to "close in" and the property-man stood at the wings ready to seize on his perquisites, the leg of mutton was seen slowly to ascend, without any visible agency. The audience laughed and the employees all gave vent to their feelings in illsuppressed merriment—all save the property-man, who remained miserably serious, and gazed at his fast-departing supper with a woe-begone countenance. Suddenly, as the scene was almost closed in, the hook, which Farren had unfortunately put in the fat, gave way, and down came the much coveted mutton on the dish with a terrific splash. The audience now roared; the employees roared; and as the "flats" hid the unrehearsed tableau from view, the now delighted property-man rushed on the stage, and securing his ill-treated supper, joined the general roar. The "fly" fishers were never known to try a "hook" again.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—"My dear," said a sentimental maiden to her lover, "of what do these autumnal tints, this growing baldric of the skies, this blazing garniture of the dying year, remind you?" "Pancakes," he promptly answered. And then she realized for the first time that two hearts did not beat as one.—*Andrew's Bazar.*

One Box or Six Bottles.

If you are suffering from a combination of liver or kidney diseases, and constipation, do not fail to use celebrated Kidney-Wort. It is a dry compound as easily prepared as a cup of coffee, and in one package is as much medicine as can be bought in six dollar bottles of other kinds.

—Who bids? A Mormon elder says that the electoral votes of Utah are at the disposal of whatever party will secure its admission as a State; and a San Francisco paper offers the electoral votes of California to the party which puts the most positive anti-Chinese plank into its platform.

"I Am All Played Out"

is a common complaint. If you feel so, get a package of Kidney-Wort and take it and you will at once feel its tonic power. It renews the healthy action of the kidneys, bowels and liver, and thus restores the natural life and strength to the weary body. Get a box and use it at once.

—"Talking of law," says Pompey, "makes me think of what the 'mortal Cato, who lib mos' a thousan' years ago, once said—'De law am like a ground glass window; dat gibs light nuff to light us poor folks in de dark passage ob dis life, but would puzzle de debbil hisself to see through it.'"

Highest Prize Port Wine.

The best wine in the country, that took the highest premium at the Centennial, is Speer's Port Grape Wine, which has become the most celebrated product of New Jersey. This wine and his P. J. Brandy are now being used by Physicians everywhere, who rely upon them as being the purest to be had of druggists. It is unsurpassed for weakly females and old people.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

—The fees for disposing of the Atlantic & Gulf railroad of Georgia, which was recently sold at Savannah for $300,000, put $95,600 into the pockets of three lawyers, two receivers and three trustees, besides some $40,000 or $50,000 they got before as regular salaries. The road's workmen, however, are still whistling for about $120,000 in wages.

THE REASON WHY.—Mr. Fellows, in his "Medical Monthly," gives reasons for the peculiar action of his Hypophosphites in the cure of disease, which seem to be borne out by facts. From tonic action of the Sympathetic Nerves all the Organic Muscles are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

—It has been suggested that Mark Twain be sent minister to England. He is a handy man at dinner, and can be spared from the country.

The Stolen State.

Ebenezer Sproul of Veazie, a democratic member of the legislature, seventy-four years old, and of the highest reputation in his own locality, having denounced the Garcelon-Pillsbury outrage and refused to obey Pillsbury's orders, the latter made an indecent, violent and brutal attack upon Sproul in the *Maine Standard*, calling him a "rotten wretch" and applying other foul epithets to him; and charging that he had been bribed by the republicans. Mr. Sproul has commenced a libel suit against Pillsbury, and the blustering bully's property has been attached.

When the State arms were removed from the State house at Augusta to Bangor, whence Garcelon took them to arm the bummers whom he placed in the State house, a number of the guns were found loaded, and cartridge boxes that were empty when taken from Bangor were found filled with ball cartridges.

Lamson, the president of the Garcelon-Pillsbury Senate, on Sunday concluded that he was really acting governor of the State under the constitution, and announced that he should assume the duties of the position.

The fusion State treasurer, White, whose bond is $150,000, refuses to pay out a dollar on the order of the illegal legislature, fearing that his bondsmen would have to refund any such payments to the State.

On Monday at 11:30 A. M. John D. Lamson took the oath of office as acting governor, in presence of sixteen senators and about sixty-five representatives. Senator Locke, republican, protested against meeting in convention, as the House was not legally organized; he also protested that the Senate was not a legal body. The House adjourned immediately on the conclusion of the farce. A despatch from Augusta, Monday morning, in relation to Lamson's "governorship," said: "Gen. Chamberlain states that he shall positively refuse to recognize his claims to that position, and furthermore he will recognize no one as governor who shall be chosen by the legislature as at present constituted."

ANOTHER LEGISLATURE IN MAINE.

The following despatch was received in this city Monday evening:

AUGUSTA, ME., 5:30 P. M., 12th.

The republicans have captured the State house, and are now organizing both House and Senate. No disturbance. Gen. Chamberlain has refused for the second time to acknowledge the authority of the acting governor.

That "Bribery" Matter.

Mr. Wallace R. White of Winthrop, Me., the man charged under oath by Moses Harriman and Thomas B. Swan with having paid them a thousand dollars each to give him certain papers, says Swan and Harriman did hand to him the papers in question, but that they did it voluntarily; and he flatly denies that he offered or paid to either of them, directly or indirectly, any sum of money, or made them any promises whatever in the premises.

Mr. White is a young man of hitherto unblemished reputation; and as the matter now stands it is a question of veracity between a man of good name on one side, and on the other two men who in their own neighborhoods are regarded as extremely slippery and tricky customers, and one of whom is now holding a seat in the legislature to which he knows he was not elected and to which he has not a shadow of just right. Mr White will treat the summons of the fusion "investigating committee" with proper contempt, not choosing to treat the Pillsbury gang of conspirators as a legal assemblage.

The republicans fully believe the whole affair to be a put-up-job of Pillsbury's, and that not a dollar was offered to either Harriman or Swan by any republican. The motive of the conspiracy is thus concisely stated by Capt. Boutelle, of the Bangor *Whig*:

The motive of the democratic conspirators in putting up the job is very apparent. They had already lost three of their members, against whom they had in vain hurled the charge of being bribed. They were in a positive panic lest other members should turn back from the crime of stealing a State government, for which purpose they had been fraudently counted in. To counteract this strong tendency among their followers who had some decency and some conscience left, the game of bribery was put up in order to warn every democrat, who dared to be honest, that he would be branded as a bribe-taker, and destroyed in reputation if possible. When the whole of this conspiracy, in which the bribery case is a mere incident, shall be brought to light and exposed, as it soon will be, the country will stand aghast at the audacity and infamy with which the democrats and greenbackers of Maine have sought to deprive a whole people of the right of self-government. Outside of Maine, the crime with all its revolting details has not yet been comprehended or appreciated.

News and Notes.

Robert Jerolman, a mechanic of New Haven, Conn., on Sunday entered the house of Melvin D. Curtis, a grocer, and shot him, probably fatally. Both men are married, and Jerolman's friends claim that his reason has been unsettled through the alienation of his wife's affections by Curtis. The latter, after the shooting, said that Jerolman came to his house on a black-mailing expedition, and had been to him on similar errands before.

The postmaster general has ordered the stoppage of all registered letters and money orders addressed to Baxter & Co., T. Potter Wight & Co., Benedict & Co., ane Alexander Frothingham & Co., "put and call" operators in New York city.

There was a total eclipse of the sun on the west coast of the United States on Monday.

A billiard match between Schaeffer and Sexton for the championship and $1000, in New York, Saturday night, 600 points, was won by Schaeffer by fifteen points. Score—Schaeffer, 600; Sexton, 585.

Mrs. Bell, of Billerica, Mass., was found in her barn by her husband, Saturday night, unconscious, with an injury over her eye, but whether the hurt was caused by accident or tramps is unknown. She was reported as dying, Sunday night.

A fourth body found in the Connecticut river at Springfield, Mass., Sunday afternoon, proves to be Thomas Cunningham, fourteen years old, of Thompsonville, Conn., drowned with three companions on Saturday. The first reports said but three were drowned.

A bill in relation to telegraphic dispatches has been prepared by the Western Union telegraph company for presentation to Congress. It provides that dispatches shall be deemed as the private papers of the senders, and protected from unreasonable search and seizure, the same as letters sent by mail. The bill should pass at once.

The Providence *Journal* takes but little stock in the story about outrages upon our flag at Venezuela, told by Dr. Nephegyi, and calls him "a confidence man" and "a scoundrel on general principles." The *Journal* has apparently heard of him before.

August Rosenberg, a milkman residing in the German settlement at Methuen, Mass., on Sunday while intoxicated drove his team into the north canal, near the Pacific mills, and was drowned. Rosenberg was sixty years old, and leaves a wife and two children.

James Williams, William Ogle and Andrew Gillen, three expert forgers and check raisers, were arrested in New York on Saturday night.

On the 11th inst., at Weston, Ind., a keg of powder exploded in the forecastle of the Idlewild, the regular Ohio packet between Evansville and Cairo, blowing off her forecastle and port bow to the water's edge, and badly crippling nine of her colored crew.

Gilmore's anthem, "Columbia," was produced Saturday evening at the Brooklyn academy of music, to an immense audience. It was more enthusiastically received than at New York.

After the numerous discussions of Mr. Edison's electic light, it will be interesting to see exactly what claims for it Mr. Edison himself is willing to endorse. A paper is announced to appear in the midwinter *Scribner* by Mr. Edison's mathematician and assistant, Mr. Francis R. Upton, which, besides the writer's intimate connection with the invention itself, has the further voucher of a letter from Mr. Edison, certifying that it is "the first correct and authoritative account." It is said that the paper will contain much that has not been and will not be elsewhere published.

Wagner, the composer, is reported to be dying in Beyreuth, Bavaria.

The Montenegrins and Albanians are reported to be engaged in a desperate war, having been fighting continuously since the 8th inst.

New Publications.

Appleton's Journal for February appears early in the month, as it is the intention of the publishers shall be the case with every number hereafter. It opens with the second and concluding part of Cherbuliez's brilliant novelette, "A Stroke of Diplomacy." This is followed by a gossipy and eminently readable paper on "The Comedy Writers of the Restoration." "Life in Brittany" is the simple title of a peculiarly bright, vivacious, and entertaining paper. Charles G. Leland's eminently entertaining papers on "The Russian Gypsies" are given complete. The first part of the Duke of Argyll's "Impressions of the New World" is reprinted, and this paper all the world this side of the Atlantic will want to read. A very acute paper entitled "Miracles, Prayer, and Law," will prove comforting to those whose faith has wavered under the pressure of scientific skepticism. An admirable and touching narrative poem, "Teaching Grandmother—Grandmother's Teaching," by Alfred Austin, completes the list of body articles, which are followed by the Editor's Table and Book Reviews. *Appleton's Journal* is published monthly, at twenty-five cents per number, or $3.00 per annum; D. Appleton & Co., publishers, 549 & 551 Broadway, New York.

New Hampshire Items.

Several of the railroads in this State have suits against them pending in the United States circuit court in favor of Thomas Sayles, who seeks to recover for damages for use of a car-wheel brake. The railways are defended by the Eastern Railway association. Among the roads which are thus called upon are the Concord, the Boston, Concord & Montreal, and the Concord & Claremont. The cases await the result of a case heard in another district.

Cows and Calves.

Milking cows will be benefitted by mixing their feed with warm water, if this can be done without too much trouble. A family cow may be treated to a warm mess in the morning without difficulty, and it will increase the milk perceptibly. Cut the hay and pour a pailful of hot water over it; mix the meas so that the hay is all wetted, and add the meal; mix again and feed while warm. In a dairy of twenty cows, extra milk will pay for the labor needed. If the food can be made more digestible, and by giving it warm the waste of animal heat be avoided, the same effect will result as from an increase of food. Thus the study of the principles of feeding may be made a source of profit by the economy which may be pratised through it. The card and brush should be in frequent use during the winter, and if necessary a coarse cloth and warm water may be used to preserve cleanliness. If filth is permitted to gather on the skin it is difficult to remove at this season.

Young calves will thrive well if kept in a shed together and well fed. The shed may be littered liberally, and not be cleaned out until the spring, or until the manure has become a foot or two deep. Calves may thus be good manure makers, but it will be necessary to feed them well. Bran and oats, with a little corn, will be the food for them. Give one pint a day for those under a year, and a quart or two daily for yearlings. Costiveness in cold weather should be carefully guarded against, and, if necessary, half a pint of raw linseed-oil, or a pint of linseed-meal, should be given with the food as a remedy.—*Exchange.*

—Sydney Smith used to say that the common practice of the clergy in his day was to endeavor to draw sin out of men as Eve was drawn from Adam's side, by casting them into a deep sleep.

—An old lady wearing a pair of green goggles stepped on the Sacramento train at South Vallejo, Cal., knocked at the car door, and actually waited till it was opened on the inside by a passenger. For consumnate politeness this has no parallel.

—A Chicagoan has announced that he has discovered a process by which illuminating gas can be made from water. The Chicago people are ready to believe in it as they have long felt that water must have been made for something or other.—*Louisville Courier-Journal.*

—In a boarding-house recently a young man in turning off his gas saw the words, "Confess thy sins," in phosphorescent characters on the wall. He was surprised, but listening, thought he heard some young ladies outside the door waiting to observe the effect upon him. So pretending to be frightened at the match-scratch, he fell on his knees and confessed out loud that he had frequently kissed one of the young ladies in the dark—the one whom he had best reason to suspect of playing the trick. That young lady won't play any more such tricks immediately. She thinks he is a mean, horrid thing.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain. "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. 1,th&f

AROUND HOME.

Dr. Whittier was called to Rochester on Thursday of last week, and performed a very difficult surgical operation.

At a late meeting of the Portsmouth Brewing Co., Arthur Harris was chosen president, John Conlon vice president, and William H. Palmer treasurer.

The following jurymen have been drawn from this city to serve at the next term of the supreme judicial court, which sits at Exeter, Jan. 27th: Ward one, John Walsh, Nathan Whalley, George Stott; ward three, John E. Locke.

Hattie Gilligan, of this city, a girl about eighteen years of age, died in Boston on Saturday last of puerperal fever, after giving birth to an infant at St. Mary's infant asylum. The unfortunate girl's body was brought to this city on Monday for interment.

The schooner Active, which arrived at this port on Sunday from Salem, Mass., will go on the marine railway at Kittery to repair the damages sustained by being driven ashore by a gale in the harbor of Hyannis, Mass., on her recent passage from a coal port to Salem.

There was a horse-race on the ice at Willand's pond, Dover, Friday afternoon, for a purse of $100, between horses owned by William Page and Cyrus Littlefield, half-mile heats, best three in five. Page's horse won in three straight heats. Littlefield's horse fell on the ice in the last heat, and was badly cut about the head. About five hundred spectators were present.

Travelling pedlers go about from door to door selling eye-glasses and spectacles, and in some cities these articles are hawked like ten-cent neck bows and lead pencils. These cheap glasses are a source of injury to the eye. The only safe mode is to go to a well known and reliable establishment, like that of Hutchinson & Connell, and be properly fitted; and then if the glass is not what is required a change can be made, but if pedlers are pratronized one must keep what is purchased, with no opportunity for change.

Thursday afternoon of last week Chas. E. Chamberlain of Dover got possession of his eight-years-old son, who lives with the mother, who was some time ago divorced from Chamberlain, and bolted himself and the child into a portion of his cellar, which is partitioned off. The police were called, but when they attempted to enter the place Chamberlain warned them to desist or it would be worse for the child; but after considerable manœuvering on the part of the officers Chamberlain was induced to unbolt the door. The man is evidently insane, and is to be sent to the insane asylum.

DIXON'S FISH-CURING ESTABLISHMENT.

Mr. John Dixon, the well known fish dealer and curer, is constantly adding to his facilities for carrying on his extensive business, and has recently put up inside the large building erected by him about a year ago on the old railway (now called Dixon's) wharf, an ice-house twenty feet by twelve on the ground and ten feet high, for the storage in winter of frozen herring for bait, and in summer for ice for the preservation of sword-fish, mackerel and halibut. By the way, we believe Mr. Dixon was the first to introduce the sword-fish and blue-fish into this market. The ice-house is built on the most approved scientific principles, and the ice required is furnished by Langdon M. Perkins. In the upper part of the large building a neat and commodious office has been fitted up for the book-keeper, and the general transaction of business; and the wharf was run out to its original length, and thoroughly repaired, before the fish-house was erected. The establishment possesses every requirement for carrying on a big trade.

In addition to the extensive curing business done on the wharf, where fifteen men are employed on an average, Mr. Dixon runs a large smoke-house at the foot of Hancock street, containing three smoke rooms, where seven or eight men are engaged in smoking herring and haddock; the latter are mainly for the Canadian market, where they are considered a great luxury and are called "Fionie haddies"—a term derived from the Scotch, where the "Finnon haddock," is called names in that style. Mr. Dixon has sent off five tons at a time of these fionie haddies to Canada. Hardwood saw-dust is used in this business to raise a smoke, and four or five car-loads are burned by Mr. Dixon in three months, besides wood; the sawdust is brought from Alfred, Me., over the Portland & Rochester railroad.

Fish this winter have been very scarce, many vessels arriving with small fares, and prices have ruled high; the catch has been very irregular, good fares having been taken in a few places, but the schools of fish generally have been much lighter than in some years past. Last winter the reports of large fares operated to the detriment of the fishermen, though they made little difference to the large dealers.

There are upward of thirty vessels engaged in the fishing business sailing out of this harbor, and the arrivals during the year are about nine hundred. The Mary S. Hontvet has brought in the largest fare of salted fish this season, the Christie Campbell having done about as well with fresh.

REFORM CLUB MEETING.

The reform club held a largely-attended meeting at Bow mission hall, Sunday evening, the new president of the club, Mr. Joseph T. French, presiding. Remarks were made by the president, and by Messrs. Janvrin, Randall, Martin, Clarke, Taylor, Burke, Eaton, Thorndike, Wiggin and Sanborn; the meeting was very interesting, and the remarks of the various speakers quite spirited. The moderation theories advocated by Mr. Calef on the previous Sunday evening were discussed, and decided to be ill-adapted for our city; and the watchword of the Portsmouth reform club will continue to be "total abstinence." The club starts upon its fifth year with a prospect of increased interest and favor.

Notice was given, at the close of the meeting, that several speakers from other reform clubs were ready to address this club, upon proper notice, and that one might be expected here next Sunday evening.

KNIGHTS OF PYTHIAS.

District Deputy Grand Chancellor L. A. Johnson of this city installed the following officers of Damon Lodge, Knights of Pythias, last week: Chancellor commander, Herman Manson; vice chancellor, Andrew P. Wendell; prelate, Francis R. Johnson; master of exchequer, William Kennedy; master of finance, Lewis K. McRae; master-at-arms, George A. Traftop; inner guard, John K. Simpson; outer guard, Everesta C. Badger.

"MODERATE TEMPERANCE."

Mr. George W. Calef, of Boston, having been invited to address the meeting of the Portsmouth reform club on a recent Sunday evening, spoke favorably of "anti-treating" societies as a means of lessening drunkenness. The *Weekly* thereupon commented as follows:

It is the Moderate Drinker's pledge he advocates, fer drinking men, and rum-sellers—which never yet kept a man from drunkenness, and we fear never will, and does not seem worthy a moment's thought or argument—in fact, there is not a bit of argument in favor of drinking or against total abstinence. Moderate drinking is the only road to drunkenness, total abstinence the only road to temperance—and that is all there is of it. As well talk of partial virtue, as moderate temperance, or rather moderate intemperance. It is the same old worn-out story of 1336, and Mr. Calef has not got out any improvements on it, and cannot get any, except total abstinence.

The reform club, at the last meeting, also expressed little faith in the efficacy of "moderate temperance" pledges as a reformatory agency, and decided to stick tototal abstinence as the only genuine temperance. Any other action on the part of the club would be absurd; the reform movement was started by drinking men, as a means of emancipating themselves and others from the ruinous thraldom of strong drink, through the agency of total abstinence; and to go back to the advocacy of a moderate drinker's pledge would be not merely a retrograde movement, but an absolute abandonment of the theory and principles on which the movement was founded.

But if there are drinking men who will not join the club and entirely give up the use of intoxicants as a beverage, who are willing to join a society whose rules will diminish the amount of liquor they drink, we should regard the latter a good thing, so far as it might go; and an association or pledge which diminishes the amount of liquor drank, it seems to us must be to some extent a temperance agency. It cannot be denied that the "treating" customs of this country largely increase the amount of liquor consumed, and anything which tends to destroy these customs must tend to diminish the consumption; and the less liquor there is drank the less drunkenness there will be, of course. The following is the ordinary pledge of the "green ribbon" or anti-treating societies, which have existed in many places for years, and with apparent good results:

We, the undersigned, aware of the evil results arising out of the custom called "treating," hereby pledge our word of honor, one to another, not to treat any person, neither allow ourselves to be treated by any person, to beer, wine, liquor, cider, or any kind of beverage, or cigars, within the limits of the city of ——. This pledge is not intended to interfere with our treating ladies, showing hospitality to friends at our homes, or the presenting of a cigar out of the pocket.

FISH HO!

There was a very heavy catch of fish at this port one day last week, the following amounts being landed:

Schooners Christie Campbell, Capt. Jamieson, 25,000 pounds; Daniel C. Burke, Capt. Shields 22,000; Ev Nichols, Capt. Gillies, 20,000; Una, Capt. Haley, 5,000; Rever's Bride, Capt. Henry N. Caswell, 15,000; Edward Morse, Capt. Peter Saxon, 10,000; Water Lily, Capt. Bray, 15,000; Flying Cloud, Capt. White, 8,000; Iris, Capt. Brooks, 8,000; Mary E. Smith, Capt. Short, 18,000; Comet, Capt. Robinson, 20,000; Village Belle, Capt. Allen, 10,000; Can't Come It, Capt. Adams, 5,000; Venus, Capt. Hamilton, 4,500; Mary E. Caswell, Capt. Levi Downs, 5,000; Mary S. Hontvet, Capt. Hontvet, 40,000; Helen F. Tredick, Capt. Caswell, 9,000; J. W. Smart, Captain Patch, 5,000; Josie Johnson, Capt. ——, 12,000; Clyde, Capt. Roberts, 9,000; Nettie Adams, Capt. Randall, 11,000; Julia A., Capt. Tarlton, 5,000. Total, 271,500 pounds. These are the figures as furnished us by one of the fishermen.

In the fare of fish brought in by the schooner Josie Johnson, on Friday last, was a cod weighing one hundred and eight pounds! This is the largest specimen that has been caught for many years. The fish was sold to Randall & Caswell, with forty-nine thousand, eight hundred and ninety-two pounds besides, from the Josie Johnson and other vessels.

The schooner Mary S. Hontvet arrived on Sunday evening with about 20,000 pounds of fish. The Hontvet has made several excellent trips this season.

YORK COUNTY ITEMS.

A platform has been built where the Eastern depot, in Saco used to stand, and a new depot will soon be erected. It will stand exactly where the old one use to be but it will be somewhat smaller.

Several citizens of Berwick have petitioned the Maine legislature for a division of that town, whereby all the territory southeast of the Boston & Maine railroad extension may be set off from Berwick and annexed to South Berwick, making the railroad the boundary line between the towns. The reasons alleged are that the petitioners are much nearer South Berwick than the business part of Berwick, and that the change would convenience them much; that most of their business is in the former place, some of them being engaged in trade there; that they are so far removed from Berwick that their property in case of fire cannot be protected by the engines there; that in fine, all their interests, religious, social and material, will be promoted by this division.

"Civil Service Reform" Getting Sick.

A Washington despatch says: "Under the existing regulations, the collectors of internal revenue are appointed for an indefinite period. In consequence of this it is said there are at present in that service a number of old gentlemen whose physical vigor has greatly departed. The question has arisen whether it would not benefit the interests of the government to replace such incumbents by more active men, and it was proposed to recommend to Congress that the collectors of internal revenue should hereafter be appointed for a fixed term, similar to postmasters. It is ascertained at the treasury department that there are at present forty collectors of internal revenue filling office who have been in continuously more than ten, and some of them nearly eighteen years. It is understood that the question of new legislation on this subject has recently been discussed by the President, the secretary of the treasury and the commissioner of internal revenue."

We will answer for the collector in New Hampshire, that he is still in the vigor of manhood and the prime of life. He could not be replaced by a more active man, and we think if the government requires his services he could be induced to continue in the office. The movement referred to is of course in the interest of rotation, rather than of "civil service reform,"—and squints as if the collectors had better be Sherman men than too loud for Blaine.

A Steamer Stopped by Jellyfish.

A correspondent gives an interesting description of the voyage of the "Crocodile." In the course of his observations he says: "On September 21st the ship crossed the equator early in the morning. On the following night a most curious circumstance occurred hardly to be credited, the ship was stopped by jellyfish, which, shortly after one o'clock, appeared in myriads as far as the eye could reach, and the thousands of luminous bodies upon the water gave the appearance of a scene from fairyland. Some of the fish got in the condensers and blocked the holes so that the water could not enter, and the result was that the vacuum went down and disappeared entirely. The condensers afterwards became so heated that we had to stop steaming altogether, take off the strainers and clear them. Three attempts were made to steam, and each failed from the same cause. In this way we were delayed no less than five hours; but at daybreak the fish sank and the ship was able to proceed. The same thing occurred again on the following night, the ship being delayed four hours."—*London Telegraph.*

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1871 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases is of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. —— of city proper, but all to no purpose. They did use to know their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have expended five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the fourth or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel we it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

WILLIAM TAYLOR,
Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

Hundreds of little nerves and muscles respond to the Electrical Action of these wonderful Plasters, the moment they are applied. They instantly Annihilate Pain, Strengthen Weak and Painful Parts, Draw Poisons from the Blood, Prevent Fever and Ague, Liver and Kidney Complaints.

Hard or Soft Coal or Wood

— HAVING THE —

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work nicely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and any device yet made. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back pipe. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

MPORTANT LETTER

From a Distinguished Physician.

NO single disease has entailed more suffering or has tested the breaking up of the constitution the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system attacks every vital force, and breaks up the most robust of constitution sooner or later but little understood by most physicians, impotently assailed by quacks and charlatans, thousands suffering from it have little hope to be relieved, if it this side of the grave. It is time, then, that if popular treatment of this terrible disease by remedies within the reach of all passed into hands at once efficient and trustworthy. The new and hitherto secret method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed where all the usual remedies fail, because it strikes at the root of the disease, viz., to eradicate the poison, which is the source of all mischief, by direct application to the nasal passages. I, being based on certain fixed rules, and unless vital forces are too far exhausted, must, in the great majority of cases, effect a cure. GEO. BEARD, M. D. NORWOOD BLOCK, SO. FRAMINGHAM, OCT. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen; in fact, private, not only freely recommend it but in their families it is prescribed. Its cure is more one usually prescribed by physicians.

"You are aware," said a distinguished city physician, that my obligations to the Mass. Medical Society prohibit my recommending proprietary medicines. I feel bound to say that your Radical Cure has given me much relief from the use of it myself, after a thorough trial of the usual remedies, I have repeatedly advised its use, and present have sent to your store no less than one hundred and fifty bottles for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candid as we never sold a similar preparation that gave universal satisfaction. We have to learn the last complaint. We are not in the habit of recommending patent medicines, but your preparation meets the wants of humanity, and we feel it our duty to bear testimony to its great merits; that the suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything in market, but never before have we had a preparation we can use this letter or any part of it that you desire. Very truly yours, E. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Inhaler, and full directions for using. Price by mail, postpaid, $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

Combines Electro-Galvanic Battery combined with Medicated Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent in health by any element or medicine in the history of humanity. Unless the vital spark has fled the body, restoration by means of electricity is possible. Almost one of all physicians and surgeons, and has restored thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. Their gentle, healing, soothing, and strengthening properties are known in the world. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. This is especially our Plaster is the best in use without the addition of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in each of which performs its function and united adopts more cures than any liniment, lotion, or plaster ever before compounded in the history of medicine. TRY ONE. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout United States and Canada, or by WEEKS & POTTER, Proprietors, Boston, Mass.

Congress.

Congress managed to do some work on Monday. The Senate disposed of considerable business, and among other bills passed one for the relief of Theophilus Chandler, reimbursing him for losses sustained by the dishonesty of a clerk in the Boston sub-treasury.

In the House a large number of bills were presented, and a resolution adopted ordering an investigation of the pension department. An attempt was made to pass a bill abolishing the duty on salt, but it failed by a tie vote.

Political.

The Manchester *Mirror* says: "The desperate attempt of the stealers in Maine to turn attention from their own gigantic crime by charging that a republican attempted to hire two of their number not to help carry off their booty, is not likely to succeed. Their necessities are too obvious, and their story is too improbable. At the time that it is charged this attempt was made, it was certain that the mob could not muster a quorum of the House, and nothing could be gained by buying a couple of its cattle. In the next place, the republicans of Maine are not fools enough to have paid $1000 apiece for that kind of fellows, nor to have paid them in advance, for it is notorious that neither of them could ever be trusted out of sight. And the most transparent part of the whole business is the exhibition of the packages of money which these scamps say they received, and which they probably did receive from the fusion managers."

One democratic paper in Maine, the Gardiner *Home Journal*, says of the supreme court's opinion: "We have carefully read the answers to every question, and it seems to us they are exactly right; and we believe all good men will indorse them, when they shall allow their better judgment to supersede their party passions. Nor do we believe any decision contrary to these will ever be made."

Advices from Gloucester, Mass., say that much activity is manifested in fitting away the Georges fleet, which is stimulated by the steady demand for Georges codfish and halibut. Forty-five sail are already on the banks, and twenty more are getting in readiness. The outlook for the Gloucester fisheries is most encouraging. There is plenty of frozen herring for bait, which is selling at seventy-five cents per hundred herring.

"If you have pains in the diagram," said Mrs. Partington, bringing her forefinger up to "Present," "take Sanford's Jamaica Ginger. There's nothing harmonious in it as there is in some things. I have seen people thrown almost into convulsions by taking wrong subscriptions; but this is warming and irrigating and soon gives a healthy transaction to the stomach." Nothing suits like better.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—A San Francisco paper says: "If any one has noticed a certain stiffness in the acting of the members of Baldwin's theatre this week, they will please to take into consideration that Dr. Bishop vaccinated the entire company last week."

"I don't want a Plaster," said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

—Denman Thompson has completed an elegant house on the site of the old homestead, in Swanzey, N. H., in which he has established his wife and three children, his father and mother, while he makes fame and money through the country.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

—President Lincoln once said that some people not only believed that the earth moved on its own axis, but that they are the axis.

FROM NUMEROUS cases of dyspepsia and constipation, cured by the use of Fellow's Compound Syrup of Hypophosphites, after every other known remedy had been used in vain, its efficacy in restoring the functions of digestion and evacuation is manifest.

WEDNESDAY, JANUARY 14, 1880.

The Maine Conflict.

The particulars of the flank movement effected by the republicans on the fusion crew at Augusta, are as follows:

At twenty minutes before six o'clock, Monday evening, the republican members of the Senate and House of Representatives proceeded to the State house for the purpose of organizing the legislature. The movement was entirely unknown to the fusionists, and but few of the republicans outside of the immediate members were aware of the position of affairs. The news that the republicans had taken possession of the State house spread rapidly, and caused great rejoicing among the republicans, who have been impatient to have just this result brought about. "Acting Governor" Lamson, when he saw the people assembling, proceeded to Gen. Chamberlain's headquarters and excitedly said: "I protest against these men coming in." The general informed Mr. Lamson that he should permit the men to come in and stay as long as they pleased. There was no forcible resistance whatever. The halls were quickly lighted, minor officers of previous legislatures familiar with the premises taking hold and lending their assistance.

In the Senate, Hon. Jeremiah Dingley, Jr., called the meeting to order, and Austin Harris was called to the chair. Prayer was offered by Rev. Dr. Butler, member of the House. Charles W. Tilden, assistant secretary of the last Senate, called the roll, and eighteen senators responded to the call. A quorum was announced present, all being republicans, who proceeded to qualify, the oath being administered by Hon. William M. Stratton. Andrew R. S. Smith was declared senator from Lincoln county on the face of the returns. Joseph A. Locke was chosen president, receiving all the votes thrown, nineteen. Charles W. Tilden was chosen secretary; George E. Brackett of Belfast, assistant secretary; messenger, Charles H. Lovejoy of Sidney; assistant messenger, A. B. T. Chadbourne. The following order was passed:

Ordered—That a committee consisting of three members of the Senate be appointed by the president to report to the Senate for its action whether the Senate shall call upon the justices of the supreme court for their opinion touching the legal organization of the Senate for the Fifty-ninth legislature, and to report for the action of the Senate such questions as the law and facts require in the premises.

The republican members assembled in the hall of the House and were called to order by Hon. Eugene Hale, who called upon Rev. A. R. Crane of Winthrop, who offered prayer. Gen. M. F. Wentworth of Kittery was made temporary chairman and Oramandal Smith of Littlefield, clerk. The roll was called by the clerk, who announced that he would call the roll of names who appeared from the returns to be chosen representatives. Eighty-four answered to their names, and these with other who came in afterwards, were duly qualified, the oath being administered by William H. Stratton, clerk of the courts for Kennebec county. The House continued its organization by electing Geo. E. Weeks of Augusta, speaker; Oramandal Smith, clerk; E. C. Burleigh, assistant clerk; A. F. Hames, messenger; C. F. Getchell and John W. Phinney, assistant messengers. Mr. Hale presented the following:

Ordered, that a committee, consisting of three members, be appointed by the speaker to report to this House for its action whether the House will require the justices of the supreme judicial court to give their opinion touching the legal organization of the House of Representatives for the Fifty-ninth Legislature of the State of Maine, and to present for the action of this House such questions as the laws and the facts demand in the premises.

The order was adopted; and A. A. Strout of Portland, L. H. Hutchinson of Lewiston, and Silas C. Hatch of Bangor were appointed as the committee. Mr. Strout of Portland presented the following, which was adopted:

Resolved, That Isaac Hanscom of Lebanon, Edward K. Hall of Nobleboro', George S. Hill of Exeter, Oliver P. Braggdon of Sullivan, Frank C. Nickerson of Lincoln, Robert M. Loring of Perry, all in this State, be admitted to seats as members prima facie of the House of Representatives of the Fifty-ninth Legislature of Maine in the places of Stephen D. Lord of Lebanon, James W Clark of Nobleboro', F. W. Hill of Exeter, James W. Five of Sullivan, John H. Brown of Haynesville and James M. Leighton of Perry in the State of Maine.

At 1:45 o'clock A. M., Tuesday, the committee to report questions to submit to the supreme court submitted a series, which it was voted to submit to the court.

Both branches adjourned at 2:15 o'clock until Saturday, January 17th at two o'clock P. M.

Both branches of the fusion legislature met on Tuesday, no republican members being present. No business was transacted.

Wallace R. White, in answer to a summons to appear before the fusion bribery-investigating committee, informs the chairman of the committee that he will not attend before an illegal and powerless committee of a bogus House, and adds that if the committee don't like this they can arrest him for contempt, which he would be glad to have them do so that he can bring the question of legality before the courts.

News and Notes.

A Philadelphia negress at Newburyport, named Maria Walters, attempted to murder her illegitimate infant Monday by throwing it down a vault. It was taken out alive by the city marshal, and recovered.

At Belleville, Ind., Elmwood Milliken fatally stabbed Henry Crane on Sunday, in a quarrel about a dog. Milliken fled.

Capt. Wilkinson, leader of the band at the National Soldiers' home, in Milwaukee, shot his wife and himself, Sunday night. Both are dead. Cause, domestic troubles.

Thomas O'Brien of South Wareham, Mass., was knocked down Sunday, terribly pounded and robbed of what money he had with him. The parties who committed the assault are known, and officers are in pursuit.

Three little girls at Lowell, the eldest eleven years old, were arrested Monday for systematic pocket-picking. Not content with taking handkerchiefs, they acknowledged having purloined pocket-books containing about $100 since Christmas. Their names are Katie Clark, Mary Ann Clark, and Margaret Mellen.

Benjamin C. Bogert, the secretary of the New York produce exchange who committed suicide last week, was also collector of Bergen county, N. J. It is said that $59,000 of county bonds are missing.

John Bonfield, forty years old, was found in a lumber yard at Woburn, Mass., Tuesday, dead and frozen stiff. He was seen drunk the night before.

Harry Halland, a lawyer, and Henry Probst, a well known musician, both committed suicide in New York, Monday morning.

Senator Lamar is seriously ill.

Steamers from Europe that arrived at Boston and New York on Monday report severe storms on the Atlantic.

Charles Stewart Parnell, the leader in the Irish land agitation, arrived in Boston Monday morning, in company with Mrs. Parnell and Mr. John Dillon. A public reception was held in Music hall in the evening, at which addresses were made by Mr. Parnell, Mayor Prince, John Dillon, Hon. P. A. Collins and others, and a subscription was taken up.

Our personal appearance is a matter in which our friends and acquaintances have a right to a choice whether we shall inflict upon them an exterior uncared for and unattractive, a countenance marred by a negl-cted grizzled beard, or a crown guiltless of covering, half covered, or thatched with white hairs, or whether we shall in deference to our fellows, pay due regard to our own persons, and make them presentable and acceptable in society. There are many helps for those who desire to do this, and there are none among them more acceptable than Hall's Hair Renewer and Buckingham's Dye for the whiskers. Both these preparations are kept for sale at all our drug stores, and if any of our friends are looking a little the worse for wear, we advise them to make a note of it.—*North Star, Danville, Vt.*

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home next morning his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying, babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

Louisiana's Vote on Her Constitution.

A despatch from New Orleans, dated Jan. 1st, states that the board of canvassers that day completed the official count of the vote for the new Constitution. It was adopted by a majority of 59,148. The debt ordinance was adopted by 10,487 majority. The test question of the integrity of the franchises of the Louisiana State Company was, therefore, handsomely endorsed by the citizens of New Orleans, after an experience of the past twelve years of strict honesty and exact force. HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It Keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.
The Reformer and Vitalizer of the Blood
The Producer and Invigorator of Nerve and Muscle.
The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

AROUND HOME.

Mr. John Lynch is erecting a two-story dwelling on South Mill street.

The wages of the employes at the Kearsarge mills have been increased fifteen per cent from January 5th.

Three hundred and fifty shares of Eastern railroad stock were sold at the brokers' board in Boston on Tuesday at $28 per share.

The parties who have taken the Congress street stores in National block will not occupy their new premises until on or about March 1st.

Emerson's Megatherians gave the best show yet in their line, at Music hall Monday evening; and there was a very good audience indeed, considering the weather.

The shoe manufactory will go ahead after all; the two energetic business men who canvassed the city on Tuesday secured sufficient subscriptions to assure it.

Information has been recently received in this city from San Francisco that Mr. Timothy J. Trafton, who removed from Portsmouth to California several years ago, has had a severe stroke of paralysis.

The court house was in bad odor on Tuesday. There ought to be legislation changing the days upon which the probate court may be in session, to days upon which there is not a cabbage being boiled in the basement.

Sir J. W. Hildreth, Right Eminent Grand Commander of Knights Templar for the State of New Hampshire, with other of the grand officers, will be present and install the officers of De Witt Clinton Commandry of this city on Monday evening, Jan. 19th.

We are requested to say that the woman who was about the city last week soliciting aid, and using the name of Mrs. McGill, belongs in Salem, Mass.,—so we say it; but we do not know of what special importance it can be, where she came from or where she went to. She is a fraud.

The price agreed upon for the lot on which it is proposed to erect the new Episcopal church, is said to be $2000. The lot is a large one, on the west side of Madison street, and appears well adapted for the end in view. The church will be built on an elevation opposite the end of Austin street, and the rest of the grounds it is proposed to lay out as a sort of park.

The officers of St. George Council, No. 21, American Legion of Honor, were installed Tuesday evening by Deputy Supreme Commander E. A. Tilton. The council, which is rapidly increasing in numbers, have voted to occupy the old Odd Fellows' hall on Daniel street, in conjunction with other organizations. After the session was over the member-partook of a collation at the invitation of the commander.

Mr. Rymes, of Star island, Isles of Shoals, recently lost a calf six months old, after it had been sick several weeks, during which time all food passed through it unchanged. On opening the animal after its death there was found in its stomach a perfectly round ball 3 1-8 inches in diameter, and almost as hard as a rock; this ball had a hard coating on the outside, similar to a tanned hide, on cutting through which the ball was found to consist of cattle's hair, compressed so as to be almost solid. Messrs. Garland and Downs, who look out for the property on Star island while Mr. Rymes is away, are puzzled to know how the ball got inside the calf.

THE CONCERT.

This evening at Music hall, the Bernhard Listemann concert company will give the fourth entertainment in the Rockingham course. This company is probably the finest combination of solo instrumentalists in America, and will be assisted by Miss Julia A. Wells, the favorite contralto. The concert will be one of the best ever given in this city, and reserved seats are placed at only fifty cents. See advertisement for names of the eminent artists who are to appear.

G. A. R.

Storer Encampment, Post 1, Grand Army of the Republic, in conjunction with the Knights of the Golden Cross and the Knights of Honor will occupy the hall on Daniel street recently vacated by the Odd Fellows. The grand army post in this city is steadily growing in membership and interest. If favorable arrangements can be made the post will give an entertainment for the benefit of the relief fund some time during the winter.

CORPORATION ELECTIONS.

The annual meetings of the various banking establishments of the city were held on Tuesday, officers being chosen as follows:

New Hampshire National Bank: James P. Bartlett, Edwin A. Peterson, Daniel Marcy, T. M. Ball, W. Freeman, T. A. Harris, Henry F. Wendell, directors. James P. Bartlett, president; L. S. Butler, cashier.

Portsmouth Trust & Guarantee Company: Frank Jones, Jeremiah F. Hall, Ezra H. Winchester, John Sise, Daniel Marcy, William H. Hackett, Thomas H. Odion, Edwin A. Peterson, Thomas J. Parsons, William D. Fernald, directors. J. F. Hall, president; Frank Jones, vice president; Charles H. Rollins, secretary and treasurer.

First National Bank: Ichabod Goodwin, John Stavers, William L. Dwight, William H. Hackett, Edward P. Kimball, Ezra H. Winchester, directors. Ichabod Goodwin, president; E. P. Kimball, cashier.

National Mechanics & Traders' Bank: John Sise, William H. Rollins, Chas. H. Mendum, (Charles Robinson,) John S. Pray, directors. John Sise, president; G. M. Butler, cashier.

Rockingham National Bank: John J. Pickering, George W. Haven, (William Sise,) John S. H. Frink, Titus S. Tredick, Wm. Augustus Peirce, directors. John J. Pickering, president; John Hart, cashier.

PIRACY.

On Friday, the 2d inst., Capt. Levi Downs and crew of the schooner Mary E. Caswell set their trawls some three miles west of White island, Isles of Shoals, intending to haul them before night, but the wind coming on to blow strongly they concluded to run in and let the gear stay all night. They were on the ground early next morning, expecting to find their trawls well loaded with fish, but to their surprise they found neither fish nor trawls. It appears that after Capt. Downs had gone in, a schooner (believed to belong to Gloucester, Mass.,) ran down from the windward, lowered her dories and stole the trawls. The gear stolen was worth about sixty dollars.

We are informed by the schooner fishermen that there has been considerable of such pirating carried on this winter in Ipswich bay and along shore; sometimes the trawls have been found stripped, and at other times cut and portions carried off, or with the buoys gone. On the other hand, the fishermen who work in boats from Rye and Hampton beaches complain that the schooner fishermen from Gloucester, Newburyport and Portsmouth steal their trawls or rob them of fish right along, unless they are watched all the time. If the stories told by both parties are not exaggerated, there are among the hardy fishers some men almost mean and dishonest enough to be members of Garcelon's famous—or infamous—council.

YORK COUNTY ITEMS.

Brooks Bros. have opened a grocery and provision store in a building owned by Mr. Frank Staples at South Eliot.

Mr. Howard Staples, of South Eliot, is building a new and larger blacksmith shop in the place of the one recently burned.

The schooner Parallel, Capt. Howard, of Machias, Me., an old vessel of sixty-seven tons register, put into Cape Porpoise for a harbor on the 3d inst., being then on a trip from Calais to Boston with a cargo of potatoes and iron. The weather continuing unfavorable the schooner remained there at anchor until the 10th inst., when it came on to blow heavily and she dragged ashore on the flats, and as the tide left her she heeled over and split open, and will probably prove a total wreck.

There was felled on the farm of Mr. William Hill of Eliot, last week, a mammoth pine tree, from which was cut and piled six cords of wood and an eighteen-foot mill log. The butt of the tree was six feet in diameter and it took four men an hour and a half to cut it down.

New Hampshire Items.

There will be a meeting of the governor and council at Concord on Thursday forenoon, the 15th inst., at eleven o'clock.

The nineteen families in Mann's Hill school district, Littleton, raised the past year, 770 tons of hay, 721 bushels of wheat, 313 baskets of corn, 2765 bushels of oats, 60 bushels peas and beans, 6280 bushels potatoes, 1241 bushels apples, 159 lambs and 80 calves, and made 10,330 pounds pork, 13,600 pounds butter, and 3510 pounds sugar.

Wm. B. Johnson and Chas. H. Bartlett, assignees of the City Savings bank of Manchester, announce a ten per cent dividend payable on and after the 15th inst. There was a scaling down of twenty-one per cent at the January term of the supreme court in 1878, and the above-named assignees were appointed to convert the assets of the bank. Fifty per cent was paid about a year ago.

A serious fire occured at Salem Depot, Monday morning, totally destroying an imitation leather factory, and an adjoining building containing store, post office and telegraph office.

Lucien B. Hunkins of Goffstown Center was found dead in his bed Saturday morning. Apoplexy is supposed to have been the cause of death. He was seventy years of age, and leaves a widow and two children, a son and daughter. Mr. Hunkings was a highly respectable farmer, well known in his locality, and had represented his town in the legislature.

The date of Jan. 21 has been fixed upon for the holding, at Concord, of the first annual meeting of the past and present officers of the New Hampshire National Guard. Arrangements for special rates over the railroads have been made, and the prospect of the meeting being largely attended is very favorable. In the evening a concert and ball will be given in White's opera house.

Tebo & Cargell's woolen mills at Ashulot were burned Monday. Buildings owned by Colony & Dickinson. Loss on stock and goods, $12,000; on buildings $5000.

Arrangments have been completed at Concord for the New Hampshire State musical festival, which is to occur on the 24th, to continue four days, and a very large number will doubtless be in attendance. Joseph Cobb of Boston will officiate as conductor, and intrumental music will be furnished by Eastman's orchestra. Among the attractions announced are the Schubert quartette, Harvard glee club, and a number of vocalists of well-known talent and fame.

The boiler in Alfred A. Collins' shoe factory, in Danville, exploded Friday morning. The proprietor at once started for Exeter, and in thirteen hours from the time of the accident another boiler was in place and the machinery again running.

Miss Eunice G. Colburn has been confirmed by the senate as postmistress at Franklin.

—The editor of the Oil City *Derrick* has tried it and finds that a "New Year's swear off does not wear off."

—"Ah," said the fly, as it crawled around the bottle, "I have passed thro' the hatching age, the creeping age, and now I'm in the mucilage, and—" there it stuck.

—The new governess: "If you saw a poor man starving in the street, wouldn't you give him some of your pudding, Tommy?" Tommy: "I'd give him some of yours, Miss Smith.

—A young lady recently presented her lover with an elaborately constructed pen-wiper, and was astonished, the following Sunday, to see him come into church wearing it as a cravat.

—The overseers of the poor in a county in New York State stopped relieving a family just as soon as they found out that the wife had sold thirty-one pounds of their pork to buy her a canary bird.

—A well-known evangelical clergyman, on being accused of leaning toward Universalism replied that he hoped everybody would go to heaven, "and," said he, "there are some persons I wish were there now."

—Mr. Lincoln used to tell a story about a big Hoosier who came to Washington during the war, and called on a street Arab for a shine. Looking at the tremendous boots before him he called out to a brother shiner across the street, "Come over and help, Jimmy. I've got an army contract."

—The *Religious Herald*, of Richmond, gives rather questionable consolation. A Virginia subscriber writes as follows: "You are publishing the obituaries of the Georgia and Alabama preachers, but seem to have no space for ours." The editor replies: "Bear with us. Your time will come soon, we hope!"

The American Law Review.

Messrs. Little, Brown & Co., of Boston, have began a new series of the *American Law Review*. The publication of this law periodical commenced October, 1868, and up to this time the *Review* has appeared quarterly, making a number of over two hundred pages. The issue is now changed to a monthly, and the promise of the publishers is that hereafter the legal profession will have its law news with more promptness and satisfaction.

This law magazine has been noted for the persistency with which it has continued to lay before its readers treatises or essays upon law topics, which the busy lawyer, with his weekly law publications fresh with cases deciding new points in the law, has not always been ready or could afford the time to go through. The style of law periodicals has changed since the starting of the *Law Review*. The Boston practitioner may delight to read thirty or forty pages of a writer, old or young in the profession, upon some abstract subject; but the lawyer in practice in different States, who attends to office business, tries causes, makes briefs and goes through the varied routine of practice in remote sections of the country, wants not theories and theses, but decisions, for his professional reading. For this reason, some later publications, which appear weekly, have attained a large circulation. They may not boast the dignity nor the soundness which the *Law Review* claims to have been characteristic of the Washington street quarterly, but have a large number of readers—if not readers, subscribers—who look over their contents weekly, and read what is supposed to be the very latest ruling of the best judges in the land. Still the *Review* has able writers, who exhaust the subjects they discuss, but perhaps with more gratification to the few than utility to the many; and as tastes differ it may be that the style of contents so long observed are desired by many of the readers of this review. The lawyer of to-day, who practises his profession is so many different and oftentimes distant forums, who is subject to the telegraph, who sits in his office with the telephone at his ear, is far less patient when he opens his review at some long article upon a subject which fails to interest him, than were the lawyers a quarter of a century ago, when the profession, though it may have worked as hard, did not seem to be so unusually pressed for time as it is to day.

The terms of the *Law Review* will be as heretofore, five dollars per year. In the February number will be an article by Ex-Judge Jeremiah Smith, of Dover, upon administration upon the estate of a living person.

New Publications.

The February number of the *United Service* contains a paper on "Education of Naval Constructors," by Naval Constructor Theodore T. Wilson, who is attached to the Portsmouth navy yard. It is a valuable contribution, and occupies ten pages of the magazine.

Mme. Dubie, who keeps a notorious place in Newport, R. I., was arrested Sunday night, on a charge of keeping a house of ill-fame. In the house was found a girl sixteen years of age, named Ada Curtis, of Pawtucket, who was met in the depot in that place, Saturday night, and induced by a girl in the employ of Mme. Dubie to visit Newport. The girl wanted to go home first and ask her parents' permission, but before she could do so she was hustled into the cars. After retiring at Mme. Dubie's, a soldier from Fort Adams entered her room, but when he heard the girl's pitiful story he refused to proceed further, and in the morning gave the information which led to the release of the girl and the arrest of the woman.

The nail manufacturers of Wheeling, W. Va., on Monday advanced the price of nails to $5, with the usual discounts. This action was taken on account of the advancing tendency of iron and the reluctance to book further orders at the late card prices.

Guilty of Wrong.

Some people have a fashion of confuting excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Speer's Sambuci Wine.

We have examined a specimen of the Sambuci Wine of Mr. Alfred Speer, referred to by a correspondent of the *American Baptist* and have no doubt it is pure. We should judge from its taste and appearance, that it is certainly valuable as a medicinal wine and as a tonic for weakly persons. It has the recommendation of some of the first physicians in this country as well as Europe.—*Washington Star.*

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

ONE OF THE greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and indorses it as a safe and effectual remedy for coughs and colds.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen.*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1871 I went to Europe and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.——, whose reputation for the cure of those diseases was of the highest order, could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.29 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known in Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so perverse am I on the subject, I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and proceeded to use it according to the directions. The sores soon much humor lodged within the skin, that as soon as I commenced to use the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I had made up my mind to this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I generally, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped my horse on the street, who recognized, and told them to get he CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel we ought to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no inte nal medicine but the CUTICU A RESOLVENT.

WILLI M TAYLOR.
Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA two dollars, half pounds, $1, boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

CUTICURA VOLTAIC ELECTRIC PLASTERS

Hundreds of little nerves and muscles, responsive to Electrical Action of these wonderful Plasters, the moment they are applied. They instantly Annihilate Pain, Strengthen Weak and Painful Parts, Dr w Poisons from the Blood. Prevent Fever and Ague, Liver and Kidney Complaints.

KIDNEY-WORT

The Only Remedy

THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Billous pains and aches?
Why tormented with Piles, Constipation?
Why frightened over disordered Kidneys?
Why endure nervous or sick headaches?
Why have sleepless nights?

The KIDNEY WORT *and rejoice in health. It is a dry, vegetable compound and one package will make six gallons of Medicine. Get it of your Druggist, he will order it for you. Price, $1.00.*

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, PHILOSOPHICALLY, MORALLY and PHYSICALLY CONSIDERED, by the errors of a lifetime too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 400 pages and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work nicely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most beautifully ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work nicely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most beautifully ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

M. W. EARING,

No. 61 Market Street,

Where also can be found a full and complete assortment of KITCHEN WARE, HOUSE FURNISHING GOODS, etc., which the residents of Portsmouth and vicinity are respectfully invited to inspect before purchases are made elsewhere.

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires to be through competition of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"Gives the best literature of the day."—*New York Times.*

MPORTANT LETTE
From a Distinguished Physician.
NO single disease has entailed more suffering or attended the breaking up of the constitution the earth. The sensations of nausea, of taste, of sight, of hearing, the tones of the voice, the mind, one or more and sometimes all yield to its destructive influence. The poison introduced throughout the system attacks every vital process, and breaks up the most robust of constitutions, moreover because but little understood by most physicians, impotently assailed by quacks and charlatans, suffering from it have little hope to be relieved, if it this side of the grave. It is time, then, that the popular treatment of this terrible disease by proprietary nostrums should be placed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation, which is RADICAL CURE has won my hearty approval. To even it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. *contaminated blood*, while it heals the ulcerated surfaces by direct application to the nasal passages. Injection is based on certain fixed rules, and unless these fixed forces are for exhausted, must, in the great majority of cases, effect a cure.
GEO. BEARD, M. D.
NORCOTT BLOCK, SQ. FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE
IT safely claim to be one of the few popular remedies to which the approval of medical gentlemen, who, in private, not only freely recommend it but use in their families in preference to any other proprietary nostrum prescribed by physicians.
"You are aware," said a distinguished city physician, "that my obligations to the Mass. Medical Society, which that I cannot publicly recommend or prescribe that medical preparation I relieved so much in my practice use of it myself, after a thorough trial of the usual remedies, I have privately advised my patients to procure and have sent to your store no less than one hundred and ninety patients for it."

UNIVERSAL SATISFACTION.
GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the contrary, and we think these unsolicited testimonials should be received by great merit so that their suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything in our line of medicine, but never sold anything that gave such satisfaction as this. If you see proper you can use this letter or any part of it that you see fit. Very truly yours, S. D. BALDWIN & CO.

Naval Affairs.

The U. S. S. Enterprise arrived at Smyrna on the 22d ult., from Alexandria via Jaffa and Beirout; all well. She was to proceed to Constantinople and Athens. Her three years cruise expires in the spring, when she will return. She was built at the Portsmouth navy yard, and should be ordered here when she returns from Europe, just as the Alliance was ordered from Boston to Norfolk, where the latter vessel was built.

The press despatches of the 12th inst. contained the following: "United States steamer Ranger, third rate, Commander Robert Boyd, of the Asiatic squadron, was ordered to San Francisco several months ago. She left Yokohama about the 1st of November and is now sixty-five days out, and the theory is that she has met with head winds and has been delayed, although the length of the passage is said by naval officers to be unusually long." The Ranger was reported a week or two ago as having put into Honolulu for repairs, having had heavy weather on the passage, lost boats, and sustained considerable damage aft.

The impression having got abroad that the U. S. S. Wachusett, which sailed from New York for Rio Janeiro last October, is now long overdue, the secretary of the navy says there is no occasion for alarm, as the instructions of the department were that she should make deep sea soundings along the coast of South America, and this duty may keep her for several weeks yet away from the port of destination. The officials say that in all probability she will not reach Rio before the middle of January, and it may be several weeks later before anything is heard from her.

Commanders B. B. Taylor and Henry deH. Manley are ordered to special duty at Washington.

Lieut. Comdr. P. F. Harrington is ordered to duty at the naval academy.

Pay Inspector Richard Washington is ordered to hold himself in readiness for duty as fleet paymaster of the Asiatic squadron.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—An illustration of the precociousness of the rising generation was made by a little five-years-old damsel at one of the fashionable churches in the west one Sunday morning. About the middle of the sermon this little one took up a prayer book and handed it to an elegant young man who sat in the pew in front, remarking as she leaned over: "The man in the nightgown says for you to be good and read the book."

"I don't want a Plaster," said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

—The most prevalent of all the 'isms is rheumatism.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

—"Ah," said a deaf man who had a scolding wife, "man wants but little hear below."

ONE OF THE greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and indorses it as a safe and effectual remedy for coughs and colds.

The Maine Conflict.

"It was Lancaster, the superintendent of public buildings, and not "Governor" Lamson, who undertook to bounce Gen. Chamberlain into keeping the republicans out of the State house at Augusta on the evening when they met there and organized the legislature.

Mr. Lamson on the 12th inst. sent a communication to Gen. Chamberlain asking if the latter was "prepared to recognize his (Lamson's) authority" as governor. To this Gen. Chamberlain replied by returning a copy of Garcelon's order under which he is acting, and which is as follows: "Maj. Gen. J. L. Chamberlain is hereby authorized and directed to protect the public property and institutions of the State, until my successor is duly qualified." The general then says: "Your inquiry virtually calls upon me to decide a question of constitutional law, which is a matter falling not at all within the province of my department. In my military capacity I have not the privilege of submitting such questions to the only tribunal competent to decide them. The constitution declares that the justices of the supreme judicial court shall be obliged to give their opinion upon important questions of law and upon solemn occasions, when required by the civil branches of the government, but that privilege is not accorded to the military department. Supported by the decision of the court, I should obey without a moment's hesitation; but solemnly believing that if, at this juncture, I abandon my trust, there will be no barrier against anarchy and bloodshed, I cannot under the circumstances recognize your authority as governor of Maine."

The Boston *Journal's* Augusta correspondent on the 14th telegraphed that paper as follows: "The indications are that the fusion legislature will proceed to the election of Smith as governor. Pillsbury, Solon Chase, Staples of Washington and others have been at work on Smith, and it is understood that they have got him up to the fighting pitch, and he will be inaugurated and then attempt to sustain himself by calling on a force that will clean out Gen. Chamberlain's p l ce fo re. Pillsbury is in command to-day, and is looking carefully after the details of carrying out the programme agreed upon at the conference last evening. Not daring to call the roll a member passed around with the roll and found seventy-three members present. At twelve M. the House adjourned to three P. M. There is evidence of a slight set-back in carrying out the programme of last night. The recess of both branches until late in the afternoon indicates that there may be something in the current rumor that Smith will not agree with the aggressive policy marked out by the Pillsbury wing, and they may be obliged to abandon the election of governor. To-day Smith says he won't do anything rash, and doesn't want his party to. Personally he cares nothing about the governorship, and wants the matter settled in a proper way."

The *Traveller* correspondent on the same date says: "The fusion leaders are endeavoring to provoke an appeal to arms, and that is the animus of their whole course, as now laid out. If Smith consents to accept, a ratification meeting will be held to-night, for which preparations are now being made. It is the intention to have a large crowd of fusionists come from out of the city, and to have the advantage of being on the ground first. Such is the stated programme, as divulged by one of their number. Nor is it all talk, for all their action looks in that direction. The republicans have the advantage of possession now, but the disadvantage that the greater part of them are away. To prepare for any emergency that may happen, the guards in the State house have been doubled since morning. The situation is critical in the extreme, and the course of the leading conspirators cannot be censured too highly in endeavoring to inflame the already excited people. They are but calling down destruction upon their own heads, for the leaders will be called to account before the rank and file suffer. Gen. Chamberlain is firm, and will not hesitate when the time comes for action. He is prepared to cope with them."

The fusionists on the 14th voted to unseat Mr. Hale, and to give his seat to a fusionist.

Insurrection At St. Kitts.

A cable dispatch from St. Thomas, W. I., dated Jan. 13th, states that there were floods on Sunday on the island of St Kitts by which 200 lives were lost and property to the extent of $250,000 destroyed, and the whole island devastated. The floods originated on Mount Misery, and swept down in torrents suddenly into the valley of Bosseterre, at its base. The inhabitants fled in terror to the coast. The torrent rolled on into the town of Basseterre among newly built houses and public edifices, carrying with it roofs, trees, timbers and branches. Land slips added to the terrors. Sugar cane is leveled to the ground. Sugar houses and dwelling places were borne away, and the waters rushed to the sea with drowned cattle and struggling human beings. The population of the island does not exceed 25,000, and of these two hundred perished. Earnest appeals are made for help. St. Kitts has known no such calamity since 1722, when a terrific hurricane nearly destroyed the island.

National Guard Reunion.

All the arrangements for the first annual meeting of the past and present commissioned officers of the New Hampshire National Guard have been completed. The reunion is to be held January 21st at the Eagle hotel and White's opera-house, Concord. At half-past four o'clock in the afternoon a business meeeting will be held in the parlors at the Eagle hotel, at which time a permanent organization will be effected. At eight o'clock in the evening a concert will be given by Eastman's full orchestra, and at half-past nine dancing will begin. Gov. Head and staff will be present, and probably Ex-Gov. Prescott and his staff. Letters received from different sections of the State indicate that the attendance will be very large. Reduced rates over all the railroads in the State have been secured, and arrangements have been made at the Phenix and Eagle hotels for special rates to officers and their ladies. Col. J. N. Patterson and Dr. G. W. Cook of Concord have been very active in arranging for and bringing about this reunion.

News and Notes.

A number of striking stock-yard men in Chicago having failed to carry their point, on the 13th inst. created an excitement by their riotous conduct. A mob of about 400 union men, who were unable to secure their old places in the packing houses, assaulted the non-union men, stoning them and striking them with sticks as they went to their work. One man was stabbed, and further trouble is threatened.

The wife of Gen. Chester A. Arthur died in New Jersey on the 12th inst. She was the daughter of Commander Herndon, who went down with the steamship America when she sank at sea.

Wilfred Streeter was attacked in his house at Melndoes Falls, Vt., on the evening of the 14th inst., by his nephew, John Cellison, about whose wife it is alleged that Streeter had circulated slanderous reports. Streeter received severe gashes in the face and on the back of his head, and was otherwise seriously injured. Callison was driven from the house by Streeter's wife, who is an expert with a revolver. A warrant was issued for Callison's arrest. Streeter is in a critical condition.

John C. Freeland, editor of the *Musical Times*, of New York, is reported missing, together with $50,000 belonging thereto.

The boot and shoe shipments from Brockton, Mass., for the week ending Jan. 10th, were 5,608 cases, against 1,744 for the same period last year.

It comes out that Iowa butter is laid down in Boston at a cost of sixty cents per 100 pounds, while Vermont butter going on the same train pays from eighty to 100 cents.

At Stamford, (Conn.,) depot, on the 9th inst., a train approaching the depot struck a carriage, in which were T. B. Richards, father of Prof. Richards of Yale college, Miss Eva Tweedy and a coachman. The carriage was demolished, and Mr. Richards fatally injured. Miss Tweedy was not hurt. The coachman was seriously cut in the face.

The Burlington, Vt., lumber mills are driving business. About 63,000,000 feet of lumber were brought to Burlington from Canada during the past year. This is an increase of about 11,000,000 feet over the previous year.

Charles Lang, eight years of age, was drowned in Providence, R. I., on the 13th inst., by falling into an old well, of which the cover had been broken by a heavy team.

A despatch from Assumption, La., reports the killing of W. Parker, Jr., (colored,) by Allan Hite, a white justice of the peace. Hite escaped.

A man named Taylor, a brother of Rev. Joshua Taylor of Harrodsburg, Ky., was recently killed at South Fork trestle, on the Cincinnati Southern railroad, by Mack Young and two brothers named Updegraff. He was shot, and then cut and beaten with an axe. The murderers have been arrested. They had been drinking.

It is stated that the moonshiners on Butler's creek, in Wayne county, Tenn., have organized under oath to kill any revenue officer or marshal who goes into their locality. They have killed W. A. Fowler for guarding United States Deputy Collector James M. Davis and his friends when they were there. Revenue officers will not dare go after wild-cat concerns in that region without sufficient force to overcome any resistance.

Capt. Wm. West, one of the coast patrol attached to life-saving station No. 3, while patroling the beach near Bell View, N. J., on the 13th inst., was struck by a train from Long Branch, and had a leg and arm broken. Owing to the intensity of a snow storm he was not seen by the engineer until the train, three hours later, returned from Sandy Hook, when he was found lying ten feet from the track. It is feared his exposure will result fatally.

Political.

Hon. James A. Garfield was formally elected United States senator by the Ohio legislature on the 13th inst., over Thurman, who received the democratic vote, by a vote of sixty-six to forty-four in the assembly and twenty to thirteen in the senate.

It is reported that James O. Vandevoort, the retiring democratic county superintendent of the poor at Kingston, N. Y., is a defaulter to the amount of $7000.

It is announced from Portland, Me., that Caleb A. Chaplin, who was counted in by Garcelon and his gang as a register of probate, and who assumed the position, resigned on the 13th inst., leaving only one counted in county officer who still sticks to the stolen goods.

If the Garcelonizing of Maine should turn out a success, the fusionists should insist on Garcelon's receiving a place on the democratic presidential ticket as a reward for his services. Barksdale of Yazoo, who merely assassinated the anti-democratic candidate opposed to him, is to be made a United States senator therefor; and if he is to receive a senatorship for such a petty service as that, surely the man who deliberately steals a State in defiance of law and honor should be made vice president.

Of the armed men assembled in the Maine State house by the fusionists, seven had served terms in the State prison and one was a deserter from the United States army. Possibly the fellows engaged in stealing the people's government believe that there wa sa sort of honor among rogues.

A party by the name of F. W. Bird, living in Walpole, Mass., is troubling himself amazingly about the political situation in Maine, and is encumbering the pages of the Boston *Herald* with long columns of his "views." If Mr. Bird has any business of his own he had better attend strictly to it; we've politicians enough of our own to run this thing.—*Rockland Courier.*

—An appeal to the understanding—"Please wipe your feet."

—A Rochester, N. Y., widow, long after receiving aid from the overseer of the poor, was found to own the house in which she lived, and to have $1500 in a bank.

—Senator Booth must be a hardened bachelor, since "Olivia" writes of him that "a sigh drawn fresh and pure from the deepest and most capacious female bosom and applied to the right place will have no more effect than a Holman liver pad administered for lock-jaw, while a glance from the most brilliant eye falls like a sunbeam on an alligator's back."

—When a country lad first comes to the city he uses the very profane expression, "Gaul darn it," with reckless ease. As the refinement of metropolitanism begins to take hold of his speech, he mildly says, "By durm," and when he reaches the lavender trousers, drab overcoat and eye-glass stage of culture he twists his little wisp of a cane in his fingers and murmurs, "Aw! dem it."

The right to petition is being freely exercised.

There are thirty-three horses wintering at the Riverside stock farm, belonging to B. D. Whitcomb of Stratham.

The Eastern railroad company is building fifty ice cars, fifty coal cars and several freight cars at the shops in Salem.

Twenty of the forty new Whiting looms recently purchased by the Kearsarge mills have been received and are now running. The pay-roll of the mills now bears about three hundred and fifty names.

The Granite State bank of Exeter on the 13th inst. elected directors as follows: Benjamin L. Merrill, William W. Stickney, George A. Wentworth, Charles A. Merrill, Edmund Elliott, William G. Perry, Abner L. Merrill.

Mr. John M. Hussey was kicked by a horse on Wednesday of this week, the hoof striking on the inside of the leg and laming him considerably, though fortunately no bones broken. He had just fed the horse, and the ungrateful brute kicked him as he left the stall.

It is all very well for the fire department's gear to get quickly to the scene of a conflagration, but there is no need for a fire extinguisher to go tearing along the street at such a rate as Atlantic 6 went when proceeding to the fire in Mr. Albert Laighton's house on the morning of the 14th inst.

The alarm of fire between eight and nine o'clock Wednesday morning was caused by the partial burning of Mr. Albert Laighton's house on Court street. The fire caught near a stove on the lower floor in the ell, and burned up through into the second story; it was soon put out, but not until damage to the amount of several hundred dollars had been done.

Captain Richard Pettingell, of Newburyport, has engaged the steamer Stamford, of Boston, E. W. Davidson master, to make weekly excursions from Newburyport, Portsmouth, Gloucester and Salem, beginning the tenth day of June and ending the twentieth day of September; the points of interest will be Portland, Boston, Provincetown, Plymouth, Lovell's grove and Isles of Shoals.

The CHRONICLE, which has once published a death notice of the shoe-factory enterprise, waked up this morning to find that "it will go ahead after all."—*Times, Jan. 14th.*

But it didnt wake up sufficiently to learn that the Rockingham course of entertainments would be "concluded" that evening "by the Bernard Listemann concert company," as the *Times* announced on the same date.

There have been but few calls as yet in this city for the new foreign two-cent postal card. It is of the same size as the one cent card, and bears these words: "Universal Postal Union (Union Postale Universelle.) United States of America (Etats Unis d' Amerique.) Write only the address on this side." This card is intended for use in sending to all foreign countries comprised in the Postal Union, that is, to any place whither the postage of a letter is five cents.

The charters for the following national banks in this State expire in February, 1883, they having been organized under the National Bank act of Feb. 25th, 1863; First National, Mechanics & Traders', Portsmouth; First, Nashua; First, Concord. The charters of the New Hampshire and Rockingham banks of this city; the Cocheco, Dover, and Strafford banks of Dover; the Newmarket bank, of Newmarket, and many others, expire on a later date, in twenty years after their organization, they having been organized under the Second National Bank act, passed in 1864.

A medical gentleman of this city who read in the last issue of this paper an item concerning the finding of a ball of hair in the stomach of a calf at the Shoals, has shown us a similar one four inches in diameter, taken from the stomach of a cow in Jamaica, W. I., about 1867. Such cases, though not very common, are not rare enough to excite much astonishment among herdsmen when they do occur; the trouble is occasioned by a hair swallowed by the animal becoming lodged in the stomach, by which every other hair which enters the stomach is caught, until the ball becomes so large as to cause the creature's death. It would seem to be best for them to stick to a hay diet.

John T. Hicks, proprietor of the Granite State park in Dover, has filed a voluntary petition in insolvency. He owes about $10,000, of which $6,000 is secured. His assets consist of the Granite State park and certain fees and undistributed receipts connected therewith.

We called yesterday to see Prof. N. J. Coffin's model of the earth, or his new globe, which is on exhibition at No. 5 Ladd street, up stairs. We cannot give a minute description of it, but it is an ingenious apparatus by which the professor makes plain many things about the changes of the seasons, day and night, the tides, and so forth. It is particularly interesting to nautical and scientific men, and they should not fail to see it.—*Times.*

The Dover *Democrat* of the 13th inst., says: "Sunday a young and innocent girl of good parentage while passing through the streets of her native city of Portsmouth, was accosted by another girl, (an acquaintance) who, though as young in years was old in the ways of sin. The latter asked the former if she would not like to have a sleigh ride, to which an affirmative reply was given. They both went to a livery stable, and in a short time after they were far out on the road which leads to this city. The invited party asked her companion where she was going, and was informed that Dover was the destination. When they arrived here they went to a place of refreshment, where it is said the young lady was forced to take liquor. The innocent maid was here introduced by her companion to two unknown fellows from Portsmouth, and after some conversation, the young men stated they were about to return to Portsmouth, and arranged so that one of them took charge of the sleigh in which the young ladies came up, while one of the young ladies went into another sleigh. Instead of facing for Portsmouth the badintentioned fellows headed for Great Falls, but at the railroad bridge on Charles street the young lady in question suspecting all was not right jumped out of the team, although her companion kept hold of her with an iron grip. She got severely bruised, and a Mrs. Young of Pine street happening along brought her to her residence. Yesterday morning she returned to her home."

Joseph Burroughs, a workman engaged on the extension of the Mousam river mills at Sanford, had a narrow escape from death recently. He was working near a shaft which was revolving about fifty times a minute, when the sleeve of his cardigan jacket caught in a set screw and he was whirled around, his feet striking some boards and his head an iron dripping pan. The flood-gate was quickly shut and the shaft stopped, but not before most of the man's clothing, including his boot and stockings, was stripped off, one of his thighs broken in two places, and his head badly cut. Strangely enough the man did not lose his senses, and he is now recovering.

The Biddeford *Times* of the 13th inst. says: "At a parish meeting of the Universalist society of this city, held last evening, it was voted to sever their connection with Rev. H. A. Wales. There was not a dissenting vote, so we are informed. Those present then pledged themselves to the amount of four hundred dollars to liquidate the debt on the society." Mr. Wales is one of the fusionist representatives in the Maine legislature from Biddeford, and offered prayer at the organization of Garcelon's House of Representatives. He will now be able to devote all his time, energies and prayers to the apparently hopeless task of converting Garcelon and his council into decent men.

FISH HO!

Mr. Editor: I noticed in a recent issue of your paper, in an article concerning one of the fish-curing establishments of this city, the following statement:

Last winter the reports of large fares operated to the detriment of the fishermen, though they made little difference to the large dealers.

This is certainly a new view of things, and would seem to emanate from some other cause than practical knowledge. In Gloucester, Mass., and in all other places where the fishing business is extensively carried on, weekly reports of the catch of fish are gratuitously given to the public by the papers. There are four large concerns in this city, which are doing a big business, and within the past two or three years have made large additions and improvements in their establishments, which increased facilities were demanded by the increase of the trade, which increase has no doubt been assisted by the so-termed detrimental reports. This winter there are some thirty fishing vessels sailing out of this port, having a tonnage of from ten to one hundred tons each, and which have generally been fairly successful, though meeting with some reverses, which naturally occur in any and all branches of industry. And I can see no reason why the public, who are interested in all enterprises, should not be informed concerning the success—ill or otherwise—of the fishing business. Congress appropriates annually large sums to collect reports concerning industrial pursuits, and the information thus gathered is sent over the country and becomes a part of the business man's library. Lately a board of fish commissioners have been established, and their circulars are thrown broadcast along the coast, asking for minute information concerning fish and the fisheries, the number of vessels, boats and men engaged in fishing, their success, etc.; and the information thus collected has been set forth in the late report of the commission. I do not think any intelligent fisherman imagines that the daily routine of labor in which he is engaged in of less moment than other pursuits; and certainly the manner in which the fishing business has been developed of late years entitles it to be considered a leading branch of industry at least on New England's coast. I hope our fishermen are not too modest to allow their real merits to be known, and trust the dealers will not assume such modesty for them. "Let there be light." HOOKS.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty five cents a box. 1,th&f

The Promoter and Perfector of Assimilation.
The Reformer and Vitalizer of the Blood
The Producer and Invigorator of Nerve and Muscle.
The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which ionstitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

Price, $1.50 per Bottle, six for $7.50.

Sold by all Druggists.

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

It was very good to be assured of that, and the bridegroom went on his way rejoicing; but by and by he found he had got married without getting a wife. I: was a bad job; and so when he met his old companion on the street one day he said, with a very long face: "I thought thou told me as I came out of Grimsley church that I'd gotten to t'end of all me trouble." "I did tell thee so," said his friend, quietly, "but I didn't tell thee which end."

—The Boston *Commercial Bulletin* tells this story anent the war times: "Toward the latter part of the war," said the colonel, "hands became rather scarce in the confederate service, and we were rarely regaled with the strains of martial music, unless it was from the federal forces. On the retreat from Sharpsburg, during a brief halt, the weary soldiers, as was their custom, flung themselves down on either side of the road for what rest they could get. Just at this juncture came trudging down the centre of the road a solitary musician with a big bass drum. His appearance excited the liveliest emotions among the boys, which finally found vent through a tall, tallow-faced North Carolinian, who, bringing his piece to the ready, halted the astonished musician, at the same time drawing out: 'Say, mister, can't you come down here a piece an' play something kinder soothing on that air thing—for a sick man?'"

Ayer's
Hair Vigor,
FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

IT is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use the hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair,

The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Cuticura
From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve or fifteen years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1877 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——— of East Boston, and Dr. ——— of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.30 grains, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the accursed disease. I saw it coming to an end, such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions of the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so anxious to you, for I feel it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR,
Boston, Aug. 22, 1878.

GILMORE & CO., Successors to CHIPMAN, HOEMER & CO., Solicitors, Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,397,500 acres of Bounty Land Warrants outstanding. These were issued under acts of 1850 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

SPEER'S
Sambuci Wine,
AND
PORT GRAPE WINE.

Sambucus, the Great Remedy for Kidney Affections, Rheumatism and all Chronic Complaints. Excellent for Females and Weakly Persons.

MEDICINAL WINE.

Speer's Sambuci Wine!

celebrated for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and Debilitated persons, the aged and infirm, improving the appetite and benefitting ladies and children.

AS A DIURETIC,

it imparts a healthy action to the Kidneys and Urinary organs, very beneficial in Dropsy, Gout and Rheumatic affections and Consumption.

Very superior for colds if made hot and taken before retiring. 75 CENTS PER BOTTLE.

COMMUNION WINE.

SPEER'S PORT GRAPE WINE,

From the Oporto Grape, raised by Mr. Speer at his vineyards, is a rich, heavy-bodied Port, prescribed by Physicians in place of California and imported Port, used by families for weddings, and as an evening wine; and by ladies and weakly persons for strengthening; also the principal wine for communion purposes. $1.00 PER BOTTLE.

Speer's P. J. Sherry

is a Wine of Superior Character, and partakes of the golden qualities of the grape from which it is made. For purity, Richness, Flavor and Medicinal Properties, it will be found unexcelled. $1.00 PER BOTTLE.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION! Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard work, and the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The Lancet and Tribune and says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. I. P. INGRAHAM, vice-president; W. PAINE, M. D.; C. S. GAUNT, M. D.; H. J. DOUCET, M. D.; R. R. KLINE, M. D.; J. R. HOLCOMB, M. D.; N. R. LYNCH, M. D., and M. R. O'CONNELL, M. D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia; also Hon. P. A. ISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

Patent Reflex Coal-Grate and Ash-Sifter,
New Patent Automatic Oven Shelf,
New Patent Extension Leg,
New Patent Double Top,
(No more cracked tops.)

And many other improvements. As perfected, we sincerely believe that the most durable and beautiful range in the world is the

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

This Range, with a large variety of other

Ranges, Cooking and Parlor Stoves,

Etc., can be seen at the old stand of

M. W. EARING,

No. 61 Market Street,

Where also can be found a full and complete assortment of KITCHEN WARE, HOUSE FURNISHING GOODS, etc., which the residents of Portsmouth and vicinity are respectfully invited to inspect before purchases are made elsewhere.

THE N. H. GAZETTE

Is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

POROUS PLASTER
CAPCINE
BENSONS CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under some similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only genuine article is that which bears the signature of all three firms, as above. Beware of imitations at half the price of genuine. SEABURY & JOHNSON, Pharmaceutical Chemists, New York.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Alphan Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will for its to its readers the productions of the most eminent authors, *above-seas and many others;* embracing the Choicest *Serial* and short *Stories* by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Adventure, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., Jan. 9th.

All branches of industry, but especially agriculture and manufactures, are vitally interested in the problem of making a closer connection between the commerce of the Atlantic and the Pacific oceans. Whether the great expense involved, the engineering difficulties to be overcome, and the very long time required, will render impracticable an inter-oceanic canal, and cause the substitution therefor of a railway for transporting vessels across the isthmus, is a question which will probably have the attention of Congress as well as of capitalists before long. In advance of its more general discussion, I send you the following letter, which was printed in the London *Times* of a recent date, from Hon. E. J. Reed, a member of the British Parliament, and the most celebrated naval architect in Europe:

I write to express the hope that the project of substituting a ship railway across the Isthmus of Panama for the costly canal which is in contemplation, referred to in the letter of your Philadelphia correspondent in the *Times* of this day, will receive in this country and in France the consideration which it well deserves. I have for some time past had under consideration a similar scheme of my own for conveying ships across the north of the great peninsula of Florida, and although I have had leisure to develop it sufficiently to justify me in putting it in detail before the public, I have gone a long way towards satisfying myself that it is a feasible plan, and highly economical in comparison with a ship canal.

Mr. Eads, who has now announced and advocated the plan in America, is an engineer of the greatest ability, distinguished alike by the greatness of engineering conceptions and by the theoretical and practical knowledge which he brings to bear upon their development. I first made his acquaintance in connection with war vessels and machinery constructed during the American war, and found him most able in grasping the essentials of the war-ship problem and in the application of steam to the object in view. He has since given abundant evidence of engineering skill in other spheres and on larger scales.

It may not be generally known that this country has done much in the way of lifting vessels bodily from one level to another, both in the case of the hydraulic docks of Mr. Edwin Clark and in the Anderton barge lift in Cheshire, where the Bridgewater canal and the river Weaver (of which the former is forty feet above the latter) are placed in working communication by the raising and lowering of pontoons with vessels afloat within them. I am satisfied that by modifying the plans of these hydraulic operations and greatly augmenting their scale, and by interposing railroad communication between the seas to be connected, ships can be conveyed across intervening land and much less expensively than by canal, where the distance to be traversed is great.

As my own investigations of the subject have been limited to the case of Florida, where the country is generally level, I cannot undertake, without further inquiry, to say how much the mountains of the Central America route may add to the difficulty of connecting the Atlantic and Pacific by the plan proposed; but in all other respects I would presume to claim for the project of Mr. Eads the most careful consideration.

Many letters received from Illinois state that Hon. John B. Hawley, assistant secretary of the treasury here, is widely mentioned for the next republican nomination for governor of that State. General Hawley has served three terms in Congress, and his appointment to his present position was entirely unsought. Everywhere in public life he has served well, and democrats and republicans alike will be glad to see him honored by his friends at home. It would not surprise us much if he were to come to the Senate some day.

I think Congressman Wood's refunding bill is growing in popularity since members have had a chance to study its features, and to test the public pulse. Secretary Sherman has not yet been brought to believe in it, because he says he is afraid bonds having so low a rate of interest as 3 1-2 per cent. cannot be well placed.

The movement of which I have before spoken, in favor of a new government bureau, to have charge of mining affairs, has taken tangible shape in behalf of Congressman Belford's bill. Mr. Belford represents a mining State, and is qualified to knew what is wanted to protect the interests which demand the new bureau. KNOX.

Speer's Sambuci Wine.

We have examined a specimen of the Sambuci Wine of Mr. Alfred Speer, referred to by a correspondent of the *American Baptist* and have no doubt it is pure. We should judge from its taste and appearance, that it is certainly valuable as a medicinal wine and as a tonic for weakly persons. It has the recommendation of some of the first physicians in this country as well as Europe.—*Washington Star.*

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

FRIDAY, JANUARY 16, 1880.

The Maine Conflict.

The fusionists having pledged themselves not to attempt violence, Mayor Nash of Augusta on the 15th inst. removed the extra police from the State house. The Gardelon House completed its quorum in the forenoon, by the election of one Stiles of Westbrook, who was defeated at the polls; Stiles was "qualified" by the alleged governor, Lamson, and the rump House then adjourned to 4:30 P. M.

The New Hampshire Club.

An adjourned meeting of business men of New Hampshire, who frequently visit Boston, was held at Young's hotel in that city on the afternoon of the 14th inst., to organize a club to serve as a medium for bringing them more often together. A constitution was adopted, and the association will be known as "The New Hampshire Club." The following officers were elected for the ensuing year:

President, Ex-Gov. Person C. Cheney; vice-presidents, Thomas L. Livermore of Hillsboro county, Benjamin A. Kimball of Merrimac county, S. W Hale of Cheshire county, Hervey Kent of Rockingham county, John Bracewell of Strafford county and A. M. Shaw of Grafton county; secretary and treasurer, B. W. Hoyt; executive committee, G. Bryon Chandler of Manchester, Frank Jones of Portsmouth, Royal H. Porter of Keene, Alvah W. Sulloway of Franklin and Charles H. Burns of Wilton.

After the business meeting the club sat down to a choice spread, to which ample justice was done. The club will meet at dinner, once a month, at Young's hotel.

Maine Press Association.

The Maine Press Association will convene at Augusta, Wednesday, Jan. 28th. On the evening of the 29th, H. K. Morrill, Esq., the president, will tender the association a reception at his residence in Gardiner. A special train will run from Augusta to accommodate the party. The Maine Central railroad has consented to give free passes to all the members who may attend.

News and Notes.

The committee appointed by the New York Maritime Exchange to seek a revision of the pilotage system and a reduction of fees at that port, invite the people of the United States, especially of the Atlantic seaports, to organize immediately and give expression to their views on this subject, so that public opinion may be brought to bear upon State legislatures and Congress.

The body of Jacob Swanger, aged sixty years, was found horribly mutilated in his cabin, in Washington county, Oregon, on the 9th inst. He was evidently murdered with an axe for money.

Two students of the Columbus (Ohio) medical college are charged with robbing the cemetery of a body for dissection, and have been arrested. The community is quite excited.

A grand official banquet will be given at Havana in honor of Gen. Grant, and a brilliant reception will be tendered him at the palace by high official functionaries and distinguished members of society of that city.

Col. Charles Klickner of Philadelphia, who commanded a regiment of Pennsylvania volunteers during the war, was afterwards a member of the legislature, and subsequently clerk in the Philadelphia post-office, has been arrested, charged with stealing letters from the mails.

The United States coast survey party, under Prof. Davidson, and the United States naval observatory party under Prof. Frisbie, observed the recent eclipse at Saledad, California, with perfect success, from Santa Lucia mountain, 6900 feet above the sea. The first contact was within one and a half seconds of the computed time.

The various firms who advertise to forward upon receipt of fifty or sixty cents a bound volume of Webster's unabridged dictionary are pronounced by special agents of the post-office department to be impostors.

A Difficult Conundrum.

At dinner, the other night, the conversation lapsed, as it sometimes will lapse with the best of hosts, into questions hardly distinguishable from conundrums. A celebrated historian was present, and I put a question to him which I know has puzzled a great many people at different times. "What is the surname of the royal family?" "Guelph, of course." That is the usual answer, and it was the historian's. I ventured to suggest that, although the royal family are Guelphs by descent, her majesty's marriage with Prince Albert of Saxe-Coburg must have the effect which the marriage of a lady has in all other cases, and that the surname of the present house must be the prince consort's. "But what is the surname of the prince consort's family?" Simple, but staggering. No one knew. All guessed, and all were wrong. I happened to have looked up the subject a few months ago, so I knew that the name was "Wettin." Of course no one knew it before. Every one smiled at the horrible idea of the Guelphs being reduced to Wettins! The point we referred to Theodore Martin. "You are quite right," said the graceful biographer of the prince consort; "Wettin is the family name of the house of Saxony, to whom the dominion of Saxony came in the year 1420. The king of Saxony and the minor princes of the house are therefore all Wettins, or in German, Wattines!"—*Whitehall.*

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

Political.

Hon. William F. Hamilton, democrat, was inaugurated governor of Maryland on the 14th inst.

Charles O'Conor, of New York, one of the most eminent lawyers in the country, and always a democrat, says: "The democrats have attempted to seize the vote of Maine by means most reprehensible. Whether this originated in an unjust and grasping selfishness on the part of democrats, or, as has has been suggested, was crafully instigated by some republican device, is quite immaterial. The thing has been done, and the pretext for republicans to act likewise has been afforded. It will enable them to compensate themselves amply by reprisals, should success attend the Maine enterprise."

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty dve cents a box. t,th&f

AROUND HOME.

The expenses of one of our dry goods firms average $40 per day.

Tuesday of this week was pay-day at the Kearsarge mills. It takes about $6,500 to pay off the four weeks' roll.

The Eastern railroad bridge between Salem and Beverly is being thoroughly repaired, and all the trains have to use one track.

Another big cod-fish was on the 13th inst. bought by Randall & Caswell, from the schooner Comet, weighing one hundred and eight pounds.

Schooner Edmund Burke arrived here on Wednesday of this week from Eastport, Me., with one hundred and sixty thousand frozen herring, for bait.

Ayers & Locke, Nos. 30 and 32 Market street, are selling out the remainder of their immense stock of cotton and linen goods at special bargains. See advertisement in another column.

On the 13th inst. three hundred and forty-eight cases of print cloth were shipped from the Dover print works to Boston and western cities. This amount shipped in one day is unprecedented in the history of these works.

No pleasanter dancing party has assembled in this city during the winter than was gathered in Congress hall on the evening of the 14th inst., and no better social time has been had than was enjoyed by those who participated in this one.

In Portland is a "Widow's wood society." We suppose it is an organized effort where the fellows "chip" in and make it warm for the widows. In Portsmouth the society of the "Widows wooed" is as near as we come to our eastern friends proposition.

There are seventy-five stitching machines in Burt & Strong's shoe factory, and notwithstanding this number, they send a large quantity of work to be stitched to Farmington, Great Falls and Portsmouth shoe shops, where machines would be lying idle only for this enterprise.—*Dover Democrat.*

H. W. Butler of East Rochester has been in town a day or two looking for premises suitable for a shoe factory. Mr. Butler is in business in the former place, and will if he gets proper encouragement move his business to Portsmouth. We sincerely hope that he can find suitable accommodations, and what encouragement he desires.

Mrs. Elmira Ham, who on the 16th of last December fell on the sidewalk in Dover and was badly hurt, is about to sue that city for $10,000 damages. Having failed to give notice of her intentions thus to do within ten days after the accident, as the law requires, she is now compelled to petition the supreme court for leave to file notice of action.

The concert by the Bernhard Listemann company of instrumentalists, assisted by Miss Julia A. West, contralto singer, was the most finished, artistic and pleasing musical entertainment given in this city for a long time. The last entertainment in the Rockingham course will be given by the Boston theatre company on a date to be announced later.

The *Cape Ann Bulletin*, published at Gloucester, Mass., says the schooner Charles P. Barrett, of that port, belonging to Capt. John Blanford, but of late sailing under the charge of one Beckman, of Seabrook, in this State, put into Newburyport, where she was stripped of her running rigging and other light gear by Beckman, who sold it to a junk dealer named Stanley, for $22. Capt. Blatchford went to Newburyport and laid claim to the property, which was valued at $150, entering a complaint against Beckman, but he had skipped over the line to New Hampshire.

A grand fair is to be given in the town hall at Newcastle on the evenings of Jan. 28th and 29th, under the auspices of Unique Lodge, I. O. of S.,—which means Independent Order of Substantials. The amusements will consist of dialogues, recitations, vocal and instrumental music, apple-eating, guess cakes, guess poles, grab-bags, etc. A study-lamp, two cuts (fifteen yards each) of cotton cloth, a silver cake-basket and a glass tea service, will be distributed among the holders of season tickets. A silver butter-knife and a large cake will be given to the person guessing nearest to the exact weight of the cake, and a very handsome napkin ring and half-dozen napkins will be given to the person guessing nearest to the height of a pole. With all these inducements, the managers expect to draw a big attendance each evening of the fair.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening:

Bill of James Moses for commissions on collection of taxes, and incidental charges, was referred to committee on claims to report.

The claim of C. H. Sides against the city for injuries to his daughter, to the amount of $575.60 and interest, was ordered to be paid.

Request of Rev. William Francis for use of south ward room Sunday, Jan. 18th, was referred to mayor and Alderman Mugridge.

Communication from W. I. Trafton requesting that Mercer Goodrich be allowed to transfer the unexpired lease of the store in the city building to him was accepted and referred to committee on city lands and buildings.

Quarterly and annual reports of the city marshal were received and referred to committee on police to report.

The mayor informed the board that Mr. Goodrich had notified him that he should vacate the store now occupied by him in the city building, and that it had been suggested by the chief engineer that it would be advisable to locate one of the steamers there. The matter was referred to the committee on city lands and buildings to report.

Adjourned for two weeks.

PUBLIC INSTALLATION.

Portsmouth Commandry, No. 47, United Order of the Golden Cross, had a gala time in their hall on Daniel street, Thursday evening, the occasion being a public installation of its officers by the grand officers of the State. The hall was packed to its utmost capacity, and the scene was an animated one, the bright colors of the ladies' apparel lighting up the generally sombre furnishings of the gentlemen.

Meeting called to order by the retiring Noble Commander Eugene M. Grant.

Singing the opening ode by the Commandry.

The following officers were then installed by Grand Commander Stephen W. Clarke of this city, assisted by Past Grand Commander Mrs. A. White, Vice Grand Commander John E. Dixon, Grand Prelate Mrs. James Sanborn, Grand Herald John Dame, Grand Warden of the Inner Gate F. L. Marks, and E. M. Grant, Past Noble Commander:

Frank G. Thurston, Noble Commander;
Mrs. Eugene M. Grant, Vice Noble Commander;
Mrs. Lucy E. Perkins, Prelate;
James Sanborn, Worthy Herald;
Samuel Dodge, Noble Keeper of Records;
Rolla C. Grant, Noble Financial Keeper of Records;
James Janvrin, Noble Treasurer;
John Wood, Warden of Inner Gate;
Mrs. Rebecca J. Dixon, Warden of Outer Gate.

The following excellent programme was then gone through with:

Singing by a quartette consisting of Messrs. Sabine and Grant, and Mrs. E. M. Grant and Miss Taylor.

Historical sketch of the order by Grand Commander Clarke.

Recitation by E. C. Stimpson.

Poem, "Jennie McNiel," by Will Carlton.

[At this juncture Mrs. Anna White stepped forward and in a well chosen speech presented the commandry an elegant bible and a handsome oil painting Commander Thurston responded happily.]

Singing by quartette.

Reading (irish selection) Miss Emma Johnson.

Remarks by the Past Noble Commander, E. M. Grant, respecting the objects of the order.

Reading, selection from Mark Twain's Gilded Age, "Emigrants from Tennessee," by E. C. Stimpson.

Closing ode by the company.

Prayer by the Prelate.

The Order of the Golden Cross was organized in Knoxville, Tennessee. In June, 1876, it was incorporated, and on July 4th of the same year the supreme council was organized. Its ramifications already extend into fourteen States, and new commandries are being formed weekly.

Portsmouth Commandry was organized April 4th, 1879, and was the fourth instituted in the State; it has a membership of fifty-eight—twenty ladies and thirty-eight gentlemen—comprising some of the best elements in our city. Applications are being received at every meeting; and the features of this excellent—and one of the best—corporation insurance companies extant, render the future of the organization promising in the extreme.

POLICE COURT.

THURSDAY, Jan. 15; *Batchelder, J.*

John Farrell was up, charged with drunkenness, and desertion from the city house of correction. Allowed to go on a promise to clear out, and to stay cleared out.

George Anderson—not Comanche George, of "tulula" fame, but another fellow just as mean and not half so "smart"—was charged with escaping from the city house of correction. Sentenced to be returned to serve out his original term, with thirty days additional, and to pay $5.76 costs.

THE MARINE BICYCLE.

Quite a sensation was created on the river on Thursday last by the exhibition of what Mr. Urch, the inventor, calls the "marine bicycle." It is constructed after the catamaran style; the length of this one, which is built as an experiment only, is twenty-five feet; the two boats are each six inches wide and six inches in depth, and about three and a half feet apart, and held in position by wooden bars. In the centre is placed the bicycle, and from it extends aft an iron rod eight feet long, to which is attached the propeller; this is between the boats, and the present power, which will be greatly improved, gives her speed enough to beat any dory on the river. The steering gear consists of a rudder on each boat, and the machine answers the helm quickly, considering its length. One good point is that it can be stopped almost instantly, when under full speed. It will probably be one of the most popular river amusements.

A TOUGH TRIP.

The schooner Iris, Capt. James Burke, landed at Randall & Caswell's wharf on Thursday, the 8th inst., 7200 pounds of fish. On the following Saturday night she left for the fishing grounds, and on Monday at ten o'clock had her trawls set off Newburyport and started to return, when the storm of that date came upon her, and after battling with it for many hours and losing all reckoning, the crew brought the vessel to an anchor and rode out the gale, not having any idea whereabouts they were. When the weather cleared off they found themselves four miles south of the Shoals, with the masts, rigging and hull of the vessel thickly coated with ice. After beating off the ice sufficiently to enable them to work the vessel they lifted the anchor, made sail for the fishing grounds, hauled their trawls and made tracks for home, where they arrived on Thursday morning of this week, glad enough to get back all in one piece, though their trip was not a particularly profitable one.

LET YOUR LIGHT SHINE.

There is something more for our people to do than merely subscribe for the means to start a shoe factory. There must be an enterprising encouragement of business, and in this respect we submit a few plain suggestions to our merchants who seek to retain and increase trade, and to the owners of stores who expect a return for their investments.

Some time since, we heard of a small trader, who never patronizes one of his local papers, but indulges in a Boston daily, complaining because people bought goods in Boston instead of at his shop.—a place unknown to many old residents, and to all new comers, because never set forth in the newspapers. Again, we have known men who just before an election and at other times have delighted to see their names in the papers, but when some other "party" succeeded in coming before the people, declared there was never anything in the Portsmouth papers, and they did not see the use of publishing one,—as if the place would not at once go out of sight were it not for its newspapers. A newspaper and a hotel are the first symptoms of vitality seen in the establishment of all new cities in the west, and where there is enterprise, vim and success, there it is that newspapers are sustained by the local population. It is the peculiar province of Portsmouth people to abuse, rather than encourage their local papers, a most exceptionable instance in a place struggling for business and financial success.

Then, too, there is a disinclination to advertise the business of the place. By this we do not mean the paid advertisements in the newspapers, but business reports. Two winters ago we endeavored to get a report of our fish market, which in winter is in importance next to that of Gloucester. A full report of cargoes and prices would have drawn the attention of buyers, made business for our railroads and teamsters, increased the number of business visitors and put more money in circulation. We arranged for a thorough, accurate report, and it was to be simultaneously published in the commercial papers of Boston, who were to share with us the expense of the enterprise. What was our astonishment at the set-back we received from one of the leading dealers, who objected to giving us any information as to fares or prices, on the ground that they (the dealers) were making a good thing out of the fishermen, and if others at Gloucester, Newburyport and Boston should find out how well they were doing they would come here and by competition spoil their business! We gave it up; and yet this is our most important branch of trade, and properly set forth locally, would double.

Again, we receive large cargoes of coal, foreign and domestic. We have for years tried to obtain from the consignees the amount of coal brought in vessels consigned to them, and where the cargoes were to be sent, as was published in Portsmouth years ago; but the dealers, with singular unanimity, have always refused to give this, lest some one out-of-town might think they had coal for sale.

Our large foreign commerce is kept very secret; we must have extensive imports, because it costs over six thousand dollars a year to pay the salaries at the custom house of the men who collect the customs and prevent smuggling. Some time since, in one of the economical throes of the reform democracy, an attempt was made to reduce the corps of incumbents in this office, but Congressman Jones insisted that as ours was the only seaport in the State, these places should be left for us,—and possibly he thought that when his political friends might come into power on some day in the dimmed distance, the positions might be of service, and these men were permitted "to labor and to wait."

To make some show of commercial importance for our city, we publish the marine arrivals at this port. These are entered upon a book in the inspectors' room, but for the transferring of these, and sending the same to our office, the entire custom house establishment (save the head, whose notions in this respect are more liberal) must be supplied with complimentary reading of our paper. One would suppose that with a danger of reduction threatening every winter, the attaches would like to see a marine list full and complete, but the list of arrivals at the lower harbor is sent to Boston, for a remuneration, which our complimentary paper will not secure. This much the custom house does to aid the business reports of the only seaport.

We might go on almost indefinitely in this line, but it would be simply a repetition. The burthen of our song is, we do not do enough for ourselves. We hide our light under a bushel. We do not appreciate that we have facilities for business, if we will only let the world know it far and wide, and in this respect there should be a radical change. The clergyman does not hesitate to announce a good sermon, or perhaps permit it to be published. The surgeon never conceals the results of a successful operation, nor does the lawyer object to have his name attached as the counsel in a celebrated case. The politician can be induced to allow his name to appear either in complimentary or critical allusion, as will best serve his purpose. Why then should business seek to hide itself, and be drawn forth reluctant from its concealment? No, we must "hang out our banners on the outward walls," if the cry as to customers is to continue "they come." The large number of stores to be opened for tenants on the advent of spring must bring increased business or rents will go down, or prices go up; and the only remedy is to advertise business, to let the world know if we have anything to sell, if we are importing, manufacturing, or in any way inducing trade or business to revive in our city,—and in this respect there must be an improvement, and to bring it about every man in business, large and small, should co-operate and contribute.

YORK COUNTY ITEMS.

Smelts are in great abundance in Spruce creek, Kittery; a gentleman from Eliot caught nearly two bushels one night last week, fishing by the light of a torch.

Mr. Fred Constantinople, of New Boston, York, killed on the 8th inst. a swine of the White Mountain variety crossed with Chester white, seventeen months and five days old, which weighed when dressed 843 lbs. We learn that the "Hon." Moody intends counting this story out.

Asa Hersom of Berwick, employed in the woolen manufactory of L. R. Hersom & Bros., was struck in the head a few days ago by a piece of gearing which became loosened and flew off the machine. He was severely bruised, and his head was cut so badly that a physician was called to sew up the cut.

The suits of Wm. A. Wooster against the Manhattan, Lafayette and eight other insurance companies, and of the Somersworth savings bank, as mortgagee, against a large number of insurance companies, brought to recover about $30,000 for the loss of the Island Ledge house, at Well's beach, burned in Febuary, 1878, have been settled in the United States circuit court by a compromise, and entered for neither party.

The Eliot Bridge company held a meeting at Dover recently, and chose a board of directors, adopted by-laws and transacted other business. It appears that the Eliot Bridge company in Maine have surrendered all control of the bridge and all rights connected therewith, so far as the management is concerned, to the Eliot Bridge company in New Hampshire, but the Maine company are to have two directors in the board. The bridge is to cross the river near the line between South Berwick and Eliot, and it is estimated the whole cost, including the building of a road from the Gilman gate in Dover to the river, will be about $15,500. Just $7000 has been subscribed for the stock. The affair is being sedulously pushed by Dover capitalists, and the real reason is that they hope by means of the bridge to draw the trade from Eliot, York and the lower part of South Berwick. Where South Berwick, or even Eliot, are to receive any material benefit from it remains to be seen.—*Record.*

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Look out for the name and address J. I. FELLOWS', St. John, N. B., on the yellow wrapper in watermark, which is seen by holding the paper before the light.

Price, $1.50 per Bottle, six for $7.50.

Sold by all Druggists.

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the scalp clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

A Grain Blockade.

Some conception of the immense amount of grain raised in this country may be obtained from the facts and figures of the great grain blockade at Chicago. There they have more than Egyptian abundance; there is a perfect glut in the market, the effect of a gigantic "corner," started by speculators who have been caught with an over-large, unsaleable quantity on their hands. The Chicago blockade is of prodigious proportions.

The elevators of the city are capable of holding about sixteen million bushels and they are very nearly filled to their utmost capacity, and several of the western railroads and canal lines are refusing to receive grain for that market, because when they get it there they can find no accommodations for it. In this condition of affairs, the directors of the board of trade are considering the propriety of accepting as regular the receipts in elevators and shore houses along the line of the various railroads, just the same as if the grain were actually in the city. It is also in contemplation to provide temporary storage outside the elevators, and to build new elevators in various quarters of the city. Large numbers of cars are lying along the track in the city loaded with grain and unable to deposit.

There are in storage 8,000,000 bushels of wheat, 4,000,000 of corn and enough other grain to make a total almost equal to the capacity of the elevators. There are also about one million bushels afloat in the harbor. The elevators outside the city and tributary to it are generally well filled, and some of them overcrowded with this condition of affairs.

The explanation of this glut of grain is that the grain syndicate, the leading grain speculators, have by constant purchases forced the market price of wheat up to a point where it is a dead loss to ship it to New York, and to a point where it cannot be shipped from New York to Liverpool, even at the prevailing low rates of ocean freight, with any prospect of a return of the money invested. Unless prices in Liverpool advance very materially, or decline here something like twenty cents per bushel, there will be no shipping margin, and the blockade will continue.

Meantime western farmers are unable to find a market for their grain, although prices are to their liking, for the supply is far in excess of the demand. Nobody wants to buy, but all the large dealers are anxious to sell if they can get living prices. A break must come sometime, for it will never pay to hold sixteen millions of bushels, long, without sales; if they cannot sell at a profit, then they must submit to losses. The capital invested will surely seek avenues of escape from the thrall in which it is held.

Keep the Stable Clean.

We need to impress upon all dairymen some idea of what is necessarily classed under the head of cleanliness in the dairy. The stable must be clean, free from manure and all offensive odorous matter, and enough sawdust, dry dirt, plaster, or other effective absorbent and deodorizer used to remove all disagreeable smells. The stable must be well ventilated, and the cows have plenty of fresh, pure air to breathe. This must be, in summer or winter, as foul air, as well as foul food, will taint the whole system of the cow and impart its odor and flavor to the milk. Air, food and drink must be pure, and the surroundings clean and sweet. If this is not the condition under which the cow is kept, there is not sufficient cleanliness in this part of the dairy. Very seldom do we see a stable that even approximates this degree of cleanliness. Yet this is indispensable, as surely as the milk is made of and flavored by what the cow eats, drinks and inhales, and as milk absorbs the odors of the atmosphere with which it comes in contact.—*Homestead.*

No more Hard Times.

If you will stop spending so much on the clothes, rich food and style, buy good, healthy food, cheaper, better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health.—*Chronicle.*

—A great many people are anxious to introduce a new religion into the world who have never given the old one a fair trial.

"I don't want a Plaster,"

said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

—No matter how low down a man gets in the world, there are two things he can always get, somehow or other; good advice and bad whiskey.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

ONE OF the greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and indorses it as a safe and effectual remedy for coughs and colds.

FROM NUMEROUS cases of dyspepsia and constipation, cured by the use of Fellow's Compound Syrup of Hypophosphites, after every other known remedy had been used in vain, its efficacy in restoring the functions of digestion and evacuation is manifest.

HOSTETTER'S CELEBRATED STOMACH BITTERS

The Stomach is Strengthened.

The liver regulated, the bowels put in proper order, the blood enriched and purified, and the nervous system rendered tranquil and vigorous by this inestimable family medicine and safeguard against disease, which is, moreover, a most agreeable and effective apparitzer, and a cordial peculiarly adapted to the wants of the aged and infirm.

For sale by all Druggists and Dealers generally.

KIDNEY-WORT

The Only Remedy THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Bilious pains and aches? Why tormented with Piles, Constipation? Why frightened over disordered Kidneys? Why endure nervous or sick headaches? Why have sleepless nights?

Use KIDNEY-WORT *and rejoice in health. It is a dry, vegetable compound and* One package will make six quarts of Medicine. *Get it of your Druggist, he will order it for you. Price, $1.00.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve or fifteen years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. Received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I walked to the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.75 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have tried but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was no much hunter lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly unsettled my feelings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of the remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant a suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you; for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR,

Boston, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

CUTICURA is the great external remedy for all Humors of the Scalp and Skin, Ulcers, and Old Sores.

CUTICURA SOAP is an elegant toilet and medicinal assistant to CUTICURA for all external affections.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all druggists and dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 35 cents; three cakes, 75 cents.

MODEL RANGE

Manufactured by Spicer & Peckham, of Providence, R. I. The Portable Cooking Range is the best adapted to do work surely and quickly, of any device yet made. There are many sizes. They do all work evenly and steadily, with a great saving of fuel. No expense has been spared to make the Model Range *first-class* in every particular, and it is presented to the public as one that is admitted even by competing manufacturers to be the most neatly ornamented and perfectly proportioned Range yet made.

The top is double, and very large, with extension shelf and towel rack attached at either end. The fire box is arranged with express reference to economy, and easily repaired; the grate can be taken out without moving the brick lining. The ash sifter is perfect in its operation, and free from dust. The oven is very large, ventilated properly, and bakes thoroughly. The ash-pan is especially convenient. The ventilated broiler doors make perfect combustion and economy of fuel. Durability, cleanliness, ease of management, great working capacity, rapid and perfect in operation. Pipe collar adjustable for either top or back of range. Patent check draft and curve flue will save one-third of the fuel that is usually wasted. The door-knobs and name plate are nickel plated, making it very attractive for the home. The top is less likely to crack, being double.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a glossy softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAMS DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of choice literature for as much or anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or has tended the breaking up of the constitution the earth. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks every vital force, and breaks up the most robust constitution ignored because but little understood by most physicians, impotently assisted by quacks and charlatans who are suffering from it have little hope to be relieved if it this side of the grave. It is time, then, that if popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. its contaminated blood, while it heals the ulcerated membrane by direct application to the nasal passages. Medication is based on certain fixed rules, and unless these rules are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1879.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use in their families in preference to any of the numerous usually prescribed by physicians.

"You may say" said a distinguished city physician that my obligations to the Mass. Medical Society and in that I cannot speak publicly recommend your Radical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the usual medies, I have privately advised its use, and presume have sent to your store no less than one hundred and ty patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation merits the warmest commendation. We think the unsolicited testimonials of its great merit so that their suffering will be relieved, must have been in the aggregate for the last twelve years constantly, and sold everything for catarrh, but yours leads all the rest. If you think anything can use this letter or any part of it that you wish, Very truly yours, W. H. BALLWIN & CO. Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1876.

Each package contains Dr. Sanford's Improved Inhaler, Full Directions, and Medicine for one month in all cases, Price $1.00. For sale by all wholesale and retail druggists in all parts of the United States and Canadas, or by WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

A Electro-Galvanic Battery combined with highly Medicated Strengthening Plaster, forming the best Plaster for pains and aches of the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is acknowledged by any element or medicine in the history of healing art. Unless the vital spark has fled the body, electricity, in the presence of electricity, is the last resort of all physicians and surgeons, and has restored thousands from the grave. It has saved life, when no other human agency could have so tested. This is the leading curative element in the plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to require description. These grateful, healing, soothing, and strengthening properties are known to thousands which combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. This is rendered Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produces more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. TRY ONE. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Encouraging reports are still received from the scene of the gold mining operations at North Charlestown. A small force of men are constantly employed on the ledge at $1.25 per day. Rough buildings are being constructed as shelter for a crusher and smelting furnace. From $14 to $16 per ton is the result of the assay of the ore recently forwarded to New York.

Rumors have been afloat for some time detrimental to the management of the State prison, but Gov. Head on Thursday is reported to have said that at an investigation of these reports he found them entirely unfounded.

Enfield is to have a village clock, some $450 having been subscribed for that purpose. It will be placed in the tower of the Congregational church.

A double-runner containing seven boys and girls, ran into a team on the bridge at New Boston recently, throwing out Mr. Stearns, the driver, and upsetting the sleigh. None of the occupants of the sled were, however, injured in the least. The young people assert that they had a right to one-half the road, and that had Mr. Stearns taken the right hand, no accident would have happened. Furthermore, that they had a "belle" on their sled and Mr. Stearns had none.

The great mill which the Amory corporation is erecting at Manchester will be completed in February, according to contract; the exterior of the building is already finished. The machinery is being manufactured at the Lowell machine shop, and a very large number of hands is employed upon the work. Four turbine wheels are being put into the mill, and it will require 900 horse-power to run the machinery.

Answer This.

Did you ever know any person to be ill, without inaction of the stomach, liver or kidneys, or did you ever know one well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure. Ask your neighbor the same question.—*Times.*

—He looked over all the papers on the news-stand, and not finding what he wanted, said to the plump, pretty girl clerk, "I want a *Fireside Companion.*" "What sir?" she blushed. "I want a *Fireside Companion,*" he repeated. "O, yes, sir, I hear you now," and she chewed the corner of her apron. "Well—well—do you think I would do?" It turned out happily.

"I don't want a Plaster," said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

—A young mother in Cincinnati was giving to her son a touching discription of the misery into which the prodigal son had fallen. "Far away from home and his kind father, obliged to take care of swine, with nothing to eat but the husks of corn left them." "Then why didn't he eat the pig?" was the practical reply of the young Porkopolitan.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

The Maine Conflict.

About fifty men from Bath, under command of Capt. Whitemore, and a large number from Waterville, arrived at Augusta on the evening of the 15th, in consequence of rumors that the fusionists had organized a gang of one hundred and fifty Lewiston roughs to seize and take full possession of the State house.

Sheriff Libbey of Kennebec county declined to recognize the authority of Mr. Lamson, the fusionist "governor," and refused to dismiss the men he had in the State house in obedience to Mr. Lamson's order.

Gen. Chamberlain on the evening of the 15th issued an address to the people of the State counselling prudence and forbearance all around, saying he could see no occasion for present alarm, and endorsing Mr. Lamson as having "by all the means in his power aided in keeping the field clear for a lawful and peaceful solution of the matters in issue."

Mr. Lamson sent to the judges of the supreme court a communication reciting the facts of his alleged "election," and claiming to be the legal chief magistrate of the State.

In the fusion Senate, Isaac F. Quimby presented a claim to the seat held by James A. Locke, republican.

The bribery hunting committee of the bogus House held a session, at which one Clark, the counted-in greenbacker from Nobleboro', swore that he was offered $1000 and a good place in the Boston custom house as long as the republican party retained power, if he would refuse to take his seat; but the receiver of stolen goods declined to give the name of the man who made him the offer. Alfred S. Kimball, county attorney of Oxford county, said he saw Swan in the Augusta house on Monday, the night of the organization, and Swan told him he had been informed they were making efforts to buy up representatives; that he was going into it and get some money and expose them. Saw Swan again at noon the next day, when he (Swan) showed him a roll of bills which he said he had received from Wallace R. White, if he would resign his seat in the House. This was contradictory of Swan's affidavit, wherein he says he went from the court house, where he received the money, to the Granite national bank, and obtained a draft, so the investigation was here suspended.

On Friday, the 16th inst., the bogus House voted Nathaniel Butler of Vassalboro' out of his seat, and put in a fusionist named William Murray. Shortly after eleven o'clock A. M. the "House" sent up to the "Senate" the names of Smith and Garcelon, to choose a governor from. The Senate thereupon proceeded to "elect," and selected Smith, giving him eighteen votes, the whole number thrown. In convention the "rump" elected councillors as follows: Edwin C. Moody of York, Charles H. Chase of Portland, John B. Redmond of Ellsworth, Henry A. Priest of Vassalboro', Wm. M. Rust of Belfast, John B. Foster of Bangor, Chas. R. Whidden of Calais.

Boston Marine Insurance Company.

The year just closed, although far from successful generally to marine insurance companies, has been to this company attended with the usual success. More than $100,000 net profits are shown, of which $50,000 has been paid in dividends and the balance added to its surplus. With cash capital of $500,000, and net surplus of $201,047.69, they show assets of $701,047.69, after deducting all liabilities real and conceivable, including all known or supposed loses, and the cost at 100 per cent of reinsuring all outstanding risks. The annual report of the company for 1879 places it among the very first in the country in point of success.

Gloucester Fisheries.

A report of the Gloucester, Mass., fisheries, dated Jan. 15th, says "fourteen Georges' arrivals have been reported at this port the past week, an unusual incident for January. The fleet report a good school of fish on the grounds, which are probably from the same source as the shore schools of the past two years, which have failed to put in an appearance this season. The fleet have secured good fares, both of codfish and halibut. The aggregate Georges' receipts for the week are about 336,000 lbs. split codfish and 34,500 lbs. halibut. Several fares sold to arrive at $6 and $4 per quintal for large and medium cod; last sales of halibut, twelve and seven cents per lb. for white and gray. The fishing arrivals for the week have been, two from the banks, with 42,000 lbs. fresh halibut, and three from Grand Menan, with good fares of frozen herring."

News and Notes.

The ship Formosa, of Salem, 1253 tons register, with a cargo of 8566 bales of hemp, has been totally wrecked in the straits of Allas, near the Java sea; officers and crew saved. Loss $240,000; insured $194,000, in Boston offices.

A tragic affair is reported from Greenville, South Carolina. It was announced that a son of Oliver C. Ross was to be married on a certain evening to a Miss Painter, but the father of the young man opposed the match, and swore that if it were made he would kill him. The marriage took place, nevertheless, and the old man, true to his word, blew out his son's brains immediately after.

The sheriff of Carbon county, Wyoming, arrived at Denver on the 13th inst., and reported that seventy-five donkeys loaded with ammunition were discovered going south Sunday, supposed to be for the Utes, and from Utah. The military have been sent out to scout for them.

Spaulding, Wales & Co., of Boston, have sold their entire stock of dry goods to Jordan, Marsh & Co.

Some of the Boston ice dealers have commenced preparations for cutting ice in the northern and central portions of the State, in one instance harvesting it from a pond where it has not been cut for five years, owing to the abundance near Boston; it is now fourteen inches thick. One dealer predicts that this product will be doubled in price the coming season should the uneven weather continue.

Henry Burgund, a wealthy merchant of Cincinnati, was found dead in his room on the evening of the 14th inst. with a bullet wound in the right temple. Deceased had a heavy insurance on his life.

A fight is reported to have taken place in the south ern part of New Mexico on the 12th inst., between the troops under Major Morrow and the Indians under Chief Victoria. The Indians had fortified themselves behind rocks, etc., and held out against the soldiers until sunset, when Victoria and his followers retreated, leaving seven dead Indians on the field. Serg. Cross was killed and two soldiers wounded.

It is gratifying to know that the war outside of Maine is over, and that the public debt has so far become reduced that the committee on banking in the House of Representatives have concluded we can afford to do away with the two-cent stamps upon bank checks.

On the 14th inst., at Franklin, La., Sidney Cole, aged nineteen years, owner of three-fourths of Chatworth plantation, rode to the gate of J. B. Wofford, manager of the plantation, and informed Wofford that he had come to kill him. Wofford expostulated in vain. Cole dismounted and advanced, pistol in hand, toward the house. Mrs. Wofford called to her husband to arm himself, and seizing a shotgun he confronted Cole, who continued advancing, saying: "I have come to kill you, damn you; I mean business," whereupon Wofford remarked to him, "if you mean business here it is," and discharged the weapon, killing Cole. Wofford surrendered to the sheriff, but was afterwards discharged, the coroner's jury having returned a verdict of justifiable homicide.

A Down Town Merchant

Having passed several sleepless nights, disturbed by the cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homœopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning, bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless night have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

How an Owl's Head Revolves.

A contributor of the *American Naturalist*, who had read a funny story about an owl's wringing his own neck by looking at a man who was walking around him, tested the matter by experiment. He obtained a fine specimen and placed him on top of a post. "It was not difficult," says the writer, "to secure his attention, for he never diverted his gaze from me while I was in his presence. I began walking rapidly around the post a few feet from it, keeping my eyes fixed upon him all the while. His body remained motionless, but his head turned exactly with my movements. When I was half way round his head was directly behind. Three-quarters of a circle were completed and still the same twist of the neck and same stare followed me. One circle, and no change. On I went, twice round, and still that watchful stare and steady turn of the head. On I went, three times round, and I began really to wonder why the head did not drop off, when all at once I discovered what I failed to notice before. When I reached half-way round from the front, which was as far as he could turn his head to follow my movements with comfort, he whisked it back through the whole circle so instantaneously and brought it facing me again with such precision that I failed to detect the movement, although I was looking intently all the time. I repeated the experiment many times afterward on the same bird, and I had always to watch carefully to detect the movement of the readjustment of his gaze."

AROUND HOME.

See C. H. Marston's advertisement of special sale of kid gloves.

Richards avenue was teeming with teams Friday afternoon, and many handsome turnouts participated in the exhilarating pleasure.

The schooner Comet on Friday brought in with her fare of fish a large seal which was taken on one of her trawls, and a haddock weighing fifteen pounds.

It is rumored that Mr. Oliver M. Knight is to have the office in the Franklin buildings corner of Fleet and Congress streets, and will remove his job printing business there.

What is left of the workshop in the ship-yard at the south end has been removed from over the water, and placed on terra firma. It is to be converted into a dwelling.

Application has been made to the government for an automatic whistling buoy to be placed half a mile outside Newburyport bar, in eight fathoms of water. If this request is granted, it will be of great advantage to vessels approaching that harbor in the night, or during thick weather.

The rehearsals for the musical convention will commence next Monday evening, under the leadership of Mr. Cole, in the chapel of the Middle street society. A cordial invitation is extended to all the singers in the city to join in these rehearsals. Harlow's orchestra will be in attendance.

The Woman's Temperance League has elected for the current quarter: President, Mrs. J. H. Hooper; vice presidents, Mrs. James Sanborn, Mrs. Clara F. Watts; recording secretary, Mrs. B. F. Thorndike; treasurer, Mrs. Joseph Pettigrew; trustees, Mrs. Amanda S. Holbrook, Mrs. S. W. Weber, Mrs. Ira W. Brock.

Hereafter all the trains on the Eastern railroad will be drawn into the station in Boston by the locomotive, instead of being "thrown" in, as has long been the custom. Large conductors have been constructed to carry away the smoke, while the locomotive stands in the station. The change will insure safety in bringing trains into the station, particularly on nights and stormy days.

A despatch from Northport depot, N. Y., dated Jan. 15th, says: "The schooner A. J. Williams, from Durham, N. H., for New York, which came ashore on Rocky Point reef during a snow-storm on the night of the 13th inst., is fast going to pieces. The cargo will be saved. The vessel is not insured." The A. J. Williams registered sixty-two and a half tons, and hailed from Durham.

Rev. M. W. Prince, pastor of the Methodist Episcopal church at Dover, was on the evening of the 14th inst. presented by members of the church and congregation with one hundred dollars in gold. The presentation took place in the vestry, and was followed by a season of social enjoyment, the whole winding up with a nice supper, of which between three and four hundred people partook.

The last issue of the Exeter *News-Letter* says: "The schooner Elizabeth M. Smith, Capt. Raymond master, of Montreal, which has been loading with wood at the harbor at Locke's neck, by David Jenness and Wesley Jenness, sailed on Sunday last for Boston, where the wood has been sold." The schooner Elizabeth M. Smith we believe now hails from this port, and we are sure that two years ago she was registered as belonging to New Bedford, Mass. Foreign vessels are not allowed to engage in the coasting trade of the United States.

Mr. H. W. Butler of East Rochester, who proposes to go into the shoe business here, has a factory in the former place employing about twenty-five hands; should he be successful in obtaining the capital he needs, he will transfer his establishment to this city. Any persons wishing to aid in this movement are requested to consult with Mr. Jos. Pettigrew, at his store on Congress street. Mr. Butler has an established business, and we are informed that it is constantly increasing. We hope our citizens will help along this good movement; considerable encouragement has already been given, and not a large additional amount is needed to insure success.

Stratham has four persons between ninety and one hundred years old.

There are no barbers in National block, though the red stripes on the door posts seem to give that impression.

The cotton mill at Newmarket is running on full time. Hall's bolt factory at the same place has orders for three months ahead.

A five-year-old son of Wm. E. Walton of Hampton Falls had two fingers of his right hand chopped off by a brother a few years older, on the 10th inst. The little fellow took hold of a stick of wood on a chopping block, just as the brother brought the axe down upon it.

The Dover *Democrat* says: "A schoolhouse in Durham has been built over seventy-five years. No repairs have been done on it for the past twenty years. It looks like a relic of the old patriarchal period, and is less comfortable than any farmer's barn in the township."

Edward N. Fuller, Esq., the editor of the NEW HAMPSHIRE GAZETTE at the time of its centennial celebration, and a decidedly popular editor among the democracy at that time, whom even Miller must acknowledge to be a "hard working man," is about to start a new paper at Chicago, entitled "The New Englander in the West." He says: "It will be devoted not only to the history and intellectual and business enterprises of the New England man in the west, but its aim will be to cultivate a closer acquaintance and warmer friendship between these sections, that shall tend to advance the interests of both."—*Journal.*

THE HIGH AND LOW PLACES.

The highest points of land in the compact part of the city, as per the survey made in 1860 by Robert L. Harris, Esq., are as follows, the numbers given being the height above mean low water, in feet: Market square, at the North church, 35.70; Flagstaff hill, at Christian shore, 36.55; Wybird's hill, 37.06; Meeting-house hill, (ward room at south end,) 40.35; Churchhill, at Episcopal church, 46.78; Mason's hill, at a point on State street 105 feet feet westerly from Summer street, 47.10; hill at the Woodbury mansion, 56.78. From this it will be seen that Mason's hill is a trifle less than four inches higher above tide level than Church hill is. Lincoln hill, where Hon. Frank W. Miller resides, and Rundlett's mountain, on top of which Mr. B. F. Webster has recently put up a large and costly dwelling, not having been in the settled part of the city at the time Mr. Harris made his survey, their heights are not given.

The lowest points in the city, according to the same survey, are as follows, the numbers given being the elevation above mean low water, in feet: End of street at gate of Raynes shipyard, 10; northwest end of Whidden street, at south pond, 11.28; at log drain on Richards avenue, 11.65; corner of Deer and Market streets, 12.88; Elm street, at end of the north millbridge, 13.40; lowest part of Union street, 17.51; corner of Vaughan and Hanover streets, 17.84.

From the survey made by Mr. Rice, the Boston civil engineer who was brought down several years ago to prepare a systematic plan for the proper sewerage of the city, we learn that the highest point of Highland street, near "Rundlett's mountain," is 40.90 feet above mean low water, and Lincoln hill 62.60 feet.

The water table of the custom house is the bench from which all levels are taken, and is thirty-four or thirty-five feet above mean low water.

THE NEW ENTERPRISE.

It will be seen by an advertisement that the gentlemen who have come forward with their subscriptions to start the proposed shoe factory are to meet this evening in the common council room to effect an organization. It is hoped that each subscriber will be present and give the enterprise a good send off. It is creditable to our city that over thirty gentlemen and firms have deemed it worthy of the experiment of reviving business in Portsmouth, by promptly subscribing towards accomplishing this object. The list contains the names of some of the most enterprising and judicious men of the city, and we trust that a selection from these will be made for managers who will see that nothing is omitted to insure a success for the undertaking.

RYE ITEMS.

The late fair of the Congregational society was a complete success, enough being realized to cancel the debt on the fine organ which was put in the church two years since.

An accident to a little three-year-old daughter of Rev. Mr. Kingsbury, by which one of her thigh bones was broken, occurred a few days ago. She was coasting on the hill near the parsonage and was violently thrown from the sled against a rock. Drs. Warren Parsons of Rye and John W. Parsons of Portsmouth set the bone, and the little patient is reported doing well.

A well attended and enthusiastic meeting was held in the vestry of the Congregational church on Monday evening, the 14th inst., when it was decided to organize a "Martha Washington society," to meet once in two weeks for social purposes, and such stage entertainments as might be thought proper and amusing. An organization was effected, and the first entertainment will be given on Monday evening Jan. 26th, at the vestry.

Rev. Dr. Alden and Rev. C. B. Pitblado will exchange pulpits on Sunday morning. Mr. Pitblado will preach at the Methodist church in the afternoon: subject, "Sight men and faith men contrasted."

Elder D. M. Leavitt will preach in the Advent church on Sunday.

Rev. D. H. Adams will preach in the Freewill Baptist church.

Rev. Benton Smith of South Newmarket will preach in the Universalist church.

Mr. George Fox Guppy, of Dover, will speaks before the reform club at Bow mission hall, at 7:30 P. M.

The subject of Rev. Dr. Alden's lecture on Sunday evening will be "Indecision."

YORK COUNTY ITEMS.

Mr. Lyman Clark, a reformed inebriate of Kittery, is lecturing with much success on the subject of temperance, in the villages adjacent to the Piscataqua.

There was an old fashioned New England supper at the residence of Messrs. Samuel and William Nason at Sturgeon creek, Eliot, last Thursday evening, a large party being in attendance from this city, Kittery and Eliot. A jovial good time was enjoyed until about one o'clock Friday morning, when the party broke up. As the sleighs were leaving the scene of the festivities one of them played a game of leap frog with a snow bank, and when on Portsmouth bridge the horse in the shafts of one of the Portsmouth sleighs became frighted at a locomotive headlight, and shied against the railing of the bridge; no harm was done in either case, however. It is rumored that a quantity of "tonic"—that is what they called it—taken along by some of the Portsmouth visitors to comfort themselves withal on the road home, was gareelonized from their sleigh during the evening by some of the supposed church members at the supper.

—A witness in a western court was asked if a party to the suit was a truthful man. "No," he answered. "He'd rather lie at sixty days than tell the truth for cash."

Naval Affairs.

Commander Beardsley, commanding the Jamestown at Sitka, Alaska, reports December 19th to Secretary Thompson that everything was quiet. The reforms introduced in the community had a good effect. The schools are flourishing and the children are learning to speak English and to read and write. Many mines have been opened, and the influx of miners has so swelled the population of Sitka that there is a feeling of security among the whites. It is thought the population will soon become large enough to make the presence of a man-of-war unnecessary.

Secretary Thompson thinks the Senate ought to permit him to have for chief of a bureau an officer of his own selection, for whom he becomes in a great measure responsible, for the administration of the affairs of his bureau. That is good enough logic as a matter of argument, but then what will become of the old fellows who go down the valley with one eye resting upon a bureau occupation? It is all right in principle, and in the economy of the government; but the head of the navy should consider that it is the subordinates, and not the chiefs, who rule in naval matters.

The secretary of the navy has sent Congress a communication, containing a copy of recommendations made by the recently organized board which examined the cases of Bushrod B. Taylor and other naval officers who did not have an opportunity of appearing before the board created by a joint resolution of July, 1870, and who deemed themselves unjustly passed over by the promotions made on the findings of the latter board. The conclusions in the cases of twenty-three officers examined are given, and on this number only six recommendations are made, as follows: Commodore A. C. Rhind, for gallant and meritorious services rendered, deserves the favorable consideration and action of Congress; Commander Henry Erben and Lieut. Commanders Charles D. Sigsbee, Henry Glass and James H. Sands for restoration to their original relative position on the navy list; Commodore Timothy A. Hunt for promotion to the grade of rear admiral on the retired list when a vacancy occurs.

ONE OF THE greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and indorses it as a safe and effectual remedy for coughs and colds.

FROM NUMEROUS cases of dyspepsia and constipation, cured by the use of Fellow's Compound Syrup of Hypophosphites, after every other known remedy had been used in vain, its efficacy in restoring the functions of digestion and evacuation is manifest.

Speer's Sambuci Wine.

We have examined a specimen of the Sambuci Wine of Mr. Alfred Speer, referred to by a correspondent of the *American Baptist* and have no doubt it is pure. We should judge from its taste and appearance, that it is certainly valuable as a medicinal wine and as a tonic for weakly persons. It has the recommendation of some of the first physicians in this country as well as Europe.—*Washington Star.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen.*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema in its most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of new and old skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.—— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so he procured one that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until I was obliged to come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel you to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR,

Boston, Aug. 22, 1878.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

The hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, for which he was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to JOS. S. FISHER, president; W. H. H. INGRAHAM, vice president; W. P. LANE, M. D.; C. S. GAUNTT, M. D.; H. F. DOUCET M. D.; R. H. KLINE, M. D.; J. R. LOCKER, M. New Hampshire Gazette

PRINTING OFFICE!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

POROUS CAPCINE PLASTER

BENSON'S CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good. The genuine Benson's Capcine Plaster has been the leading article for more than half the price of the genuine, and they hope by this caution to put a stop to these imitations. THE BEST REMEDY
FOR
Diseases of the Throat and Lungs,

AYER'S CHERRY PECTORAL

Diseases of the pulmonary organs are so prevalent and fatal, that a safe and reliable remedy for them is invaluable to every community. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it without difficulty. In the treatment of **Ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh,** the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household, for the protection it affords in sudden attacks. In **Whooping-cough and Consumption** there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which AYER'S CHERRY PECTORAL has effected all over the world are a sufficient guaranty that it will continue to produce the best results. An impartial trial will convince the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.

Eminent physicians in all parts of the country, knowing its composition, recommend AYER'S CHERRY PECTORAL to invalids, and prescribe it in their practice. The test of half a century has proved its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

THE GREATEST LIVING AUTHORS, such as Prof. Max Müller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Francis Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Bigham, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish its readers the productions of the most eminent authors, *above-named and many others;* embracing the choicest serial and short stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its promptness and with a completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It is the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"Unequally supplies the wants of the reading public than through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Ledger.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"We hold the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note-worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club-Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of the standard American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Evening Bulletin.*

For $10.50 THE LIVING AGE and *either one of* the American $4 monthlies (*or Harper's Weekly* or *Bazar*) will be sent for a year, *both post-paid;* or, for $9.50 THE LIVING AGE and the *St. Nicholas,* or *Appleton's Journal.* Address,

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more of these are sure to be affected by its destructive influence. The poison permeates throughout the system attacks every vital force, and breaks up the most robust of constitutions. Quackery, in its most hideous form, by its pretentious, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved from this side of the grave. It is true, then, that if popular treatment of this terrible disease by remedies within the reach of all parties fell into hands as once correct and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz. its *oxidized blood*, while it heals the ulcerated membrane by direct application to the nasal passages. Infection is based on certain fixed rules, and unless these forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.
NORBOTT BLOCK, So. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies of the day which receive the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the proprietary compounds, but little understood.

"You are aware," said a distinguished city physician, "that my objection to the Mass. Medical Society's action has always been that they recommended a remedy which I cannot publicly recommend or prescribe it without violence to my conscience. I received no benefit from the use of it myself, after a thorough trial of the ingredients, I have privately advised its use, and present have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN,—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation merits the warm recommendation of all who use it. We think those afflicted should be convinced of its great merit so that the suffering will be relieved. We have been in the drug business for the last twelve years—our sales are now, of everything Sanford's Radical Cure is the best. If you see proper you can use this letter or any part of it that you may desire. Very truly yours, S. D. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 25, 1876.

Each package contains Dr. Sanford's Improved Injecting Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. HEBBS & BUTLER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

"Electro-Galvanic Battery combined with highly Medicated Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a great curative and restorative agent in multitudes of cases, numerous as the ills that afflict suffering art. Unless the vital spark has fled the body, restoration by means of electricity is possible. Infants at rest, or in apparent sleep, have been restored to healthfulness, apparently dead, from an untimely grave, when no other human agency could have extended. This is the leading curative element in this plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the pine of the East are too well known to require description. Their grateful, healing, soothing and invigorating properties are among the best in nature. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. In respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and combined produce more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Answer This.

Did you ever know any person to be ill, without inaction of the stomach, liver or kidneys, or did you ever know one well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure. Ask your neighbor the same question.—*Times.*

Vincent B. Bell of Detroit, Mich., until recently deputy collector of customs, suicided by shooting, Friday.

"I don't want a Plaster," said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

Calvin Thompson of Kansas City, a lunatic, shot James Morris, his stepfather, dead on Thursday morning. Thompson was taken to an insane asylum.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

FROM NUMEROUS cases of dyspepsia and constipation, cured by the use of Fellow's Compound Syrup of Hypophosphites, after every other known remedy had been used in vain, its efficacy in restoring the functions of digestion and evacuation is manifest.

ONE OF THE greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and indorses it as a safe and effectual remedy for coughs and colds.

Speer's Sambuci Wine.

We have examined a specimen of the Sambuci Wine of Mr. Alfred Speer, referred to by a correspondent of the *American Baptist* and have no doubt it is pure. We should judge from its taste and appearance, that it is certainly valuable as a medicinal wine and as a tonic for weakly persons. It has the recommendation of some of the first physicians in this country as well as Europe.—*Washington Star.*

MONDAY, JANUARY 19, 1880.

The Maine Conflict.

At 4:30 P. M. on the 16th the fusion legislature met in convention; Joseph L. Smith, the alleged governor-elect, was sworn in and delivered his inaugural message, after which the rump proceeded to elect State officers, as follows: G. A. Sawyer, secretary of State; Charles A. White, treasurer; W. H. McLellen, attorney-general; M. M. Folsom, adjutant-general.

After being inaugurated, "Gov." Smith issued "special order number two," removing Gen. Chamberlain from the position of commander-in-chief of the militia, to which he was appointed by a real governor, and ordering all commanders of military organizations in the State to report to Smith as commander-in-chief.

The decision of the supreme court, signed by all the judges, on the questions submitted to the court by the legislature elected by the people and counted-out by Garcelon and his gang, was reached Friday evening and forwarded by special messenger Saturday morning. It fully and unqualifiedly sustains every point claimed by the republicans; decides that the legislature as organized by the Pillsbury gang was illegal in both branches from the start, and that consequently all the subsequent acts are illegal; and that the legislature as organized by the legally-elected members on the 12th inst. is the legal legislature of the State. The opinion of the court is a terrible rebuke to Garcelon and the unscrupulous gang of scoundrels by whom he has been guided and controlled, and leaves the fusionists only anarchy and revolution to stand upon in any further endeavors to steal the State.

Mr. Lamson, president of the bogus Senate, and late alleged acting-governor, sent a communication to Gen. Chamberlain on the 16th guaranteeing that the legislature organized on the 12th inst. should be allowed to meet peaceably on the 15th. No doubt Gen. Chamberlain felt glad.

On the morning of the 17th inst. Gen. Chamberlain notified "Gov." Smith that neither he nor any other person would be recognized as governor by him (Chamberlain) until the supreme court had recognized him as such. In reply to a general order, every company commander in the the State, with one exception, notified Gen. Chamberlain that orders from him only would be regarded.

The rump legislature met at nine o'clock A. M. on the 17th, only about thirty members being present in the House; an adjournment was taken to ten o'clock. On reassembling, Hill of Corinth said he was ready to submit to the decision of the court, and made a motion to adjourn. He said the clergy, judges and money power were against the fusionists, and that the men who were ready to spill the last drop of their blood on the previous night were not to be found that morning; he added that he was not willing to spill a drop of his own blood. A committee was appointed to consider the question of the organization of the House, and it adjourned to four o'clock Monday afternoon.

The bogus executive councillors, with the exception of Ed. Moody of York, were "qualified" before a convention of the two bogus houses.

The Senate appointed a committee to consider the legal question of the organization, and then adjourned to Monday afternoon. Remarks in favor of bowing to the decision of the supreme court were made by Patten of Penobscot, Strickland of Aroostook and Hobson of Lincoln, two of whom were put on the committee.

A LEGAL GOVERNMENT ORGANIZED.

The legal legislature met in the afternoon, the House at 2:20 and the Senate at 2:30. Representatives hall was packed, but there were few spectators in the Senate chamber. Several fusion senators were in their room, but not in the seats to which they are entitled. Mr. Blaine appeared on the floor of the House, and received a tumultuous ovation; Mr. Morrill also was enthusiastically received.

A committee was appointed to count the votes for governor, but Sawyer, the fusionist "secretary of State," refused to deliver up the returns, so certified copies were substituted. The committee reported the result of the State vote to be no choice for governor, and the House selected two names for the Senate; eighty-eight votes were thrown—Daniel F. Davis having the full number, Bion Bradbury eighty-seven, and Alonza Garcelon one. The Senate unanimously elected Daniel F. Davis, nineteen votes being cast.

In convention, councillors were elected as follows: Roscoe L. Bowers, Frederick Robie, Joseph T. Hinckley, William Wilson, James G. Pendleton, Lewis Barker, Samuel N. Campbell, Sumner Chadbourne was elected secretary of State.

At 6:45 Governor-elect Davis appeared before the convention, took the oath of office, and made a brief speech. Mr. Davis was greeted with loud and long-continued cheering when he appeared; there was a brief and impressive silence while he was taking the oath, and then the cheering was renewed.

The House and Senate was in session until a late hour in the evening, and adjourned to Monday at 11 o'clock A. M.

Gov. Davis officially notified Gen. Chamberlain of his election and inauguration, and submitted a certified copy of the opinion of the supreme court. Gen. Chamberlain acknowledged the same, and returned answer that he considered his trust under Garcelon's last order as ended; he also issued a general order to that effect to the troops, instructing them "to recognize the fact that all military authority emanates from Daniel F. Davis, governor and commander-in-chief." Gov. Davis subsequently ordered Smith's acting assistant adjutant-general, Maj. M. M. Folsom, to report to the commanding officer of his regiment for duty, and appointed Maj. Frank E. Nye acting adjutant-general.

News and Notes.

Ex-Sheriff Elkins was shot dead at Huntsville, Texas, Thursday, by Peter Greer.

Louis Antonat cut the throat of Robert Keifer at Indianapolis, Ind., on Friday night.

As E. B. Wells, paymaster of the South Side Gas Light & Coke Company of Cincinnati, was riding along the street on the 16th inst. in a buggy, three masked men assaulted him, knocked him senseless with a slung shot, secured $4,000 in gold and silver, and escaped in a buggy taken from in front of a grocery store in which the owner was trading.

Jacob Haigis, a German of Shelburne Falls, Mass., accidentally shot himself Thursday while returning from a fox hunt. The charge took effect in his throat, killing him instantly. His wife and three children receive $5,000 life insurance.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

There was great excitement in Biddeford, Friday night, over an alleged attempt to remove the arms of the Biddeford light infantry from their armory. The mayor and police, and the democratic members of the company, stated that they had detected the captain and the republican members in an attempt to enter the armory; and the republicans asserted that they had learned the fusion sympathizers intended to garcelonize the arms, and went there to prevent it.

AROUND HOME.

A county temperance convention will be held in Newmarket, on Thursday, Jan. 29th.

Rev. Mr. DeNormandie is announced as one of the editors, and Rev. E. M. Grant as an occasional contributor.

Don't wait until Prof. Brown has left the city and then say you intended to have your eyes fitted. See him at once.

Stockholders in the Kearsarge mills will be paid a dividend of two per cent on Wednesday, at the agent's office at the mills.

Mr. Charles E. Hodgdon last week cut and housed 450 tons of nice ice, about twelve inches thick, from his pond at Gravelly ridge.

The Dover *Democrat* says that parties engaged in cutting ice on the Cocheco river find the ice on an average about thirteen inches thick.

The school in district one of Stratham has been closed on account of the appearance of diphtheria among the scholars, three of whom have been prostrated by it.

Rev. B.F. McDaniel of Exeter occupied the pulpit of the Unitarian church in this city on Sunday; and Rev. G. E. Street of the Second Congregational church of Exeter exchanged with Rev. Mr. McGinley of the North church.

C. V. Dearborn, the examiner of the national banks in New Hampshire, spent last week in Portsmouth upon the usual examination of the banks here. One result of his exhaustive investigations has been a marked advance in the prices of shares.

The mayor and overseers of the poor paid a visit of inspection to the almshouse on Friday last, and found everything in satisfactory condition, indoors and on the farm. The present number of inmates of the institution is forty-three, twenty-eight of whom are paupers.

The large and elegant Bible which was presented to Portsmouth Commandery, No. 47, United Order of the Golden Cross, by the ladies of the order on Thursday evening last, has been appropriately inscribed and is on exhibition for a few days in the window of W. G. Myers' bookstore in Congress block.

The boiler of a steam mill, situated on the wood lot of J. H. Pike in Fremont, exploded Thursday evening, and the mill was blown to atoms. One of the workmen, Clarence Perkins, son of Thomas Perkins of Wadley's Falls, Lee, was instantly killed, and another workman, Joseph Quimby of Candia, fatally injured, his skull being fractured. Two other workmen were in the mill at the time, but escaped with slight bruises. The cause of the explosion is unknown. Parts of the boiler, engine and mill were scattered for hundreds of feet in every direction.

THE FISHERMEN.

The following were the fares of fish landed at this port from Friday last to Sunday, inclusive:

Schooner Comet, 8,400 pounds; Daniel C. Baker, 17,500; Mary S. Hontvet, 22,000; Christie Campbell, 34,500; Village Belle, 2,500; Mary E. Smith, 16,000; Mary E. Caswell, 11,000: total 111,900 lbs. In addition there were several small fares from other vessels. The Mary S. Hontvet within the ten days ending on Sunday landed 100,000 lbs. of fish, on the last trip bringing in about three hundred haddock weighing from eleven to fifteen pounds each, the "boss" weighing eighteen pounds.

THE RISING FAITH.

The second number of this monthly journal has appeared. The object of this new publication is to set forth, define and illustrate the belief of the liberal christians, and aid others who seek to become acquainted with the features of their faith. The terms are fifty cents per year. It is not one of the so-classed "religious" papers which the head of the family takes for solid spiritual food, but is engaging in its tone. Its articles are not prosy and long-drawn-out, but short and to the point.

It was publicly stated on Sunday that canvassers would visit the families of attendants at the churches of the liberal faith in this city, early this week, to ask for subscriptions for this paper.

PORTSMOUTH SHOE COMPANY.

The meeting of the subscribers to stock in the new shoe factory was held in the common council room on Saturday evening. Hon. Frank Jones, in behalf of the committee previously appointed to solicit subscriptions, reported that the full amount of twenty-five thousand dollars had been subscribed. Mr. Jones, who had called the meeting to order, then asked for the nomination of a chairman, and Hon. John H. Broughton was selected to preside, and James F. Jenness was chosen secretary.

The paper for preliminary organization as a corporation under the laws of the State was then presented, and signed by the gentlemen present. Some discussion ensued in answer to enquiries by John Sise, Esq., as to the individual liability of stockholders of corporations organized under the general law. Wallace Hackett, Esq., read from the general laws of the State upon that subject certain sections which defined the extent of such liability, and remarks were made by several gentlemen.

The capital stock was fixed at $25,000.

A motion was made by Mr. Sise for a committee of three to retire and report a list of five directors. An amendment was adopted making the number nine. The chair appointed Messrs. Sise, Jones, and Henry M. Clark as such committee.

Pending the report of the committee the name of "Portsmouth Shoe Company," was adopted; an amendment that it be called "Piscataqua Shoe Company" did not prevail.

The committee on nomination reported the names of Ezra H. Winchester, Frederick E. Potter, Edward S. Fay, Wm. H. Hackett, Charles H. Mendum, Jeremiah Sanborn, William Ward, Charles H. Garrett, and Henry M. Clark as candidates for directors. These were then unanimously elected by ballot.

On motion of Mr. Hackett it was voted that a committee of three be appointed by the chair to prepare by-laws for the adoption of the corporation, and the committee were requested to report at an adjournment of the meeting to be held in the council room on Wednesday evening. The chair appointed Wm. H. Hackett, J. F. Hall and C. H. Mendum to constitute this committee, Dr. Hall being substituted for Wm. H. Rollins, Esq., who declined to serve on account of engagements for the coming week.

Some discussion ensued upon the duties to be designated for the treasurer and other officers, the proper location for the company's operations, and other matters connected with the enterprise; and the meeting then adjourned to Wednesday evening, the 21st inst.

There seemed to be a strong feeling prevalent in the meeting that the effort should be made to give a good start to the enterprise. The directors held an informal meeting after the adjournment. The remaining officers will not probably be chosen till after the by-laws shall have been adopted. The full attendance at the meeting gives the encouragement that some of our most active men are willing to aid by their means and counsel in this laudable endeavor to add to our industrial productions, and we trust that every encouragement will be given to insure the hoped-for result of

Success to the PORTSMOUTH SHOE COMPANY.

N. H. S. P. C. C.

The annual meeting of the New Hampshire Society for the Prevention of Cruelty to Children was held last week, and the following officers chosen for the ensuing year:

President, Charles W. Gardner;
Vice Presidents, Hon. Ichabod Goodwin, Rev. C. A. Holbrook, Rev. Eugene M. Grant, Rev. W. A. McGinley, Mrs. Stanton Parker, Miss Eliza A. Haven;
Treasurer, Dr. James R. May;
Secretary, Miss Mary A. Foster;
Directors, Charles W. Gardner, Dr. James R. May, T. E. O. Marvin, Rev. James DeNormandie, Mrs. A. W. Haven, Mrs. J. J. Pickering, Miss E. H. Pearson, Miss M. R. Lyman, Miss A. F. Jenness, Miss C. A. Morrison, Miss M. A. Foster.

The following report was read, showing what has been done by the society during the past year:

The work of preventing cruelty to children, in spite of the tacit concurrence that seems always to be assured from the public, is attended with many embarrassments. Chief among these, is that of a lack of sufficient funds to provide a home for those children who need protection. It frequently happens that there is cruelty or neglect practiced which it is impossible to relieve, even temporarily, while the subject is in charge of its irresponsible parents. In such instances, if we had but a temporary shelter, it would afford relief while we were securing for the child a permanent home. Brentwood and the city almshouse have often been suggested, but while they are good enough for some purposes, they will not answer our ends and aims.

There have been quite a number of cases of abuse during the year, some of which have been noted, and action taken, while others have been passed with an admonition. That the society is a power that is felt and feared, we feel well assured. We also are aware that many acts of neglect and abuse have occurred in the privacy that the sheltering arm of the law always and properly throws over the dwelling of the citizen, however poor or however ignorant he may be. It is with such, mainly, that the society is frequently brought in conflict.

The first case that claimed our attention this year was that of a family living on the Greenland road, in the outskirts of the city. We found six small children, scantily clothed and generally neglected. The father was a clever, good-natured man, who spent nearly all he earned to get liquor, and freely confessed to us his weakness, and the suffering of his children on account of it. He promised to do better, and did for a while, but he has since (as we learn) resumed his old habits. We succeeded in enlisting the efforts of the friends of the family in their behalf, and, in a measure, relieved their destitution.

Another family living just outside the city limits was visited, and found to be in a wretched condition. Two little half-fed and ragged boys were the chief objects of our solicitude, for whom we obtained temporary relief; but nothing short of removal from their present surroundings to other influences, and a decent home, can improve their chances for comfort or future usefulness.

A lad of eleven years, named John Muir, ran away from his home in Toronto, Canada, last April, and upon reaching Boston was found by the ever-vigilant officers of the Massachusetts society, who forwarded him to this city, with the request that we would send him as far as Portland, and, trusting to the kind hearts there to give him further aid, thus enable him finally to reach his home. The penitence of the boy, coupled with his expressed desire to see his father and mother once more, from whom he promised never again to run away, enlisted our sympathies. After a brief consultation of the directors of this society we decided to defray his expenses through to his home, so that there might not be any chance of his failing to reach it. We did so; and a month later a very pleasant letter was received, conveying to us the thanks of the parents and the lad for the kindly interest manifested by the Portsmouth society in his behalf.

A fourth case was reported to us by a member of the police force of our city—which force, by the way, has invariably rendered us cheerfully the most invaluable aid in ferreting out cases of abuse, and acting promptly with us in our efforts to afford relief. The charge was, unnecessarily cruel punishment for some real or fancied misdoing. The case received from us a patient and thorough investigation, which resulted in a verdict in our own mind against the father of the children (three in number.) He seemed, however, to be an intelligent man, and evidently believed that his severe treatment of his offspring was essential to their future good. By kindly pointing out to him the weakness and falsity of his theories, he saw or seemed to see his error, and promised to try a different method of government, since which time we have heard but little from him, and trust we shall have no further occasion to reprimand him.

A colored woman living on Vaughan street was reported to us as being excessively cruel to her little boy. The neighbors in the immediate vicinity of her dwelling, as well as those living more remote from her, joined in the testimony that frightful screams, as of a child undergoing severe punishment, were frequently heard coming from her abode. However this may be, it is but simple justice to the mother to say that the child bore no evidence of such treatment, and after thoroughly looking into the matter we concluded that the youngster was "master of the situation," and, appreciating the power of his screams to arouse sympathy, availed himself of this reserve force of his upon any attempt of the mother to chastise him.

A little child of five or six years, living at No. 1 Sparhawk street, in August last, was reported to be suffering cruelty from an imbecile mother and ill-tempered father. We at once waited upon the parents in question, and after a protracted interview in which we tried to point out to them the true way of managing a refractory child, we obtained a promise from them that there should be no further cause for a complaint of that kind, which promise, we are pleased to know from reliable information, has ever since been faithfully kept.

Another case of cruelty was that of two little children, aged one and three years respectively, of parents whose social position should have taught them better habits of living, who were being shamefully neglected by the mother, for some cause, the true nature of which we could not discover. This case gave us much perplexity. There was no hope of improving the condition of the children in their home, and we could find no suitable place in which to board them without incurring an expense to the society that the condition of its finances would not allow. After much labor of writing and visiting in one direction and another in the vain attempt to obtain a temporary home for the little ones, we were obliged to abandon our efforts in their behalf. In a few months after the father rallied himself and obtained suitable board and care for them, in a family where they are at the present time.

A family living in an unfrequented part of the city were reported to us in August last as being cruel to an adopted child of theirs, a boy about six or eight years old. The case was looked into, and while the custodians of the child stoutly affirmed their innocence of the charge, and altho' even the little boy stated (in the presence of his adopted parents) that he was not ill-used, we were strongly suspicious that there was some ground for the complaint. However, as we could get no proof of ill treatment, we were obliged to let the matter drop.

A family well-known to this society from past complaints, have demanded a share of our attention during the year. We made two visits, and finding that argument and entreaties were of no effect, we warned the father that if such complaints continued we should enforce the law, and at the same time presented him with a copy of the statute in relation to cruelty, passed at the last session of the legislature. Since that time we have heard no unfavorable reports from the man, from which we infer that he has either abandoned his practice of severely or cruelly punishing his children, or he seeks a seclusion while performing it that insures his immunity from his watchful neighbors.

Another case of interest to our Society was made known to us last summer (the exact date of which we neglected to note) wherein were involved two children, little girls about six years old. They were found by the police while making a raid on a place of low resort on Water street, kept by a Mrs. ——. Immediately upon learning the facts in the case from the assistant marshal, we wended our way to the house in question. We found the children in a state of utter wretchedness, being almost naked and extremely dirty. One of them was in a condition of stupor, produced, as we afterward learned, by liquor, the mother having freely plied it with whiskey to make it sleep, so that it should not annoy her by its presence in her own drunken revellings. We at once set about obtaining relief for them. Good outfits of clothing were procured, and the children after being cleansed and clad were completely transformed in appearance. One of the mothers, (the children, as it was claimed, being of different parentage) being sent to jail for keeping a disorderly house, we sent her child to its grandmother, whom we found to be (in appearance at least,) quite a respectable lady, and who was desirous that the little one should be well cared for. The mother of the other child promised to lead a better life and take care of her little girl in future, and she accordingly left town for Great Falls to work in one of the mills there, placing her child in some family to board, altho' we confess to some misgivings in regard to the fulfillment of her promise.

A man in Seabrook was complained of as neglecting his family of boys so shamefully that it amounted to positive abuse. We deemed him a subject for admonition, and accordingly warned him by letter that his was a case for our investigation. The effect was salutary, as our informant afterward reported to us, and we trust the man referred to will not repeat the offence.

A family of children whose mother had been sent to jail for three months was found by us in November in a dirty and destitute condition. Apparently having no one to care for them, we prevailed upon the county commissioners to send them to Brentwood, but the pride of an elder brother being touched by this act of philanthropy, he soon had them transported back again, and placed in the charge of a housekeeper, all of which we cheerfully assented to, our only object being to prevent the younger and helpless children from actual suffering.

Another family came under our notice: a case of neglect caused by strong drink. It was difficult to tell who was the greater drunkard, the father or the mother; but we were fully satisfied that neither was fit to have the custody of their children. Still we were unable to provide them with suitable homes, and we therefore bent our energies towards attempting to induce the parents to reform and do better. In this we succeeded beyond our expectations, altho' we do not place much reliance on their permanent improvement. With better surroundings and other influences than those that fetter them, however, we have no doubt that both father and mother would not only leave off drinking, but be useful members of society in many ways.

These are some of the cases that have made up the greater part of our work during the year just closed. There have been other instances of cruelty and neglect reported to us that upon investigation proved to have been mere stories, actuated by motives of malice or for some other object, to which of course we gave no attention beyond a careful inquiry into them. The most of the reports that come to us, we grieve to say, are too true, and far worse than it is possible for us to find language to describe. That we always accomplish the work of preventing further cruelty in those cases that receive our attention, we do not claim; we only do the best we can under the circumstances. While it is not an enviable work, it is attended with a certain degree of satisfaction, in that we have helped to smooth the rough pathway of human life to a few toilers, and lifted, for a time, the burden from their shoulders, while they renewed themselves for its replacement. Our experience has proved to us all that it is a task that surpasses our strength,—a work that might fill an angel's heart, and needs an angel's hand. Let us do the best we are able, and leave the rest for the future to solve, and the great law of compensation to make right.

PROHIBITION IN NEWMARKET.

The selectmen of Newmarket, by an advertisement in the *Advertiser* of that town, give warning to all persons engaged in the illegal traffic in intoxicating drinks that the prohibitory law will hereafter be strictly enforced against all violators of its provisions.

Deputy Sheriff Smart and officer French on Friday raided the saloon of Andrew Jackson—not the old President, but another man—and seized a quantity of liquors of different kinds, and the implements of a retail liquor trade. Jackson's examination was set for Monday.

SHOOTING AT DOVER.

Hiram F. Snow, a prominent business man of Dover, was shot Friday evening by a young man name1 Edwin J. Stackpole. Snow called at Stackpole's house to see the latter's father, and young Stackpole shot him. The ball entered Mr. Snow's breast, and passed downward. The wounded man is about fifty years old, a wealthy and respected citizen, and president of the Dover building association. Stackpole is a married man, and has a family; his father is in the employ of Mr. Snow, and the shootist was also at work for him on the day after the shooting. Stackpole says he did know who Mr. Snow was, and did not shoot intending to hit him, but only to frighten him away. It is said that the wounded man does not blame him nor want him arrested. Snow was doing well on Saturday and was expected to recover.

The officers of the York county agricultural society meet at Grant's hotel, Berwick, on Tuesday, the 20th inst., to pay all unpaid premiums awarded at the late fair of the society.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I fought it over fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I walked on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. —— of East Boston, and Dr. —— of city proper, but all to no purpose. They did me no good, their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grains, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and commenced the use of CUTICURA came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation, or a numbness of pain, I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I think it is the best medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 22, 1878.

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL.

Diseases of the pulmonary organs are so prevalent and fatal, that a safe and reliable remedy for them is invaluable to every community. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it without difficulty. It is the treatment of ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept in the house in every household, for the protection it affords in sudden attacks. As Whooping-cough and Consumption, there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which AYER'S CHERRY PECTORAL has effected all over the world are a sufficient guarantee that it will continue to produce the best results. An inspection of the evidence convinces the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year,* admittedly unrivalled and continuously successful. During the year it will furnish its readers the productions of the most eminent authors, *above many others;* and may combine the Choicest Critical and Short Stories by the *Leading Foreign Novelists,* and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors,* representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine,* giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Adventure, Poetry, Scientific Biographical, Historical and Political Information, and the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, and its satisfactory, full and COMPLETE combination of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"Is decidedly the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is enabled to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Bulletin.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened more the breaking up of the constitution than the starch. The sense of smell, of taste, of sight, of hearing, human voice, the mind, one or more and some times all yield to its destructive influence. The poison distributes throughout the system attacks every vital organ, and brings up the rear of disease, which is ignored because but little understood by most physicians, hopelessly assisted by quacks and charlatans, leaving from its have little hope to be relieved if in this side of the grave. It is true, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once decent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of RADICAL CURE has won my hearty approval. I believe it likely to succeed when all the usual remedies have failed, for it strikes at the root of the disease, viz: *acidified blood,* while it heals the ulcerated membrane by direct application to the nasal passages. Relation is based on certain fixed rules, and when these vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORCROFT BLOCK, SO. FRAMINGHAM, Oct. 1, 1878.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, in preference to any of the preparations merit the world's confidence. "You are aware," said a distinguish d city physician, that my obligations to the Medical Society prohibit me from publicly recommending or prescribing Radical Cure; but since I received so much relief from its use of it myself, and for a thorough trial of the medicines, I have privately advised its use, and presume I have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly we never sold a similar preparation that gave as universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation merits the wants of thousands, and we think those afflicted should give it a trial of its great merits so that the suffering will be relieved. We have been in the drug business for twelve years constantly, and sold everything for sterling merit, but never sold anything that gave us so much satisfaction as this. Let your agent call on us for a fresh supply. Very truly, G. G. DALLINGER & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 22, 1876.

Each package contains Dr. Sanford's Improved Injecting Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. HENRY R. SANFORD, General Agents and Wholesale Druggists, Boston, Mass.

Well Deserved.

The wonderful immunity from accident and death, and the absolute freedom from danger of either upon the railroads of this country, demonstrate that railroad management here has practically reached perfection. It may be truly said that a passenger whirled through space at the rate of forty miles an hour in one of the coaches of the Northwestern railway company is in less hazard and less liable to accident than he would be in walking the streets of Chicago, and safe from possible injury as he would be if seated at his own fireside. For the first twenty years of railroad travel in the United States, we do learn from the report of the Rhode Island railroad commissioner, there was on an average one passenger killed of every two millions carried, while in the succeeding twenty years there was but one killed of more than six millions carried. If we recognize the further fact that than ninety per cent. of the passengers killed, meet their death by their own recklessness or by their disregard of the rules of the railroad companies, we might say that a number of passengers equaling the country's population are annually transported over our roads without a fatal accident that can be attributed to the fault of the railroad officials.

A sense of security on the part of the passenger, and the constant study of the railroad official to invoke every possible aid to promote the safety and the comfort of patrons, make railroad travel a pleasure indeed. The newly invented air-brakes, the patent platforms and couplings, the improved methods of tie and rail laying, and the perfect system of signals, combine to produce this extraordinary absolution from accident or injury.

We are led to these reflections from an intimate acquaintance with workings of one of the best managed roads in the United States—the Chicago & Northwestern, whose operations extend from Chicago to the British possessions, and whose branches permeate every considerable point of traffic throughout the great northwest, and even to the Pacific coast. No ordinary mind can master the details of operating a huge corporation like this, whose hundreds of trains, passenger and freight, arrive and depart with the regularity of the clock; whose millions of passengers are transported, each with the self-assurance of a speedy, a safe and a comfortable transit; whose officials without exception are men of long experience and excellent judgment in all things pertaining to the business in hand. There is not in all this country a company which maintains a better corps of conductors, many of whom the travelling public have met for twenty years past, and all of them gentlemen in the strictest sense of the term.

To the management is solely due the general excellence of this highway, and we are glad to know that the vast business which the company is now doing, indicates the public appreciation of the efforts of these gentlemen to serve them. —*The Herald, Sept.* 1, 1879.

Answer This.

Did you ever know any person to be ill, without inaction of the stomach, liver or kidneys, or did you ever know one well, when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure. Ask your neighbor the same question.—*Times.*

The Providence *Journal* felicitously styles the Boston *Globe,* official organ of the Maine thieves, a "prolific source of misinformation."

"I don't want a Plaster," said a sick man to a druggist; "can't you give me something to cure me?" His symptoms were a lame back and disordered urine, and were a sure indication of kidney disease. The druggist told him to use Kidney-Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box to-day—before you become incurable. It is the cure; safe and sure.

The strike of the Cincinnati pork-butchers is regarded as virtually ended.

Sediment or mucos in the urine is a sure indication of disease. Take Kidney-Wort.

—A few exceptional souls become fascinated by the charms of astronomy; but for steady and solid comfort the large majority of mankind prefer the charms of gastronomy.

FROM NUMEROUS cases of dyspepsia and constipation, cured by the use of Fellow's Compound Syrup of Hypophosphites, after every other known remedy had been used in vain, its efficacy in restoring the functions of digestion and evacuation is manifest.

—When the "wine goes round freely" the head generally imitates the example.

ONE OF THE greatest statesmen that America ever produced, Hon. James G. Blaine, uses Adamson's Botanic Balsam in his family, and, indorses it as a safe and effectual remedy for coughs and colds.

Speer's Sambuci Wine.

We have examined a specimen of the Sambuci Wine of Mr. Alfred Speer, referred to by a correspondent of the *American Baptist* and have no doubt it is pure. We should judge from its taste and appearance, that it is certainly valuable as a medicinal wine and as a tonic for weakly persons. It has the recommendation of some of the first physicians in this country as well as Europe.—*Washington Star.*

MONDAY, JANUARY 19, 1880.

Affairs in Maine.

It turns out that "Gov." Smith, just after midnight on Friday, ordered the Montgomery Guards of Portland, the Mechanic Blues, and the Biddeford Light Infantry to report at Augusta on Saturday morning at six o'clock, fully armed, and with three days' rations. No response was made to this order by the company commanders, so the fusion scheme to set up a "bayonet government" in Maine fell through.

The legislature on Monday elected Henry B. Cleaves of Portland attorney-general, and George L. Beal of Norway adjutant-general. There were no fusionists in their seats in the legislature in the forenoon.

The secretary of the bogus senate, and the messenger of the fusion "governor and council," delivered up their keys to the legal officials in the forenoon.

Sprague & Son were appointed State printers until otherwise ordered.

It was announced that the Garcelon-Pillsbury gang would not be allowed to play legislature in the State house in the afternoon.

Good and Bad.

Mrs. John J. Astor has recently sent one hundred homeless children to homes in the west, at an expense of $1500. During the past seven years the same charitable lady has sent 677 children to good homes.

In New York, on the 17th inst., all the children, twenty-two in number, from the institution called the Shepard's Fold, were before the court on a charge by the Society for the Prevention of Cruelty to Children that they are half-starved, have improper and insufficient food, no medical attendance, and that the place in which they are kept is filthy, etc. No counsel appeared for the Shepard's Fold, and the judge remanded the children to care of the anti-cruelty society. One child is dying of starvation.

News and Notes.

The President has nominated James Russell Lowell as minister to England.

By an explosion of coal gas in the hold of steamer Greece, in New York on Friday, two men were killed and six injured, several fatally.

Mrs. Maria L. Crew, twenty-eight years old, a native of Maine and wife of Joseph Crew, residing at Groton, Mass., was found murdered about eight o'clock Saturday evening. She was shot four times, three times in the face and once in the chest, and was outraged before being murdered. The murderer is supposed to be a mulatto tramp about forty years old, five feet ten inches high, thin face, dark side whiskers and short chin whiskers, wearing a dark felt hat and long dark overcoat, and buckled shoes.

A man named M. Rouse has arrived at Little Traverse, Mich., and tells of the loss of Charles Odell, his wife and two children in the ice in the neighborhood of Wanghasanc light, lake Michigan. They started in a boat with him from Beaver island for Little Traverse on the 13th inst., but were caught between two bodies of ice. He was separated from them, and believes they perished.

George B. Goodwin, Esq., who for about eight months had charge of the editorial department of the Bangor *Commercial*, but was superseded when the fusion scheme for stealing the State of Maine from the voters was developed, as is said because he refused to give the infamy a whole-hearted endorsement, has assumed a position on the staff of the Boston *Post*. He is a talented writer, and a bright and pleasing journalist.

Mrs. Samuel Haynes of Napanee, Ont., was burned to death Friday night, by her clothes igniting from the explosion of a coal oil lamp. Mrs. Elizabeth Mackinney of Scranton, Pa., was burned to death Sunday, her clothing catching fire from a stove.

The department of agriculture at Washington estimates the present cotton crop at 5,020,387 bales, 450 pound each, and the valuation in round numbers at $231,000,000, against $194,000,000 in 1878.

A man supposed to be the murderer of Mrs. Clew at Groton, Mass., was arrested at West Boylston on Monday afternoon. He made a desperate attempt to escape, and also tried to chew up and swallow a letter.

Mrs. Etheridge's boy walked on stilts in front of Gray's grocery, at Dallas, Texas. This annoyed Gray, and he whipped the boy. Mrs. Etheridge sent her son back, and posted herself, pistol in hand, to protect him in his diversion. Gray got a big club, and went out for a combat with the woman. He received a bullet wound in his head; and she was carried home dangerously pounded. But the boy still walks on his stilts.

It is stated that Masonic emblems were found in the corner stone of Cleopatra's obelisk at Alexandria, Egypt. A despatch from Commander Gorringe, U. S. N., says the emblems found under the obelisk were representations of a perfect Masonic altar, a Masonic apron and other significant emblems.

A middle aged woman, named Kane, a professional nurse, ordered forty-five grains of morphine in a South Norwalk, Conn., drug store the other day, and diluting the powder, swallowed the whole amount. She explained that she was a victim of the opium habit, and that this was her regular dose. It was enough to kill at least fifteen ordinary people, but it had no apparent effect on the woman.

Francis Liel, a German, shot and fatally wounded George M. Hoffman, at Stroudsburg, Pa., Friday.

Officer Lee Lyman was shot and killed at Dayton, Ohio, Friday night, by John Francis, whom he had arrested and who had been released. Francis has been again arrested.

Nat Smith, a negro, was taken from jail and hung by unknown parties at Jonesboro', Ga., Friday. He was charged with felonious assault.

Annie Martin was found dead in a disreputable house in New York, Saturday morning, with a wound on her temple and a pillow case tied around her neck. She was seen with an unknown man the evening before. Valuable diamonds and jewelry in her room were left untouched.

Lotta Robinson was shot dead in Chicago, Saturday morning at an early hour, by James Fanning, during a quarrel between him and Geo. W. Stratton, Mrs. Robinson's paramour. Stratton was shot in the arm. The murderer was arrested.

George Brown and Mrs. Sarah Smith were arrested in Chicago on Saturday for the murder by poison of a colored waiter named Charles Adams, who died Saturday morning. Adams was the woman's lover, and jealousy on her part led to the crime.

Constable A. K. Hall shot himself dead in the street at Chicago, Saturday.

In a quarrel over a game of pool at Cincinnati, Ohio, Saturday night, John Stoffell killed Frank Smith with a penknife.

Frank Lewis was fatally shot at Owenton, Ky., by his cousin, D. G. Garvey, in a family fight.

New Hampshire Items.

Hon. George E. Jenks of Concord, formerly of the *Statesman*, has been nominated by the President as supervisor of the census for the district of New Hampshire.

Mr. Charles S. Page of Gilmanton one day last week found an old pocket-book tucked in a brace hole in his barn, containg $1200 in old Wolfeboro' bank bills, which must have been placed there by the robbers of the bank some dozen or more years ago. The bills are supposed to be worthless.

FOUND HIM AT LAST.

The devil ranged his imps in line;
A work he had to do;
He wished to help his party friends
To steal a State or two.

But none were found who could perform
So mean an act, below;
It really seemed to Satan that
His cake had turned to dough.

Unwilling yet to give it up,
The devil racked his brain;
He found the chap on earth at last—
'Twas Garcelon of Maine.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th,&r

AROUND HOME.

Rev. Hillary Bygraves has declined the call extended by the Unitarian society of Dover.

Five bright little scholars in Miss Giddings' school stepped up higher on Monday, and are now under the instruction of Miss Marston.

Morse & Ilsley, brokers, have within a week sold sixty-eight shares in the Rockingham national bank at $121.50 per share; par $100.

A well known Congress street grocer on the 17th inst. discontinued the sale of liquor, and on Monday removed the bar and all its fixtures and stock from his store.

Major John D. Myrick, the eloquent orator of our last Memorial day exercises, has been appointed State librarian by the republican legislature at Augusta, Maine.

Edward Stackpole of Dover, who shot Hiram Snow of that city on Friday evening last, was on Saturday arrested and held in $1000 for examination on the 26th inst.

Rev. C. B. Pitblado lectured at Cape Elizabeth, near Portland, on Monday evening. Wednesday, Thursday and Friday evenings of this week he lectures in Connecticut.

The letters forming the words "National Block," over the entrance to that building, were gilded on Monday, and look very handsome. The red stripes on the door-posts have disappeared.

The *Nautical Gazette* of last week says: "Commodore Stephen Decatur, of the Portsmouth Yacht Club, left Portsmouth, N. H., on the 10th inst., for Norfolk, Va., where he will spend the winter hunting."

The staging has been removed from the outside walls of the Franklin buildings, and the contract work of Messrs. Currier & Sons is completed, save the new arch over the main entrance, which will be commenced in a few days.

The *Army and Navy Register* says that a bill introduced in the United States Senate by Mr. Voorhees, granting a pension to Mrs. Anna I. Guest, widow of Commodore John Guest, U. S. N., who died while in command of the Portsmouth navy yard, will undoubtedly be favorably acted upon. Mrs. Guest resides in the Bunker Hill district of Boston.

The two codfish weighing 108 pounds each, recently brought into this market, though large enough for an ordinary family, are by no means unprecedented for size. There is an account believed to be authentic, of a big fellow hauled in by the veteran Samuel Haley of Smuttynose island, Isles of Shoals, which weighed where *dressed and dried* one hundred and thirteen pounds.

Mr. John Albee delivered the first lecture in the lyceum course to be given in Newcastle through January and February. Rev. James DeNormandie was to open these lectures, but Mr. Albee expecting to go to New York, Mr. DeNormandie kindly exchanged dates with him. Mr. Albee is a pleasant and interesting speaker, and with his subject (Domestic life) held the close attention of his audience for more than an hour. N.

Mr. Lemuel B. Caswell, whose fish-curing establishment is located on Smuttynose island, Isles of Shoals, has recently sent to Messrs. Shute & Merchant, of Head harbor, Gloucester, Mass., 1200 quintals of cured fish, and to Messrs. Pickett & Debutts of Boston 200 quintals. He has also sent off many packages of Isles of Shoals dun-fish, the packages varying in weight from one hundred to three hundred pounds, to New Jersey, Providence, R. I., New York city and other places. The Fifth Avenue hotel, New York, took a package of five hundred pounds weight.

Col. John P. Sherburne of the United States army, formerly of this city, died at San Francisco on the 9th inst. Col. Sherburne was the youngest son of the late Col. John N. Sherburne, formerly collector of this port. The late John P. Sherburne entered the service as a cadet, being appointed from this State. He was at one time in the second regiment of infantry. He was made a major July 17th, 1862, and was for a long time connected with the adjutant-general's department. He was much beloved by his fellow officers, and will be remembered by his school-fellows in Portsmouth as one of the most agreeable and genial of the boys of his day.

REFORM CLUB MEETING.

A very interesting meeting was held by the reform club at Bow mission hall Sunday evening, the audience being a very large one. The meeting opened with a short service of praise, which was follow by devotional exercises conducted by Chaplain Horace A. Martin. The president of the club then called Ex-Presidents Janvrin, Randall, Martin and Hall, and brothers Taylor, Sanborn, Lolley and Stuart, each of whom responded with words of encouragement. A hymn was then sung, after which the chairman introduced Mr. George Fox Guppy of Dover, a reformed man and ex-president of the Dover reform club, who made the speech of the evening. During his earnest and eloquent remarks he urged "the boys" to go out after the fallen brethren, no matter how many times they may have strayed from the fold; he also urged the members of the club to not only work in the highways and byways for the salvation of the fallen, but also to *vote* temperance. The club starts out on the new year with new hopes and aspirations, and a firmer determination than ever to strive for the salvation of the fallen; and surely they deserve the hearty sympathy of good citizens on every hand. The speaker for next Sunday will be announced during the week. L.

TEMPLARS' INSTALLATION.

Sir J. W. Hildreth, Right Eminent Grand Commander of the State of New Hampshire, on Monday evening installed the following as officers of DeWitt Clinton Commandry of Knights Templar of this city:

Sir Charles W. Gardner, E. C.;
Sir C. W. Norton, Gen.;
Sir Calvin Page, Capt. Gen.;
Sir John Christie, Prelate;
Sir Benj. F. Webster, S. W.;
Sir T. E. O. Marvin, J. W.;
Sir W. Ilsley, Treasurer;
Sir James L. Parker, Recorder;
Sir A. J. Sides, Standard Bearer;
Sir J. Horace Kent, Sword Bearer;
Sir H. G. Tanton, Warder;
Sir H. H. Ham, Sir O. S. Loomis and Sir L. V. Newell, Captains of Guards.

After the installation the company repaired to the banquet hall, where a collation was served, after partaking of which several hours were spent in social greetings, with speeches from Sir Knights J. W. Hildreth, J. J. Bell and others.

NAVY YARD ITEMS.

In view of the fact that the sum allotted to be expended at the navy yard from the annual appropriations for the disbursements on account of the bureau of yards and docks the current fiscal year has been far below the amount which could be judiciously expended at this station, Hon. Joshua G. Hall, representative in Congress from this district, has urged Secretary Thompson to enlarge the portion of the appropriation at first allotted to the Portsmouth yard.

The U. S. S. Leyden will go down to the Plymouth to-day, to take out her stores. The Plymouth will be towed to the yard at high water slack.

It is reported that Carpenter Leonard Hanscom is to be ordered as carpenter of this navy yard.

YORK COUNTY ITEMS.

There is talk of starting a Young Men's Christian association at Kittery point.

A new schoolhouse is in course of erection at Raynes' neck, York, in place of the one burned there last June.

The wife of Rev. L. S. G. Plumer has formed a class for instruction in the French and Latin languages, at her residence at Kittery.

Large quantities of clams have been dug from the flats at Bra' Boat harbor, York, this winter, quite a number of poor people getting most of their living thereby.

Kennebunk last week purchased a new Hunneman hand fire engine and five hundred feet of hose. They call it the "Safeguard." A company to man it has been organized, with forty-nine members.

The Biddeford *Times* says: "The lumber on the farm of Ex-Governor Goodwin, resident in Portsmouth, N. H., has been sold to Joseph Hobson of Saco." The farm alluded to we believe is in North Berwick.

Armory hall at Kittery took fire on Saturday evening last, it is supposed from the depositing of hot ashes in an improper place. An alarm was given, and the navy yard fire department hastened to the spot, but their services were not called into requisition, the fire being extinguished by buckets of water.

Rosco L. Bowers, the member of the governor's council from the first councillor district of Maine, is a highly respected business man of Saco,—in marked contrast to the individual who lately disgraced the position.

At a special town meeting held in Berwick last week for the purpose of taking a vote on the question of making the Boston & Maine railroad the boundary line of the east side of the township, and annexing the remaining part to South Berwick, about fifty citizens attended; they were unanimous against the proposed division, and authorized the selectmen to oppose all measures tending to a revision of the boundary line.

One of those slippery mornings, a young lady who lives in Shapleigh, on looking out of the window saw her father, quite an old gentleman, on his hands and knees, crawling up a little icy hill. Thinking this humble position a little uncalled for, she hastened to his assistance. She succeeded in reaching the bottom of the hill, when suddenly she became quite as humble as the old man himself, and the pair crawled up together. It was a comical sight.—*Biddeford Times.*

Anybody who has not been in South Berwick for five years would scarcely know the old historic village. It was the building of the large shoe factory of Messrs. D. Cummings & Co., that gave an impetus to the place. A visit to the shoe factory yesterday, revealed a very busy scene. Over three hundred hands are employed in the establishment, and when the new wings which are about to be erected are finished, it is probable, with the present outlook of trade, that over five hundred hands will find employment. —*Dover Democrat.*

The people of York are greatly exercised to learn how "the only citizen of the town ever elected an executive councilor" is to get his pay for all the extra dirty work he has done. It is suggested that Mose Harriman of Kennebunkport should be compelled to divvy his $1005 with Moody; but objection is made in that it is quite likely the fusion leaders may demand the money back, as their trickery failed to effect its object,—and "besides, a correspondent of the Biddeford *Journal* says many people of Kennebunkport hope Mose will stick to the whole of it, and apply a portion of the plunder to the payment of some of his debts.

Naval Affairs.

Captains Henry Wilson and S. L. Breese, Commander Oscar F. Stanton, and Lieutenant-Commanders A. G. Kellogg and G. H. Wadleigh were among the officers who failed to secure recommendations for restoration to their original places on the navy list, from the board appointed under the act of February, 1879, to consider the cases of the over-slaughed officers. Commander Henry Erben, and Lieut. Commanders Charles D. Sigsbee and James H. Sands, were recommended for restoration to their original positions on the list.

Capt. Percival C. Pope, U. S. M. C., who went to Europe for duty as fleet marine officer on board the Trenton, has been obliged by ill health to return home.

Commander Henry Erben has been confirmed by the Senate to be a captain in the navy from Nov. 1st, 1879, vice Baker, retired.

Med. Ins. A. L. Gihon has been confirmed to be a medical director in the navy from Aug. 25th, 1879.

Political.

Speaker Randall does not favor the bill to abolish the office of congressional printer, which would legislate Mr. Defrees out of office, and to create the office of public printer, which would legislate Mr. Stilson Hutchins of the *Post* into office.

When the fusion senate of Maine "elected" a council to serve with "Governor" Smith, the members were a little disconcerted to find that there were errors in the printing of the names of four of the seven men voted for! This little fact will not tend to make the people believe the claim made heretofore that all returns from fusion towns were faultless,—and that the republicans, who are, to say the least, quite as intelligent and well educated as the democrats, were the only ones to make blunders.

The ivory gavel used in the House of Representatives of Maine disappeared with the exit of Pilsbury's pets, and Speaker Weeks of the legal House rapped to order with a hat-peg, a lead-pencil or a jack-knife, just as either came handiest. The seal of the State also could not be found when Secretary Chadbourne took possession of his office. Rather a come-down for the fusionists—to attempt the stealing of a State, and end by merely garcelonizing a gavel and the State seal.

The Czar's Daily Routine.

The San Francisco *News-Letter* publishes some very curius pages of the Czar's diary. From them we quote:—"Got up at 7 A. M., and ordered my bath. Found four gallons of vitriol in it, and did not take it. Went to breakfast. The nihilists had placed two torpedoes on the stairs, but I did not step on them. The coffee smelt so strongly of prussic acid that I was afraid to drink it. Found a scorpion in my left slipper, but luckily shook it out before putting it on. Just before stepping into the carriage to go for my morning drive it was blown into the air, killing the coachman and the horses instantly. I did not drive. Took a light lunch off hermetically sealed American canned goods. They can't fool me there. Found a poisoned dagger in my favorite chair, with the point sticking out. Did not sit down on it. Had dinner at 6 P. M., and made Baron Diasch ounowski taste every dish. He died before the soup was cleared away. Consumed some Baltimore oysters and some London stout that I have had locked up for five years. Went to the theatre; was shot at three times in the first act. Had the entire audience hanged. Went home to bed and slept all night on the roof of the palace."

Rear Admiral George Henry Preble is revising and enlarging his *History of the Flag*, and it will soon be republished by Messrs. A. Williams & Co., of Boston. A chapter on the history of State flags and colors, and much other new matter, has been added.

—All nations dance. The performers of jigs, quadrilles, waltzes, sarabands, polacca, polkas, if ranged "all hands round," would circle the globe. Dancing is the pleasure of infancy, and would be of old age if old age could engage in it. Great men have danced, from Solomon to George Washington, who was a particularly good performer of the minuet. It is a pity that an amusement in itself graceful and healthy, and adapted to so many tastes, should have been abused and vulgarized; that it should have been perverted to base uses, and have found so many questionable votaries.—*New York Tribune.*

—A large elm tree stood on the spot where a man at Lewiston, N. Y., decided to build a residence. He did not cut it down, but built around it. The odd sight is presented of a tree top growing out of the roof of a handsome brick house.

Novel Cure for Bright's Disease.

About twenty years ago a daughter of mine—then about six years old—was given up to die by the family physician, who said the disease was incurable and that it was never known to be cured, either in Europe or America. The physician, on giving the case up, told my wife to give the child anything she wanted, and to make her as comfortable as possible while she lived. The child constantly called for beans, so my wife cooked some as quickly as possible, not stopping to parboil them, as is usually done, but boiled beans, pork and potatoes together in the first water, and when cooked, she gave them to the child to eat. The child then went to sleep and from that time began to improve. She is now the mother of two children. She is not troubled with the disease unless she takes a severe cold, and when that happens, she at once uses her old remedy, and it is always effectual. The physician who attended her called a few days after the bean experiment, and surprised was to see the change in the child. He inquired what my wife had done for her, and upon hearing, his surprise increased and he asked an exact description of the manner in which the food was cooked. After considerable thought about the matter, he said that the only cause for such an effect was, perhaps, that the beans were cooked in the first water. The physician is now dead, or I would refer to him to verify the facts.—*N. Y. Bee. Post.*

The Troubles of He Leeb.

He Leeb is a Celestial laundryman in New York city. A strip of paper pasted on the wall of his establishment informs all customers that no linen will be returned except on the presentation of a check that they will take when they leave their linen to be laundried. Mrs. Cohen carried two of her husband's shirts to He Leeb's laundry, and after she got home her babe swallowed the paper check. She went to get the shirts. She does not read English, nor does she speak Chinese. She pointed to a shirt and held up two fingers. He Leeb, who does not speak English, pointed inquiringly to one of his cheeks. Mrs. Cohen said "baby." He Leeb looked confused, shoved a chair toward his customer and pointed to the check—meaning that she should wait for somebody to come along who could supply the missing link in their efforts at communication. Mrs. Cohen did not understand this. She became angry and called in a policeman, who arrested the Chinaman. Lee Tong, who has learned to speak English, explained the case to the justice. He Leeb was discharged. He Leeb paid $10 to a lawyer, and his interpreter cost him $2. Mrs. Cohen got the shirts without paying for doing them up. He Leeb has his opinion of American institutions. As well be might.—*Brooklyn Times.*

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

Messrs. Weeks & Potter: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with scurf, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. —— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5.20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA, it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation and number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel we it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add, that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

Boston, Aug. 23, 1875.

POROUS CAPCINE PLASTER

BENSONS CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendors can have is the fact that they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small and illicit profit. tif

THE BEST REMEDY FOR Diseases of the Throat and Lungs,

AYER'S CHERRY PECTORAL.

Diseases of the pulmonary organs are so prevalent and fatal, that a safe and reliable remedy for them is invaluable to every community. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it without difficulty. In the treatment of ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household, for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which AYER'S CHERRY PECTORAL has effected all over the world are a sufficient guaranty that it will continue to produce the best results. An impartial trial will convince the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.

Eminent physicians in all parts of the country, knowing its composition, recommend AYER'S CHERRY PECTORAL to invalids, and prescribe it in their practice. The test of half a century has proved its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh year*, admittedly unrivalled and continuously successful. During the year it will for his to its readers the productions of the most eminent authors, *above-named and many others;* embracing the Choicest critical and work-testing by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter that can be gleaned from the field of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column pages of closely-printed matter yearly. It presents in an inexpensive form, consistently its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"Gives the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough comprehension of the times. It is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Congregationalist.*

"The best literature of the day."—*New York Times.*

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution of the starch. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system attacks every vital tissue, and breaks up the most robust constitution ignored because but little understood by most physicians, hopelessly assailed by quacks and charlatans suffering from it have little hope to be relieved. It is a disease on the brink of the grave. It is time, then, that if popular treatment of this terrible disease by remedies within the reach of all passed into hands at once efficient and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADICAL CURE has won my hearty approval. I believe it likely to succeed where all the unauthorized, well meaning, if striking at the root of the disease, viz. *vitiated blood*, while it heals the ulcerated mucous membrane by direct application to the nasal passages. Medicines based on certain fixed rules, and unless the medicines are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.

NORSCOTT BLOCK, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who prescribe it, and only from quacks and charlatans in their families in preference to any of the preparations usually prescribed by physicians.

"You are aware," said a distinguished city physician, that my obligations to the Mass. Medical Society, which that society publicly recognized on prescribing Radical Cure; but since I received so much relief from it in one of my myself, after a thorough trial of the remedies, I have privately advised its use, and presumed have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN:—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly it was the best selling proprietary medicine, and universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think these afflicted should be convinced of its great merits so that the suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything from starch, but your sales all the rest. If you are so minded you can use this letter or any part of it that you will. Very truly yours, BALDWIN & CO. Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 23, 1878.

Each package contains Dr. Sanford's Improved Tube for Tube, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

Electro-Galvanic Battery combined with highly Medicated Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

is a grand curative and restorative agent is admitted by any element or medicine in the history of medical art. Hitherto the application of this great agent has been attended by means of electricity is possible. It is the greatest by physicians and surgeons, and has received thousands, apparently dead, an unbiased trial, when no other human agency could have saved life. This is the leading curative element in the plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam of pine and the gums of the East are too well known to require a description. These combined with the soothing and strengthening properties are known to the public. When combined in accordance with the late important discoveries in pharmacy, their healing and soothing properties are increased tenfold. As a remedy for Colds, Coughs, Pains and Aches in the Back, this Plaster is the best in use without the addition of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and united produces more than double the effect of either plaster ever before compounded in the history of medicine. Try one. PRICE, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BIRDS AND WINGS.

A short time since a well-dressed lady came toward me, but she seemed to have forgotten her bonnet. Not a trace of it was visible. Regarding her therefore with attention I observed as she passed that a small something hung at the back of her head. It was her hat. The same day I saw another and yet another lady wearing a hat suspended in a like manner, which so far as a front vision went served in no wise the legitimate purpose of a hat. Of course there were no strings, for that would have transformed these decidedly useless appendages into bonnets. At present the sight is no longer a rare one. Now and then may be seen what in all propriety might be termed a winged hat. Specimens of this species are made entirely of wings. Quite small ones are used, and you may imagine the number required. The turban shape is preferred for a display of these remarkable efforts of millinery skill, and the wings project out in every direction like so many thorns on a brier bush. A finishing touch is given by a bird (sometimes quite a large one,) and the wings are of every possible and impossible color put together. Yet such a hat does not attract any very great attention. One does not turn to look at it, for our eyes have grown used to anything in the way of birds and birds' plumage. The other evening a lady appeared wearing a costume adorned with at least two dozen differently-colored birds; most of them quite large and not a few with wings extended. But some were quite small; notably on the corsage, where ten humming birds were placed on one side, against one larger bird on the other; a little bird was perched on each sleeve at the elbow, (where the sleeve ended) and one was at the back of the neck.

IN JEWELRY

the latest thing is the kerchief pin, which owes its origin, rise and progress to the silk kerchief craze which has overtaken us this winter. Almost every lady you meet wears a silk kerchief tucked in around her neck, and now the seekers after novelties are supercadding an ornamental pin, just such a pin as gentlemen have for a long time worn in their neckties—that is, so far as the fundamental idea goes. But here as elsewhere, when a woman takes a matter in hand, we find changes for the better. Men remained satisfied with all sorts of heads making wry faces at you, skulls and cross-bones, or if they ventured away from these things, contented themselves with tobacco pipes, whips, and representations of like character, believing them quite beautiful. Now we find the loveliest devices in the way of tiny bouquets of flowerets, minute and lacy fern leaves, frosted bells, and fifty other such pretty notions.

A PROPHECY OF SPRING.

Cashmere ideas will lead next summer. "Cashmere" thus used, has nothing to do with that highly respectable material so called, and which is generally understood to belong to the family of merinos. The word "Cashmere" in this newer sense is derived from the vale of Cashmere in India, and is used to signify Oriental ideas in many differing varieties, but bearing general resemblances which we immediately recognize. Cashmere materials have been among the most elegant used this winter, both in millinery and costume, and now the latest agony is cashmere stockings. All this is excellent. We western people stand first where sewing machines, pianos and such like are concerned, and we electrify the world with our electric lights, but for much that is beautiful we must acknowledge the Orientals as our superiors, and therefore we do well to copy after them. Writing of pianos reminds me of the fact that some of the most elegant new year's gifts made here were Haines Bros.' pianos. All their instruments are excellent and of superior workmanship, but a special demand seems to have arisen for their uprights, which not only embody all the latest and best ideas but have special features of their own. An important one is that their uprights have three strings, while those of other makers have only two. Their number is 124 Fifth avenue.

A NEW DEPARTURE.

Among original devices the publishers of that well-known periodical, Ehrich's Fashion Quarterly, have hit upon the idea of offering their magazine free to all who may subscribe to other magazines through their agency. Thus a reader of Harper, Lippincott, the Atlantic Monthly, etc., who desires to renew his subscription has only to forward the usual price of the periodical he may wish to Messrs. Ehrich and receive in return not only the magazine but the Fashion Quarterly as well. In this way a very popular fashion maga-

zine is placed at the disposal of every family free of charge, and the result will be a mighty increase in the already vast subscription list of the Quarterly. The firm are now also issuing an entirely new premium list, such as books for young and old, laces, fancy goods and a hundred other articles which may be obtained for the trifling labor of canvassing for subscriptions to a magazine worth double the money charged. Messrs. Ehrich promise to send this premium list free to any address.

Among new overskirts we find the Alethea, which is extremely stylish and pretty. The Aspasia polonaise is also quite novel and very graceful, yet not more so than the Cressida, which is likewise a polonaise. The Fanchette is a new costume for girls from fourteen to sixteen.

LUCY CARTER.

Portsmouth Chronicle

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

WEDNESDAY, JANUARY 21, 1880.

Affairs in Maine.

At four o'clock in the afternoon, on the 19th, "Gov." Smith, followed by eight members of the fusion Senate and about thirty-five members of the fusion House, went to the State house and demanded admission as the rightful legislature, but were denied admission. Gov. Davis said that had they applied as citizens and not as a legislative body, they would have been allowed to enter. After the fiat legislature was thus rebuffed it held a session on the side-walk in front of the Augusta hotel, and speeches were made by the late "Acting Governor" Lamson, Talbot, speaker of the fusion House, and Darius Alden of Augusta. The latter defied the crowd to raise a cheer for Blaine, whereupon three cheers were immediately given for Mr. Blaine, followed by cheers for Gov. Davis, Gen. Chamberlain and the supreme court. The fiat legislature then adjourned to ten o'clock Tuesday, at Union hall. The revolutionists say they have enough money subscribed to run their legislature all winter, and they mean to do so.

The safe in the office of the secretary of State was opened on Tuesday, when it was found that the State seal and all the important papers had been stolen by the fusionists. It is supposed that the official election returns were destroyed by them.

State Treasurer White has instructed his subordinates not to pay out any money on the orders of either the legal or bogus legislature, until further orders from him.

The bogus legislature held a session in Union hall, Tuesday, and resolved to "stand firm."

Benner of Waldoboro' and Rafter of Damariscotta, fusionists, and Milliken of Burnham and Hill of Corinth, democrats, took their seats in the legal legislature.

Wallace R. White of Winthrop sent a communication to the House, asking the fullest and freest investigation of the charges of bribery preferred by Swan and Harriman.

News and Notes.

An explosion at the Bisbee mine, near Blue Hill, Me., last week, completely demolished the blacksmith shop, and it is feared that the blacksmith, Andrew Sukefort, will die from the effects of the explosion. He was warming some cartridges by the stove, as has been the custom, before putting them into the rock, and it is supposed that the glycerine oozed out and caught fire, causing the accident. There is scarcely a piece of the shop left. Mr. Sukefort has about twenty wounds on his body, the largest on the left leg, caused by a piece of the stove being driven into it.

A letter from Georgia states that an extensive raid on the moonshiners has been organized, and starts in a day or two for the northern part of the State. The revenue officers have been heavily armed and mounted and the force largely increased for the raid. Hard fighting is expected.

The jury in the case of Rev. Mr. Hayden, on trial at New Haven, Conn., for a long time past, charged with the murder of Mary Stannard, were discharged on Monday, having failed to agree on a verdict. They stood eleven for acquittal and one for conviction, at the last.

The barque Continental sailed from Washington, D. C., for Cuba, on the 14th of November last, and has not since been heard from; she is supposed to be lost, with all hands. She carried a crew of twelve officers and men, and the captain's wife and child were also on board.

On Saturday, Mrs. Micajah Morgan of New London committed suicide by hanging herself with a skein of yarn, at the asylum for the insane, where she was a patient. Her age was fifty years.

For some time past three Misses Blackstone, sisters, have been associated together at No 805 Washington street, Boston, engaged in dressmaking. January 12th, Margaret, the eldest, aged 44 years, was prostrated with pneumonia, and died on Wednesday, the 16th. The second sister, Mary, aged 62 years, a few hours after was attacked with the disease, dying next day. The youngest of the family is also ill.

Two burglars, Wm. H. Atkinson and Wm. Cates, were held in the police court at Newburyport, Monday, in the sum of $500, for trial for breaking and entering steamers and the larceny of property valued at $1000. Flanders, a junk dealer, for receiving the same, had his case continued under the same bonds until next Saturday.

Tares powder mills at Yellow Springs, Ohio, exploded Monday. Two men were killed.

The schooner Lizzie Morris, Morris master, bound from Demarara to Boston with a cargo of old iron, was run into on the night of the 7th inst., by an unknown barque, and had her captain killed and all her masts carried away. The crew of five men was taken off next day by brig Excelsior, and the abandoned vessel was subsequently boarded and set on fire by schooner Moses B. Tower.

Jules Favre, the eminent French lawyer and statesman, died on Monday at the age of seventy-one years.

Eugene Hawley was shot and killed by John Richards in a quarrel, Monday, at Springvale, Pa.

A negro named Jordan, who ran off from Virginia with a white girl, and was arrested in Maryland and put in jail at Warrenton, Va., was taken from jail on Monday by a mob, and murdered by hanging.

The oyster war on the lower Rappahannock river has been temporarily brought to a close by the killing of two citizens of Lancaster county, Va., by non-resident dredgers.

Eliza Anderson, alias Ida King, was on Monday evening fatally stabbed by her sister, Margaret Anderson, alias Stella Bruce, on the street in Boston. Both women were of the lowest and most degraded class, and have repeatedly been incarcerated in State institutions.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the grinding, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

AROUND HOME.

The Y. M. C. A. will hold their weekly meeting at the Mission hall this evening at 6:30; a cordial invitation is extended, especially to young people.

There were seventy-five arrivals in the lower harbor on Tuesday, most of the vessels being fishermen. They report a strong wind and heavy sea outside.

About thirty fishing vessels arrived at the wharves during the storm of Tuesday. The total amount of their fares did not much exceed 150,000 lbs.; the Ev Nichols made the best trip, having 30,000 lbs.

A musical entertainment will be given to an invited company at Miss Morgan's school for young ladies, Thursday evening, by Prof. Tracey of Boston, the eminent pianist, and Miss Edith Wendell of this city.

Parties from Newcastle are doing well at catching lobsters in the vicinity of Whalesback lighthouse. The Una brought in six barrels of lobsters on Tuesday from the Shoals. They are all sent to the Boston market.

The news from Maine continues to be quite interesting. If anybody should find the print difficult to read, now is the time for them to have their eyes perfectly fitted with glasses. Give your name to Prof. Brown's agent when he calls.

The police court, which has been poorly patronized since the advent of the new year, had a little spurt of business on Tuesday, when James H. Leavitt, Andrew Dadey and Henry Sheehan were up for drunkenness, and were assessed $9.90 each, fine and costs, which they will work out.

At the annual meeting of the stockholders of the Strafford national bank of Dover, Tuesday, the following directors were chosen: William S. Stevens, (president,) Chas. Woodman, Zimri S. Wallingford, John McDuffee, Jeremiah Horne, George Frank Hobbs and Chas. H. Sawyer. A semi-annual dividend of five per cent was declared.

Mrs. Bond of Portland, said to be a descendant of William IV. of England, has been consulting the early records of Greenland and Rye, to find the genealogy of the Weber, Spencer and Rowe families, as it is alleged that some thirty or forty millions' worth of property will come into their possession if their genealogies can be perfectly traced.

Newmarket this winter is having a series of semi-monthly social assemblies, at the last one of which a paper on dancing was read by Dr. A. T. Severance, earnestly and ably upholding it as beneficial when not carried to excess—in which latter case it becomes an injurious abuse, just as eating, sleeping or even water-drinking do, if inordinately indulged in.

In tearing down the old house on the corner of Water and Pray streets, which formerly belonged to the Salter estate and was recently purchased by Mr. John D. Randall, a Spanish silver coin was found, bearing the date 1773. The house is probably older than the coin, and yet some of the timbers look as fresh as if just from the woods, and can be used for other building purposes.

The schooner Agnes Bell, Capt. Fernald, arrived at this port from Eastport on Tuesday with a cargo of frozen herring, having made the trip from here to Eastport and back in nine days. She would have made it in seven days but for being becalmed. The same trip has sometimes taken nine weeks to perform. The schooner Addie & Hattie, Capt. Davis, also arrived from Eastport on Tuesday.

The great seal of Maine seems to have disappeared with the exodus of the fusionists. This reminds us that the ancient town seal of Newcastle (the town having been separately incorporated in 1693) has recently been discovered, after being missing for a long period of years. An old lady on the island, on being told that the town seal had been found, exclaimed, "Well, I suppose Major Urch will now be having it in his aquarium."

Mr. Joseph Emerson, a well-to-do and respectable citizen of Epping, disappeared from his home on the night of the 16th inst. under circumstances causing his friends grave concern. He visited Exeter on the forenoon of that day with his wife and son, and purchased suits of clothes for himself and the boy, returning home in apparent good spirits. Mrs. Emerson retired quite early in the evening, and awaking at about three o'clock next morning found her husband was not in bed. Immediate search was made, and it was found that he had taken his new suit, a double-barrelled shot-gun and some ammunition, and left the house; he was tracked to the main road, where the trail was lost. He has been somewhat depressed in mind this winter in consequence of suffering from rheumatism, but has exhibited no symptoms of insanity; and his family relations have always been pleasant.

Harper's Magazine for February has a rich table of contents, as follows: "Bartram and his garden," by Howard Pyle, eight illustrations; "A famous breviary," by Mrs. J. W. Davis, seven illustrations; "Washington as a burgher," by Wm. F. Crane, eleven illustrations; "A visit to the republic of San Marino," by John Bigelow, two illustrations; "The Drop-Star—a legend of lake Kayutah," illustrated poem, by Arthur C. Coxe; "The Percheron and Norman horse," by A. B. Allen, one illustration; "The lover's peril," poem, by James T. Fields; "Grub stakes and millions," by A. A. Hayes, Jr., twelve illustrations; "Hector Berlioz," by Emily Royall; installments of "White Wings" and "Mary Anerley;" "Mr. Keesler's horse-car," by Edward Everett Hale; "A symposium of wood-engravers;" "A night in an avalanche," by S. H. M. Byers; and very full and interesting editorial departments—Easy chair, literary record, historical record and "drawer," the latter containing six engravings illustrative of "decorative high art." Now ready for delivery to subscribers, or for sale by the single number, at Moses Brothers' news depot and W. G. Myers' bookstore.

SUPREME COURT.

TUESDAY, Jan. 20th; *Clark, J.*

The January term of this Court commenced at Exeter on Tuesday, Hon. Lewis W. Clark, of Manchester, presiding justice. Prayer was offered by Rev. Mellen Howard, of the Methodist Episcopal church in Exeter.

The jurors returned to serve Wednesday are John Walsh, Nathan Whalley, Geo. Stott, John E. Locke, Portsmouth; Moses J. French, Jacob Webster, Jr., Kingston; Bradford S. Kingman, Clarence D. Dolloff, Newmarket; Wm. A. Dinsmore, Harrison G. Robinson, Windham; Jas. M. Nesmith, Daniel Hitchcock, Atkinson; Wm. A. Pingree, Chas. P. Emery, Auburn; Otis Bartlett, David Jewell, Brentwood; Chas. A. Jones, Isaiah S. Lang, Benj. Dearborn, Chester; Albert J. Merrill, Nathan Hoyt, Danville; David J. Ballou, Alvin K. Mead, Deerfield; Geo. A. Goodhue, Robt. H. Clark, Derry; Eliphalet W. Philbrick, Geo. W. Sanborn, East Kingston; Herbert F. Dunn, Nathaniel B. Collins, Exeter.

Judge Clark, in the belief that the former practice of devoting an entire week to the hearing of cases on the equity docket is needless, orderede th petit jurors to appear on Wednesday morning at ten o'clock, to which time court adjourned.

In Murdock McKey of Nottingham vs. Ida E. McKey, a divorce was decreed. Smith for libellant.

Upon call of the docket the cases numbered as follows were marked for trial: Nos. 6, 7, 8, 32, 53, 56, 62, 73, 75, 78, 79, 81, 82, 83, 84, 93, 97, 98, 99, 101, 109, 116, 118, 119, 123, 124, 126, 127, 132, 135, 136, 139, 144, 145, 146, 148, 149, 151, 153, 154, 157, 159, 160, 161, 162, 163, 164, 175, 166, 167, 170, 174, 177, 178, 179, 182, 185, 187, 188, 189, 190, 197, 198, 200, 201, 206, 207, 225, 226, 227, 228, 231, 235, 236, 237, 238, 240, 241, 244, 245, 246, 247, 248, 251, 252, 258, 259, 260, 261, 262, 272, 277.

State vs. E. R. Ingalls of Candia, for embezzlement; case is to be tried January 27th.

The case in order for trial on Wednesday morning is Moses Noble vs. Edward G. Shute, a suit concerning the purchase of land in Derry. C. U. Bell and Hatch for plff.; Bartlett for deft.

YORK COUNTY ITEMS.

The Biddeford *Times* says: "The schooner Parallel, loaded with iron and potatoes, which was wrecked at Cape Porpoise, has been stripped of all the things that are of any value. The iron will soon be shipped to Boston. The potatoes will be a total loss for table use, and will probably be sold to the highest bidder."

At four o'clock Monday afternoon Capt. C. B. Berry, commanding the Biddeford Light Infantry, received orders from Acting Adjutant-General Frank E. Nye as follows: "Put your company in the armory at once. Recruit if you are not up to your full number of muskets, uniform or no uniform; and be in readiness to report at a moment's notice." The company were in their armory all Sunday night, waiting orders; and everything at the armory was found on a "war footing" Monday by a reporter who called there.

Naval Affairs.

The United States ship Constellation arrived at New York from Gibraltar on Monday, having on board the officers and crew recently relieved from the Trenton.

Medical Director J. Winthrop Taylor, U. S. N., died suddenly Monday morning at his residence in Boston, of heart disease. Taylor was a native of New York, and was sixty-three years old. He was appointed to the navy from New Jersey, March 7th, 1838.

New Hampshire Items.

The depot of the Manchester & Lawrence railroad in Londonderry, and a shoe factory adjacent, were burned Tuesday.

Sheriff Scott of Peterboro' arrested Jacob Chandler, nearly seventy-six years of age, on Monday, for bigamy. He is a member of the Baptist church, and father of four grown-up daughters.

A meeting of the stockholders of the Monadnock railroad was held at Peterboro', Monday. The lease to the Cheshire railroad was unanimously ratified. A new car house and other improvements will be made this season.

Dexter Richards, Esq., of Newport, probably owns the finest pair of steers, coming two years old next spring, in New Hampshire. They are of Durham breed, red, finely matched, and weigh 2,450 pounds. They are honored with many visitors, from far and near.

The Poor Tramps.

A bill has been introduced in the New York legislature providing that every tramp upon conviction shall be punished by imprisonment at hard labor in the nearest penitentiary for not more than twelve months. All persons who rove about from place to place begging, and vagrants, will be deemed tramps; and any tramp who enters a building without the consent of the owner, or kindles a fire on the highway or the land of another person, or is found carrying dangerous weapons, shall be deemed guilty of felony.

Interesting to Fishermen.

A patent case involving a question as to a right to a patent in the process of curing fish was decided by Judge Lowell of the United States circuit court in Boston last week.

It seems that John Atwood obtained a patent (No. 90,334,) May 25, 1869, for an improved process for curing and putting up fish. He declared in his specification that the cause of the offensive odor of fish cured in the ordinary way was the mucous membrance between the skin and the flesh, which, when dried and afterwards moistened, became slimy and offensive. His new method was thus described: "When the fish is fresh I take out the principal bones and fins, the fish remaining whole or split in halves. When partially dried, I remove the skin and with it the entire mucous membrane, the cause of the offensive odor of salt fish. I then pack in light wood boxes of convenient size—for instance, from ten to one hundred pound boxes." He claims "the method or process for curing and putting up fish substantially as described." It was explained that the method was particularly applicable to cod and haddock. There was evidence tending to show novelty, utility and infringement. The main question in the case was whether there was invention to support the patent.

The judge in his opinion says that the evidence proved that Atwood made a discovery; that there is in the fish to which his invention is applicable what he calls a mucous membrane, and what others call an inner skin, and that the presence of this inner skin is highly injurious to the keeping quality of salt fish. The judge saw no reason why the person who improves the art of curing fish by removing a part of the animal not before known to be injurious, but in reality so, should not have a patent for it. The decree was accordingly for the plaintiff.

—Said one of society's smart ornaments to a lady friend: "This is leap year, and I suppose you'll be asking some one to marry you?" "Oh, no," was the reply, "my finances won't permit me to support a husband."

The Tribune Almanac for 1880.

The simple announcement that the *Tribune Almanac* for 1880 is now ready is the only hint which the American public requires in reference to this annual register. This is the only almanac published in the United States that has a national reputation. The eclectic principle lies at the base of a thoroughly digested almanac. The *Tribune Almanac* does not have encyclopaedic aims. It is a commonsense manual of American politics intended for actual use by a practical public.

The general table of contents of the present issue will be familiar to the public. After the calendar pages and astronomical observations is placed a digest of the public laws of the regular and extra sessions of Congress, with summaries of the party platforms adopted in 1879, and the constitutional amendments enacted and sanctioned in various States. The chapter on the elections of United States senators is next in order, and is followed by a table of the electoral vote for President from 1864, and lists of the principal executive, departmental, diplomatic and judicial officers. Among the government, commercial and miscellaneous statistics are tables relating to railroad mileage and business, imports and exports, iron-ship building since 1870, revenues and expenditures since 1875, appropriations for 1879 and 1880, immigration since 1870, coinage in 1879 and previous years, production of gold and exports of coin and bullion, national bank, currency and savings bank tables, internal revenue statistics, public debt of the United States, and value in United States money of foreign coins. Among other civil lists are the rolls of the XLVIth Congress, the governors of the States, and the State government county clerks and sheriffs of New York. The body of the work is reserved for election returns from the States.

The *Almanac* has been compiled by Hon. Edward McPherson, a statistician of national reputation, who has conducted the series for several years. The price remains as before—twenty-five cents for each copy—with the usual discount to the trade. The *Almanac* for 1880 will be sent post-paid to any address in the United States, on receipt of the price, and all orders will receive immediate attention.

Elijah Nast died in Brooklyn, N. Y., Monday, from a stab wound inflicted by Stephen Meeker, while the former was defending his sister (Meeker's wife) from a beating by Meeker.

THE only combination of the true Jamaica Ginger with choice aromatics and French brandy, for cholera, cholera-morbus, cramps and pains, diarrhœa and dysentery, dyspepsia, flatulency, want of tone and activity in the stomach and bowels, and avoiding the dangers of change of water, food, and climate is Sanford's Jamaica Ginger. Ask for Sanford's.

Patrick Redden was knocked down stairs while at a dance in Bridgeport, Conn., Thursday night, by an unprovoked blow from a young rough named John McQuillan, and received injuries from which he died on Friday. McQuillan, who is only nineteen years old, and Bill McMullen, another young ruffian who was with him at the time of the murder, have been arrested.

Guard Against Disease.

If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

At Lancaster, Peoria county, Ill., on Saturday evening, Al Barnes shot Mattie Ford, his sweetheart, wounding her fatally, and then killed himself.

Pure Port Wine.

We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is highly beneficial in all its properties for invalids, especially females and aged persons and consumptives.

For sale by W. R. Preston, D. Kimball, F. B. Coleman, druggists, and H. F. Gerrish, grocer.

John Mitchell was shot in the eye and fatally wounded by E. Jacoby in Williamsburg, Sunday, while smashing Jacoby's saloon windows because he would not sell him liquor.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

"Adamson's botanic cough balsam has been used in our family for more than three years, and we can recommend it as a superior remedy for coughs and colds."

ONE peculiar characteristic of Fellows Compound Syrup of Hypophosphites is its power of discomposing the food in the stomach, rendering digestion and assimilation more perfect. This partly accounts for the rapidity with which patients take on flesh while using the article.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen,*—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with scurvy, I could not rest with the burning heat and itching of the parts affected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1872 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr.—— (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor, he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr.—— of East Boston, and Dr.——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swallowed five hundred arsenic pills, 5-20 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that as soon as I commenced the use of CUTICURA it came to the surface and festered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions to the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of as constant suffering as was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I feel we owe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT.

WILLI M TAYLOR,
BOSTON, Aug. 22, 1878.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains 400 pages and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL

Diseases of the pulmonary organs are so prevalent and fatal, that a safe and reliable remedy for them is invaluable to every community. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative properties of the finest drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables us to invite the treatment of Coughs, Colds, Sore Throat, Bronchitis, Clergyman's Sore Throat, Croup, and Consumption, with the confidence that it will produce results. An occasional dose of this preparation will ward off attacks of Croup, and in sudden attacks, in the hoarse cough and suffocation, it is invaluable.

Consumption, which AYER'S CHERRY PECTORAL cures more than all other the combined, it is the most reliable remedy we can give our patients, and we feel that we are doing them a service when we recommend it. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists everywhere.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—Dear Sir: You obtained for me, in 1866, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still rely almost all the whole of my business in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, Geo. MacDonald, Mrs. Alphan, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turguenief, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-seventh* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above one hundred and twenty-five* of the Choicest Foreign Literature and Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers* and *Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly; it presents in an inexpensive form, considering its great amount of matter, with fresheness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Poetry, Records of Travel and Discovery, Political, Scientific Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"Of works the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that though its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a thorough compendium of all that is admirable and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis those numbers of 1879 which contain, besides other interesting matter, the first chapters of "THE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

Club-Prices for the best Home and Foreign Literature.

"Possessed of the LIVING AGE and one or other of our expensive American monthlies, a subscriber will find himself *in command of the whole situation.*"—*Phila. Evening Bulletin.*

For $10.50 THE LIVING AGE and *either* one of the American $4 monthlies (or *Harper's Weekly* or *Bazar*) will be sent for a year, *both post-paid*; or, for $9.50 THE LIVING AGE and the *St. Nicholas*, or *Appleton's Journal*. Address,

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood.

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or enterrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

MPORTANT LETTE

From a Distinguished Physician.

NO single disease has entailed more suffering or hastened the breaking up of the constitution of starch, of the sense of smell, of taste, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison distributes throughout the system stacks every vital organ, and brings up the most repulsive of constitutions ignored because but little understood by most physicians, impotently assisted by quacks and charlatans who scarcely from it have little hope to be relieved if it is this side of the grave. It is time, then, that the popular mind should be aroused to a way of advertising, but it shows that we have faith in the article.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen. So, in private, not only freely recommend it but in instances have preferred to any of the proprietary medicines usually prescribed by physicians.

"You asked me," said a leading Boston city physician, "what my obligations to the Mass. Medical Society and what I consider proper conduct in recommending a medical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the numerous medicines, I have privately advised its use, and presume have sent to your store no less than one hundred patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we have never sold a similar preparation which gave universal satisfaction. We have to learn the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of the public, and we think those afflicted should be convinced of its great merit so that the suffering will be relieved. We have been in the drug business for the last twelve years constantly, and sold everything of any account, but we find that your Radical Cure is the best we can use this letter or any part of it that you wish.

Very truly yours, C. H. BALDWIN & CO., Wholesale and Retail Dealers in Drugs, Books and Stationery, Washington, Ind., Feb. 22, 1876.

Each package contains Dr. Sanford's Improved Inhaler, and full directions for use in all cases. Price $1.00. For sale by all wholesale and retail druggists in Eastern Canada and the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

ELECTRICITY

is a grand curative and restorative agent in all qualled by any element or medicine in the history of healing art. Unless the vital powers be sufficiently strengthened by means of electricity is possible. It is at a resort of all physicians and surgeons, and has received more approbation than any other agency, and there is no other human agency, and there is no other. This is the leading curative element of the plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam pine and the gums of the East are too well known to need description. Their gradual, healing, soothing, and strengthening properties are known to the sick. When combined in accordance with late and partial discoveries in pharmacy, their healing and regulating properties are increased tenfold. A Voltaic Plaster is the best to use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents, each of which performs its function and united produces results never before obtained. This plaster ever before compounded in the history of medicine. TRY ONE. PRICE, 25 CENTS.

Swift Punishment of a Swindler.

Curious stories are told by hunters, of the swift judgment inflicted by wolves on any member of a pack who may deceive his companions. They have the power of communicating with each other, and a certain sense of justice due to offenders. One of these stories belongs to the early history of Biddeford.

The settlers of Maine found, besides its red-faced owners, other and abundant sources of annoyance and danger. The majestic forests which then waved where a thousand villages now stand, were the homes of innumerable wild and savage animals. Often at night was the farmer roused from sleep by a noise without, which told that bruin was storming the sheep-pen or pig-sty, or was laying violent paws on some unlucky calf; and often on a cold winter evening did the family roll a large log against the door, and with beating hearts draw closer around the fire, as the dismal howl of the wolf echoed through the woods. The wolf was the most ferocious, bloodthirsty but cowardly of all their enemies, rarely attacking a man, and seeking his victims with the utmost pertinacity.

One of the pioneers on the Saco river was one autumn engaged in falling trees at some distance from his house. His little son, eight years old, was in the habit while his mother was busy with household cares, of running into the fields and woods around the house, often going, to where his father was at work.

One day, after the frost had robbed the trees of their foliage, his father left his work sooner than usual, and started for home. Just on the edge of the forest he saw a curious pile of leaves. Without stopping to think what had made it, he cautiously removed the leaves, when what was his astonishment to find his own darling boy there sound asleep. It was but the work of a moment to take up the little sleeper, put in his place a small log, replace the leaves, and conceal himself among the bushes to watch the result.

After waiting there a short time he heard the wolf's distant howl, quickly followed by another, until the woods seemed alive with fearful sounds. The howls came nearer, and in a few moments a gaunt, savage wolf leaped into the opening, closely followed by the whole pack. The leader sprang directly upon the pile of leaves, and in an instant scattered them in every direction. When he saw the cheat his look of fierceness and confidence changed to one of abject fear. He shrank back, cowered to the ground, and passively awaited his fate. The rest, enraged by the supposed cheat, fell upon him, tore him to pieces, and devoured him on the spot. When they had finished their comrade they wheeled around, plunged into the forest and disappeared, and within five minutes after their first appearance not a wolf was to be seen.

The excited father pressed his child to his bosom and thanked the kind Providence which led him there to save his dear boy. The boy, after playing till he was weary had lain down and fallen asleep, and in that situation the wolf had found him and covered him with leaves, until he could bring his comrades to the feast, but himself had furnished the meal.

—A lady stepped into a store and asked the new clerk if he had any rock candy. "No, ma'am," he replied; "I haven't any rock candy, but here's a brick you are welcome to, if it will answer your purpose."

THURSDAY, JANUARY 22, 1880.

The Geneva Award Fund.

WASHINGTON, D. C., Jan. 20th.

A bill for the distribution of the balance of the Geneva award fund now held by the United States government, is now before the judiciary committees on the part of the Senate and House, and speedy action is being urged by petitions and memorials to both houses. The fund now in the treasury was paid to the United States government by Great Britain on Sept. 9th, 1873, to cover losses occasioned by the depredations of rebel cruisers on our commerce. About half the amount paid was distributed under the law passed by Congress in 1874; the balance is asked for by persons who incurred losses by the depredations of the "exculpated cruisers," and the payers of war premiums.

The nation has endorsed this claim—has demanded pay for it from England—has got the money and receipted the bill: what now is to be done to induce Congress to disgorge and pay the sufferers? In my judgment, as far as practicable the parties in interest should prefer their claims personally, or by memorial, or petition, or a delegation representing the sufferers,—instead of by attorney, whom every member of Congress knows would as soon advocate the defeat of a measure as to promote its success, if paid for it. The amount now in the treasury, with accumulated interest, is about ten millions of dollars; and if Congress should pass a bill this session it will distribute in New Hampshire about two hundred thousand dollars, more than half of which is for Portsmouth account.

The opponents of the passage by Congress of any measure to distribute this fund among its rightful owners, are the insurance companies, which after making three and a half millions in premiums over and above all losses paid by them, are here to put in their special plea to have the whole matter referred to the court of claims,—an abyss which, if it enters, it will never see daylight again, unless it appears through the financial reports of insurance companies, showing large profits made by the late rebellion, added to what has already been shown. No obligation exists to disburse any of this fund to those who were benefitted by the conduct of Great Britain.

The judiciary committee on the part of the House, have decided to give a hearing to the parties in interest on the 26th and 27th of this month. ALTITUDE.

Big Fires in New Hampshire.

A fire at Milford, on the night of the 20th inst., destroyed property to the amount of $7000; insurance $2800.

The Claremont Manufacturing Co.'s buildings were partially destoyed by fire on the 21st., the large store building known as Ide's paper mill, with all its machinery, one stock house, and the repair shop, being burned. The bindery, printing house and one stock house, were saved. Loss $30,000; insured $11,500. The company has orders ahead for three hundred tons of paper.

News and Notes.

The man arrested at West Boylston, Mass., on suspicion of being the murderer of Mrs. Crue at Groton, gives the name of George E. Dodge. He turned out not to be the murderer, but is held on charges of larceny and obtaining money under false pretences at West Boylston. A man was arrested at Danielson, Conn., on the 20th inst., on suspicion of being the Groton murderer.

The treasury department will in a few days issue a modified order regarding the importation of cattle into the United States. The Canadian government has issued an order providing that all cattle imported from European countries shall be subject to three months quarantine. This is identical with an order issued by our government. In consequence of this Canadian order the secretary of the treasury will issue an order removing the restrictions placed upon cattle brought from Canada into this country.

The house military committee has again changed the bill relating to Fitz John Porter. In lieu of paying him $75,000 back pay, they have modified the bill so as to provide that he shall be placed on the retired list, to date from the time he was dismissed from the army, and to be paid as a retired officer. This will give him about $50,000.

The inquest into the cause of death of Horace and Arthur Beard, two boys who were found burned to death in their bed in Andover, Mass., several weeks ago, has resulted in a verdict that their mother set the fire. Mrs. Beard is a widow, and a lady of refinement and high social position, and it is believed her mind is unsettled.

Ex-Governor Westcott of Florida died in Montreal on Monday, aged 79 years.

The president on the 20th inst. nominated H. W. Gardner to be postmaster at Providence, R. I., in place of Gen. Brayton, who has resigned. The Senate confirmed the appointment without any reference to a committee.

When the thirty-days sentence of Rev. A. Paige, of South Glastonbury, Conn., for lascivious conduct, expires, he will be tried on a charge of sending obscene literature through the mails. It is said that in his last letter to the woman he ruined, Paige drew an obscene picture, accompanied by equally vile remarks.

Dr. Joseph H. Warren, of Boston, on the 20th inst. presented before the Otsego county medical society his new radical cure for rupture. He was enthusiastically welcomed, and received a flattering series of resolutions from the profession. Over 300 physicians were present.

It is stated that Gen. H. V. Boynton, the well known newspaper correspondent, is about to bring suit against Gen. Sherman for slander.

On Monday, the 19th inst., Postmaster Tobey of Boston received an anonymous letter signed "Repentance," in which the writer stated that a week previous he called at the office, seeking to be employed as a letter carrier, and while the clerk's back in the postmaster's office was turned, had stolen two letters that were on the desk ready to be mailed. He had found a $5 bill in one, and as he had found employment since, he returned $4 of the $5 stolen.

A Warrentown, Va., despatch says that the mob who hung the negro Jordan, after taking him from the jail dragged him by the neck to the cemetery, where they hung him, his head nearly being cut off by the rope. Jordan's crime was marrying a white woman.

A fire at Tokio, Japan, December 26th, laid waste miles of ground, destroying 15,000 houses and rendering over 50,000 people destitute. About one hundred people were killed.

By a colliery explosion near Newcastle, England, on the 21st inst., between seventy and one hundred persons lost their lives.

Bids will be opened at 12 o'clock, M., on Wednesday, the 10th day of March, 1880, for Stores located as follows, to wit:

Augusta Arsenal, Ga.; San Antonio Arsenal, Texas; Benicia Arsenal, Cal.; Vancouver Arsenal, Wash. Ter.; Fort Union, New Mex.; U. S. Military Academy, N. Y., and the Forts in the following-named States and Territories, to wit:

Alabama, California, Florida, Georgia, Kentucky, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Nevada, North Carolina, Oregon, South Carolina, Texas, Alaska, Arizona, Colorado, Dakota, Idaho, Indian, Montana, New Mexico, Utah, Washington, Wyoming.

For list of Stores in detail, location terms, &c., see catalogue, which can be procured on application at the Ordnance Office, War Department, Washington, D. C., at this Agency, or at any of the Arsenals or Depots; and the Commanding Officers of Forts will furnish on application information as to what Stores on hand at their respective posts are for sale.

Bidders will state explicitly the posts where the Stores are located which they bid for, and will give the kinds and quantities they propose to purchase.

Delivories will only be made at the various posts where stored.

The Department reserves the right to reject all bids which are not deemed satisfactory.

Prior to the acceptance of any bid it will have to be approved by the War Department. Terms Cash. Ten per cent. at the time of award and the remainder when the property is delivered. Thirty days will be allowed for the removal of Stores.

Packing boxes will be charged at prices to be determined by the Department.

Proposals will be addressed to the U. S. Ordnance Agency, New York, (P. O. Box 1811) and must be endorsed "Proposals for purchasing Stores," with the names of the Arsenals, Forts or Depots where stored, and the names of States or Territories in which the stores are located.

S. CRISPIN, Byt. Col. U. S. Army, Col. of Ord., Commanding.

Affairs in Maine.

The commanders of the various military companies were on the evening of the 20th inst. notified to dismiss their commands, but to be ready to respond at once if called on.

The rump legislature had a meeting on the 21st, but did not do anything serious.

Advices from Augusta say the exclusion of the so-called fusion legislature from the State house on the 19th was justified by information received that they meant to sit right along without adjournment. The city marshal and others ascertained from positive information that enlistment for the fusion side had been going on for twenty-four hours in preparation for the event, and it was deemed simply an act of common prudence to close the building to the public that afternoon, to say nothing about the recognition by Gov. Davis of a quasi-governor and quasi-legislature. This plan was fully known at the State house, and is now authoritively made public so that the people may know that the authorities had good reason for closing the house.

In the legal legislature, Samuel A. Holbrook, of Bath, was elected State treasurer.

—The hard fighting in India continues, but the fighting isn't half so hard as the names they are fighting about.

Important.

When you visit or leave New York city, save Baggage Expressage and Carriage Hire, and stop at *Grand Union Hotel*, nearly opposite Grand Central Depot. 350 elegant rooms reduced to $1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse Cars, Stages and Elevated Railroad to all depots. Be careful and see that "Grand Union Hotel" is on the sign where you enter office in the centre of the block. d&wtuo1**

AROUND HOME.

Rev. N. H. Chamberlain will officiate at St. John's church on Sunday next.

A new greenback paper, the *Protest*, will be issued at Exeter in a short time by Mr. A. J. Hoyt.

Mr. Benjamin Canney, teamster, on Monday night of this week lost a valuable horse, said to be worth $200. This is the second horse Mr. Canney has had die within a short time.

Work on the enlargement of the Eastern railroad depot in this city has commenced. The south side of the structure is being removed, preparatory to the construction of a large restaurant and waiting rooms.

Mr. H. W. Butler of East Rochester it is announced will shortly remove his shoe manufacturing business from that place to this city, and will occupy the large building at the Creek, formerly the Jarvis hosiery manufactory.

The news from Maine continues to be quite interesting. If anybody should find the print difficult to read, now is the time for them to have their eyes perfectly fitted with glasses. Give your name to Prof. Brown's agent when he calls.

The *Weekly* says that "a lady of this city, recently deceased, was a grandmother at thirty-six; another, yet living, was a grandmother at thirty-six, and her mother, also yet living, a great-grandmother at fifty-four; and a colored fellow-citizen was a grandfather at thirty-four."

At auction in Boston, Wednesday of this week, forty shares in the Kearsarge mills were sold at 50 1-4, div. on; Eastern railroad stock brought 26 1-2; Portland, Saco & Portsmouth railroad, 105 3-4; New Hampshire State 6s, 1892, 114 1-4; Eastern railroad 4 1-2s, 1906, 86 1-2. At the brokers' board on the same day Eastern 4 1-2s brought 86 3-4 and 87.

The Dover *Democrat* of the 20th inst. says: "We have it from the best authority that the Cocheco manufacturing company are having plans made for one new large mill to take the place of the present four old mills. The machinery that now occupies twenty-six rooms in the old mills will all be placed in six rooms in the new mill, and about one-half of the machinery is to be entirely new. The constantly augmenting demand for the very superior goods of the Cocheco company makes this change and increase of facilities imperative, and it will soon be accomplished. This means business on an extensive scale, and a large increase in both population and valuation of our city is sure to follow."

Monday of this week there was something of a skirmish at the Green street railroad crossing, between four tramps on one side, and the flag-man, a one-legged individual named Barrett. The four bummers had a bottle of rum, and proposed to enter the flag-man's little watch-box to have a drink; this was objected to by Barrett, and when the bummers undertook to force their way in there was a fight right away, and after considerable ground and lofty tumbling Barrett thrashed the whole crowd. At a later hour Mr. Hart Twombly, train-shifter, pulled one of the fellows out of a freight car, where he said he went to get a sleep; and finally three of them got into the police station. There was a swarm of tramps about the depot that day.

An amusing incident is related of Miss Helen Potter, who performed here in one of the entertainments of the Rockingham course. While impersonating Queen Catherine, and giving the death scene a la Charlotte Cushman, she expired in a chair in true artistic style; the death rattle was heard, the last flutter gone through with, and then all was hushed; the silence of death pervaded the house, while Catherine, motionless in her chair, waited for the curtain to drop. But through some oversight on the part of the scene-tender, the curtain did not give the slightest inclination of shutting out the fair inanimate from view of the audience; another little death agony was gone through with, and a long and painful pause then ensued. Finally the corpse gave one short, sharp, and very much emphasized "Well," and the resurrected queen rushed off the stage like Daniel O'Leary on a spurt, followed by the applause of the much amused audience.

Mr. Joseph R. Holmes of this city, with a gang of men, on Monday of this week commenced to cut ice at Newcastle for the hotel Wentworth. The ice is about nine inches thick.

The canvasser for the *Rising Faith*, the new liberal religious monthly published at Manchester, secured one hundred subscribers in this city on Monday and Tuesday of this week.

Dr. David Kimball and Mr. Edmund M. Brown are said to be the only persons now in business in this city who were in business fifty years ago under their own names or as heads of firms.

Mayor Sise, Col. D. J. Vaughan and other citizens, and many of the past and present commissioned officers of the militia companies in this city, went to Concord to take part in the reunion of the New Hampshire National Guard, Wednesday.

On the forenoon of the 21st inst., Mr. Brown's job sleigh was backed up to a freight car at the Eastern railroad depot, when the horse became frightened at an engine, and starting quickly threw Mr. Brown out. The animal ran down Elm street, slammed the hinder end of the sleigh against the underpinning of the "White Hart" hotel, slightly damaging the vehicle, and then kept on down Russell street nearly to Market street, where he was stopped by an Irish woman who opened a window and directed him to "whoa." The damage was trifling.

SUPREME COURT.

WEDNESDAY, Jan. 21st; *Clark, J.*

The petit jury came in at ten o'clock A. M., and Judge Clark gave them some important general instructions as to their duties.

Case Noble vs. Shute was put on trial; John C. Bradley, of Danville, foreman of jury. The day was occupied in hearing this case, which was not finished at adjournment.

YORK COUNTY ITEMS.

The stores taken out of the U. S. S. Plymouth on the 20th inst. have been temporarily stored in the abandoned buildings on Seavey's island, and will be thoroughly baked in the oven in which the materials brought home from South America by the Guard were cooked, before being received into store on the yard proper.

The schooner Addie Jordan, of Saco, which went on Toddy rocks, below Boston, in a snowstorm some time ago, and was at one time expected to become a total loss, is now on the ways at Boston, repairing, having been gotten off the rocks by Capt. Moses B. Tower. Her repairs will cost about $1000, and as she is a good vessel and valued at $18,000, she was worth saving.

SOUTH ELIOT, ME., Jan. 21st.

The first lecture in the course at South Eliot, Jan. 12th, was given by Rev. C. B. Pitblado of Portsmouth, (subject "Wanted,") in his own eloquent and inimitable style, to the great pleasure of a large audience. The second evening's entertainment, Jan. 19th, consisted of readings and recitations by Miss Giddings, also of Portsmouth, whose selections were good, and whose renderings were *very fine*, and it seems to us hard to be beaten, bringing down again and again the applause of the large audience present. Miss Giddings will be welcomed at any time at South Eliot. Our next lecture, Jan. 26th, will be delivered by Rev. Mr. Christie of Salmon Falls, N. H.; subject, "Robert Burns." K.

Naval Affairs.

The U. S. S. Swatara sailed from Boston on the 21st inst.

The secretary of the navy has issued a general order announcing the death at Martinsburg, Va., on the 17th inst., of Rear Admiral Cornelius K. Stribling.

New Hampshire Items.

A consultation of the leading greenbackers of this State will be held at Manchester to-day.

Mrs. Alice B. Belcher of Lebanon on the 19th inst. fell down the cellar stairs, striking on her head, death ensuing in a short time. She was aged twenty-seven years.

The Wolfeboro' *News* says that robins were heard singing in that village on Monday morning, the 19th.

City Treasurer Geo. E. Gage of Nashua on the 17th inst. paid the first bonds issued by the city, twenty-five years ago, amounting to $6000. These were in payment for the Taylor's Falls bridge, and were dated Jan. 1st, 1855. The bonds have been held all these years by the New Hampshire savings bank at Concord.

The State board of agriculture will hold a meeting at the town hall in Plaistow on the 26th inst., and in Centennial hall, North Hampton, on the 28th. Sessions will be held afternoon and evening, in each town. The subjects discussed will be such as circumstances require. All are invited, ladies as well as gentlemen, especially to the evening session.

Members of the last three legislatures in New Hampshire will be pleased to learn that David H. Rand, the bright young fellow who served them as page in the House, and who went to California soon after the adjournment last summer to join his father, has been appointed postmaster of the California assembly, an honorable and lucrative position.

New Publications.

The *American Journal of the Medical Sciences* (quarterly,) for January is received from the publisher, Henry C. Lea, Nos. 706 and 708 Sansom street, Philadelphia. This standard publication is always filled with information of the utmost value to the medical profession, and extra inducements are offered to subscribers for 1880, as follows: For five dollars, *in advance*, the *Journal* (quarterly) and the *Medical News and Abstract* (monthly) will be sent for one year, post-paid; when not paid in advance the terms are—*Journal* $5, *Abstract* $2.50; so by paying for the quarterly in advance, the subscriber secures the monthly publication free of cost.

The *Sanitarian* for January contains a continuation of the report of the "Proceedings of the American Public Health association," the "First case of yellow fever in New Orleans, in 1878," by the physician who attended it, a full and valuable "Editor's table," etc. A. N. Bell, publisher, No. 8 Spruce street, New York city; $3 per year; single number thirty cents.

The Official Postal Guide.

The January number of the United States Official *Postal Guide* makes a book of about 650 pages, containing many features which render it indispensable to all who wish clear and accurate information about all matters connected with the postal service. It contains alphabetical lists—

1. Of all post offices in the United States, with county and State;
2. Of post offices arranged by States;
3. Of post offices arranged by States and counties, with the geographical position of the counties;
4. Of the money-order offices, domestic and international;
5. Of post offices of the first, second, and third class, with salaries;
6. Of counties, and a list of letter-carrier offices;
7. Of Canadian money-order offices.

Information about mailable matter; full directions about money-orders and registered letters; rates of foreign and domestic postage; sailing of mail steamers; latest rulings of the post office department; and other needed information about postal matters. All these make the January number indispensable to business men, and to all who use the post office to any considerable extent. Price, in paper, $1.00; cloth, $1.50. Can be procured of postmasters, booksellers, and news dealers, or of the publishers, Houghton, Osgood & Co., Boston, Mass.

It is not an unusual thing for sparks from locomotives to start fires, but it is not often that such a spark costs the company owning the locomotive $100,000. A verdict for this amount was, however, recently returned by a Toronto jury against the Canada Central railroad, in behalf of a burned-out lumber dealer.

Ship building in Maine, the present year, will be carried on quite extensively. The mild winter has been very favorable for those who are cutting and moulding vessel frames in the woods; and there have been no snow-drifts to prevent loaded teams from making their regular trips.

The seeds of sickness and of death
In a disordered mouth are sown;
When bad the teeth or foul the breath,
Both soul and body lose their tone,
Till SOZODONT'S brought into play,
And sweeps those dire defects away.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

The Goodale Assault.

The mystery of the murderous assault in Egremont, Mass., many months ago, by which Chester Goodale nearly lost his life, is in a fair way to be fully cleared up. Some weeks ago a notorious thief and ruffian named F. B. Webster was arrested, charged with a variety of crimes; and on the 20th inst., in the superior court at Pittsfield, Mass., he was tried on the first of the many indictments found against him, the indictment charging him with shooting, with the intent to kill, Thomas W. Edwards, who caught Webster in his store packing goods to carry away. Webster confessed to shooting at Edwards, but said it was not done with intent to kill, but only to frighten Edwards, so that he would have an opportunity to escape. The jury convicted him of shooting with intent to kill. The officers had previously obtained evidence connecting Webster with the Goodale assault, and after his conviction in the Edwards affair he made new revelations in the Goodale case. He now says that he and his uncle, Norman Notewire of Sheffield, planned the robbery of Goodale. Webster went to Egremont on the Sunday previous to the assault, to ascertain whether the old man did his chores alone. Finding that he did, he went back to Sheffield and reported to Notewire, and on Tuesday went to Goodale's barn, where he was to remain until Notewire joined him. On Tuesday night he stole a supply of provisions from Goodale's cellar, and lived in the barn, and on Wednesday night Notewire joined him. The plan was to throw a blanket over Goodale's head when he entered the barn in the morning, then rob him, and escape. Webster, as he says, concealed himself under the stairs, and Notewire stationed himself at the door leading to the stables. Instead of throwing a blanket over Goodale, however, as Webster expected to be done, he says Notewire struck him with a club which felled him to the floor. Notewire struck him twice after he was down, then robbed him of $22.50, and left. Webster set Goodale up against a partition and also fled. He met Notewire in a swamp about half a mile from the barn, and received from him a $10 bill as his part of the booty. The money he gave to his wife. He says the coat he now wears is one received from Notewire, and that there is blood on it under the collar, which spurted there when Goodale was struck. Acting upon this information officers arrested Notewire. He declares his innocence, and says he can prove an alibi. He is a man of hard character, and has served two years in prison for highway robbery. Webster also says that Notewire is the man who assaulted Station Agent Van Deusen of Stockbridge, and tried to rob him, in September last. The officers have some evidence to corroborate Webster's accusations against Notewire.

Cuticura

From the Hon. WM. TAYLOR, State Senator of Massachusetts.

MESSRS. WEEKS & POTTER: *Gentlemen*,—To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it in every sense of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and itching of the parts effected, and was confined to my house for three weeks at a time. My disease has been called Eczema, of a most aggravated type, by many physicians, but I doubt if ever fully understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the best physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to Boston, I was told by many friends that Dr. ——, (whose reputation for the cure of those diseases was of the highest order) could cure me. I waited on the doctor; he prescribed for me. I followed his advice for six months, and I can safely say, without any improvement. I tried other physicians, and among them Dr. ——, of East Boston, and Dr. ——, of city proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no time did I feel that a cure would result from them.

I have swollowed five hundred arsenic pills, 5.50 grain, and taken bottle after bottle of internal remedies, besides all the external applications I have used but the effect was the same. I become satisfied that I could not be cured, but might be kept from getting worse.

Now, about three months ago, Mr. Meehan, a gentleman well known to Boston people, called my attention to your CUTICURA, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persuaded me that I went with him to a drug store and bought two large boxes of CUTICURA, and some CUTICURA SOAP, and commenced to use it according to the directions. There was so much humor lodged within the skin, that at soon as I commenced the use of CUTICURA it came to the surface and festered, and a vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks' use of this remedy, I was greatly encouraged by a gradual lessening of the inflammation of a number of painful sores. I carefully, faithfully, and cheerfully followed the directions of the letter, feeling each week nearer a cure, until at present, after three months use of CUTICURA, and twelve years of a constant suffering as it was ever endured, I can say that I am cured, and pronounced my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICURA, and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICURA RESOLVENT. WILLIAM TAYLOR.

BOSTON, Aug. 22, 1878.

THE CUTICURA REMEDIES

CUTICURA RESOLVENT is the most powerful Blood Purifier and Liver Stimulant ever compounded.

POROUS CAPCINE PLASTER

BENSONS CAPCINE

That the public may be protected against imitations and fraud we specially caution all purchasers of BENSON'S CAPCINE POROUS PLASTERS to see that the word CAPCINE on each plaster is spelled correctly. Do not allow some other plaster to be palmed off under similar sounding names, with the assurance that it is the same thing or as good.

Bear in mind that the only object such vendor can have in the fact that they can buy imitations at half the price of the genuine, and they hope by this substitution to gain a small additional profit. SEABURY & JOHNSON, Pharmaceutical Chemists, New York.

THE BEST REMEDY FOR Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL

Diseases of the pulmonary organs are so prevalent and fatal, that a safe and reliable remedy for them is invaluable to every community. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it without difficulty. In the treatment of ordinary **Coughs, Colds, Sore Throat, Bronchitis, Influenza, Hoarseness, Clergyman's Sore Throat, Asthma, Croup, and Catarrh,** the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household, for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which AYER'S CHERRY PECTORAL has effected all over the world are a sufficient guaranty that it will continue to produce the best results. An impartial trial will convince the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.

Eminent physicians in all parts of the country, knowing its composition, recommend AYER'S CHERRY PECTORAL to invalids, and prescribe it in their practice. The test of half a century has proved its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

THE GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Alpheus Todd, Jean Ingelow, Mrs. Alexander, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Turgenieff, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1880, THE LIVING AGE enters upon its *thirty-second* year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, *above-mentioned and many others*, of the Choicest Serial and Short Stories by the *Leading Foreign Novelists*, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the *foremost Essayists, Scientists, Critics, Discoverers and Editors*, representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine*, giving more than

Three and a quarter Thousand

double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific Biographical, Historical and Political Information, from the literature of Foreign Periodical Literature.

The importance of THE LIVING AGE to every American reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS,

is sufficiently indicated by the following

Opinions.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—*Times, Cincinnati.*

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all its phases."—*North American, Philadelphia.*

"It is, by all odds, the best eclectic published."—*Southern Churchman, Richmond.*

"Gives the best of all at the price of one."—*New York Independent.*

"The prince among magazines."—*New York Observer.*

"It so fully supplies the wants of the reading public that through its pages alone it is possible to be as thoroughly well informed in current literature as by the perusal of a long list of monthlies."—*Philadelphia Inquirer.*

"To read it weekly is a liberal education."—*Zion's Herald, Boston.*

"With it alone a reader may fairly keep up with all that is important in the literature, politics and science of the day."—*The Methodist, New York.*

"It holds the palm against all rivals."—*Commercial, Louisville.*

"It is INDISPENSABLE TO EVERY ONE who desires a through compendium of all that is and is thought and note worthy in the literary world."—*Boston Post.*

"There is no other way of procuring the same amount of excellent literature for anything like the same price."—*Boston Advertiser.*

"The best literature of the day."—*New York Times.*

Published WEEKLY at $8.00 a year, *free of postage.*

EXTRA OFFER FOR 1880.

To all new subscribers for 1880 will be sent gratis and postage free, the numbers for October, other interesting matter, the first chapters of "HE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIPHANT, now appearing in THE LIVING AGE from advance sheets.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

Fellows' Compound Syrup is composed of Ingredients identical with those which constitute Healthy Blood, Muscle and Nerve and Brain Substance, while Life itself is directly dependent upon some of them.

By its union with the blood and its effect upon the muscles, reestablishing the one and toning the other, it is capable of effecting the following results:

It will displace or wash out tuberculous matter, and thus cure Consumption.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or centerrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtax, or irregular habits, Bronchitis—Acute or Chronic, Congestion of the Lungs, even in the most alarming stages.

It cures Asthma, Loss of Voice, Neuralgia, St. Vitus Dance, Epileptic Fits, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

Do not be deceived by remedies bearing a similar name: no other preparation is a substitute for this under any circumstances.

Political.

There is not a religious, an independent or a literary paper or magazine in the country that indorses the Maine steal, and there are very few that do not denounce it as the most outrageous and disgraceful piece of political villainy ever seen in the north.

The Manchester *Mirror* remarks: "It should not and will not be forgotten that from the conception to the collapse of the atrocious conspiracy in Maine, no democratic paper in New Hampshire, with the possible exception of the Laconia *Democrat*, has ever condemned the wickedness, or criticised the folly, of that gigantic crime. On the other hand, every one has helped egg on the idiotic knaves who, by defying the popular will and overriding law, decency and right, sought to hold their clutch upon the State. Neither has any prominent democrat had the courage to open his mouth in opposition; and, as far as the party in this State is concerned, it has adopted and indorsed the villany in all its enormity as a party measure."

Guard Against Disease.

If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick.

—When, upon inquiry after a young lady's health, we learn from her own lips that she is "nicely," we know that she was born in our beloved New England, and that she would be "purty well" out west, and "tolable" in the south.

Kidney Complaints

of all descriptions are relieved at once, and speedily cured by Kidney-Wort. In seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. Try it to-day.

ONE peculiar characteristic of Fellows Compound Syrup of Hypophosphites is its power of discomposing the food in the stomach, rendering digestion and assimilation more perfect. This partly accounts for the rapidity with which patients take on flesh while using the article.

Pure Port Wine.

We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is highly oneficial in all its properties for invalids, especially females and aged persons and consumptives.

A Notable Decrease in Failures.

The figures presented by the annual circular of the Mercantile Agency of Messrs. Edward Russell & Co., in relation to the failures of 1879, afford a most conclusive proof as to the healthy condition of business. According to the elaborate array of statistics presented in the circular it appears that the mercantile failures of 1879 were 6,658 in number, compared with 10,478 in 1878, a decrease of 3,820. But it is in the amount of liabilities that the decrease is most marked. In 1878 the indebtedness due by parties who failed was 234 millions of dollars, while in 1879 the libilities were only ninety-eight millions. In order to show that the reduction last year is not only great as compared with 1878, but compares favorably with other years, the following table is given, by which the failures and liabilities since 1872 are shown:

Year.	Failures.	Amount of Liabilities.
1872	4,269	$121,0 6,000
1873	5,183	228,499,000
1874	5,830	155,239,000
1875	7,740	201,000,000
1876	9,092	191,117,000
1877	7,673	190,669,936
1878	10,478	234,383,132
1879	6,658	98,149,052

A table is given showing the geographical distribution of the failures and the percentages in each locality, which contains some very suggestive comparisons. In the western States, for instance, the figures for 1879 show that only one trader in every 159 failed, as against one in every 200 in the middle States; one in every ninety-three in the southern States; one in every eighty-five in the eastern States; while in the Pacific States the failures have equalled one in every forty-five. Comparing these figures with those of 1878, the table clearly illustrates the uniformity of the improvement in the eastern, middle and southern States, and a gain so marked in the western States as to indicate a great stride in commercial solidity:

STATES.	Number in Business.	No. of Failures.	Percentage of Failures.	Amount of Liabilities.	Average Liabilities.
Eastern	82,332	970	1 in 85	$15,577,282	$16,059
Middle	250,527	2,290	1 in 100	35,534,191	15,517
Southern	105,374	1,076	1 in 93	15,876,768	14,755
Western	256,582	1,608	1 in 159	21,207,519	13,188
Pacific	22,126	714	1 in 45	9,933,338	13,940
Total	702,137	6,658	1 in 105	$98,149,053	$14,741
Canada	55,964	1,902	1 in 29	29,347,937	15,430

The foregoing table, the report says, conveys a better idea than any other of the real decrease in the *number* of failures, apart from the *amount* of indebtedness. The difference in the aggregate between 6,658 in number in 1879, as compared with 10,478 in 1878, seems much greater when it is realized that in 1879, only one trader in every 105 failed, as against one in every sixty-four in 1878. Extending the comparison back over some years, these are the results:—In 1876 every sixty-ninth man succumbed; in 1877 every seventy-third; in 1878 every sixty-fourth, while for 1879 it was only every one hundred and fifth trader who laid down his load. In an army of over 700,000 an improvement so marked would certainly beget a most hopeful confidence in its chances of success. A comparison of these figures with those that unfortunately still prevail in Canada, gives point to the marvellous improvement in the United States, though in the Dominion the signs of better times are unmistakeable.

The Groton Murder.

There is now little doubt that the identity of the wretch who murdered Mrs. Crue at Groton, Mass., is fixed. Mrs. Hughes, of Cambridge, reported to the police on the 20th inst. that a man named Stearns R. Abbott, who answered closely to the description of the Groton murderer, had been boarding at her place, but had left under suspicious circumstances after stealing everything he could lay his hands on. Photographs of Abbott and a dozen or so noted rogues were at once taken to Groton by the officers, and the different people who saw the suspected murderer in the vicinity of Crue's house, or actually in the building, shortly before the murder, were separately asked to select from the lot of pictures the one of the man they saw, and each one, without any hesitation, picked out Abbott's.

The murderer is six feet high and forty-two years old, weighs 160 pounds, has a very dark complexion resembling that of a mulatto, black curly hair, thin face, large black eyes, and black side whiskers, his moustache and chin-whiskers having recently been shaved. A reward of three hundred dollars is offered for his arrest.

He has served two years in State prison for larceny, and ten years for forgery and robbery.

National Guard Association.

The commissioned officers of the New Hampshire national guard on the 21st inst. met in Concord, and formed an association under the name of New Hampshire National Guard Association, officers being chosen as follows:

President, Gen. J. N. Patterson of Concord; vice presidents, Lieut. Col. Copp of Nashua, Capt. Shirley B. Cunningham of Portsmouth, Gen. Sturtevant of Keene; secretary, Dr. George W. Cook of Concord; treasurer, Adjt. Gen. A. D. Ayling of Nashua; executive committee, Capt. Dodge of Manchester, Lieut. J. B. Whittemore of Hillsboro' Bridge, Capt. Edw. D. Coffin of Portsmouth.

In the evening a concert was given in White's opera house by Eastman's orchestra, followed by a ball, Gov. Head and staff, and Ex-Gov. Prescott, with many prominent military men from out of the State, appearing in the grand march.

Independent Republican Principles.

The committee of "Young Scratchers" of New York has sent out the following as their "Statement of principles:"

Independent republicans adhere to the republican principles of national supremacy, sound finance and civil service reform, expressed in the republican platform of 1876, in the letter of acceptance of President Hayes, and in his message of 1879, and they seek the realization of those principles in practical laws and their efficient administration. This requires:

1. The continuance on the statute book of laws protecting the rights of voters at national elections. But national supremacy affords no pretext for interference with the local rights of communities, and the development of the south from its present defective civilization can be secured only under constitutional methods, such as those of President Hayes.

2. The passage of laws, which shall deprive greenbacks of their legal tender quality, as a first step toward their ultimate withdrawal and cancellation, and shall maintain all coins made legal tender, at such weight and fineness as will enable them to be used with out discount in the commercial transactions of the world.

3. The repeal of the acts which limit the terms of office of certain government officials to four years; the repeal of the tenure of office acts, which limit the power of the executive to remove for cause; the establishment of a permanent civil service commission, or equivalent measures, to ascertain by open competition and certify to the president or other appointing power, the fitness of applicants for nomination or appointment to all non-political offices.

Independent republicans believe that local issues should be independent of party. The words republican and democrat should have no weight in determining whether a school district or a city shall be administered on business principles by capable men. With a view to this, legislation is asked which shall prescribe for the voting for local and for State officers upon separate ballots.

Independent republicans assert that a political party is a co-operation among voters to secure the pratical enactment into legislation of political convictions set forth as its platform. Every voter accepting that platform is a member of that party; any representative of that party opposing the principles or evading the promises of its platform forfeits the support of its voters. No voter should be held by the action or nomination of any caucus or convention of his party against his private judgement. It is his duty to vote against bad measures and unfit men as the only means of obtaining good ones, and if his party no longer represents its professed principles in its practical workings, it is his duty to vote against it.

Independent republicans seek good nominations through participation in the primaries, and through the defeat of bad nominees; they will labor for the defeat of any local republican candidate, and, in co-operation with those holding like views elsewhere, for the defeat of any general republican candidate whom they do not deem fit.

News and Notes.

It is reported that Gen. Schenck will be nominated for the Brazilian mission in a few days.

Marshal Reed and the police force of Bangor, Me., on the 19th inst. arrested three thieves, who have been carrying on a regular system of robbery there and in the vicinity. They visited the disreputable house of Lemuel Copeland in Holden one night of the previous week, taking furniture, new carpet, a load of hay from the stable, etc. Most of the stolen property was recovered with the men.

Ice men at Bangor, Me., are feeling jubilant at the prospect of a very favorable season. Should the weather continue good a while longer 100,000 tons will undoubtedly be cut this winter. The ice is of excellent quality, and is now sixteen inches thick.

The sporting men of Lewiston, Me., and vicinity, are making arrangements for the introduction of a flock of migrating quails. They are said to multiply with wonderful rapidity. The experiment has recently been successfully tried in the vicinity of Rockland.

Webster, the ruffian who was convicted of committing several crimes and who pleaded guilty to charges of committing others, at Pittsfield, Mass., on the 20th and 21st insts., was sentenced to State prison for six years for murderous assault on Mr. Edwards at Alford, five years for murderous assault on Chester Goodale of Egremont, for three burglaries five years each, and for being a common and riotous thief five years; total, thirty-one years, five days of which is to be solitary confinement.

D. N. Jacobs, station agent at Thompson, Mass., was attacked on a recent evening by two tramps, who demanded his money or his life. He said he had no money, whereupon they pounded him severely, breaking his shoulder and nose, and inflicting other injuries. They took from him his watch and all valuables, and left. Jacobs is sixty years old.

Jewett Mann, of Windsor, Vt., on the 21st inst. had a pitched battle with his wife and two daughter. He charged the women with keeping a house of ill fame, when they attacked him with broomsticks, pokers, etc., and mauled him pretty well, he retaliating by striking one of the daughters a blow in the eye that probably destroyed its sight, and banging her over the head with a coffee-pot, cutting her badly. The ladies then whacked him some more with whatever weapons they could lay their hands on, and finally handed him over to the authorities. Mann threatened to give the particulars of how a child that disappeared some years since was murdered and burned up, if his prosecution was not stopped.

Daniel Searles, a negro, was hanged at Oswego, N. Y., on the 21st inst., for the murder of Eldredge Remey.

The *Press* of Troy, N. Y., says that a detective on the 21st inst. discovered and secured President Lincoln's walking stick, stolen from his box at the theatre on the night of his assassination.

George F. Faulks was arrested at Springfield, Ill., on the 21st inst., for marrying six wives; also for forgery and arson at Harrisburg, Pa.

The court at Minonk, Ill., has sentenced De Boer, who murdered Etta Merton, to be hanged February 17th. The murder was particularly atrocious.

A Tucson despatch of the 21st inst., says that Maj. Morrow had a fight with Victoria on the 19th. Among the killed is Lieut. French of the ninth cavalry.

George Rolfe, Wm. Lucas and J. A. McDonald were suffocated in the Bonanza shaft at Howland flat, Sierra county, Cal., on the 19th inst., by the fumes of a blast.

At Alpine, Col., on the evening of the 19th inst., a fight took place between a constable and three miners whom he was trying to arrest for an assault previously committed. One of the miners was instantly killed and the two others fatally wounded. The constable gave himself up.

Panama advices of the 10th inst. report a revolt of negroes in the department of Chincha, and some horrible butcheries. The negroes became excited over a report that they were to be put into slavery, formed a band of sixty, set fire to haciendas and murdered the proprietors and others. They were dispersed December 22d, four being killed.

AROUND HOME.

Surveys for a new railway bridge across the Piscataqua at Freeman's point were resumed this week.

The fishermen who have arrived at Newburyport this week, have sold their cargoes at $1.60 per hundred.

It is hard to answer the conundrum why people's eyes do not last as long as the people do; but it is certain that they do not, and that Prof. Brown is in the city.

The long boilers or tanks for the railway-tie-kyanizing works at Noble's Island are being put in place by the workmen employed upon the repairs on Portsmouth bridge.

D. F. Borthwick will continue to offer the extra bargains in bleached and brown cottons which have attracted so much attention for the past few weeks. See advertisement.

Rev. F. K. Chase was installed in the pastorate of the Washington street church at Dover on Thursday evening, during the session of the Rockingham Free Baptist quarterly meeting.

President Phillips and Superintendent Sanborn, of the Eastern railroad, went over the Portsmouth, Great Falls & Conway railroad on a tour of inspection on Wednesday, the 21st inst.

Four hundred and ten shares of Eastern railroad stock were sold at the brokers' board in Boston on Thursday at $29 per share, and 110 shares at $29.50 each, at the first call; at the second call 368 shares went at $29.25 each.

The tug Leyden went down to the U. S. S. Plymouth again on Thursday, to bring another load of her stores up to the navy yard, and left on board the ship little else than the equipment stores, the order for the discharge of which had not then arrived.

Mr. Hugh Hunter, one of the crew of the steamer Leyden, met with a severe accident Thursday forenoon when the tug was at the Plymouth transhipping her stores. In getting one of the Leyden's anchors off the rail his left hand got caught between the anchor and the deck, and three bones were broken and the hand badly bruised. He was rowed up to the navy yard in a dory by one of the watchmen of the Plymouth, and the hand was dressed by Surgeon Burbank of the yard. The injury is a very bad one.

Commodore Homer C. Blake, U. S. N., died in New York on the 21st inst. He was a native of New York, and entered the navy in March, 1840. During the rebellion he commanded the steamer Hatteras, in the West Gulf blockading squadron, and was her commander at the time she was sunk by the rebel cruiser Alabama; and later he was in command of the gunboat Utah, of the North Atlantic blockading squadron. In 1865, '66 and '67 he was attached to this navy yard, as navigation officer, being then a commander, and he had but recently been promoted to the grade of commodore. His death was caused by a malarial disease contracted during the war, and aggravated by a recent cruise on the Asiatic station.

Boston, as a cheese-making place, seems a little odd; but in the changes going on, the custom is to send milk to Boston from the dairies of Worcester county, whence comes milk which has a fine reputation for richness, and the milk not sold by measure is at once made into butter and cheese. This was formerly done in the country, but is now done in Boston. At the corner of Berkely and Appleton streets is a large butter and cheese factory, and a salesroom where the products are sold by the firm of Bingham & Co.; and it is wonderful to see how machinery has changed the process of producing these articles, from the manner in which the labor of our ancestors was tasked to show like results. The warehouse is in the Parker Memorial building, and Mr. Howard N. Dunyon, formerly of this city, has charge of the sale department.

ALICE OATES

And her English Opera Co. will appear at Music hall on Wednesday evening of next week, in Lecocq's favorite military comic opera in three acts, "The Little Duke." The opera has never been performed here, but it has had a great run in the large cities. The music of the opera is bright and pretty, and the libretto is full of good points and witty sayings. The company is spoken of as being made up of performers who can both sing and act, and Mrs. Oates has long been a favorite on the American stage. The leading artistes are supported by a large and well trained chorus and orchestra.

SENATOR BLAINE.

It was stated on Thursday forenoon that Senator Blaine would pass through Portsmouth upon the Bangor express train at three o'clock P. M., en route for Washington, and a few ardent republicans determined to go to the Eastern railway station and welcome the senator as he crossed the border.

Soon after the train rolled into the station Senator Blaine appeared upon the platform of the Pullman palace car, and was briefly introduced by Col. William H. Hackett, who invited the five hundred gentlemen present to indicate their appreciation of the senator's recent labors at the capital of his State in behalf of law and order. Cheers were called for, and were heartily given and repeated by the large crowd. Mr. Blaine thanked his friends in Portsmouth for this testimonial of their appreciation of the good results in Maine, which gave evidence of their interest in the affairs of their neighboring State. He spoke for a few moments, alluding to the results of establishing an honest government at Augusta as a kindness, as much to the democrats, who had resisted it, as to all others. Here an alarm was given that the Boston train was coming in on the other track, and for a moment the people fell back and the senator paused. He adroitly turned the incident to a good account, and closed his remarks with thanks to his auditors.

Ex-Gov. Goodwin mounted the platform, and called for "three cheers for the next President!" to which a hearty response was given. Several citizens shook hands with the senator, and the train started.

Mr. Blaine was accompanied by his son, a member of the law school of Harvard college. The senator looks well, and the enthusiastic reception at his first stop after leaving the State of his residence must have been gratifying to the statesman from the Kennebec, the announcement of whose arrival had caused such a concourse of citizens to assemble at a very brief notice.

Gen. Chamberlain was in a car a little in the rear of the one from which Mr. Blaine spoke, a fact which was not known to the citizens until after the train had started. Had his presence been known he would have received a merited ovation for his recent patriotic and judicious conduct when in a most delicate situation.

HORSE-RACING.

A horse-race on the Lafayette road, Thursday afternoon last, between the horse "Alley-boy," driven by John Trout and owned by Edw. S. Fay of this city, and the horse "Spot," driven by Joseph Mooney and owned by Capt. Emerson of York, Me., proved to be quite an interesting and exciting affair. It was estimated that about three hundred teams and one thousand persons were on the ground. Alley-boy has recently been purchased by Mr. Fay, and the contest was gotten up to ascertain his speed, no money being put up, except in outside bets. The race was half-mile heats, best three in five, and was won by Alley-boy in three straight heats. On the return home there was considerable sport among the smaller fry, who had caught the racing fever.

SUPREME COURT.

THURSDAY, Jan. 22d; *Clark, J.*

Case Noble vs. Shute was withdrawn from the jury—probably settled.

Odiorne vs. Rand (both of Rye) was put on trial.

Wendell of Portsmouth vs. Chapman of Greenland is next in order.

James Moses, B. F. Stackpole, and Henry T. Ridge were on Thursday drawn as jurors from ward two in this city.

A SURPRISE PARTY.

At the Faith Home, on Wednesday evening of this week, the old folks had a highly enjoyable time. Three classes of young misses from the Congregational Sabbath school, with their teachers, took the home by surprise. The large dining room table was spread with a plentiful collation provided by the visitors, each one of whom brought a basket in hand; and after supper the company gathered in the large parlor, where the young people gave a most excellent entertainment, consisting of singing, recitations, and a beautiful dialogue. The whole affair passed off in a most satisfactory manner, and was received by the old people with as much glee as though they were but in their teens. The oldest person present was aged about ninety years, and the youngest eight months.

THE CONCERT.

The entertainment given at Miss Morgan's school on Thursday evening, consisting of a piano recital by Mr. James M. Tracy, of Boston, assisted by Miss Edith Wendell, the charming soprano of this city, was a very pleasing affair. Mr. Tracy appeared before a Portsmouth audience some months ago, but his class of selections and style of execution adapt him to a select rather than a promiscuous audience. The gems of the recital were the prison scene from Il Trovatore, and Tannhauser march, by Liszt. These were very finely rendered, and developed the true merit of the pianist. Miss Wendell gave her selections in her usual happy manner, and received hearty encores and some floral gifts. One is always pleased to hear this lady's fresh, pure voice, and we never heard her sing better than on this occasion. Notwithstanding the storm a quite large and select audience attended the concert.

YORK COUNTY ITEMS.

A series of gospel temperance meetings is being conducted in Berwick, and a number of hitherto drinking men have signed the pledge.

Cyrus Libby recently began a series of meetings at the church near the old Kennebunk camp ground, and much interest is manifested.

The mayor of Biddeford on Thursday sent a message to the flat governor, Smith, welcoming the flat legislature to that city and guaranteeing it protection.

Miss Susie Littlefield of Alfred, a pupil at the Normal school at Gorham, while returning to her boarding place from school a few days since, slipped upon the ice, and falling struck on her back, injuring her spine so severely that it is thought she cannot recover.

It will be remembered that some time in last November a twelve-years-old daughter of Patrick Manahan of Biddeford had her clothing take fire, and would have been immediately burned to death but for two boys, who tore off her burning clothes. The child lingered in great suffering until this week, when death released her from further pain.

Mrs. Susan McGaugh of South Berwick proposes to sue the Eastern railroad for the loss of a very valuable cow which was killed by a train couple of weeks ago at the railroad crossing near the Salmon Falls bridge. Although there is a large traffic at this point, there is no flagman to warn persons of coming trains. Mrs. McGaugh valued the cow at $60.

—Mether to her daughter just seven years old—"What makes you look so sad, Carrie?" Carrie, looking at her baby brother, three weeks old—"I was just thinking that in about ten years from now, when I shall be entering company, and having beaux, that brother of mine will be just old enough to bother the life out of me."—*Puck.*

—The whirligig of time does sometimes work out its revenges. Ex-Captain W. A. Bancroft, of the Harvard eight of 1877, who affixed to his boathouse a sign bearing the words "Reporters and loafers not wanted here," is now very content to contribute to the columns of a contemporary as a "space" man, and receives much less as a salary than the men upon whom he once endeavored to cast an undeserved reproach.

—A woman residing at Cow island, Louisiana, desiring to "set" a hen, went into a field where her chickens had been laying, took seventeen eggs and placed them under the fowl. When the chickens were hatched, there came forth from four of the eggs an equal number of young alligators. It is supposed that alligators from an adjoining marsh had deposited their eggs in the field, and that the woman was not sufficiently versed to distinguish them from the product of the domestic fowl. To add to the interest of the story, it is said that the young alligators follow the old hen about as perseveringly, if not as nimbly, as the *bona fide* chickens.

In a disordered mouth are sown;
When bad the teeth or foul the breath,
Both soul and body lose their tone,
Till SOZODONT'S brought into play,
And sweeps those dire defects away.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the side, back or bowels, sore throat, rheumatism, toothache and all aches.

The great reliever of pain, "Brown's Household Panacea," should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will break up a cold. 25 cents a bottle.

Much Sickness,

Undoubtedly with children attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box. t,th&f

See a Woman!

In another column, picking grapes for SPEER'S WINE. It is an admirable article, used in hospitals and by the first-class families in Paris, London and New York, in preference to Rhenish, Sherry or California Wines; excellent for Invalids.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* D&W1Jan21

—The "light which makes darkness visible" was discovered by a railroad man, and has been used in railroad cars ever since.
